PART II.

Advertisements.

---

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

**NOTICE** is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Patna, will be put up to sale at the Collector's Office at Bankipore at 12 o'clock on Thursday, the 16th July 1874, corresponding with 1st Sarabun B.S.

The purchasers of these plots will be subject to the following conditions:—

1st.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

2nd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3rd.—The plots will be sold revenue-free to the highest bidders.

4th.—The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

Consecutive Lot Number.	Name of Zillah.	Pergunnah and Mouzah.	Number of mile on which the land is situate.	Situated on which side of the Railway.	APPROXIMATE AREA IN BEEGHAS AND ACRES.		LAND EXCLUDED FROM SALE FROM EACH LOT.		Commencement and termination of lot.	Boundaries of lot.

BHAGULPORE, RAILWAY DEPUTY COLLECTOR'S OFFICE, the 29th May 1874.

W. HEYSHAM, Offg. Railway Deputy Collector.

## ADVERTISEMENT OF SALE.

NOTICE is hereby given that the proprietary right of Government to the undermentioned estate, situated in the district of Burdwan, from 1873-74 to 1900, will be put up to sale at the sub-divisional office of Culna on Friday, the 19th June 1874, corresponding with the 6th Assar 1281, B. S., and that the proprietary right to be sold will not only entitle the purchaser to re-settlement at the expiry of the present settlement, but to the receipt of Malikana, should he decline the assessments which may then be fixed.

The purchasers of this estate will be subject to the following conditions:—

1st.—The estate will be sold, subject to a light jumma of Rs. 4 per annum, to the highest bidder.

2nd.—The sale will be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force,—and purchasers will be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office-day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

5th.—The purchaser will be bound to perform putwaree's duties.

DY. COLLN.'S OFFICE, CULNA, the 15th April 1874.

RAM COOMAR BOSH, Dy. Collector.

## LAND SALE NOTICES.

NOTICE is hereby given, under Section 6, Act XI of 1859, that the undermentioned estates in the district of Jessore will be put up to public and unreserved sale at the Collector's office of that district on the 10th day of June 1874, for arrears of revenue and other demands which by the Regulations and Acts in force are directed to be realized in the same manner as arrears of revenue due on the 28th day of March 1874.

*Class I.—Permanently-settled Estates.*

No. 4585.—Chuck Kathalia in Soonderbuns, recorded proprietor Soodha Sindhoo Bundopadhyay, sudder jumma Rs. 669-14-3, will be sold for arrears of Government revenue, Rs. 599-2-10.

No. 5041.—Dehee Kurora, Pergunnah Rajpore; recorded proprietors, Anundlal Chowdhry and others; sudder jumma of the entire estate, Rs. 934-7-6. The estate will be sold for arrears of Government revenue amounting to Rs. 5-9-6½, after deducting the 2nd, 3rd, 4th, 5th, and 6th shares of the proprietors, Rannarain Chowdhury and others, Mathoora Nath Acharjee and others, Mathoora Nath Acharjee and Bimoroop Gossain; sudder jumma Rs. 194-10-10, Rs. 166-2-0, Rs. 57-9-10½, Rs. 9-7-7 and Rs. 167-14-8, respectively.

*Class II.—Temporarily-settled Estate.*

No. 58.—Abadkari right of Pergunnah Chandkhally in Soonderbuns, recorded proprietor Wooma Nath Chowdhury, farming lease to 1294 B.S., sudder jumma Rs. 1,104-15-0, will be sold for arrears of Government revenue, Rs. 914-15-0.

JESSORE COLLECTORATE, the 1st May 1874.

A. SMITH, Collector.

NOTICE is hereby given, under Section 6, Act XI of 1859, that the undermentioned Estates in the district of Tirhoot will be put up to public and unreserved sale at the Collector's Office of that district on the 15th day of June 1874, corresponding with 15th Assarh 1281, Fulsce, for arrears of revenue due on the 28th March 1874:—

## [First Publication.]

## Notice

Is hereby given that the land specified in the schedule herennto annexed, and of which the plan is open to inspection at the Deputy Commissioner office at Debrooghur, will be sold by public auction at the said Deputy Commissioner's office at 12 o'clock on the 2nd September 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

For the conditions of sale see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner.

## SCHEDULE.

A lot of waste land consisting of about 741 acres, situated in mouzah Kodomoni, in the district of Luekhimpore, and bounded as follows:—

*North.*—By a straight line through the forest from a pillar, 1, bearing  $242^{\circ}$ , past an intermediate pillar, 2, to pillar 3, measuring 2,252 yards.

*West.*—By a straight line from pillar 3, through tree forest, bearing  $176^{\circ}$  and measuring 1,040 yards, to a pillar, 4; and thence by a straight line through tree forest, bearing  $151^{\circ}$  and measuring 660 yards, to a pillar, 5, on the Tetelia bheel.

*South.*—From pillar 5, along the northerly edge of the Tetelia bheel and the course of the Lohitkota river, to a pillar, 6, measuring, as the crow flies, 1,650 yards.

*East.*—By a straight line from pillar 6, on the Lohitkota river, through tree forest, bearing  $20^{\circ}$  and measuring 825 yards, to a pillar, 7; and thence by a straight line through tree forest, bearing  $355^{\circ}$  and measuring 1,045 yards, to pillar 1.

The pillars are marked from 1 to 7 on the map filed in the Deputy Commissioner's office.

DEBROOGHUR, ASSAM, the 17th April 1874.

W. S. CLARKE, *Dy. Commissioner.*

## Notice

Is hereby given that the land specified in the Schedule hereto annexed, and of which the plan is open to inspection at the office of the Deputy Commissioner of Cachar, will be sold by public auction at the office of the said Deputy Commissioner at 11 o'clock on the 2nd September 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause. For the conditions of sale, see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner of Cachar.

## SCHEDULE.

A lot of waste land, consisting of 1,087 acres 1 rood 20 perches, situated in Pergunnah Berkhola, Mouzah Abong, in the district of Cachar, and bounded as follows:—

*East.*—The Abong river from pillar No. 1, at confluence of the Abong and Cacharee Cherra with the Dooles river, to pillar No. 2, on the banks of the Abong and at the foot of the Casee Teelah to the north; thence, to pillar No. 3, on the top of the same teelah, and No. 4 pillar at the northern foot.

*North.*—From pillar No. 4, as above, to pillar No. 5 on the banks of the Mewah Cherra.

*West.*—From pillar No. 5 along ridges Nos. 6, 7, 8, 9, and 10, at the edge of the jungle on high teelahs to the west, and along No. 11 on the banks of the Cacharee Cherra.

*South.*—The Cacharee Cherra, between pillars No. 11 and No. 1.

The pillars are numbered from 1 to 11 on the map filed in the office of the Deputy Commissioner of Cachar.

SILCHAR, the 27th April 1874.

O. G. R. McWILLIAM, *Offg. Deputy Commissioner.*

## Notice

Is hereby given that the lease for three years of the undermentioned lime-quarry, situate in the Khasi Hills, will be put up to auction at the Deputy Commissioner's Office, Shillong, on Wednesday, the 1st July 1874, at the next price mentioned opposite the mehal.

The rent payable half-yearly in advance.

No.	Name of the Quarry.	Where situate.	Upset price per annum.
1	Borsyрмаi	In Dura Nongtyrmen, Khasi Hills. Bounded on the north by palm-leaf plantations, on the south by Laka; east, Lum Dibong, west, by Raitrah.	Rs. As. P. 1,000 0 0

H. S. BIVAR,

*Commr., Khasi and Jynteah Hills.*

SHILLONG, DY. COMM'R.'S OFFICE, the 30th May.

## Commissioners for making Improvements in the Port of Calcutta.

No.  $\frac{A}{28}$ 

FROM

THE AUDITORS OF THE ACCOUNTS OF THE JUSTICES  
OF THE PEACE FOR THE TOWN OF CALCUTTA,

TO

THE JUSTICES OF THE PEACE FOR THE TOWN OF CALCUTTA.

GENTLEMEN,

We have examined your Accounts for the year 1873, and have found them to be correct, with the following exceptions:

	Rs.	
A.—Fees for removal of nightsoil from private houses and from Tollah meliter's depôts ...	35,498	stated against them, and we are unable to certify to the receipts noted in the margin, in consequence of the following circumstances. No account or particulars of any kind are furnished in reference to the item marked A, which we understand represents net collections, but we have no information as to the character or amount of the charges deducted. According to the debenture registers, the amount of item B should have been Rs. 536, and the difference apparently has been made up in the present year, 1874.
B.—Fees for renewal of debenture bonds ...	356	
C.—Earnings of Municipal tramway ...	8,048	
D.—Earnings of Printing Department ...	1,750	
E.—House-drainage fees ...	2,397	

There are no ticket account and works register, by which may be tested respectively the correctness of the items marked C and D. The item E cannot be agreed with its relative charges.

We have not completed the audit of your Store Accounts, partly because they were not furnished to us in time, and partly in consequence of the examination requiring more time than was expected, and we will not now report upon them, except in regard to a few questions which it is desirable to consider at once. The Store Accounts are more elaborate than they need be, as the issues are in small quantities according to daily requirements, and are valued with reference to their cost price in each case. The issues, moreover, in some instances, are not direct to the indenting departments, but through other depôts,—a system which only entails double accounting. The accounts may be simplified by registering separately, according to quantities, the supplies made to each department, the values being computed on the sum total of the month. These separate registers will facilitate the preparation of the monthly transfer bills, while the figures entered in them can readily be combined for ledger postings. Lastly, there should be agreement between the Store Accounts and the corresponding headings in your principal Ledger, and for this purpose the arrangements recommended in our last Annual Report might be carried out, and the balances verified by an annual stocktaking on 31st December. It is not necessary to examine every article in stock. It will be sufficient to test the accuracy of 25 per cent., provided the articles are selected at hazard, and without communication with the officers who have to deal with them. The transfer bill should exhibit only the quantity and value of stores supplied, such extra charges as coolie-hire, &c., being drawn on separate cash vouchers.

4. It is also our duty to bring the following matters to your notice. The Assessment Book does not afford a sufficient check upon the collection of city rates, as we have already brought to your notice on previous occasions. The city rates become due in January, April, July, and October of each year, but the largest collections are not generally made in those months. There is no list of outstanding bills on account of these rates with which the corresponding Ledger balances may be compared, and there appears to be no check on the abatements at 2 per cent. granted for prompt payment of the water-rate. The statistics of income and expenditure, which we recommended should be kept up, and which were commenced with your sanction, are not continued. The adjustments on account of the Sinking Fund relating to your debenture debt could not be made in the Ledger of 1873, in consequence of the Trustees not having furnished in time the returns required from them, but these returns have since been received, and show that the necessary investments were duly made.

We have the honor to be,

GENTLEMEN,

Your Most Obedient Servants,

EDWARD F. HARRISON,

Comptroller-General.

EDWIN W. KELLNER,

Assistant Comptroller-General.

COMPTROLLER-GENERAL'S OFFICE, the 12th May 1874.

Published under Section 34 of Act VI (B.C.) of 1863.

(227—1)

ROBERT TURNBULL,  
Secretary to the Justices.

IN the matter of JOHN BEATTIE, an Insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said Insolvent, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Tuesday, the 16th day of June instant, at the hour of ten o'clock in the forenoon.

*Any Creditor of the said Insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid.*

Berners & Co., Attorneys.

IN the matter of JOHN BEATTIE, formerly carrying on business at No. 7, Great Winchester Street Building in the city of London, in copartnership with James Beattie, as Merchants and Agents under the style of Beattie & Co., then of No. 1, Little Russell Street in the town of Calcutta, carrying on business in partnership with Frederick Woodhouse as a Bill and Stock Broker, and now of No. 29, Dalhousie Square in the town of Calcutta, carrying on business alone as a Bill and Stock Broker, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Monday, the 8th day of June instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

Berners & Co., Attorneys.

IN the matter of MRS. AMELIA DOUGLAS, an Insolvent.

On Friday, the 5th day of June instant, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 7th day of July next, and that the said Insolvent do then attend to be examined before the said Court.

Insolvent in person.

IN the matter of MRS. AMELIA DOUGLAS, a widow, of No. 67, Lower Circular Road, in the Town of Calcutta, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Friday, the 5th day of June instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

Insolvent in person.

IN the matter of GEORGE PETERS, of No. 5, China Bazar Lane, in the Town of Calcutta, carrying on business under the name, style, and firm of George Peters and Company, merchant and agent, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Monday, the 8th day of June instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

A. St. John Carruthers, *Attorney*.

IN the matter of GEORGE PETERS, an Insolvent.

On Monday, the 8th day of June instant, it was ordered that the matters of the petition of the said Insolvent be heard on Tuesday, the 4th day of August next, and that the said Insolvent do then attend to be examined before the said Court.

A. St. John Carruthers, *Attorney*.

IN the matter of CHARLES FORNARO, an Insolvent.

On Tuesday, the 2nd day of June instant, it was ordered that the Assignee do pay and divide the sum of Rs. 6,993-3-6 to and amongst all the creditors upon the estate of the said Insolvent as a dividend at the rate of 11 annas per cent. upon such of the debts admitted in the schedule of the said Insolvent, and claims proved as have been duly substantiated in proportion to their several debts and upon the other debts admitted in the schedule, when and so soon as such debts or any of them shall be duly substantiated upon affidavit filed in this Court from time to time for directions respecting any debts or any other matter or thing relating thereto.

A. B. Miller, *Official Assignee*.

IN the matter of EDWARD DANIEL LATAPIE and ADOLPHE AUBERT, Insolvents.

On Tuesday, the 2nd day of June instant, it was ordered that the Assignee do pay and divide the sum of Rs. 1,844-2-10 to and amongst all the creditors upon the estate of the said Insolvents as a dividend at the rate of four annas per cent. upon such of the debts admitted in the schedule of the said Insolvents, and claims proved, as have been duly substantiated in proportion to their several debts and upon the other debts admitted in the schedule, when and so soon as such debts or any of them shall be duly substantiated upon affidavit filed in this Court from time to time for directions respecting any debts or any other matter or thing relating thereto.

A. B. Miller, *Official Assignee*.

IN the matter of GEORGE ANTONY LEWIS, an Insolvent.

On Tuesday, the 2nd day of June instant, it was ordered that the hearing of this matter do stand adjourned until Tuesday, the 7th day of July next, and that the order made in this matter for the *ad interim* protection of the said Insolvent from arrest be enlarged to the said 7th day of July next, and that the said Insolvent do then attend to be examined before the said Court.

Kallynath Mitter, *Attorney*.

IN the matter of THEODORE ZORAH MANUK, an Insolvent.

On Tuesday, the 2nd day of June instant, it was ordered that Tuesday, the 4th day of August next, be appointed for the further hearing of this matter, and that, unless cause be shown to the contrary, on that day the said Insolvent be discharged personally as well as to his after-acquired property from all liabilities for debts, claims, and demands of and against the said Insolvent at the time of the filing of his petition for relief.

J. O. Moser, *Attorney*.

IN the matter of WILLIAM SAVIEL, an Insolvent.

On Tuesday, the 2nd day of June instant, by an order of this Court the said Insolvent was adjudged entitled to his personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in his schedule as creditors or claiming to be creditors, respectively.

Insolvent in person.

Chief Clerk's Office, the 9th June 1874.

*In the Court for the Relief of Insolvent Debtors at Calcutta.*

In the matter of Walter Newton and Alfred Preston, lately carrying on business in copartnership at Belatee Bungalow, Calcutta, as Wine Merchants and Dealers in Oilman's and other Stores and Provisions, under the firm of Payne and Company, Insolvents.

NOTICE is hereby given that by an order of this Court made in the above matter on and bearing date the second day of June, one thousand eight hundred and seventy-four, it was ordered that Tuesday, the first day of December, one thousand eight hundred and seventy-four, should be fixed for a meeting of creditors for proof of debts of the Insolvents' Bombay firm of "Payne & Co.," and that the creditors of the said firm of "Payne & Co.," Bombay, who might be resident in British India should on or before the thirty-first day of August, one thousand eight hundred and seventy-four, and the creditors of the same firm who might be resident out of British India should on or before the thirty-first day of October, one thousand eight hundred and seventy-four, file in the Office of the Chief Clerk of this Court a statement of the amount of their respective claims against the estate of the said Insolvents in their said firm of Payne and Company, Bombay, duly verified by affidavit, and that thereupon the said Chief Clerk should form a Schedule of the said Bombay firm of Payne and Company from the claims so to be filed.

CALCUTTA, the 8th June 1874.

## ERRATUM.

In page 1155 of the Supplement to the *Calcutta Gazette*, for the 3rd June 1874, at line 6 of paragraph 2 of the Lieutenant-Governor's Minute dated 16th May, on the subject of reserve water-carriage, for the words "20,000 tons" read "50,000 tons."

J. F. K. HEWITT,

*Offg. Junior Secy. to the Govt. of Bengal.*

**CHARITABLE OPERATIONS CARRIED ON BY THE ZEMINDAR OF  
HETAMPORE, IN BEERBHOOM.**

No. 83—S. R., dated Burdwan, the 2nd June 1874.

From—C. T. BUCKLAND, Esq., Commissioner of Burdwan,

To—The Offg. Secretary to the Government of Bengal, Statistical Department.

I HAVE the honor to submit, for the information of Government, copy of a letter, No. 185 of the 28th May, enclosing a statement showing the number of persons relieved during the week ending 23rd idem by the charitable works undertaken by Baboo Ram Runjun Chuckerbutty, zemindar of Hetampore, and to remark that the benevolence of the Baboo deserves the approval of Government.

No. 185, dated Soory, the 28th May 1874.

From—R. D. HIME, Esq., Officiating Collector of Beerbhoom,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit copy of the last weekly statement furnished by Mr. Reed, Manager of the estate of Baboo Ram Runjun Chuckerbutty, zemindar of Hetampore, from which you may judge of the magnitude of the charitable operations carried on by that proprietor:—

*A.—Number of persons employed on the Hetampore Relief Works.*

## Rainfall, Weather and State and Prospects of the Crops.

Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 6th June 1874.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
<b>BURDWAN DIVISION.</b>	1 Burdwan, 8th* June 1874	1.4	Rain has fallen in all the sub-divisions except Jehanabad, but still more is wanted. Sowing of rous or early paddy going on extensively. Prices slightly higher in Burdwan and Raneeungee. Fever decreasing; cholera prevalent in the west of the district.
	2 Bankoura, 6th " "	2.01	Generally showery and cool. The rains have apparently set in. Agricultural operations progressing favorably. Rous or early paddy seedlings have sprouted in many places. Cholera and small-pox still prevalent.
	3 Beerbhoom, 6th " "	2.10	Rainy in the former and clear in the latter part of the week. No change since last report; planting out of sugarcane commenced. Export by rail, 3,866 maunds, chiefly to Bhaghpore Division. Prices slightly risen.
	4 Midnapure, 6th " "	0.55	There have been heavy showers in many places in the district, but more rain at the Sudder Station and to the west of it needed. As reports come in, it appears that the showers are so partial, that while some places have had an abundant rainfall, others, a few miles off, have had nothing to speak of. At the present moment prospects vary precisely as the rain falls. Where the soil is well saturated they are no good as can be desired; where the ground is hard, the people are in great anxiety. Cholera is very prevalent, and will be so till the first heavy fall of rain.
	5 Hooghly, 6th " "	.....	Cloudy and sunshine alternately; no rain; high wind ceased. Heavy dark clouds come up almost every evening from south-east; slight shower at noon of the 6th June; 1.28 inches of rain at Serampore. There have been showers at different places, but more rain is urgently wanted. Early rice and the seedlings of the late rice are being planted here and there, but it is now getting rather late to sow the early rice.
	Howrah, 6th " "	.99	During the week there was rain more or less for two days throughout the district. Weather clear and at times cloudy. Wind generally from the south. The late rain has done much good throughout the district. The amun or late rice seedlings have been sown, and so have the rous or early rice and jute. Everywhere the ryots are ploughing land for transplanting the late rice. The young sugarcane plants are reviving.
<i>Central Districts.</i>			
<b>PRESDENY DIVISION.</b>	6 24-Pergannahs, 8th† June 1874.	1.43	Hot, and occasionally rainy. Rain has fallen throughout the district. The early rice plants are coming out fairly. Amun or late rice sowings have commenced in some places. More rain wanted in parts of Satkhira sub-division. The harvest of late rice will soon commence. Jute plants doing tolerably well. A few cases of cholera reported from Mathoorapore, Baduria, and Nylmatty. Fever still prevailing at Barri-pore.
	7 Nuddea, 6th June 1874	1.15	Sensible. The prospects of the rice, both early and late, and of indigo, are at present excellent. The rain has been sufficient, but not excessive, and comes after intervals of fine weather. The weather could not be more favorable, yet increase of distress must be looked for till the early rice is reaped. Distress is reported in two villages in Gangai thana. Prices have a slight tendency to rise.
	8 Jessore, 6th " "	2.26	Cloudy, with rain in moderate quantity. The prospects are good. Prices have, however, risen largely during the week, owing to the demand for exportation to other districts.
<b>RAJSHAHY DIVISION.</b>	9 Moorshedabad, 6th " "	0.21	There was some more rain during the week, but not general. In the west, heavy rain fell on the 4th June. The temperature is cooler; heavy showers fell on the afternoon of the 6th. The rice crops are progressing very favorably. In some parts rous or early rice is rather advanced for this time of the year. The amun or late rice nurseries are being prepared, and much of the crop has been sown broadcast. Other crops, such as mulberry and sugarcane, are in good condition. Prices have been almost stationary since last report. Small-pox and cholera are on the decrease.
	10 Dinagepore, 6th " "	1.6	Very general and mostly heavy rain. The bhadoi or early crop is all saved, and promises well.
	11 Maldah, 6th " "	0.27	Cloudy, westerly winds; rain seems to have fallen all over the district. The prospects of the crops throughout the district are very good, except in Kalachuck, where, owing to the scarcity of rainfall, the bhadoi or early and indigo crops do not promise well. The whole of the boro rice has been harvested, and the outturn is a good one.

\* Telegram of the 8th June, received on the same day, shows rainfall during the seven days immediately preceding.

† Report of the 8th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—(Contd.)</b>			
<i>Central Districts.—(Contd.)</i>			
RAJSHAHY DIV.—(Contd.)	12 Rajshahye, 6th June 1874	0.7	There has been very slight rain during the week in the Thumree quarter only. There have been considerable sowings of aus or early rice since the late rains, and the sowings are now almost completed. The condition of the growing paddy is excellent, and there is no immediate need more of rain. A very good teel (oil-seed) crop (a little less than a full crop) is ripe and being reaped in some places; other crops, such as indigo, mulberry, and sugarcane are doing well. Prices have not fallen in consequence of the rain of last week, as it was expected that they would do; on the contrary, rice is on all sides dearer than it was, the cause of this being probably a considerable falling off in importation. Small-pox and cholera have almost ceased.
	13 Rungpore, 6th " "	5.84	Much rain during the nights, and days but. Crops all in excellent condition. To the south much improvement in prospects of early rice. Much rice is now cut and brought to market; the late rice is sown in many places, and transplanting begun here and there. Jute and sugarcane flourishing. Prices lower: Rs. 4 to 5-8 per munda.
	14 Bogra, 6th " "	0.5	Seasonable. The prospects of the crops are very good. There was propitious rain, which has, it is hoped, made the aus or early rice crop secure. Ploughing for the winter crops has begun.
	15 Pabna, 6th " "	0.32	Slight rain on the 4th June; no change in weather since last report. Most of the aus or early, and amun or late paddy, has been sown, and looks promising; teel (oil-seed) and jalye paddy are being harvested.
	16 Darjeeling, 6th " "	1.06	Moderate showers of rain have continued to fall during the week both on the hills and on the plains, and have done much good. The bladed or early paddy is making very good progress. Kowni (millet) is being reaped. Heoti or winter paddy has been sown. Rice was little cheaper at the bāts during the week owing to Government rice having reached the district.
COOCH BEHAR DIV.	17 Jalpigoree, 6th " "	5.49	There have been heavy showers of rain during the week, with bright sunny days intervening—the very best weather that could be for the rice crop at this season. Bhudo or early crop everywhere promising remarkably well. The jameera paddy, a very small crop, is in ear, and will be cut in about 20 days. There is very little of this crop grown in the district. Hyamuter or late rice sowings going on, and the promise is good. Jute crop progressing very well; sugarcane the same. Kowni (millet) being cut; crop muddling only. In fact, nothing could be wished for better than the present promise of all crops.
	Cooch Behar, 6th " "	6.59	Heavy rain on several days. Reaping of the kowni (millet) is going on. The prospects of the aus or early rice continue to be excellent. Amun or late rice is being planted out in the low grounds.
<i>Eastern Districts.</i>			
DACCA DIVISION.	18 Dacca, 8th* June 1874	0.08	Weather very hot; few showers of rain. Prospects of crops most favorable. The rivers have slightly fallen.
	19 Furreedpore, 6th June 1874.	Nil	First five days of the week bright and sunny weather, all that could be desired for the crops; since the 5th June it has been cloudy. <i>tit.</i> —Every sign of rain, which will probably fall before close of the day. Sowings almost everywhere completed, and the present condition and prospects of the rice crops are most favorable. Prices of coarse rice have fallen at Furreedpore and at Guahunda, whence the sub-divisional officer writes that a large stock has accumulated. At Madariyore and Gopalgunge prices are stationary; at Bhanga, however, owing to decreased importation and villagers not selling their stocks, there has been a rise.
	20 Backergunge, 30th May 1874.	3.69	Cool, and occasionally rainy. Favorable. The rain has come in time to save the aus or early rice crop.
	21 Mymensingh, 6th June 1874.	0.40	Weather generally hot and dry. Rain on two days of the week. The river has fallen during the last few days. There was heavy rain in the sudder station on the 6th June, besides what is shown in this return. Accounts from all the sub-divisions state that more rain is wanted. There has been partial damage to the teel (oil seed) and early crops on the low lands, from the sudden rise of the river. The aus or early rice is, however, generally in a very satisfactory state, and the outturn promises to be an excellent one. The crop in the east and centre of the district is unusually forward. The health of the district is generally good.
	22 Sylhet, 30th May 1874	4.10	Rather sultry at the close of the week. The rivers are falling a little owing to the break of dry weather. Prospects of crops much the same as last week. The dry weather has enabled the ryots to plant out more extensively. Crops promise well. The price of rice has fallen a little. Exportations slack: about 3,000 mounds of rice and 10 to 12,000 mounds of paddy. A few cases of cholera and small-pox reported by the Police, but the district is on the whole very healthy. The cattle disease at Gwineghat in Jaintia has carried off a good many heads of cattle.

\* Telegram of the 8th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
BENGAL.—(Contd.)			
Eastern Districts.—(Contd.)			
CHITTAGONG DIVS.	23 Chittagong, 30th May 1874.	9.42	Hot and fine in the day; heavy rain generally at night, up to the 28th May. The fall seems to have been general over the sudder sub-division. From Cox's Bazar only 1.62 inches reported up to the 27th. The rain has been most beneficial to the young paddy, which is coming on well. Field work going on actively. From the last reports cholera seems to be abating.
	24 Nonkholly, 30th May 1874.	4.04	Early part of the week cloudy and rainy, latter part very hot and close. Sowing of sons or early rice completed, and that of amun or late rice commenced. The rain has done much good to the young plants.
	25 Tipperah, 6th June 1874.	.90	Hot still and muggy, with a few slight showers of rain; sun very powerful. The sowings of the sons or early rice have been quite completed, those of the amun or late rice nearly so. Up to the present, the prospects of these two great rice crops are as good as they can be.
	26 Chittagong Hill Tracts, 30th May 1874.	6.62	Occasional falls of rain throughout the whole week, with constant heavy squalls. The hillmen are busily engaged in sowing their jouns. The seeds sown last week have germinated.
	Hill Tipperah, 30th May 1874.	5.39	There has been abundance of rain over the district during the week, which has done an immensity of good. The young paddy is coming up and everywhere looks well. A break in the rains may now be expected, as sufficient has fallen for the crops, provided the regular rains come on in about a fortnight.
BEHAR.			
PATNA DIVISION.	27 Patna, 8th June 1874.	.50	Weather reasonable, with strong east winds. There has been much more rain generally throughout the district than there has been at head-quarters. Lands being prepared everywhere for the <i>barhai</i> sowings, prices at head-quarters fallen in consequence. Health of the district good.
	28 Gya, 6th " "	6.77	Stormy. A little rain throughout the district. No crops on ground except sugarcane and a little murwa and cheena (millet). Ploughing commenced generally. Health of the district good.
	29 Shahabad, 6th " "	1.05	Rain fell on the 2nd June. Weather unsettled and unsteady; east wind prevalent. Sufficient rain has fallen in the district to allow land to be prepared for the bhadoi or early crops. Cheena (millet) still being gathered. Small-pox still prevalent.
	30 Tirhoot, 6th " "	1.37	Weather close and sultry; east wind prevailing, and cloudy in the night. In Mudhoolumnee sub-division 1.73" rain fell during the week. Rice and murwa (millet) have been sown in many places; the other lands are being got ready, but a great deal of hard rice land is as yet unploughed. Some of the crops now sown will be ripe by the end of August if all goes well. No report has been received from Hajepore, but the reports from Sectanmurhee are favorable; the rain has enabled the people to sow Indian-corn largely; also about a quarter of the paddy lands are sown. Rice seedlings are placed nearly ready for transplanting. In the sudder sub-division rainfall on the 3rd was .37 and on 4th 1.12", and in many places the ryots have commenced sowing mukai (Indian-corn) and murwa (millet). In Tezpur sub-division there was rain on Monday, Tuesday, and Wednesday, but it varied very much locally; in the north it was sufficient for the sowing of mukai (Indian-corn); everywhere it has facilitated the preparation of land. In Darbhanga, the rain has materially improved the paddy that has been sown; it is feared that in some places, if general rain comes on, the lower land will be submerged, and no paddy sown; this refers more particularly to Singha and part of Beherah.
	31 Sonna, 6th " "	.72	Hot, with occasional clouds; east wind prevailing. The rain was more or less general, though partial, throughout the district, and has been of very great benefit to the crops where the fall was sufficiently heavy. The ryots are engaged in preparing their lands for the next sowings. Bhadoi or early and aghani or late rice are now being sown. Cheena (millet) in various stages of growth, and is a fair crop where irrigated. Mango crop in places ripening. More rain is anxiously looked for. Prices have slightly fallen.
BHAGALPORE DIVS.	32 Champaran, 6th " "	.69	Reasonable. No material change since last week. Agricultural operations going on well. Prospects getting better.
	33 Monghyr, 6th " "	0.58	Rain all over the district except Bakhtiarpore; local, and on different dates. Strong easterly wind. Storm on Monday. Heavy rain on Friday night. Very little crops on the ground. Ploughing commenced in earnest since the first rain. Every probability of a favorable sowing season.
	34 Bhagalpore, 8th June 1874.	1.05	Rain has fallen in the sudder sub-division; at Banka sub-division .11; at Soopool 3.29. Other returns not received. Prospects of crops improved. General health good. Cholera ceased at Katooria.

No.	District and date of return.	Rainfall at Sadler Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BEHAR.—(Contd.)</b>			
BHAGULPORE DIV.	35 Purneah, 6th June 1874	4.04	The rains appear to have set in. The sowing of the kharif or early crop has been finished; that of anghra or late rice in progress. Moong (pulse) and kowai (millet) have been gathered; yield good. Makai (Indian-corn) has been largely sown. Jute and sugarcane promise well.
	36 Santbal Pergunnah, 6th June 1874.	.48	Wind variable; clouds gathering and dispersing. Very good shower on the 6th June. Air unusually clear. Showers constantly seen somewhere on the hills. Ploughing and sowing going on. A very little rain reported from Rajmahal. Ploughing going on there. Nothing to report about any crop.
<b>ORISSA.</b>			
ORISSA DIVISION.	37 Cuttack, 8th* June 1874	.....	Frequent and copious rain. Weather cloudy. Sowing going on. Prices of food-grains stationary. Public health generally good.
	38 Pooree, 30th May 1874	.35	Hot, and occasionally cloudy, with a little rain on 24th, 25th, and 28th May. The harvest of the dalm rice has been completed, with a good outturn. Cotton is being gathered, with a fair outturn. Mangoes are ripe, but the crop is poor. Agricultural operations are being slowly resumed where rain has fallen and sowings of paddy commenced on low lands. More rain is required and expected. Sugarcane is doing well. Purchases of rice for export continue on a moderate scale, and prices are almost stationary. Public health good.
	39 Balasore, 6th June 1874	Nil	Cloudy and threatening, but without any rain beyond a mere sprinkling. Prospects of crops not so favorable as last week, since when there has been no rain worth mention; moreover, the northern and south-eastern portions of the district got scarcely any of the rain which benefited the centre of the district last week. Tillage and sowing are thrown back accordingly, and rain is anxiously awaited. Cholera has broken out in several places with some severity. It is hoped that it will cease with the first good fall of rain.
<b>CHOTA NAGPORE.</b>			
	<i>South-West Frontier Agency.</i>		
40	Huzareebagh, 6th June 1874.	2.71	In the course of the last six days there has been abundant rain. Bright and clear on the 6th June. Ploughing and sowing are going on merrily. Ryots and others are beginning to ask for advances. The popular iden is that the rain has come at the time when it is most valuable.
41	Lohardugga, 6th June 1874.	1.96	Weather stormy, cool, and pleasant; the rain appears to have been general. The cultivating season has opened most favorably, and the prospects at present are all that could be desired. The gora paddy and goodli have been sown, and agricultural operations are being actively carried on. Jungle produce is very abundant this year, particularly the "serai," or fruit of the sal tree, which is largely consumed, together with mohwa, by the poorer classes. In Palamou sub-division good rain has fallen, and the goodli and sawan crops are being sown; and a large number of the laborers have left the relief works for the fields. Small-pox is prevalent, but otherwise the general health is good. Prices have a tendency to fall.
42	Singbhoom, 6th June 1874.	0.47	Cloudy, with occasional light showers during the week. All going on well. Sowings and ploughing going on. Small-pox reported from Seraikilla.
43	Manbhoom, 6th June 1874.	1.46	Showery, cool, and seasonable. The timely showers of rain which have fallen during the week have enabled the cultivators to plough up their lands and sow the early rice, millet, grass seeds, and Indian corn. They have also made the grass grow for the cattle, and partly refilled the tanks and reservoirs. Cholera has also decreased, and the general prospects of the country very much improved.

\* Telegram of the 8th. June, received on the same day, shows rainfall during the six days immediately preceding.

Published for general information.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days

... 18.0

The maximum temperature during the past seven days

... 97.0

The maximum temperature during the corresponding period of the past year

... 103.0

RIVERS THOMPSON,  
*Secy. to the Govt. of Bengal.*

#### [First Publication.]

##### NOTIFICATION.

*The 16th June 1874.*—Under Section 2 of the District Road Cess Act, 1871, the Lieutenant-Governor is pleased to direct that the cesses leviable under the said Act shall take effect in the districts noted in the margin from the 1st October 1874.

Tipperah.  
Mymensingh.

Under Section 70 of the aforesaid Act, the Lieutenant-Governor is pleased to determine that the month in which the District Committees shall meet to prepare estimates of income and expenditure for the cess year next ensuing, as in the said Section provided, shall be August in the said districts.

H. L. DAMPIER,  
*Secy. to the Govt. of Bengal.*

#### [Third Publication.]

The Lieutenant-Governor is pleased to order the publication of the following notification for general information:—

H. L. DAMPIER,  
*Secy. to the Govt. of Bengal.*

*The 29th April 1874.*—It is hereby notified for general information that three new buoys (iron) have been laid to mark the entrance of the Burabulung or Balasore river, viz. the “outer bar buoy” in 6 feet at low-water, painted black; the “inner bar buoy” in 3 feet at low-water, painted red; and the “Elfin flat buoy” in 3 feet at low-water, painted black.

A vessel bound for Balasore should first make the Balasore buoy shown on all charts of the head of the Bay of Bengal, then steer north-west for the “outer bar buoy,” pass close

to south of it, and steer for the red or inner buoy; when this is reached, she should haul up north and pass close to the "Elfin flat buoy," after passing which she can run right into the river mouth.

There is only one foot at low-water springs on this bar, with a rise of tide of 13 feet; owing to the heavy sea which runs here at times, vessels should only cross the bar at high-water.

A beacon, called "Fairy beacon," to be put up on the south side of the river entrance, which will be useful in event of any of the buoys breaking away.

A tidal gauge has been erected opposite Balramghury house, levelled to 2 feet below low-water level of the tide of 23rd February 1874. This gives approximately the zero of driest season of the year; zero on this gauge gives one foot at low-water on Balasore river bar.

The Balramghury flag-staff will show the following signals for information of vessels entering the river:—

Ensign at yard-arm	...	...	Vessel leaving river.
" at mast-head	...	...	" entering river.
First cones at yard-arm	...	...	Low-water.
Second cones at yard-arm	...	...	High-water

A. BAKER,  
Offg. Master-Attendant.

[First Publication.]

DECLARATION.

*The 13th June 1874.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz. for the construction of a district road in mouzah Sookurpara, pergunnah Asscrassur, district Cuttack, it is hereby declared that for the above purpose a piece of land, 1,150 feet long and 12 feet broad, measuring in the aggregate 1 road and 10 poles, more or less, bounded on the north by the Sookurpara Chutty, on the south by the *godunda* (cattle-track) of mouzahs Kharole and Kentalow, and on the east and west by the cultivated lands appertaining to mouzah Kharole, is required within the aforesaid village of Sookurpara.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

H. L. DAMPIER,  
Secy to the Govt. of Bengal.

[First Publication.]

DECLARATIONS.

*The 10th June 1874.*—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Pipra, pergunnah Naredigar, to that of Soopool, pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from east to west and southwest, passing through the villages as per margin, and measuring, more or less, 13 miles in length and 55 feet in breadth = 262½ standard beeghas, equivalent to 99½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Singhessur, pergunnah Narsingpore Curha, to that of Pipra, pergunnah Naredigar, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north, passing through the villages as per margin, and measuring, more or less, 12 miles and 100 feet in length and 55 feet in breadth = 215½ standard beeghas, equivalent to 93½ local beeghas, more or less, is required.

Amha, ditto	ditto.
Pipra, ditto	ditto.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road which is called Soopool to Bhootia road, but which runs from Court of Wards' road at Persarma, pergunnah Malhuigopal, zillah Bhagulpore, to Bulli, on the Monghyr boundary, it is hereby declared that for the above purpose a strip of land running generally from north to south, passing through the villages as per margin, and measuring, more or less, 17 miles in length and 60 feet in breadth = 374 standard beeghas, equivalent to

141½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road which is called Pipra to Pertapgunge road, but which runs from Pipra, pergunnah Naredigar, and joins the great northern emigration road (Court of Wards') near the village of Sookhanagar, pergunnah Harawat, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from south-west to north-east, passing through the villages as per margin, and measuring, more or less, 12 miles and 600 feet in length and 55 feet in breadth = 244½ standard beeghas, equivalent to 85½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Pertapgunge, pergunnah Harawat, to that of Balua and Birpore, pergunnah Dhopphar, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north-east and north, passing through the villages as per margin, and measuring, more or less, 20 miles in length and 55 feet in breadth = 403½ standard beeghas, equivalent to 131½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Singhessur to that of Gambaria, pergunnah Narsingpore Curha, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north-west, passing through the villages as per margin, and measuring, more or less, 7 miles in length and 55 feet in breadth = 141½ standard beeghas, equivalent to 53½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for the Government at the public expense for a public purpose, viz. for a road starting from the village of Gambaria, pergunnah Narsingpore Curha, to that of Soopool, pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from east to west and north-west, passing through the villages as per margin, and measuring, more or less, 9 miles in length and 55 feet in breadth = 181½ standard beeghas, equivalent to 68½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Bella to Myyeh, *via* Barovaree, pergunnah Malhugopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north and north-east, passing through the villages as per margin, and measuring, more or less, 12 miles in length and 55 feet in breadth = 242 standard beeghas, equivalent to 91½ local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

The following order, issued by the Government of India in the Legislative Department, is republished for general information :—

*No. 3.—Fort William, the 10th June 1874.—Notification.*—The following Statute relates to India, and is hereby published for general information :—

## 37 VIC., CHAPTER 3.

*An Act to enable the Secretary of State in Council of India to raise money in the United Kingdom for the service of the Government of India.*

[30TH MARCH 1874.]

Whereas the exigencies of the public service in India require that the Secretary of State in Council of India, should be enabled to raise money in the United Kingdom on the credit of the revenues of India :

Be it therefore enacted by the Queen's Most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows :—

1. It shall be lawful for the Secretary of State in Council of India, at any time or times before the thirtieth day of April, one thousand eight hundred and seventy-nine, or, if Parliament be then sitting, before the end of the then Session of Parliament, to raise in the United Kingdom, for the service of the Government of India,

Power to the Secretary of State in Council of India to raise any sum not exceeding 10,000,000*l.*

any sum or sums of money not exceeding in the whole ten millions of pounds sterling, and such sum or sums may be raised by the creation and issue of bonds or debentures, or capital stock bearing interest, or annuities, or partly by one of such modes and partly by another or others.

2. All bonds issued under the authority of this Act may be issued under the hands of two members of the Council of India, and countersigned by the Secretary of State for India or one of his Under Secretaries, or his Assistant Under Secretary, and shall be for such respective amounts payable after such notice, and at such rate

Bonds may be issued under the hands of two members of the Council, and countersigned by Secretary of State.

or rates of interest as the said Secretary of State in Council may think fit.

3. All debentures issued under the authority of this Act may be issued under the hands of two members of the Council, and countersigned as aforesaid, for such respective amounts, and at such rate or rates of interest, as the Secretary of State in Council may think fit, and shall be issued at or for such prices and on such terms as may be determined by the Secretary of State in Council.

Debentures may be issued.

4. All debentures issued under the authority of this Act shall be paid off at par at a time or times to be mentioned in such debentures respectively ; and the interest on all such debentures shall be paid half-yearly on such days as shall be mentioned therein ; and the principal moneys and interest secured by such debentures shall be payable either at the treasury of the Secretary of State in Council in London, or at the Bank of England.

As to payment of principal and interest on debentures.

5. All or any number of the debentures issued under the authority of this Act, and all right to and in respect of the principal and interest moneys secured thereby, shall be transferable by the delivery of such debentures ; and the coupons for interest annexed to any debenture issued under the authority of this Act shall also

Debentures transferable by delivery.

Coupons by delivery.

pass by delivery.

6. Any capital stock created under the authority of this Act shall bear such a rate of interest, and any annuities to be created under the authority of this Act shall be at such rate per centum per annum, as the Secretary of State in Council may think fit ; and such capital

Capital stock and annuities may be created and issued.

stock and such annuities may be issued on such terms as may be determined by the Secretary of State in Council ; and any such capital stock may bear interest during such period, and be paid off at par at such time as the Secretary of State in Council may prescribe previously to the issue of such capital stock ; and such annuities may be terminable at such period as the Secretary of State in Council may prescribe previously to the issue of such annuities.

7. In case of the creation and issue of any such capital stock or of any such annuities, there shall be kept, either at the Office of the Secretary of State in Council in London or at the Bank of England, books wherein entries shall be made of the said capital stock and annuities respectively, and wherein all assignments or transfers of the same respectively, or any part thereof respectively, shall be entered and registered, and shall be signed by the parties making such assignments or transfers, or if such parties be absent, by his, her, or their attorney or attorneys thereunto lawfully authorized by writing under his, her, or their hands and seals, to be attested by two or more credible witnesses; and the person or persons to whom such transfer or transfers shall be made may respectively underwrite his, her, or their acceptance thereof; and no other mode of assigning or transferring the said capital stock or the said annuities or any part thereof respectively or any interest therein respectively, shall be good and available in law, and no stamp duties whatsoever shall be charged on the said transfers or any of them.

8. All annuities created and issued under the authority of this Act shall be deemed and taken to be personal and not real estate, and shall go to the executors or administrators of the person or persons dying possessed thereof, interested therein, or entitled thereto, and not to the heir-at-law, nor be liable to any foreign attachment by the custom of London or otherwise.

9. The whole amount of the principal moneys to be charged on the revenues of India under this Act shall not exceed ten millions; and no money shall be raised or secured under the authority of this Act after the said thirtieth day of April one thousand eight hundred and seventy-nine, or, if Parliament be then sitting, after the end of the then session of Parliament, save for or upon the repayment of principal moneys previously secured under this Act as hereinafter provided.

10. Upon or for the repayment of any principal money secured under the authority of this Act, the Secretary of State in Council may at any time borrow or raise, by all or any of the modes aforesaid, all or any part of the amount of principal money repaid or to be repaid, and so from time to time as all or any part of any principal money under this Act may require to be repaid, but the amount to be charged upon the revenues of India shall not in any case exceed the principal money required to be repaid.

11. All bonds and debentures to be issued under this Act, and the principal moneys and interest thereby secured, and all capital stock to be issued under this Act, and the interest thereon, and all annuities to be issued under this Act, shall be charged on and payable out of the revenues of India, in like manner as other liabilities incurred on account of the Government of the said territories.

12. The provisions contained in section four of the Act of the session holden in the fifth and sixth years of King William the Fourth, chapter sixty-four, with respect to the composition and agreement for the payment by the East India Company of an annual sum in lieu of stamp duties on their bonds and the exemption of their bonds from stamp duties shall be applicable with respect to the bonds and debentures to be issued under the authority of this Act, as if such provisions were here repeated and re-enacted with reference thereto.

13. All provisions now in force in anywise relating to the offence of forging or altering, or offering, uttering, disposing of, or putting off, knowing the same to be forged or altered, any East India bond, with intent to defraud, shall extend and be applicable to and in respect of any debenture issued under the authority of this Act, as well as to and in respect of any bond issued under the same authority.

14. Provided always, that, at the end of each of the half-years ending on the thirty-first day of March and the thirtieth day of September in every year, the Secretary of State in Council shall prepare or cause to be prepared a return of all loans raised in England under the provisions of this Act or of any other Acts, chargeable on the revenues of India, outstanding at the commencement of each half-year, with the rates of interest payable thereon, and the date of the termination of each loan, the debt incurred during the half-year, the moneys raised thereby during the half-year, the loans paid off or discharged during the half-year, and the loans outstanding at the close of the half-year, stating so far as the public convenience will allow the purpose or service for which moneys have been raised during the half-year, and that a similar return shall also be prepared of all loans raised in India; that such returns shall be presented to both Houses of Parliament within fifteen days after the expiration of the said half-yearly periods as regards the loans raised in England, and within three months as regards the loans raised in India, if Parliament be then sitting, or if not sitting, then within one week after Parliament shall be next assembled.

**15. The Secretary of State in Council shall include in the account to be laid before**

Accounts of all loans and liabilities to be included in account annually laid before Parliament.

both Houses of Parliament, pursuant to the fifty-third section of the Act of the twenty-first and twenty-second Victoria, chapter one hundred and six, within the first fourteen days during which Parliament may be sitting next after the first day of May in every year, accounts of all stocks, loans, debts, and liabilities chargeable on the revenues of India, at home and abroad, at the commencement and close of the year to which such account shall relate, the loans, debts, and liabilities raised or incurred within that year and the amounts paid off or discharged during that year; and the provisions of the Acts of the twenty-first Victoria, chapter three, twenty-second Victoria, chapter eleven, twenty-second and twenty-third Victoria, chapter thirty-nine, twenty-third and twenty-fourth Victoria, chapter one hundred and thirty, twenty-fourth and twenty-fifth Victoria, chapters twenty-five and one hundred and eighteen, thirty-second and thirty-third Victoria, chapter one hundred and six, and thirty-sixth Victoria, chapter thirty-two, so far as regards the preparation and representation to Parliament annually of a return of all moneys raised on loan under the provisions of those Acts, and a return of all stocks, loans, debts, and liabilities chargeable on the revenues of India, at home and abroad, are hereby repealed.

Saving powers of the Secretary of State in Council.

**16. This Act shall not prejudice or affect any power of raising or borrowing money vested in the said Secretary of State in Council at the time of passing thereof.**

**17. Any capital stock created under this Act shall be deemed to be East India stock,**

Stock created hereunder to be deemed East India stock.

within the Act twenty-second and twenty-third Victoria, chapter thirty-five, section thirty-two, unless and until Parliament shall otherwise provide; and any capital stock created under this Act shall be deemed to be and shall mean India stock within the Act of the twenty-sixth and twenty-seventh Victoria, chapter seventy-three, anything in the said last mentioned Act to the contrary notwithstanding.

**18. The provisions contained in the third section of the Act of the thirty-third and**

Section 3, &c., of 33 & 34 Vic., c. 93, extended to capital stock created under this Act.

thirty-fourth Victoria, chapter ninety-three, and all other enactments in the said Act relating to or affecting such provisions, shall be extended and be applicable to any capital stock created under this Act, or any previous Acts, and chargeable upon the revenues of India.

## NOTIFICATION.

*The 11th June 1874.*—Under the powers vested in the Lieutenant-Governor by Section 2 of Act II (B.C.) of 1867 (an Act to provide for the punishment of public gaming and the keeping of gaming-houses), His Honor is pleased to authorize the extension, from the 1st July next, of the provisions of Section 11 of the said Act to the town of Pubna. The limits of the town for the purposes of this Act will be the same as those defined for the purposes of Act VI (B.C.) of 1868 in the Notification of 26th January 1869, published in the *Calcutta Gazette* of the 3rd February following.

RIVERS THOMPSON,  
Secy. to the Govt. of Bengal.

[Second Publication.]

## NOTIFICATION.

*The 5th June 1874.*—It has been represented to His Honor the Lieutenant-Governor that the multiplication of Rural Registration Offices, advantageous as it is to the public generally, entails some inconvenience on those proprietors of immovable property who reside, not within the sub-district in which their property is situated, but at the sudder station of the district.

With a view of abating the inconvenience complained of, and facilitating the registration of documents in the District Registry Office, instead of in the Sub-Registry Offices, in which they would ordinarily be registered, the Lieutenant-Governor, with the approval of the Governor-General in Council, is pleased to direct the substitution of the following article for the present article (k) of the schedule of fees.

(k) For registration by any Registrar (other than the Registrar of Calcutta) of any document under Section 30(a).	An extra fee equal to the ordinary fee, or Rs. 5, whichever is less.

NOTIFICATION.

UNDER SECTION 64 OF ACT V (B.C.) OF 1870.

The 15th June 1874.—The Commissioners for making Improvements in the Port of Calcutta, with the sanction of the Lieutenant-Governor of Bengal, do hereby declare that the wharf on the east bank of the River Hooghly, extending from the northern boundary of Golabaree Ghât Road on the north to the southern boundary of Kassy Mitter's Ghât on the south, is ready for receiving, landing, and shipping goods from and upon vessels not being sea-going vessels, and order that within the limits of that portion of the Port of Calcutta situate between the said Kassy Mitter's Ghât on the south and the northern boundary of Thakoorbarree Ghât on the north, it shall not be lawful to land or ship any goods out of or into vessels of the class above specified except at the aforesaid wharf.

By order of the Commissioners,  
W. D. BRUCE, *Vice-Chairman*.

HIGH COURT NOTICES.

Order by the High Court of Judicature at Fort William in Bengal.

NOTIFICATION.

LEAVE OF ABSENCE.

The 10th June 1874.—Baboo Atalbeharee Ghosh, B. L., Officiating Moonsif of Raneegunge, in the District of East Burdwan, is allowed 15 days' leave without pay, under Section 9, Supplement F of the Civil Leave Code. The Moonsif's Sheristadar to be placed in charge of the current duties of the office.

By order, &c.,  
H. J. S. COTTON, *Offg. Registrar*.

HIGH COURT—Original Jurisdiction.

NOTIFICATIONS.

The following rules have been passed by the High Court of Judicature at Fort William in Bengal, to take effect from the 1st day of July 1874.

R. BELCHAMBERS,  
*Registrar*.

10th June 1874.

It is ORDERED that the following rules be read and passed as the rules and orders of the High Court of Judicature at Fort William in Bengal in its Original Jurisdiction, to take effect from the 1st day of July one thousand eight hundred and seventy-four:—

*Production and Inspection of Documents.*

1. Copies of documents referred to in, and annexed to, a plaint as exhibits, may be furnished to a defendant on his entering his appearance.

2. Documents annexed to a plaint as exhibits, may be inspected by a defendant who has entered his appearance, on 24 hours' previous notice being given to the plaintiff or his attorney.

3. A plaintiff or a defendant may, at any stage of a suit, but, if required to file a written statement, not until after filing a sufficient written statement [unless the Court or a Judge shall otherwise direct], be furnished with copies of documents annexed as exhibits to the written statement of the other party, and may inspect such documents, on 24 hours' previous notice being given to the party by whom such written statement has been filed.

4. Until documents produced with a plaint, but not mentioned therein or annexed thereto as exhibits, have been offered and received in evidence, inspection thereof cannot be allowed, or copies thereof furnished, to a defendant without an order to be obtained under the following rules:—

5. A defendant may, at any stage of a suit, but, if required to file a written statement, not until after filing a sufficient written statement [unless the Court or a Judge shall otherwise direct], apply by summons at Chambers for an order that he, his attorney, or agent, be at liberty to inspect and peruse the documents mentioned in and produced with a plaint, [but not annexed thereto as exhibits], and take copies and abstracts thereof, and extracts therefrom.

6. A plaintiff, or a defendant, may at any stage of a suit, but, if required to file a written statement, not until after filing a sufficient written statement [unless the Court or a Judge shall otherwise direct], apply by summons at Chambers for an order that the other party do produce and leave with the Registrar, or produce at any other specified place, the documents mentioned in the plaint, or in the written statement of either party, [but not annexed as exhibits to or produced with the plaint, or annexed as exhibits to the written statement], and admitted to be in his possession or power: and that the applicant, his attorney, or agent, be at liberty to inspect and peruse the same, and take copies and abstracts thereof, and extracts therefrom.

7. A plaintiff, or a defendant, [a claimant under a decree in an administration suit being deemed a plaintiff], may, at any stage of a suit,

but, if required to file a written statement, not until after filing a sufficient written statement [unless the Court or a Judge shall otherwise direct], apply by summons at Chambers for an order that the other party do file an affidavit stating whether he has or has had in his possession or power any, and, if any, what, documents relating to the matters in question in the suit, and accounting for the same, and that he do within a given time produce and leave with the Registrar, or produce at any other specified place, such of the documents as by such affidavit shall appear to be in his possession, except such of the same, if any, as he may by his affidavit object to produce; and that the applicant, his attorney, or agent, be at liberty to inspect and peruse the documents so produced and to take copies thereof and abstracts and extracts therefrom.

8. A defendant may, at any stage of a suit, but, if required to file a written statement, not until after filing a sufficient written statement [unless the Court or a Judge shall otherwise order], apply by summons at Chambers as against any other defendant or defendants for an order similar to that to be obtained under the last preceding rule. The application must be supported by an affidavit, stating the interest of such co-defendant or co-defendants in the matter touching which discovery is sought, and the special facts and circumstances upon which the claim to obtain discovery from him or them is founded.

9. Except as provided in the last preceding rule, no affidavit is necessary in support of an application for discovery and consequential production and inspection, and the costs of any such affidavit will in future not be allowed, unless the Court or a Judge shall otherwise order.

10. Where the production is sought from a corporation or company authorized to sue and be sued in the name of an officer or trustee, the affidavit will be directed to be made, on behalf of the corporation or company, by any director, secretary, or other principal officer of the corporation or company who may be able to depose to facts required to be stated in the affidavit.

11. The Court or a Judge may, for a sufficient reason, allow the affidavit to be made, on behalf of the party from whom production is sought, by any person competent to make the same.

12. The party required to make an affidavit must make the same, although he may have good grounds against producing the documents; and he must describe the documents with sufficient distinctness to enable the Court or a Judge to order production if his objections should be overruled.

13. All questions of privilege, exemption, sealing up, or production without leaving at the Registrar's Office, must be raised in the affidavit.

14. If extension of time for making the affidavit be required, the same may be obtained upon summons at Chambers.

15. No affidavit in answer to an affidavit, or further affidavit, made by the party from whom production is sought, or on his behalf, will be received.

16. If documents are claimed to be protected, the party seeking production, if desirous of raising the question, must do so by a further application for production. Such application must be made by summons, and may be heard before the Judge in Chambers, or adjourned to be heard in Court.

17. If the affidavit be considered insufficient as not containing a clear admission or denial of the possession of documents, or such a description of them that the Court can enforce its order, or from any other cause, the party seeking production may obtain a summons to consider the sufficiency of the affidavit.

18. If the affidavit be held to be insufficient, further time may, at the discretion of the Judge, be allowed to the deponent to file a full and sufficient affidavit; and such time may be further extended on his application by summons. If further time be not allowed, the deponent will be liable to process of contempt for disobedience, as if no affidavit had been filed.

19. If it appears from the affidavit of the party from whom production is sought, that the books and papers relating to the matters in question are in constant use in his business, and necessary for that purpose, or cannot be deposited without great inconvenience, the order, in the first instance, will only direct that they shall be produced for inspection at the place of business at which they are stated to be in use or other convenient place.

20. If where inspection has been ordered out of Court, it is found that a satisfactory inspection cannot be obtained, or if it can be shown that the documents are being tampered with, application may be made, by summons, for an order for the deposit and inspection of the documents in Court. Such application must be supported by affidavit.

21. If it appears from the affidavit of the party from whom production is sought that the books or papers contain matter which he is not liable to disclose, the order will be qualified so as to admit of such parts being sealed up.

22. If the right to seal up be omitted to be claimed, a special application for leave to seal up may be made by summons. Such application must be supported by affidavit.

23. If the statements in the affidavit in support of a claim to seal up documents, or if the unsealed documents, or plaint, or written statement afford grounds for suspecting that the party has sealed up matter that ought to have been disclosed, the party seeking inspection may apply, by summons, for inspection of the documents which have been sealed, and the Judge may unseal such

documents and examine them in order to see whether the applicant is entitled to inspect the portions sealed up.

#### 24. If the documents are ordered to be de-

Upon deposit of documents, order and list to be produced therewith. Office, a copy of the order and a schedule of the documents must be left at the time the deposit is made.

#### 25. When the purpose for which documents

Delivery out to a party of documents deposited by him. Court is satisfied, the party by whom they were deposited may have them delivered out to him; but for that purpose he must obtain an order on summons, or the consent in writing of the other party.

#### 26. An order for an affidavit and production,

Order for affidavit or production how to be enforced. or for production only, may be enforced by serving the same on the party ordered to produce the documents, with a memorandum endorsed thereon to the effect following, namely,—“If you, the within named A. B., neglect to obey this order by the time therein limited, you will be liable to be arrested and committed to prison for contempt.” And if default be made in complying with the order by the time specified therein, or in a further order, the party making default may be proceeded against by attachment.

#### 27. The forms set forth in the schedule annexed

Forms. are to be followed, with such variations as circumstances may require.

### SCHEDULE.

#### No. 1.

Let the plaintiff A. B. attend before the sitting Judge in Chambers at the Court-house on the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_, at \_\_\_\_\_ o'clock in the forenoon on the hearing of an application on the part of the defendant that the applicant, his attorneys and agents, may be at liberty to inspect and peruse the documents mentioned in and produced with the plaint [but not annexed thereto as exhibits], and take copies and abstracts thereof, and extracts therefrom as he shall be advised.

#### No. 2.

Let the defendant [or plaintiff] A. B. attend before the sitting Judge in Chambers at the Court-house on the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_, at \_\_\_\_\_ o'clock in the forenoon on the hearing of an application on the part of the plaintiff [or defendant] that the defendant [or plaintiff] may be ordered within [four] days after service,

to produce and leave with the Registrar, the documents mentioned in the plaint or written statement [but not annexed as exhibits to or produced with the plaint, or annexed as exhibits to the written statement], and admitted to be in his possession or power: and that the applicant, his attorneys and agents, may be at liberty to inspect and peruse the same, and take copies and abstracts thereof, and extracts therefrom as he shall be advised.

#### No. 3.

Let the defendant [or plaintiff] A. B. attend before the sitting Judge in Chambers at the Court-house on the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_, at \_\_\_\_\_ o'clock in the forenoon on the hearing of an application on the part of the plaintiff, [or defendant] that the defendant [or plaintiff] may be ordered, within [four] days after service, to make and file a full and sufficient affidavit.

[Or, if against a corporation or a company, say:— to file a full and sufficient affidavit: to be made by their Director, Secretary or other principal officer] stating whether he has, or has had, in his possession or power any, and, if any, what, documents relating to the matters in question in this suit, and accounting for the same. And that the said defendant [or plaintiff] may be ordered, within [four] days after filing such affidavit, to produce and leave with the Registrar of this Court the documents which by such affidavit shall appear to be in his possession or power: except such of them, if any, as he may by such affidavit object to produce. And that the applicant, his attorneys and agents, may be at liberty to inspect and peruse the documents so produced and left, and to take copies and abstracts thereof and extracts therefrom, as the applicant shall be advised.

#### No. 4.

Proceed as in No. 3 to “accounting for the same”; and continue thus: And that the said defendant [or plaintiff] may be ordered, at all reasonable times, upon reasonable notice, to produce at [state where], the documents which by such affidavit shall appear to be in his possession or power: except such of them, if any, as he may, by such affidavit, object to produce. And that the applicant, his attorneys and agents, may be at liberty to inspect and peruse the documents so produced, and to take copies and abstracts thereof, and extracts therefrom, as the applicant shall be advised.

#### No. 5.

Formal parts, see ante, No. 3.

On the part of the plaintiff [or defendant], that the time limited by the order dated the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_, for the applicant to make and file an affidavit as to documents, may be enlarged until the \_\_\_\_\_ day of \_\_\_\_\_, 18\_\_\_\_; and that the costs of this application may be costs in the cause.

## No. 6.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant], to consider the sufficiency of the affidavit of the defendant [or plaintiff] A. B., filed the day of , 18 , as to the possession of documents, pursuant to the order dated the day of , 18 , and that the said defendants [or plaintiff] may be ordered to pay the costs of this application.

## No. 7.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant], that the defendant [or plaintiff] A. B., may be ordered, within [four] days after service, to produce and leave with the Registrar of this Court the several documents mentioned in his affidavit filed the day of , 18 , and in the second part of the first schedule thereto [or as may be], and thereby admitted to be in his possession or power, but which documents he thereby objects to produce. And that the applicant, his attorneys and agents, may be at liberty to inspect and peruse the said documents, and take copies [continue as in No. 3, ante to the end].

## No. 8.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant], that he may be at liberty to seal up such parts of the documents mentioned in the [first] schedule to his affidavit filed in this suit on the day of , 18 , as, according to an affidavit to be made by him, do not relate to the matters in question in this cause.

## No. 9.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant] A. B. that the defendant [or plaintiff] C. D. may be ordered within [four] days from the date of the order to be made hereon, to produce and leave with the Registrar of this Court the several documents mentioned in his affidavit filed on the day of , 18 , and in the second part of the first schedule thereto [or as may be], and thereby admitted to be in his possession and power, and which were by the order, dated the day of , 18 , ordered to be produced for inspection at the [state where] and that the applicant [continue as in No. 3 to the end].

## No. 10.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant] A. B. that the documents mentioned in the affidavit of the defendant [or the plaintiff] A. B. filed on the day of , 18 , and in the second part of the first schedule

thereto [or as may be] and thereby admitted to be in his possession, as to such portions thereof as have been sealed up on the ground of privilege may be unsealed. And that the applicant, his attorneys and agents may be at liberty to inspect and peruse the said documents, including the portions so to be unsealed, and take copies [continue as in No. 3, ante to the end].

## No. 11.

*Formal parts, see ante, No. 3.*

On the part of the plaintiff [or defendant] that [describe what; as thus: Summons for the delivery out of documents deposited in Court under an order. all the documents, or, the documents mentioned in the schedule hereto] deposited by him with the Registrar of this Court, pursuant to the order dated the day of , 18 , may be delivered out to the applicant.

## No. 12.

I, A B of [place of residence and description or addition] make oath [or Affidavit admitting the possession of documents. solemnly affirm] and say as follows:—

1. That I have in my possession or power the documents relating to the matters in question in this suit set forth in the first and second parts of the first schedule hereto annexed.

2. That I object to produce the said documents set forth in the second part of the first schedule hereto.

3. That [state upon what grounds the objection is made, and verify the facts, so far as may be.]

4. That I have had, but have not now, in my possession or power the documents relating to the matters in question in this suit set forth in the second schedule hereto annexed.

5. That the last-mentioned documents were last in my possession or power on [state when.]

6. That [what has become of the last-mentioned documents, and in whose possession they are now.]

7. That, according to the best of my knowledge, remembrance, information, and belief, I have not now, and never have had, in my own possession or power, or in the possession or power of my attorneys or agents, or attorney or agent, or in the possession, or power of any other persons or person on my behalf, any deed, account, book of account, voucher, receipt, letter, memorandum, paper, or writing, or any copy of, or extract from, any such document, or any other document whatsoever relating to the matters in question in this suit, or any of them, or wherein any entry has been made relative to such matters, or any of them, other than and except the documents set forth in the said first and second schedules hereto.

The first schedule above referred to.

First part.

Second part.

The second schedule above referred to.

## No. 13.

*Formal parts: see ante No. 12.*

1. That, according to the best of my knowledge [continue as in ante, No. 12, para. 7, to such matters or any of them.] Affidavit denying the possession of documents.

## No. 14.

Upon the application of the defendant A—, and

Order for inspection of documents mentioned in and produced with the plaint, but not annexed thereto as exhibits.

A, his attorneys and agents be at liberty to inspect and peruse the documents mentioned in and produced with the plaint [but not annexed thereto as exhibits], and to take copies and abstracts thereof, and extracts therefrom, as he shall be advised, [but previously to the said inspection, the plaintiff is to be at liberty to seal up such parts of the said documents as according to an affidavit to be made by him do not relate to the matters in question in this suit.]

## No. 15.

Upon the application of the plaintiff [or defendant] A—, and hearing

Order for deposit and inspection of documents admitted by plaint, or written statement, but not annexed thereto as exhibits, or produced with the plaint.

the attorney for the applicant and for the defendant [or plaintiff] B— It is ordered, that the defendant [or plaintiff] B, do produce and leave with the Registrar of this Court [or produce at any other specified place] the documents mentioned in the plaint or written statement [but not annexed as exhibits to or produced with the plaint, or annexed as exhibits to the written statement] and admitted to be in his possession or power, and the applicant, his attorneys, and agents, are to be at liberty to inspect and peruse the same, and to take copies and abstracts thereof, and extracts therefrom, as the applicant shall be advised, [but previously to the said inspection, the plaintiff is to be at liberty to seal up such parts of the said documents as according to an affidavit to be made by him do not relate to the matters in question in this suit.]

## No. 16.

Order for inspection of documents held not privileged.

and the Judge being of opinion that the documents referred to in the schedules to the affidavit of the defendant [or plaintiff] C filed, &c., are not privileged, except such as are hereinafter mentioned—It is ordered, that the defendant [or plaintiff] C [as in Form 16 or 17, as may be ordered], the several documents in the first and second parts of the schedule to the said affidavit, except, &c., [state documents held privileged] referred to in the said schedules. And it is ordered, that the applicant, his attorneys and agents [continue as in Form 16 to the end].

## No. 20.

Upon the application of the plaintiff [or defendant] A, and hearing the

Order enlarging time, where affidavit filed is insufficient.

attorney for the applicant, and for the defendant [or plaintiff] B, and upon reading the order, dated, &c., and an affidavit of the said defendant [or plaintiff], filed the

day of , in pursuance thereof, and the Judge being of opinion that the said affidavit is insufficient, and the said defendant [or plaintiff], by his attorney, now applying for further time to file a full and sufficient affidavit—It is ordered, that the time for the said defendant [or plaintiff] to file a full and sufficient affidavit pursuant to the said order be enlarged till the day of [If deposit ordered: And it is ordered, that the said defendant [or plaintiff] have till the day of to produce and leave with

the Registrar of this Court, pursuant to the said order, any documents relating to the matters in question in this suit, which, by the affidavit so to be made by him, shall appear to be in his possession or power, except such of the same, if any, as he may by such affidavit object to produce]; *If so*, and it is ordered, that the costs of this application be costs in this cause; or, that the defendant, or plaintiff, B, pay to the plaintiff or defendant, A, Rs. for the costs of this application; or the costs of this application to be taxed by the Taxing Officer in case the parties differ.

The following rules have been passed by the High Court of Judicature at Fort William in Bengal to take effect from the 1st day of July 1874.

R. BELCHAMBERS,

10th June 1874.

Registrar.

It is ORDERED that the following rules be read and passed as the rules and orders of the High Court of Judicature at Fort William in Bengal, in its original jurisdiction, to take effect from the first day of July one thousand eight hundred and seventy-four:—

*Admission of Advocates.*

1. Any person who is entitled to practise as a Barrister in England or Ireland, or as an Advocate in the principal Courts of Scotland, may be admitted as an Advocate of this Court.

2. Every person applying under the aforesaid rule to be admitted as an Advocate of this Court, must produce a certificate showing that he is entitled to practise as a Barrister in England or Ireland, or as an Advocate in the principal Courts of Scotland, together with satisfactory testimonials to his good character and ability.

3. The mode of applying to be admitted as an Advocate of this Court shall be by letter, stating the date on which the applicant was called to the bar, whether it is his intention to practise in this Court, and [in the case of an applicant who claims to be entitled to practise as a Barrister in England] the number of terms kept by him. The letter shall be addressed to, and left with, the Registrar of this Court, in its original jurisdiction, together with—

(1) The certificate required by rule 2;

(2) Testimonials to character and ability.

4. The Registrar shall circulate the letter, with the other documents to be left with him, to the Chief Justice and Puisne Judges.

5. Every person on being admitted and enrolled as an Advocate of this Court may, without the payment of any fee besides the admission fee,

obtain a certificate of admission under the signature of the Registrar and the seal of the Court.

6. Any Advocate of this Court may, on the payment of a fee of 5 Rupees, [to be paid by means of Court fees stamps] obtain a certificate under the signature of the Registrar and the seal of the Court, that his name is borne on the roll of Advocates of this Court.

7. The Registrar of this Court, on its original side, shall have the custody and care of the rolls or books wherein persons are at present enrolled as Advocates, and shall enrol the name of every person who shall be admitted an Advocate, with the date of his admission, in alphabetical order, in a roll or book to be kept by him for that purpose, to which roll or book all persons shall have free access without fee or reward.

*Infants and persons of unsound mind not so found by inquisition.*

8. Every suit on behalf of an infant, [or a person of unsound mind not so found by inquisition] shall be instituted in the name of an adult person, who in such suit shall be called the next friend of the infant [or person of unsound mind] and may be ordered to pay any costs in the suit as if he or she were the plaintiff.

9. If a plaint be filed on behalf of an infant [or a person of unsound mind not so found by inquisition] without a next friend, the defendant may apply by summons, to have the plaint taken off the file, with costs to be paid by the attorney by whom it was presented.

10. Every application to the Court on behalf of an infant [or a person of unsound mind not so found by inquisition] shall be made by a next friend, unless such infant [or person] is a defendant, in which case it shall be made by a guardian *ad litem*.

11. Where the defendant to a suit, or respondent to any application, is an infant [or a person of unsound mind not so found by inquisition], the Court shall appoint a proper person to be guardian *ad litem* for such infant [or person] to put in the defence for such infant [or person], and generally to act on such infant's [or person's] behalf in the conduct and management of the case.

12. Every order made in a suit, or on any application before the Court, in or by which an infant [or a person of unsound mind not so found by inquisition] is in any way concerned or affected, without such infant [or person] being represented by a next friend, or guardian *ad litem*, as the case may be, may be discharged with costs, to be paid by the attorney of the party at whose instance such order was obtained, if such attorney know, or

might reasonably have known, the fact of such infancy or unsoundness of mind.

13. Any person, *sui juris*, may act as next friend of an infant, [or a person of unsound mind not so found by inquisition], provided his or her interest is not adverse to that of such infant [or person], and he or she is not a defendant, or respondent, or a married woman.

14. If the interest of the next friend of an infant [or a person of unsound mind not so found by inquisition] is adverse to that of such infant [or person], or if he is so connected with a defendant, or respondent, whose interest is adverse to that of such infant [or person], as to make it impossible that the interest of such infant [or person] will be properly protected by him, or if he does not do his duty, or, pending the suit or application, cease to reside within the British territories in India, or for any other sufficient cause, application may be made on behalf of such infant [or person], or by a defendant, or respondent, by summons to be heard in Chambers, for his removal.

15. Unless otherwise ordered by the Court or a Judge, a next friend will not be allowed to retire, at his own request, without first procuring a fit and proper person to be put in his place, and without giving security for the costs already incurred.

16. The application for the appointment of a new next friend shall be by summons, and shall be supported by affidavit, showing the fitness of the person proposed, and also, unless he is a co-plaintiff or co-applicant, verifying the fact that he is not interested in the subject of the suit, or application.

17. On the death, or removal as aforesaid, of a next friend, further proceedings shall be stayed until the appointment of a next friend in his place.

18. The attorney of an infant [or a person of unsound mind not so found by inquisition] may apply, by summons, for the appointment of a new next friend, whose fitness must be verified by affidavit. If the attorney of such infant [or person] omits, within a reasonable time, to take steps to get a new next friend appointed, any defendant, or respondent to any application, may apply, by summons to the attorney of such infant [or person], for the appointment of one.

19. On the appointment of a new next friend, his name as such shall thenceforth be inserted in the proceedings.

20. Before the name of any person can be used as the next friend of an infant [or a person of unsound mind not so found by inquisition], he

must sign a written authority to the attorney for that purpose, which authority must be filed in the Registrar's Office.

21. An infant plaintiff, or an infant not a party to a suit on whose behalf an application is pending, on coming of age, must elect whether he

will proceed with the suit, or application. If he elects to proceed with it, he shall obtain an order discharging the next friend, and for leave to proceed in his own name. The title of the suit or application shall in such case be corrected so as to read thenceforth thus:—"A. B., late an infant, by C. D., his next friend, but now of full age." If he elects to abandon the suit or application, he shall, if a sole plaintiff, or sole applicant, obtain an order to dismiss the suit, or application, on payment of costs by himself. In either case the application may be made by petition, *ex parte*; and it must be proved by affidavit that the late infant has attained his full age.

22. An infant co-plaintiff, or co-applicant, on coming of age, and desiring to repudiate the suit, or application, must apply to have his name struck out as co-plaintiff, or co-applicant, or for permission to withdraw from the application. The application shall be by summons to the next friend, as well as to the defendant, or respondent; and it must be proved by affidavit that the late infant has attained his full age.

The costs of all parties of such application, and of all or any proceedings theretofore had in the suit or matter, shall be paid by such persons as the Judge shall order.

23. If any infant, on coming of age, can prove to the satisfaction of the Court that a suit or proceeding instituted in his name by a next friend was unreasonable or improper, he may, if a sole plaintiff, or sole applicant, apply to have the suit or proceeding dismissed, or, if a co-plaintiff or co-applicant, apply to have his name struck out as such co-plaintiff or co-applicant. The application shall be by summons to all the parties concerned: and the Court, upon being satisfied of such unreasonableness or impropriety, may grant the application, and order the next friend to pay the costs of all parties of the application, and all or any of the costs of all parties of any proceeding theretofore had in the suit or matter.

24. An infant, on coming of age, will not be allowed to appear by another attorney, unless he has obtained an order to change the attorney.

25. An order for the appointment of a guardian *ad litem* may be obtained upon petition presented in Chambers in the name of the infant [or person of unsound mind not so found by inquisition]. The petition must be supported by an affidavit verifying the fact that the proposed guardian has no interest in the

matters in question in the suit, or application, adverse to that of the infant [or person of unsound mind], and that he is a fit and proper person to be appointed: and it must also be proved by the affidavit of a medical man, or other person qualified to give the evidence, that the person who is said to be of unsound mind is actually in that condition, and incapable of taking care of his own affairs, or of understanding the purport or nature of the suit, or application or of defending or answering the same.

26. A co-defendant, or co-respondent, if *sui juris*, may be appointed guardian *ad litem*, if he has no adverse interest;

Who ineligible to be guardian.  
but neither a plaintiff, nor a party applicant, nor a married woman, can be appointed.

27. If no application for the appointment of a guardian *ad litem* be made on behalf of a defendant [or respondent to any application] who is

Assignment of guardian at the instance of a plaintiff or an applicant.

an infant [or a person of unsound mind not so found by inquisition] the plaintiff, or applicant, may, if default be made by the defendant, [or respondent], in appearing to the suit, or answering the application, apply, by summons at Chambers, that a guardian *ad litem* may be appointed, and the Judge on being satisfied that such defendant [or respondent] is an infant [or a person of weak or unsound mind not so proved by inquisition], so that he is unable of himself to protect his interests in the suit, or application, may assign a guardian of such defendant, [or respondent] by whom he may appear to and defend such suit, or answer such application.

28. No such order is to be made, unless it appears to the Judge, on the hearing of the application for the appointment of a guardian *ad litem*, that a copy of the summons was duly served, and that notice of such application was, after the time within which the defendant, or respondent, was required to appear or answer, and at least four clear days before the hearing of such application, served upon the person with whom or under whose care such defendant, or respondent, was at the time of serving the summons; and in case of such defendant, or respondent, being an infant not residing with, or being under the care of, his father or guardian, that notice of such application was also served upon the father or guardian, if any, of such infant, unless the Court or a Judge, at the time of hearing the application, shall think fit to dispense with such last mentioned service.

Guardian not to be assigned at the instance of a plaintiff or an applicant without notice.

29. If the guardian *ad litem* dies pending a suit, or pending an application made against an infant not a party to a suit, a new guardian must be appointed in his place, in the same manner as the original guardian, and upon similar evidence.

30. If the guardian *ad litem* of an infant defendant, or respondent, does not do his duty, or other sufficient ground be

Guardian neglecting his duty may be removed.

made to appear, the Court may remove him, and may order him to pay such costs as may have been occasioned to any party by his breach of duty.

Costs.

31. When the enforcement of a decree is applied for against the heir or representative, being an infant, [or a person of unsound mind, not so found by inquisition] of a deceased party, a guardian *ad litem* of such infant [or person] must be appointed, and a notice, similar to that issued under section 216 of Act VIII of 1859, must be served on such guardian.

32. Where any decree is made against an infant defendant, no day to show cause will be given, unless the Court or a Judge shall otherwise order.

33. Where a decree or order, not solely for costs of suit, has been made by the Court, under which any sum of money, or any other thing, shall be payable to or receivable by an infant [or a person of unsound mind, not so found by inquisition], every such sum of money, or thing, shall, unless the Court shall otherwise order, be paid or delivered to the Receiver of the Court, whose duty it shall be to receive, or realize, or obtain possession of, and hold the same on behalf of such infant or person of unsound mind.

34. After the appointment of a next friend or guardian, no sum of money, or other thing, shall be received or taken by him at any time on behalf of an infant [or a person of unsound mind as aforesaid], at any time before decree or order, unless he shall first have obtained the leave of the Court, and shall have given security to the satisfaction of the Court, or the Registrar, that the money, or other thing to be received or taken by him, shall be duly accounted for, to, and held for the benefit of, such infant [or person].

35. Every such next friend or guardian as aforesaid is hereby strictly prohibited from entering into any agreement, or compromise, on behalf of an infant [or a person of unsound mind as aforesaid], and from doing any act by which the interest of such infant [or person] may or can be affected, without the leave of the Court, to be applied for on petition. Any compromise without such agreement or compromise entered into without the leave of the Court shall be voidable against all parties other than the infant, or person of unsound mind.

**TREASURY NOTICE.**

UNCOVENANTED DEPUTY COLLECTOR BABOO NOBIN KRISHNA SIRCAR has been placed in charge of the Jessore Treasury, and authorized to draw Bills on other Treasuries.

SREENAATH GHOSH, *Personal Asst. to Commr.*

COMM'R'S OFFICE, PRESIDENCY DIVN., CALCUTTA, the 4th June 1874.

**EDUCATIONAL NOTICES.**

**Presidency College, Civil Engineering Department.**

THE SESSION 1874-75 of the Engineering Department will open on Monday, the 15th June.

Candidates for admission are requested to present themselves at the College at 10 A.M. on that date, and no applications for admission will be received after the 30th June.

PRESIDENCY COLLEGE, the 4th June 1874.

J. SUTCLIFFE, *Principal.*

It is hereby notified that, under the orders of the Government of Bengal contained in the Resolution dated the 5th of October 1872, promulgating the Junior Scholarship Rules, five junior scholarships of the second grade and ten of the third grade were allotted to the Presidency Division. They will be distributed among the several districts of the division in the following manner at the ensuing December examination:—

24-Pergunnabs	...	...	...	...	7
Nuddea	...	...	...	...	5
Jessore	...	...	...	...	3

The grade of the scholarship will be determined by the marks obtained by the successful candidate in the divisional list.

It is also notified, in accordance with paragraph 10 of the Rules, that not less than one half of the scholarships will be awarded to students who have qualified in drawing, surveying, and physical geography.

The examination in these subjects will be held in the Kishnaghur College, Jessore Zillah School, and the Senate House, on the 8th and 9th October 1874. For further information candidates can apply to the Inspector of Schools, Presidency Circle, No. 22, Chowringhee Road, Calcutta.

The 12th June 1874.

H. ULICK BROWN, *Commissioner.*

**NOTICE.**

It is hereby notified for general information that, on and after the 1st of July next, all applications to the Collector of Customs must bear a court fee stamp of one anna, as required by Article I, Schedule II of Act VII of 1873, the use of the one-anna revenue stamps intended for bills and receipts on such applications being irregular.

CALCUTTA CUSTOM HOUSE, the 1st June 1874.

# OPIMUM NOTIFICATION.

No. 578B.

Notice is hereby given that the Seventh Sale of Opium, the provision of 1872-73, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Monday, the 6th July 1874, at 11 A.M., and will comprise 3,750 chests, viz.—

				Chests.
Behar Opium	...	...	...	2,185
Bcnares „	...	...	...	1,565
Total				3,750

2. The general conditions of the sale now advertised will be the same as usual; they may be ascertained by reference to the Notification issued on the 8th November 1873, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 11th and 21st July, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Saturday, the 11th July 1874, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Tuesday, the 21st July 1874.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares opium will be brought to sale in the present year on or about the dates specified below. The Member in charge of the Opium Department, however, reserves to himself the right of altering these dates, should circumstances render it expedient to do so:—

Dates.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Wednesday, 5th August 1874	...	2,185	1,565	3,750
On or about Monday, 7th September „	...	2,185	1,565	3,750
On or about Wednesday, 7th October „	...	2,185	1,565	3,750
On or about Friday, 6th November „	...	2,185	1,565	3,750
On or about Thursday, 3rd December „	...	2,185	1,565	3,750
Total	...	10,925	7,825	18,750

By order of the Member-in-charge,

W. H. GRIMLEY, *Offg. Secretary.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 2nd June 1874.

## NOTIFICATION.

SEAL Tenders will be received at this office up to 11 A.M. of Tuesday, the 23rd instant, for removing all the chests of Abkarce and Provision Opium which may be brought down to the Presidency from the Patna and Ghazeeepore Opium factories by rail, during a period of one year, from the East Indian Railway Company's Station at Armenian Ghat to the Government Opium Godowns situated within the Custom House premises, and there stacking them as the Intendant in charge shall from time to time direct.

2. The tenders should state the rate per hundred chests, all charges to be incurred being included. Security to the amount of one thousand rupees must be deposited by the party whose tender may be accepted.

3. The Member-in-Charge does not bind himself to accept the lowest or any tender.

By order of the Member-in-Charge,

W. H. GRIMLEY, *Offg. Secy.*

BOARD OF REVENUE, L. P., FORT WILLIAM, the 10th June 1874.

## CENTRAL RELIEF FUND.

*Précis of the Executive Committee's Proceedings from 4th May 1874 to  
3rd June 1874.*

MEETINGS were held on the 4th May, 14th May, 21st May, and 30th May.  
Up to the 30th May the receipts of the fund were—

		Rs.	As.	P.
Subscriptions	...	18,46,214	3	11
Government contributions	...	10,17,197	14	2
Total	...	28,63,412	2	1

The following remittances were made in May:—

			Rs.
Bankoora	...	...	4,000
Manbhoom	...	...	5,000
Lohardugga	...	...	1,000
Hazareebagh	...	...	11,500
Moorshednabad	...	...	20,000
Total	...	...	41,500

This, added to the Rs. 7,99,000 allotted up to the date of last précis, makes a total allotment of Rs. 8,40,500 up to the end of May 1874.

The requisitions made by the various districts for the month of June already exceed Rs. 1,60,000.

The committee have written to the Chief Commissioner of Oudh, and the Chairman of the North-Western Provinces' relief committee, to the effect that it has been held that subscriptions raised in England are intended to relieve famine not merely in Bengal, but in whatever part of India such relief is needed; and that in this view the committee will be glad to consider requisitions made upon the funds at their disposal by relief committees in Oudh and the North-Western Provinces.

In a letter of the 15th May 1874, the Lieutenant-Governor accepted the offer of the central committee to take on the charitable fund at their disposal the entire expense of charitable relief under the heads (b), (c), and (d), of the committee's notification of the 4th March. Arrangements have been made accordingly. Heading (b), it may be remembered, includes persons receiving gratuitous relief, who are physically unable to do work; heading (c) those who are doing work; and heading (d) those who, though able to work, are precluded from laboring on Government works by reason of their social rank or caste feelings. Instructions have been issued by the committee, both officially and demi-officially, that cases of persons deserving relief under heading (d) should be liberally considered and dealt with. It is the object of the committee to do something beyond the bare preservation of life, which is the duty which devolves upon the Government. They have directed that a supply of clothing should be given out to the destitute before the rains set in; but, beyond this, they have not suggested any particular method of affording assistance, because they think it best to leave the mode of affording such relief to the discretion of the local committees. But they have expressed a desire that such assistance, when deserved, should be given liberally, and have announced that all reasonable applications for funds for such purposes will be favorably responded to.

The Manchester committee, while forwarding £10,000, telegraphed that the sum was to be spent "for purchases Government cannot meet." The mail shewed this to be in accordance with rules passed at the Manchester meeting that, "the funds already or hereafter to be raised in Manchester ought not to be used as a substitute for those means which Government is bound to employ to meet the crisis in India, but should be devoted to purposes which Government, by the general rule of distribution, cannot meet."

The new arrangement seems exactly to comply with the wishes of the Manchester subscribers. The Government takes upon it the very heavy task of supporting bare life. The committee undertake to do more, to afford relief to those whose lives the State saves, and to do so with a degree of tenderness and liberality which cannot be expected in the distribution of State funds. The committee, therefore, expect that the Manchester subscriptions will now become available for use.

The sum of £10,000 has also been received through the Lord Provost of Glasgow, the money to be "applied for the relief of such as Government aid will not reach, or to supplement such aid where insufficient."

This sum also will be available, on the principle mentioned in the previous paragraph.

Replies to the committee's calls for bi-monthly accounts and statements of persons relieved have not been, as yet, received for all the districts.

The committee will therefore submit their accounts in the précis for the current month, drawn up in a new and much more complete form, which has been approved by the Government of Bengal.

#### DISTRICT RELIEF COMMITTEES.

The following gentlemen have consented to act as members of the additional relief sub-committees in the Jungypore sub-division:—

##### *North-West, Sooty, Relief Sub-Committee.*

Baboo Guru Gobinda Datta.	Baboo Chhakari Acharjca.
" Rajeshar Chuckerbutty.	" Hari Lal Bisvas.
" Paresh Bhattacharjca.	" Ishan Chandra Mittra.
" Paresh Nath Panday.	" Hara Dhan Mandal.
Sub-Inspector of Sooty, <i>ex-officio</i> .	

##### *Dhulian Relief Sub-Committee.*

Baboo Jaga Bandhu Ray.	Baboo Lal Chaud Shaha.
" Kala Chaud Chaturji.	" Dole Gobinda Paure.
Sub-Inspector of Shamshergunge, <i>ex-officio</i> .	" Jadab Chandra Shaha.
Baboo Shukha May Haldar.	" Bishen Chand Baid.
	" Dina Bandhu Chaturji.
BERHAMPORE, the 10th June 1874.	W. WARELL, <i>Offg. Magte. &amp; Collr.</i>

#### *Proceedings of the Beerbhoom District Relief Committee at a Meeting held on Monday, the 1st June 1874.*

##### PRESENT :

R. D. Hime, Esq., <i>in the Chair</i> .	Rev. W. A. Hobbs.
S. H. C. Taylor, Esq.	Baboo Rama Prosunno Singh.
Dr. R. A. Barker.	" Kooloda Prosad Sen.

1. The Magistrate stated the particulars of his visit to the mofussil and to the several relief agencies on Sunday, the 24th May 1874, and intimated that Haradhun Dutt, Superintendent in charge of the Kusba depôt, has been removed, and Nobin Madhub Singh appointed in his place on a salary of Rs. 30 per mensem.

2. It was resolved that, as Baboo Ram Runjun Chuckerbutty, zemindar of Hetampore, shows great generosity in the relief of his ryots, and of the poor generally, particular notice of his proceedings be taken in committee, with a view to their publication for the information of the public, and for an example to other zemindars.

3. As the expenditure appears to have exceeded the funds at the disposal of the committee, it is resolved that a letter be written to Baboo Ram Runjun Chuckerbutty, calling upon him to pay up the remainder of his subscription, and also to convey to him the thanks of the committee for his highly laudable exertions in the relief of the distressed.

4. Read, a letter from the Government of India, giving cover to a set of rules for the guardianship of famine orphans. Resolved, that a copy of the rules be forwarded for the guidance of the several relief agencies.

5. Read, a letter from Mr. Simpson, the Executive Engineer, calling attention to the distressed condition of some villages on the Soory and Adjai road, where it is said many persons have died of cholera, leaving their families destitute. Resolved, that the relief agent at Kusba be directed to proceed to the villages and adopt such measures of relief as may be necessary, reporting full particulars to the Magistrate.

6. Read, a letter from the native doctor at Elambazar, forwarding a list of persons who, he says, are in great distress. The committee directs that the list be forwarded to Mr. Macewan, asking him to enquire about the persons named, and, if they are distressed, as stated, to give them such relief as he may think proper.

7. Read, a letter from Baboo Protap Chunder Singh, Honorary Relief Agent at Batikar, asking to have his travelling expenses on inspection duty paid. As the Baboo is a wealthy zemindar, it is resolved that he be requested to reconsider the application.

8. Read, a petition from Ram Das Tantee, of village Tantecpara, asking for advance of thread and cotton to his fellow villagers, who, he says, are in distress. The Magistrate stating that he has enquired through the police, who have reported to the effect that there is no serious distress among the weavers of that village, the committee declines to accede.

9. Rice having been found from the police returns to sell at an average rate of 12 seers 9 chittacks per rupee throughout the district, and at 13 seers per rupee at Bulpore, it was resolved that the committee cannot purchase the Government rice imported into this district at the rate fixed, viz., 12 seers per rupee.

Soony, the 4th June 1874.

R. D. HIME, *Collector.*

PART II.

Advertisements.

---

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Patna, will be put up to sale at the Collector's Office at Bankipore at 12 o'clock on Thursday, the 16th July 1874, corresponding with 1st Sarabun B.S.

The purchasers of these plots will be subject to the following conditions:—

1st.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

2nd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3rd.—The plots will be sold revenue-free to the highest bidders.

4th.—The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

## ADVERTISEMENT OF SALE.

NOTICE is hereby given that the proprietary right of Government to the undermentioned estate, situated in the district of Burdwan, from 1873-74 to 1900, will be put up to sale at the sub-divisional office of Culna on Friday, the 19th June 1874, corresponding with the 6th Assar 1281, B. S., and that the proprietary right to be sold will not only entitle the purchaser to re-settlement at the expiry of the present settlement, but to the receipt of Malikana, should he decline the assessments which may then be fixed.

The purchasers of this estate will be subject to the following conditions :—

1st.—The estate will be sold, subject to a light jumma of Rs. 4 per annum, to the highest bidder.

2nd.—The sale will be subject to existing leases and to the rights conferred by the settlement proceedings, and by the laws in force,—and purchasers will be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities.

3rd.—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid down at once.

4th.—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office-day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up to sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

5th.—The purchaser will be bound to perform putwaree's duties.

RUNGPORE COLLECTOR'S OFFICE, the 8th June 1874. E. G. GLAZIER, *Offg. Collector.*

**Notice**

Is hereby given that the land specified in the Schedule hereunto annexed, and on which the plan is open to inspection at the office of the Deputy Commissioner of Nowgong, Assam, will be sold by public auction at the office of the said Deputy Commissioner at 11 o'clock on the 2nd October 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for adjudication of claims to waste lands) or owing to any other cause.

For the conditions of sale see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner of Nowgong, Assam.

**SCHEDULE.**

A lot of waste land, consisting of about 396 acres, situated in mouzah Nizorikha Hatiraon, in the district of Nowgong, Assam, and bounded as follows:—

**North.**—A line drawn from a pillar marked N on the bank of a stream called "Dogajooree" to a pillar O, on the north-east, along the edge of the above stream, distance 100 yards. From pillar O to a pillar P, on the north-west, along the edge of the above stream, distance 260 yards. From pillar P to a pillar Q, on the north-west, along the edge of the said stream, distance 360 yards. From pillar Q to a pillar R, on the south-west, along the edge of the above stream, distance 200 yards. From pillar R to a pillar S, on the north-west, along the edge of the above stream, distance 350 yards. From pillar S to a pillar T, on the south-west, along the edge of the above stream, distance 233½ yards. From pillar T to a pillar U, on the north-west, along the edge of the above stream, distance 140 yards. From pillar U to a pillar V, on the south-west, along the edge of the above stream, distance 233½ yards. From pillar V to a pillar A, on the south-west, along the edge of the said stream, distance 166½ yards.

**South.**—A line drawn from a pillar marked F, on the west, at the foot of the hill called "Matiapahar," to a pillar G, on the north-east, along the foot of the above hill, distance 233½ yards. From pillar G to a pillar H, on the south-east, along the foot of the above hill, distance 180 yards. From pillar H to a pillar I, on the south-east, distance 150 yards.

**West.**—A line drawn from a pillar marked A, on the bank of the stream called "Dogajooree" to a pillar B, on the south-east, distance 129 yards. From pillar B to a pillar C, on the south-east, distance 200 yards. From pillar C to a pillar D, on the south-west, distance 233½ yards. From pillar D to a pillar E, on the south-west, distance 625 yards. From pillar E to a pillar F, on the south-east, at the foot of the hill called "Matiapahar," distance 500 yards.

**East.**—A line drawn from a pillar marked I, on the south-west, to a pillar J, on the north-east, distance 250 yards. From pillar J to a pillar K, on the north-east, distance 233½ yards. From pillar K to a pillar L, on the north-east, distance 700 yards. From pillar L to a pillar M, on the north-east, distance 550 yards. From pillar M to a pillar N, on the north-east, distance 140 yards.

The pillars are marked A to V in the map filed in the office of the Deputy Commissioner, Nowgong, Assam.

Nowgong, Assam, the 19th May 1874.

J. SHERER, *Dy. Commr.*

## [Second Publication.]

## Notice

Is hereby given that the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Deputy Commissioner's office at Debrooghur, will be sold by public auction at the said Deputy Commissioner's office at 12 o'clock on the 2nd September 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

For the conditions of sale see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner.

## SCHEDULE.

A lot of waste land consisting of about 741 acres, situated in mouzah Kodomoni, in the district of Luekhimpore, and bounded as follows:—

*North*.—By a straight line through the forest from a pillar, 1, bearing  $242^{\circ}$ , past an intermediate pillar, 2, to pillar 3, measuring 2,282 yards.

*West*.—By a straight line from pillar 3, through tree forest, bearing  $176^{\circ}$  and measuring 1,040 yards, to a pillar, 4; and thence by a straight line through tree forest, bearing  $151^{\circ}$  and measuring 660 yards, to a pillar, 5, on the Tettelia bheel.

*South*.—From pillar 5, along the northerly edge of the Tettelia bheel and the course of the Lohitkora river, to a pillar, 6, measuring, as the crow flies, 1,650 yards.

*East*.—By a straight line from pillar 6, on the Lohitkora river, through tree forest, bearing  $20^{\circ}$  and measuring 825 yards, to a pillar, 7; and thence by a straight line through tree forest, bearing  $355^{\circ}$  and measuring 1,045 yards, to pillar 1.

The pillars are marked from 1 to 7 on the map filed in the Deputy Commissioner's office.

DEBROOGHUR, ASSAM, the 17th April 1874.

W. S. CLARKE, *Dy. Commissioner*.

## Notice

Is hereby given that the land specified in the Schedule hereto annexed, and of which the plan is open to inspection at the office of the Deputy Commissioner of Cachar, will be sold by public auction at the office of the said Deputy Commissioner at 11 o'clock on the 2nd September 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause. For the conditions of sale, see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner of Cachar.

## SCHEDULE.

A lot of waste land, consisting of 1,087 acres 1 rood 20 perches, situated in Pergunnah Berkhola, Mouzah Abong, in the district of Cachar, and bounded as follows:—

*East*.—The Abong river from pillar No. 1, at confluence of the Abong and Cacharee Cherra with the Dooloo river, to pillar No. 2, on the banks of the Abong and at the foot of the Casee Teelah to the north; thence, to pillar No. 3, on the top of the same teelah, and No. 4 pillar at the northern foot.

*North*.—From pillar No. 4, as above, to pillar No. 5 on the banks of the Mewah Cherra.

*West*.—From pillar No. 5 along pillars Nos. 6, 7, 8, 9, and 10, at the edge of the jungle on high teelals to the west, and along No. 11 on the banks of the Cacharee Cherra.

*South*.—The Cacharee Cherra, between pillars No. 11 and No. 1.

The pillars are numbered from 1 to 11 on the map filed in the office of the Deputy Commissioner of Cachar.

SILCHAR, the 27th April 1874.

O. G. R. McWILLIAM, *Offg. Deputy Commissioner*.

## Notice

Is hereby given that the lease for three years of the undermentioned lime-quarry, situate in the Khasi Hills, will be put up to auction at the Deputy Commissioner's Office, Shillong, on Wednesday, the 1st July 1874, at the upset price mentioned opposite the mahal.

The rent payable half-yearly in advance.

No.	Name of the Quarry.	Where situate.	Upset price per annum.
1	Borsyrmai ... ..	In Duara Nongtyrmen, Khasi Hills. Bounded on the north by pun-leaf plantation; south, Ka Lad Luka; east, Lum Dilong; west, Lum Raitruh.	Rs. As. P. 1,000 0 0

H. S. BIVAR, *Dy. Commr., Khasi and Jynteah Hills*.

SHILLONG, DY. COMM'R.'S OFFICE, the 30th May 1874.

## Commissioners for making Improvements in the Port of Calcutta.

## NOTICE.

## Administrator-General's Office.

THE undermentioned estates having come under charge of this office, all persons having claims upon, being indebted to, or holding property belonging to, the said estates, are requested to place themselves in immediate communication with the undersigned:—

William Hoadley, a Temporary Supervisor in the Neemuch State Railway, died at Burnugger on the 28th March 1874.

William Butt, an Engineer in the service of the Peninsular and Oriental Steam Navigation Company, died in Calcutta, on the 16th May 1874.

Joseph Samuel Powditch, employed in the Department of Public Works, at Jehanabad, in the district of Gya, died at Jehanabad on the 16th July 1873.

William Henry Ryves, a Brigadier-General in the Bengal Staff Corps, died at Agra on the 30th September 1873.

Clement Edward Benthall, a Captain attached to the General List of Cavalry, died at Allahabad on the 3rd September 1873.

L. P. D. BROUGHTON, Administrator-General.

HIGH COURT, CALCUTTA, the 6th June 1874.

(231—1)

PURSUANT to a decree of the High Court of Judicature at Fort William in Bengal, in its Ordinary Original Civil Jurisdiction, made in suit No. 324 of one thousand eight hundred and seventy-three (which Lewis Price Delves Broughton, Administrator-General of Bengal and administrator to the estate of Thomas Emerson Carter, deceased, is plaintiff, and William Spink, of No. 5, Government Place in the town of Calcutta, and George Parbury, of No. 87, Newgate Street, in the City of London, and William F. Allen, of No. 13, Waterloo Place, London, and Captain Engledue, of No. 3, Durham Villas, Kensington, London, and George Macnair, of No. 44, Hamilton Terrace, St. John's Wood, London, the liquidators of the Bank of Hindoostan, China, and Japan, are defendants), and dated the twenty-seventh day of January, one thousand eight hundred and seventy-four, the creditors of the said Thomas Emerson Carter, late of No. 34, Canning Street, in the Town of Calcutta, Merchant and Tea-planter, who died on or about the fourteenth day of August one thousand eight hundred and seventy-two, are, on or before Monday, the twenty-third day of November, one thousand eight hundred and seventy-four, to come in and prove their debts and claims at the Chambers of the sitting Judge in the Court House, or in default thereof they will be peremptorily excluded from the benefit of the said decree. Saturday, the fifth day of December one thousand eight hundred and seventy-four, at the hour of eleven o'clock in the forenoon, at the said Chambers is appointed for hearing and adjudicating upon the said claims.

M. CAMELL, *Plaintiff's Attorney.*

R. BELCHAMBERS, *Registrar.*

CALCUTTA HIGH COURT, ORIGINAL JURISDICTION, the 16th day of May 1874.

(221—4)

#### Notice.

NOTICE is hereby given that the effects belonging to the estate of George Augustus Harris, of the Trigonometrical Survey, who demised at Shillong, Khasi Hills, on the 12th May 1874, are in the custody of the Court of the Deputy Commissioner, Khasi and Jynteah Hills, and will be delivered to any person who may be legally empowered to administer to the estate.

A. St. John Carrythers, *Attorney*.

IN the matter of ANN LYDIA PARLEBRAN, an Insolvent.

On Tuesday, the 2nd day of June instant, an account of the receipts and disbursements of the Official Assignee from the 28th day of November 1873 to the 30th day of May last was filed in the Office of the Chief Clerk, and it was ordered that Tuesday, the 7th day of July next, be appointed for the further hearing of this matter for the purpose of making a dividend.

 Any Creditor or other person interested who may intend to establish or oppose any claim upon the estate of the said Insolvent may attend and be heard, having given notice to the Chief Clerk three clear days before the day of hearing.

A. B. Miller, *Official Assignee*.

IN the matter of WILLIAM SAVIEL, an Insolvent.

On Tuesday, the 2nd day of June instant, by an order of this Court the said Insolvent was adjudged entitled to his personal discharge under the Act XI Vic., Chap. XXI, as to all persons named in his schedule as creditors or claiming to be creditors, respectively.

Insolvent in person.

Chief Clerk's Office, the 9th June 1874.

IN the matter of EDWARD THURSTON O'CONNOR, an Insolvent.

Notice that an application for an *ad interim* protection order has been this day made by the said Insolvent, and that such application will be heard and disposed of by the Acting Commissioner of the Insolvent Court on Tuesday, the 23rd day of June instant, at the hour of ten o'clock in the forenoon.

 Any Creditor of the said Insolvent desirous of opposing such application must appear before the said Court at the time and place aforesaid.

M. Camell, *Attorney*.

IN the matter of SHAMA CHURN DASS AND CHUNDERBHOOSHUN DASS, lately residing at No. 103, Musjeed Barry Street, in Hooghlycooria, in the town of Calcutta and carrying on business in partnership at No. 105, Racha Bazar Street, in the said town of Calcutta, as Cloth Merchants, under the name, style, and firm of Shama Churn Dass and Sons, Insolvents.

On Wednesday, the 10th day of June instant, it was, on the petition of Obhoyram, Muddengopal, and Saleem Chund, creditors of the said Insolvents, adjudged that the said Shama Churn Dass and Chunderbhooshun Dass have committed an act of Insolvency under the provisions of the Act XI Vic., Chap. XXI, and by another order of the same date the estate and effects of the said Insolvents were vested in the Official Assignee.

M. Camell, *Attorney*.

IN the matter of AMAND DOLLAT, of No. 4, Dalhousie Square, in the town of Calcutta, carrying on business there as a Draper and Milliner, and also as a Wine and Provision Merchant, under the style of Bodelie and Company, an Insolvent.

Notice that the petition of the said Insolvent seeking the benefit of the Act XI Vic., Chap. XXI, was filed in the Office of the Chief Clerk on Thursday, the 11th day of June instant, and by an order of the same date the estate and effects of the said Insolvent were vested in the Official Assignee.

Berners & Co., *Attorneys*.

IN the matter of JOHN RICHARD FRASER, an Insolvent.

On Tuesday, the 6th day of January last, it was ordered that the hearing of the matters of the petition of the said Insolvent be and the same is hereby adjourned to the first Court-day in January 1875, and this Court doth hereby make this *ad interim* protection order for the protection of the said Insolvent from arrest, to take effect from the date hereof, in respect of all the debts and liabilities mentioned in the schedule of the said Insolvent filed in this Court, which protection shall continue in force until the said first Court-day in January 1875, provided the said Insolvent shall in the interim pay the Official Assignee of this Court, for the benefit of the estate of the said Insolvent, Rs. 50 a month from his income; the first of such payments is to be made on the fifth day of February next, and thereafter on the fifth day of each succeeding month, and that the said Insolvent do then attend to be examined before the said Court.

M. M. Zurab, *Attorney*.

Chief Clerk's Office, the 16th June 1874.

*In the Court for the Relief of Insolvent Debtors at Calcutta.*

In the matter of Walter Newton and Alfred Preston, lately carrying on business in copartnership at Belatee Bungalow, Calcutta, as Wine Merchants and Dealers in Oilman's and other Stores and Provisions, under the firm of Payne and Company, Insolvents.

NOTICE is hereby given that by an order of this Court made in the above matter on and bearing date the second day of June, one thousand eight hundred and seventy-four, it was ordered that Tuesday, the first day of December, one thousand eight hundred and seventy-four, should be fixed for a meeting of creditors for proof of debts of the Insolvents' Bombay firm of "Payne & Co.," and that the creditors of the said firm of "Payne & Co.," Bombay, who might be resident in British India should on or before the thirty-first day of August, one thousand eight hundred and seventy-four, and the creditors of the same firm who might be resident out of British India should on or before the thirty-first day of October, one thousand eight hundred and seventy-four, file in the Office of the Chief Clerk of this Court a statement of the amount of their respective claims against the estate of the said Insolvents in their said firm of Payne and Company, Bombay, duly verified by affidavit, and that thereupon the said Chief Clerk should form a Schedule of the said Bombay firm of Payne and Company from the claims so to be filed.

##### THE SECOND SCHEDULE.

##### Enactments repealed.

*A Bill to regulate Distresses for Rents in the Presidency Towns.*

For the purpose of regulating distresses for rents in the Towns of Calcutta, Madras and Bombay;

Preamble.

It is hereby enacted as follows:—

##### I. Preliminary.

1. This Act may be called "The Distress Act, 1874," and it shall come into force at once.

It extends to every place within the local limits of the ordinary original civil jurisdictions of the High Courts of Judicature at Fort William, Madras and Bombay;

But nothing herein contained applies to any rent due to Government.

2. The enactments specified in the second schedule hereto annexed are repealed to the extent mentioned in the third column of the same schedule.

All appointments made and securities given under any of the said enactments shall be deemed to be respectively made and given under this Act.

The reference to Act No. VII of 1847 made in Act XXIII of 1850, section three, shall be read as if made to this Act.

3. In this Act, "Court of Small Causes"

"Court of Small" means the Court of Small Causes defined in Act No. IX of 1850 in Calcutta, Madras or Bombay, as the case may be.

*II. Bailiffs and Appraisers.*

4. The Judges of the Court of Small Causes may appoint four or more persons to be bailiffs and appraisers for the purpose of this Act, and may from time to time, with the previous sanction of the Local Government, fix such remuneration for the services of such officers as the said Judges think fit, and may suspend or remove them.

5. The persons so appointed shall give security to be approved by the said Judges faithfully to discharge the duties of their office, and they shall be deemed to be public servants within the meaning of the Indian Penal Code.

*III. Issue of Distress-Warrants.*

6. Any person claiming to be entitled to arrears of rent of any house or premises to which this Act extends, or his duly constituted attorney, may apply to any Judge of the Court of Small Causes for such warrant as hereinafter mentioned.

The application shall be supported by an affidavit to the effect of the form marked A in the first schedule hereto annexed.

7. The Judge may thereupon issue a warrant under his hand and seal to the effect of the form contained in the same schedule (marked B) addressed to any one of such bailiffs.

The Judge may at his discretion, upon personal examination of the person applying for such warrant, decline to issue the same.

*IV. Of the making of Distresses.*

8. Every distress under this Act shall be made after sunrise and before sunset, and not at any other time.

9. The bailiff directed to make the distress may force open any stable, out-house, or other building, and may also enter any dwelling-house, the outer door of which may be open and may break open the door of any room in such dwelling-house for the purpose of seizing property liable to be seized under this Act.

Provided that he shall not enter or break open the door of any room appropriated for the *zanana* or residence of women, which by the usage of the country, is considered private.

10. In pursuance of the warrant aforesaid the bailiff shall seize the moveable property found upon the premises mentioned in the warrant and belonging to the person from whom the rent is claimed (hereinafter called the debtor), or such part thereof as may in the bailiff's judgment be sufficient to cover the amount of the said rent, together with the costs of the said distress.

11. The bailiff may impound or otherwise secure the property so seized on the premises chargeable with the rent.

12. On seizing any property under section ten, the bailiff shall make an inventory of such property and shall give a notice in writing to the effect of the Form in the first schedule hereto annexed (marked C) to the debtor, or to any other person upon his behalf upon the said premises.

Notice of intended appraisement and sale.

The bailiff shall file in the Court of Small Causes copies of the said inventory and notice:

13. The debtor may, at any time within five days from such seizure, apply to any Judge of the said Court to discharge or suspend the warrant, and such Judge may discharge or suspend such warrant accordingly,

and any of the said Judges may in his discretion give reasonable time to the debtor to pay the rent due from him.

Upon any such application the costs attending it and attending the issue and execution of the warrant shall be in the discretion of the Judge, and shall be paid as he directs.

*V. Appraisement and Sale of Distress.*

14. In default of such application, any two of such bailiffs may at the expiration of five days from such seizure appraise the property so seized, and give notice in writing to the effect of the Form in the first schedule hereto annexed (marked D). The bailiff shall file in the said Court a copy of such notice.

15. The distrained property shall be sold on the day mentioned in such notice, and the said bailiffs shall on realizing the proceeds pay over the amount thereof to the Chief Clerk of the said Court, and such amount shall be applied first in payment of the costs of the said distress and then in satisfaction of the debt, and the surplus, if any, shall be returned to the debtor.

Provided that the debtor may direct that the sale shall take place in any other manner, first giving security for any extra costs thereby occasioned.

*VI. Miscellaneous.*

16. No costs shall be taken or demanded or any distress under this Act except those mentioned in the part of the first schedule hereto annexed (marked E).

The Judges of the Court of Small Causes may apply the sum so raised as costs towards the payment of the contingent charges and remuneration of the said bailiffs as appears to the said Judges expedient.

17. The Chief Clerk of the Court of Small Causes shall keep a book in which all sums received as costs upon distresses made under this Act, and all sums paid as remuneration to the said bailiffs, and all contingent charges incurred in respect of such distresses shall be duly entered. He shall also enter in the said book all sums realized by sale of the property distrained and paid over to landlords under the provisions of this Act.

18. No distress shall be levied for arrears of rent, except under the provisions of this Act;

and any person, except a bailiff appointed under section four, levying or attempting to levy any such distress shall, on conviction before a Magistrate of Police, be liable to be punished by fine not exceeding *five hundred* rupees and imprisonment for a term not exceeding *three* months in addition to any other liability he may have incurred by his proceedings.

## THE FIRST SCHEDULE.

A.

## II.—ACTS.

Number and Year.	Subject.	Extent of repeal.
VII of 1847 ...	Distresses for small rents in Calcutta ...	The whole.
IX of 1850 ...	Extension of Act VII of 1847 ...	Section eighty-nine.
XXVI of 1864 ...	Extending jurisdiction of Presidency Small Cause Courts.	Section four.

## STATEMENT OF OBJECTS AND REASONS.

In Calcutta, Madras and Bombay distresses for arrears of rent not exceeding a thousand rupees are provided for by the Small Cause Courts Acts, VII of 1847, IX of 1850, section 89, and XXVI of 1864, section 4. But for the law regulating distresses for arrears exceeding that sum, we must look to the Common Law and to the series of antiquated Statutes on this subject, eleven in number, which, from the foundation of the Mayors' Courts in 1726, have been deemed in force in the Presidency Towns.

This is obviously inconvenient, and the primary object of the present Bill is to extend the present law as to distresses for arrears not exceeding a thousand rupees to arrears exceeding that sum, and thus to render it possible to repeal expressly the Statutes above referred to. It will be found that so much of the law as is now useful and in active operation has been embodied in the present Bill.

The opportunity has been taken to amend the arrangement and wording of the present law relating to distress for arrears not exceeding a thousand rupees and to define the powers of bailiffs to force open places.

CALCUTTA,

*A Bill to consolidate the law relating to the Sheriffs and to the execution of the decrees of the High Courts in the exercise of their Original Civil Jurisdiction.*

WHEREAS it is expedient to consolidate the law relating to the Sheriffs of Calcutta, Madras and Bombay, and to the execution of the decrees of the High Courts of Judicature at Fort William, Madras and Bombay, in the exercise of their Original Civil Jurisdiction ; It is hereby enacted as follows :—

*I.—Preliminary.*

- |               |  |
|---------------|--|
| Short title.  | 1. This Act may be called "The Sheriffs' Act, 1874." |
| Extent.       | It extends to the whole of British India ;           |
| Commencement. | And it shall come into force at once.                |

2. The enactments specified in the first and second parts of the schedule hereto annexed shall be wholly repealed.

And the Charters mentioned in the third part of the same schedule shall be repealed to the extent shewn in the second column thereof.

But all Sheriffs and Deputy Sheriffs appointed, fees prescribed and writs issued, under any such enactment or Charter shall be deemed to be respectively appointed, prescribed and issued under this Act.

*II.—Appointment of Sheriffs and Deputy Sheriffs.*

3. The Local Government shall, yearly, on the first Tuesday in December or as soon after as may be, appoint a Sheriff for the year ensuing, to be computed from the twentieth day of December next after such appointment.

Provided that, in the case of the Local Government of Bengal, the person so appointed shall be one of three persons resident in or near the town of Calcutta, to be nominated yearly to the

Local Government by the Chief Justice of the High Court at least three days before the said first Tuesday.

The persons so appointed shall be called respectively the Sheriff of Calcutta, the Sheriff of Madras and the Sheriff of Bombay.

4. Every such Sheriff shall continue in office during such year, and until another is duly appointed into the said office.

5. If the Sheriff die in his office, or depart from the Lower Provinces of Bengal, the Presidency of Fort St. George, or the Presidency of Bombay (as the case may be), another person shall, as soon as conveniently may be after such death or departure, be in like manner nominated and appointed, and shall continue in his office for the remainder of the year, or until another Sheriff is duly appointed into the said office.

6. Every Sheriff shall, by writing under his hand, appoint a Deputy Sheriff, and shall during his continuance in office be responsible for such Deputy.

### III.—Duties of Sheriff.

7. The Sheriff and Deputy Sheriff are authorized—

(a) to execute all the writs, summonses, rules, orders, warrants, commands and process of the High Court;

(b) to make return of the same, together with the execution thereof, to the High Court;

(c) to receive and detain in prison such persons as are committed to the Sheriff for that purpose by the High Court and by the Chief Justice and Judges, respectively.

8. Whenever the High Court directs or awards any process against the Sheriff himself,

or awards any process, which, on account of his being related to the parties, or for any other reason, it is inexpedient to require him to execute, the High Court shall appoint some other fit person to execute and return the same;

and for that purpose the said process shall be directed to the person so appointed;

and the cause of such special proceeding shall be entered on the record.

9. The Sheriff shall not be compelled or compellable to go in person or by his officers or deputies beyond the local limits of the ordinary original civil jurisdiction of the High Court for the execution of any of its processes.

But whenever the process of the said Court has to be executed beyond the said limits, the Court shall, by order or upon motion, direct by what person and in what manner such process shall be executed and the terms which the party issuing the same shall enter into.

And the Sheriff shall grant his special warrant or deputation to such person as the Court may direct for the execution of such process.

And in that case the Sheriff, his executors or administrators, shall not be responsible for any act done in or respecting the execution of such process under or by virtue of such special warrant.

And any persons aggrieved under or by pretence of such warrant may seek their remedy under any security which may have been directed to have been taken on the occasion, and which the said Court is authorized to direct to be taken.

### IV.—The Sheriffs' Fees.

10. The High Court shall have power from time to time to settle tables of fees to be allowed to the Sheriff on account of the execution of process, whether issued by the High Court, or by a Court, Judge or Magistrate beyond the local limits of its ordinary original civil jurisdiction, and of the sums to be allowed for costs of advertisements or other notifications of sales of property;

Such tables, when, in the case of the High Court of Judicature at Fort William, they have received the sanction of the Governor General in Council, and in the case of the High Courts of Judicature at Madras and Bombay they have received the sanction of the Local Government, shall have the force of law.

11. No Court, Judge or Magistrate beyond the local limits of the ordinary original civil jurisdiction of the said High Courts, shall issue any process to be executed by the Sheriff unless upon payment by the party applying therefor of the fees and sums payable under the said tables.

12. Every such Court, Judge and Magistrate, issuing process as aforesaid, shall cause a separate account to be kept of the amount of all fees and sums so paid, and shall from time to time, as directed by Government, cause the amount thereof to be paid into the local treasury.

13. The Local Government shall, twice in each year, account for and pay over to the Sheriff for the time being, the amount of fees and sums so paid, after deducting all necessary expenses of receiving and keeping account thereof, and remitting the net proceeds thereof to Calcutta, Madras, or Bombay, as the case may be; or, where the amount has accrued in the shrievalty of more than one Sheriff, shall apportion the sum paid accordingly between the Sheriff for the time being and the then late Sheriff.

14. The Local Government may compound with the Sheriff for a monthly payment to be made to him instead of such fees and sums, and during such composition may appropriate the said fees and sums to the purposes of Government.

15. Over and above such fees and sums, or any such monthly payment received instead of such fees and sums, the Sheriff shall be entitled to a fee after the rate of two rupees eight annas for each hundred rupees of the value of any goods or property taken and sold by him in execution of any process issued by any Court, Judge, or Magistrate beyond the local limits of the ordinary original civil jurisdiction of the High Court, which fee shall be taken to cover all expenses connected with the seizure and sale, except the expense of advertisements.

16. No fee, estimated upon the amount of the sum for which any person is taken in execution, shall be payable to the Sheriff, or any of his bailiffs, for taking the body of any person in execution on any process issued by any Court, Judge or Magistrate out of the local limits of the ordinary original civil jurisdiction of the High Court; but instead thereof, such fees shall be payable to the Sheriff for taking the body of any person in execution of any such process as shall be settled from time to time by the High Court as aforesaid.

17. If any person taken in execution on any such process escapes out of the legal custody of the Sheriff, the Sheriff shall be liable only to a suit for damages in consequence of such escape, sustained by the person at whose suit the prisoner was taken.

The damages in such a suit and in any other suit against the Sheriff for breach of his official duty shall not exceed the amount of the loss which the breach has really occasioned.

#### V.—Execution of Decrees.

18. Under any writ of attachment issued out of the High Court, may be seized and sold any lands, houses, or other immoveable property of the party against whose effects such writ issues, whether his estate or interest therein be legal or equitable.

19. The Sheriff under any such writ may put the purchaser in possession of such of the lands, houses, or other immoveable property sold under such writ, of which the judgment-debtor is in the actual possession, and of which an actual delivery can be made.

20. If the immoveable property liable to be sold under such writ be in the possession of any person other than the judgment-debtor, the Sheriff shall not seize such property, but shall sell and convey all the right, title, and interest of the debtor; and such conveyance shall pass the same interest to the purchaser as if the same had been executed by the debtor.

21. In such last-mentioned case, if the property be situate beyond the local limits of the ordinary original civil jurisdiction of the High Court, the Sheriff shall notify such sale to the Judge of the District, who shall cause notice of the same to be officially proclaimed in like manner as if the sale had been effected under a decree of his own Court.

22. In any case of intended sale of immoveable property beyond the said local limits, the Sheriff shall cause a notice specifying the time and place of the intended sale to be stuck up in some conspicuous place in the office of the Collector of the District within which such property is situate and also on some conspicuous part of the property to be sold.

The number of days between the publication of notice and the sale shall not be less than fourteen days, if the property be not distant more than one hundred miles from the High Court; if the dis-

tance shall exceed one hundred miles, the number of days shall be increased by an additional day for every fifty miles of such excess of distance.

The want of such notice or any irregularity in respect thereof, shall not vitiate the sale in the hands of a *bona fide* purchaser.

23. If any lands, houses, or other immoveable property be seized or liable to be sold under any such writ, the Court may, on application to it on behalf of the execution-debtor or of any one of several execution-debtors, if the Court be satisfied that there is reasonable ground to believe that the amount of the judgment may be raised by mortgage of the estate, postpone the sale for a term not exceeding one month to enable the defendant to raise the amount, and direct that the money ordered to be levied by such execution shall be raised by mortgage instead of sale of such lands, houses, or other immoveable property, upon such terms as to the payment of interest upon the judgment or otherwise as the Court thinks fit, and in such case it may give all necessary directions for the execution of such mortgage.

24. Under any such writ of attachment may also be seized money, bank-notes, cheques, bills of exchange, promissory notes, hundis, Government securities, bonds, or other securities for money, and also debts belonging to the said person;

and the Sheriff or other officer having the execution of the writ may pay or deliver over to the party suing out such execution, any money or bank-notes so seized, or a sufficient part thereof,

and shall, with the order of the Court, endorse over or transfer, and without such order, shall hold any such cheques, bills of exchange, promissory notes, hundis, bonds, or other securities for money as a security for the amount by such writ directed to be levied, or so much thereof as have not been otherwise levied and raised,

and may, where he retains the same, sue in his own name as such Sheriff or officer for the recovery of the sum or sums secured thereby, or for any debt seized as aforesaid, when the time of payment thereof has arrived.

The payment to such Sheriff or other officer, or to the party entitled under such endorsement or transfer, by the party liable, with or without suit, or the recovery and levying execution against the party so liable, shall discharge him to the extent of such payment or of such recovery and levy in execution, as the case may be, from his liability on any such cheque, bill of exchange, promissory note, hundi, bond, security, and debt;

and such Sheriff or other officer shall pay over to the party suing out such writ, the money so to be recovered, or such part thereof as may be sufficient to discharge the amount by such writ directed to be levied;

and if, after satisfaction of the amount so to be levied, together with Sheriff's poundage and all lawful charges and expenses, any surplus remain in the hands of such Sheriff or other officer, the same shall be paid to the party against whom such writ

shall be so issued, unless the same is duly attached in the hands of such Sheriff or other officer.

Provided that no Sheriff or other officer shall be

bound to sue any party liable upon any such cheque, bill of

Indemnity for Sheriff. exchange, promissory note, hundi, bond, security or debt, unless the party suing out such execution gives security to the Sheriff for indemnifying him from all costs and expenses to be incurred in the prosecution of such suit, or to which he may become liable in consequence thereof; the nature and amount of such security to be determined, in case they cannot agree, by the proper officer of the Court in which such suit is brought, or, if the Court so order, by some other person appointed by the Court for such purpose.

The expense of preparing and executing such security shall be deducted out of any money recovered in such suit, and the nett proceeds only in this and other cases provided for by this Act shall be considered as received in satisfaction of the debt due to the execution-creditor.

25. If the Sheriff or other officer under any

Sheriff empowered to receive interest on Government security seized by him;

writ of attachment seize any Government security standing in the name of, or belonging to, the party against

whose property such writ is issued, he may receive the interest due on such Government security, whether specially endorsed or otherwise, and sign a receipt for the same;

and may also sell and dispose of such Government

and to sell and endorse such security.

security through a broker at the market-rate of the day;

and if the endorsement of such party is required to transfer such Government security, the Sheriff or other public officer shall endorse the same thus, "A. B. by C. D., Sheriff;"

and such endorsement shall be as effectual to pass the said Government security and to give a good title to the holder thereof as if the same had been endorsed by the party himself or his duly constituted attorney.

26. No debt shall be sold by the Sheriff under

No debt to be sold by Sheriff.

the process of the High Court, but the same shall be realized in the mode herein-

before directed.

27. If any person against whom any writ of

Shares in public Company may be charged to execution.

execution has issued, has any interest in any stock or shares in any public Company, whether incor-

porated or not, carrying on business in India and within the reach of the process of the Court out of which such writ of execution has issued, the High Court or any Judge thereof, on the application of the party who has sued out such writ of execution, may make an order *ex parte* that such interest in such stock or shares, or such of them or such part thereof respectively as the said Court or Judge thinks fit, shall stand charged with the payment of the amount due in respect of such writ of execution.

Such order shall have the like effect and entitle the person in whose favour the same is made to the same remedies and priorities as a charge executed in favour of such person by the person against whom execution shall have been issued;

Service or notice of such order upon or to the Company whose stock or shares is or are the

subject of such order, or upon or to any person claiming an interest in such stock or shares, shall have the like effect, and shall entitle the person in whose favour such order is made to the same remedies against such Company or such last-mentioned person as notice of a charge executed of even date with such order by the person against whom execution has been issued in favour of the person at whose suit the same has been issued.

Nothing herein contained shall prevent the person against whom such order

Proviso.

has been made or any other

person affected thereby, from applying to the Court or Judge by whom such order has been made for its discharge on such grounds as may be just.

28. If such debtor has any interest in any

Property standing in name of any officer of Court. property standing in name of the Accountant-General or any other officer

of the High Court, or in the dividends, interest, or annual produce thereof, the Court or a Judge thereof may make an order that the interest of the defendant in such property shall be applied in payment of such debt, and the Court or Judge may from time to time make such other orders as may be necessary to give full effect to the above provision.

29. A plaintiff or defendant arrested under any

Party arrested under writ when entitled to discharge. writ issued upon any judgment, order, decree, or sentence of any of the said

Courts whereby money is ordered to be paid to any party, shall be entitled to his discharge from such arrest on payment or tender to such party or his attorney in the cause, or to the Sheriff or Gaoler in whose custody such person may be under such writ, of the amount directed to be levied by such writ.

30. A written order under the hand of the

Order of attorney issuing writ when sufficient for discharge of party. attorney in the cause by whom any such writ has been issued, shall justify the Sheriff, Gaoler, or person in whose custody the party may be under such writ in discharging such party, unless the party for whom such attorney professes to act has given written notice to the contrary to such Sheriff, Gaoler, or person in whose custody the opposite party may be.

Such discharge shall not be a satisfaction of the

Attorney not to give order for discharge without client's consent. debt, unless made by the authority of the creditor; and nothing herein contained

shall justify any attorney in giving such order for discharge without the consent of his client.

31. A writ of execution, if unexecuted, shall

Time for which unexecuted writ remains in force. not remain in force for more than one year from the date of such writ, unless

renewed in the manner hereinafter provided;

but it may, at any time before its expiration, be renewed by the party issuing it for one year from the date of such renewal, and so

on from time to time during the continuance of the renewed writ by being marked with the seal of the High Court and with a memorandum, signed by the officer, of the date of the day, month, and year of such renewal, or by such party giving a written notice of renewal to the Sheriff signed by the party or his attorney and bearing the like seal of the Court and memorandum signed by the officer as aforesaid;

and a writ of execution so renewed shall have  
Renewed writ entitled effect and be entitled to the  
to same priority as its same priority as the original  
original. writ would have had.

Provided, however, that no writ of possession  
Proviso as to writ of shall be renewed without the  
possession. special leave of the High  
Court or a Judge thereof.

32. The production of a writ of execution or  
Evidence of renewal. of the notice renewing the  
same, purporting to be  
marked with such seal and signed as aforesaid,  
showing the same to have been renewed according  
to this Act, shall be sufficient evidence of its  
having been so renewed.

33. All property of every kind that may be  
Seizure under writ of seized under a writ issued  
sequestration. from the High Court, may  
be seized also under a writ of  
sequestration duly issued from the same, and the  
seizure must in all cases be made in the mode  
directed by this Act as to seizures under writs,

and any sum ordered by the Court to be realized  
Sum ordered to be by a sequestration, shall be  
realized may be levied as realized in the same mode,  
under writ. and not otherwise, as if  
directed to be levied under a writ of attachment.

### SCHEDULE.

(see section 2.)

#### I.—Statutes.

Year, reign and chapter.	Subject.
53 Hen. 3, c. 21	Replevin by Sheriff.
13 Edw. 1, c. 39	Delivery of writs to Sheriff.
28 Edw. 1, c. 16	False returns.
c. 10	Restoration of issues of land seized without cause.
Statutes of the Ex- chequer.	Wrongful distresses by Sheriff.
23 Hen. 6, c. 9	Sheriff not to let his county to farm.
23 Hen. 6, c. 9	Sheriff's fees; Sheriff to let to bail, &c.
1 Mary, Stat. 2, c. 8	Sheriff not to be a Justice of the Peace.
29 Eliz., c. 4	Sheriff's fees.
3 Geo. 1, c. 15, s. 8	Power of Under Sheriff in case of death of Sheriff.

#### II.—Acts.

Number and year.	Title.
VIII of 1852	An Act for remunerating the Sheriffs of Calcutta, Madras and Bombay for the execution of Mofussil pro- cess under Act XXIII of 1841.
VI of 1855	An Act to extend the operation of, and regulate the mode of execut- ing writs of execution in Her Majesty's Supreme Courts of Judi- cature.

### SCHEDULE—continued.

#### III.—Charters.

Charter establishing the Supreme Court of Judicature at Fort William, dated 26th March 1774.	Clause IX.
Charter establishing the Supreme Court of Judicature at Madras, dated 26th December 1800.	Clauses XV, XVI, XVII.
Charter establishing the Supreme Court of Judicature at Bombay, dated 8th December 1823.	Clauses XX, XXI, XXII, XXIII.

#### STATEMENT OF OBJECTS AND REASONS.

This Bill is the second of the series of measures  
which have been prepared in order to diminish the  
bulk of the English Statute-law in force, or sup-  
posed to be in force, in the Presidency Towns. It  
repeals some ten Statutes relating to the office of  
Sheriff, and it consolidates, with such amendments  
as are required by present circumstances, the clauses  
of the Charters under which the Sheriffs are  
appointed, and the two Indian Acts which relate,  
respectively, to their fees for executing Mofussil  
process and to their functions in executing decrees  
made by the High Courts in the exercise of original  
civil jurisdiction.

WHITLEY STOKES,

Secy. to the Govt. of India.

[First Publication.]

The following Bill, and Statement of Objects and  
Reasons accompanying it, are published for  
general information, by order of his Excellency  
the Governor-General, under the 22nd of the  
Rules for the Conduct of the legislative Business  
of the Council of the Governor-General :—

No. 12 OF 1874.

*A Bill to declare the Statutes in force in the Pre-  
sidency Towns.*

WHEREAS doubts exist as to what Acts of  
Parliament are in force in  
Preamble. the Towns of Calcutta, Mad-  
ras and Bombay, and it is expedient to remove  
such doubts ; It is hereby enacted as follows :—

1. The enactments specified in the schedule  
Statutes declared to hereto annexed (being Sta-  
apply to the Presidency tutes or parts of Statutes  
Towns. passed before the year 1727),  
shall be deemed to apply, so far as local and per-  
sonal circumstances admit, to all places and  
persons within the local limits of the ordinary  
original civil jurisdiction of the High Courts  
of Judicature at Fort William, Madras and  
Bombay.

2. All other Statutes passed before the said year 1727 are hereby repealed so far as they affect British India.

Provided that the repeal by this Act of any enactment shall not affect any Statute, Act or Regulation in which such enactment has been applied, incorporated or referred to :

Nothing in this Act shall—

(a) affect the validity or invalidity of any thing already done or suffered, or any indemnity already granted, or any right or title already acquired or accrued, or any remedy or proceeding in respect thereof, or the proof of any past act or thing ;

(b) affect any principle or rule of law, or established jurisdiction, form or course of pleading, practice or procedure, or existing usage, custom, privilege, restriction, exemption, office or appointment, notwithstanding that the same respectively may have been in any manner affirmed, recognised or derived, by, in, or from any enactment hereby repealed ;

(c) give validity to any transaction which, if it had occurred before the passing of this Act,

would have been held invalid on the ground of its breeding litigation or of being otherwise unrighteous, unconscientious, or against public policy ;

(d) provide or restore any jurisdiction, office, custom, privilege, restriction, exemption, usage or practice not now existing or in force ;

(e) operate as an implied repeal of any enactment,

(f) affect the laws of inheritance, partition, succession and contract as administered to Hindús, Muhammadans, Buddhists, Sikhs and Jains, or

(g) affect the laws of marriage as administered to persons not being Christians.

3. No Statute passed in or after the said year 1727 shall be deemed to apply to any part of British India, unless it expressly or by necessary implication extends thereto ; and no Statute shall be deemed to extend by necessary implication to any part of British India merely because it repeals, amends or modifies the whole or any part of a Statute mentioned in the said Schedule.

## SCHEDULE.

(See Section 1.)

13 Edw. 1, c. 1	...	Statute <i>De Donis</i> .
c. 22	...	Waste between joint-tenants and tenants in common.
18 Edw. 1, c. 1, 2	...	Statute of <i>Quia Emptores</i> .
25 Edw. 1, <i>Magna Carta</i> , c. 1	...	Confirmation of liberties.
c. 29	...	Civil and Criminal Justice.
<i>Confirmatio Cartarum</i>	...	Confirmation of charters.
5 Edw. 3, c. 9	...	Unlawful attachment.
25 Edw. 3, Stat. 1	...	Status of children born abroad of English parents.
28 Edw. 3, c. 3	...	Civil and Criminal Justice.
27 Hen. 8, c. 10, ss. 1, 2 and 3	...	Uses.
28 Hen. 8, c. 15, ss. 1, 2 and 4	...	Offences committed at sea.
31 Hen. 8, c. 1	...	Partition by joint-tenants.
32 Hen. 8, c. 32	...	Partitions by tenants for life.
c. 34, ss. 1 and 2	...	Grantees of reversions.
c. 37, s. 4	...	Recovery of rent after death of <i>cestui que vie</i> .
c. 38, (except as concerning pre-contracts)	...	Degrees of consanguinity.
13 Eliz., c. 5, ss. 1, 2, 3 and 5	...	{ Fraudulent conveyances.
27 Eliz., c. 4, ss. 1, 2, 3 and 4	...	
3 Char. 1, c. 1	...	Wrongful imprisonment.
18 & 19 Char. 2, c. 11, ss. 1, 2 and 4	...	Evidence of death of <i>cestui que vie</i> .
29 Char. 2, c. 3, ss. 7—11	...	Trusts.
31 Char. 2, c. 2, except s. 14	...	Habeas Corpus Act.
1 Will. & Mar., c. 6	...	Coronation Oath.
1 Will. & Mar., Sess. 2, c. 2	...	Bill of Rights.
2 Will. & Mar., c. 1	...	Confirmation of late Parliament.
4 Will. & Mar., c. 16	...	Frauds by clandestine mortgages.
9 Will. 3, c. 17	...	Inland Bills of Exchange.
10 Will. 3, c. 22, down to and including the words "in anywise notwithstanding"	...	Inheritance of posthumous children.
11 Will. 3, c. 7	...	Piracy.
c. 12	...	Punishment of Governors of plantations.
12 & 13 Will. 3, c. 2, except so far as it has been repealed by 4 & 5 Anne, c. 20, ss. 27, 28, 1 Geo. 1, Stat. 2, c. 51, and 7 & 8 Vic., c. 66	...	Act of Settlement.
1 Ann., c. 2, ss. 4 and 5	...	Demise of Crown. Abatement.
3 & 4 Ann., c. 8, ss. 1 to 11 (inclusive)	...	Promissory Notes.
4 & 5 Ann., c. 3, ss. 9, 10, 21 & 27	...	{ Attornment. Payment of rent.
c. 16	...	{ Warranties. Actions of account.
6 Ann., c. 41, s. 8	...	Naturalization of Princess Sophia.
c. 72	...	Privy Council.
7 Ann., c. 5, s. 3	...	Discovery of deaths of tenants for life.
	...	Naturalization.

## STATEMENT OF OBJECTS AND REASONS.

1. It is generally held that, on the establishment of Mayors' Courts in Calcutta, Madras and Bombay, under the charter of 18 Geo. I, the Statute-law in force in England in the year 1726 was introduced into the Presidencies so far as it was applicable to local circumstances.

2. Under the qualification contained in the last part of this proposition, large classes of Statutes are obviously excluded. The Statutes, for instance, dealing with the subjects of Advowsons, Bankruptcy, Bastardy, Clergy, Commons, Dilapidations, Elections, Excise, Forests, Police, Poor-relief, Sewers, Tithes, and the qualification of Sheriffs were clearly framed with reference to the special conditions of England, and have never been deemed applicable to any part of India. Other Statutes, such as those relating to Coroners, Crimes, Executors, Jurors, Justices of the Peace, Lotteries, Oaths, Pleading and Riotous Assemblies, have been rendered by recent Indian legislation unnecessary and therefore inapplicable. Others again, which form the basis of the English law of real property—such as the Statutes of Entails, of Subinfeudations and of Uses—are clearly applicable to the property of Englishmen, though not to the property of Hindús or Muhammadans. But there remain some as to which differences of opinion may and do exist. If we inquire, for example, whether the Statutes relating to Maintenance and Champerty are in force in Calcutta, whether a European can be arrested here on a Sunday, or what law regulates distresses for arrears of rent exceeding a thousand rupees, we at once fall into doubt and difficulty. It is true that, in the absence of any declaration by the legislature, the Judges of the late Supreme Courts and those of the present High Courts have exercised the function of declaring what Statutes shall be deemed in force within the local limits of their ordinary original jurisdiction. But, in the first place, the Judges have made such declarations in comparatively few instances; in the second place, their decisions have not always been reported; thirdly, it may be doubted whether their declarations have always laid down the most convenient rule; and fourthly, the rulings of the Judges of one Supreme or High Court are not binding upon or always in accord with those of another.

3. Even in cases where a Statute certainly operates in the Presidency Towns, it is not always clear whether it applies to all the inhabitants or only to Europeans. Thus every one agrees that the Statutes of Elizabeth relating to Fraudulent Conveyances are in force in Calcutta, Madras and Bombay; and in Calcutta, the late Mr. Justice Norman (2 Ind. Jur. O. S. 7) held that they applied to Natives as well as to Europeans. But in Madras, Sir Adam Bittleson seemed to think, in a case reported in 6 Mad. H. C. Rep. 474, that they applied only to British subjects other than Hindús or Muhammadans.

4. The result is a great amount of uncertainty as to the Statute-law in force in the Presidency Towns, and this not merely in rare instances, but in matters of not infrequent occurrence.

5. Two Bills published simultaneously with this, and relating to Distresses and to the Sheriff, will, when passed, remove many doubts as to the law applicable to the subjects with which they respectively deal.

6. There will remain, however, many ancient Statutes as to which it is desirable that the legislature, in consultation with the learned Judges of the Presidency High Courts, should expressly declare either that they are, or that they are not, in force in Calcutta, Madras and Bombay. This, shortly, is the object of the present Bill. It declares that some forty Statutes shall, subject to the tests of applicability which have always prevailed, be deemed to apply to all places and persons in the Presidency Towns. These include Magna Carta; the Statutes *De Donis* and *Quia Emptores*; the Statute of Uses; the Statutes relating to Fraudulent Conveyances; the Habeas Corpus Act; the Bill of Rights and the Act of Settlement. It then expressly repeals all other Statutes passed before 1727.

7. Some of the Statutes inserted in the Schedule have been so inserted for caution's sake, but with considerable doubts as to whether they are of any practical use. Such are the provisions of the Statute of Frauds relating to trusts of land; the Statute 4 & 5 Will. & Mar., cap. 16, relating to frauds by mortgagors effected by concealment of prior charges; the Stat. 10 Will. III, cap. 22, giving the benefit of contingent remainders to posthumous children; and the Stat. 4 & 5 Anne, cap. 3, relating to warranties. There are also three Statutes conferring powers on the Admiralty Court in case of piracy, as to which it is not known whether they are still of any use or are superseded by modern legislation. These are the 28 Hen. VIII, cap. 15; the 11 Will. III, cap. 7, and the 8 Geo. I, cap. 24.

8. Among the repealed Statutes are those which relate to Champerty and Maintenance, eight in number. It is not intended by the repeal to alter the law on this subject, and a cautionary clause [sec. 2, cl. (e)] has been inserted accordingly. It is certain that the law applicable to transactions to which the names of Champerty and Maintenance are still applied, has drifted away from the Statutes; that numerous transactions falling within the scope of the Statutes are perfectly lawful, and that the decisions have in modern times been rested more and more on the broad principles of the Common Law, and have turned on the question whether or no the impeached transaction is unrighteous, unconscientious, and against public policy. The law in the Mofussil on this subject appears to be in a very efficient and reasonable state, though unaided by the Statutes; and the same law prevails in the Presidency Towns. See the case of *Grose v. Amirtlamayi Dasi*, 4 Beng. L. R. Orig. C. J. 1, in which all the foregoing remarks are illustrated.

9. The opportunity has been taken to declare that no Statute passed in or after the year 1727 shall be deemed to apply to any part of British India, unless it expressly or by necessary implication extends thereto; and that no Statute shall be deemed to extend by necessary implication to any part of British India merely because it amends or modifies or repeals the whole or any part of a Statute mentioned in the Schedule.

## BENGAL FAMINE.

### NINETEENTH SPECIAL NARRATIVE OF THE DROUGHT IN BENGAL, FROM THE 29TH MAY TO 11TH JUNE 1874.

THE Lieutenant-Governor (Sir Richard Temple) writes from Monghyr on the 10th June the following account of the Tirhoot district to be included in the present narrative:—

“During the last fortnight I have visited Tirhoot, traversing the district from its south-eastern to its western border. I have conferred with all the principal European officers in the district, with some of the European non-official residents, and with many of the principal natives. Many relief circles and sub-circles were inspected.”

“As Tirhoot is by far the most important of the distressed districts, and has to bear the brunt of the present trouble, some account may appropriately be given of its condition during the first ten days of June.”

“As regards the weather and the crops of Tirhoot, the month of May has been against the district. The drought was great—water was only to be reached at double the usual depth below the surface. The supplementary coarse grains sown in February withered in the heat. The wheat crop was

in many places indifferent. The fruit of the mango groves, so abundant in this district, failed to yield the usual sustenance to the people. The indigo production is marred by one of the greatest failures known in this generation; and but little was done for ploughing or sowing the rice for next harvest. June, therefore, opened ominously. But now the preliminary showers have fallen, in some places abundant, in others scanty; in some parts towards the south their coming was so long delayed that a certain proportion of loss at next harvest was thought inevitable. By long-established agricultural practice, the extensive depressions in the surface of the ground ought, by the beginning of June, to have young rice springing up, but are this year only beginning to be broken up. Countless patches of ground, which ought to be filled with plants of rice ready for transplantation, have this year almost nothing. Thus the want of the April and May showers has caused way to be lost for next harvest, which can hardly be made up in full. The rains, however, seem to be coming; the industry of the peasants is stimulated to the utmost; and the next rice harvest may yet escape any serious diminution."

"On the other hand the poppy has flourished, and the opium yield will be favorable. The tobacco crop, too, has proved a source of wealth to the southern part of the district."

"Still the losses which have been superadded to the destruction of the last rice crop, combined with an apparent possibility of some deficiency on the next rice harvest, have produced an effect on the grain trade; have caused much timidity among the dealers in advancing grain to the cultivators, or in producing it for sale in the markets; and have rendered private rice an almost unobtainable article. Great as the losses have been, low as the private stocks may have fallen, one cannot believe that the rice markets would have been so empty as we found them to be before we opened sales of Government grain, were it not that the holders of grain apprehend losses yet to happen, and keep whatever they have in view of such eventualities."

"It is to be remembered that in Tirhoot—unlike other districts—there is no early rice, and but a small September rice crop, and but little Indian-corn. In the eastern and north-eastern parts of the district, where the distress would be worst, there is nothing, save some coarse grains of inconsiderable quantity, to come in till the great rice harvest of December. In other districts fears arising now might happily be dissipated by August, while in Tirhoot they could not be removed till the end of autumn. This consideration enhances the gravity of the situation in Tirhoot."

"As regards the condition of the people of the poorer classes, the improvement in their appearance in full two-thirds of the district is declared by all witnesses to be marked, and the change for the better is the most perceptible in those parts which were in the outset most threatened with distress. Since the middle of March last, at least one-quarter, often one-half, sometimes even three-quarters of the people have been receiving assistance from Government in some shape or other, which assistance has, in the majority of cases, amounted to maintenance. Hundreds of thousands of persons (literally) who came on relief in March last in a thin and weak state, have recovered from the depression; are now in at least an average physical condition, and are as well as they ever would be in ordinary years. It is this, perhaps, which may have caused a supposition to arise that these poor creatures have been too well cared for. They have been properly fed, that is all. We could not do less than feed them properly, as we undertook to rescue them from what must have ended in starvation."

"Still, however, persons are frequently met with in such a degree of emaciation (such severe distress is sometimes unexpectedly encountered in places previously believed to be beyond the reach of danger) as would prove the peril from which the population at large has escaped, and which would again threaten it if any circumstances were to interrupt or weaken the administration of relief. It is, as I believe, the fact that in many thousands of instances relief was afforded only just in time to save life; and that in many

hundreds of villages the relief officers arrived only just in time to prevent mortality. If this be so, then looking to the narrow border which separates preservation from destruction, can we reasonably doubt that there must have been some cases which terminated fatally before the arrival of aid? If the people had been ready to ask for aid, our officers might have had some opportunity of acting in such cases. But on the contrary the sufferers were too often disposed to die in silence, and to this day, with all our elaborate organisation of relief, there is the danger to be guarded against of destitute individuals remaining unobserved. The metaphor of ships sinking in sight of port is terribly applicable to emaciated persons lying down to die in the very midst of a relief system."

"I have heard much oral evidence of the sickness and mortality, and the sad scenes in consequence, which occurred during 1866 in those parts of Tirhoot where destruction of the rice harvest had occurred. The area of such destruction is known to have been very much larger on the present occasion than in 1866. The prices in Tirhoot of rice, 9, 8, even sometimes  $7\frac{1}{2}$  seers the rupee during the hot months, were as dear, or dearer than they were in 1866; and the dearthness began in many places at an earlier date than in 1866, and this, too, notwithstanding the fact that the relief operations are on a much larger scale now than in 1866. From this consideration some notion can be formed of the mortality and its attendant miseries, which must have prevailed in Tirhoot during the spring and summer of 1874 but for the relief operations, and which would still prevail during the summer and the autumn if those operations were to be relaxed. The sad occurrences which, as we hope, were limited in 1866 to a comparatively few places in Tirhoot, would, in 1874, have happened in many places, and would have increased more and more till they spread over perhaps half of this extensive and populous district."

"I have enquired much as to the number of deaths which may be attributable to starvation. As is well known, the authenticated cases are very few. It seems certain that such clear cases of this sad description as could be embodied in official returns are rare. Even if all the deaths in the numerous field hospitals—which deaths are medically attributed to various causes—were deemed indirectly attributable to want of food, still the number would be statistically inconsiderable. And inasmuch as Tirhoot is fortunate in having a great number of well-informed and independent witnesses scattered all over it, who must have stated all they knew, it seems equally certain that no considerable mortality can have occurred in any part of the district. But that the available statistics can show all the deaths from want of food, is, to my mind, incredible. The patience with which, at the first, numbers would pine away without resorting to any authority, and the manner in which individuals will do so even to this day, convinces me that some must have died of hunger of whom we shall never hear."

"My predecessor, Sir George Campbell's view on this matter was expressed in March last to the following effect:—

"In times of scarcity and the early stages of famine, it is totally impossible to distinguish deaths accelerated by scarcity and bad food from natural deaths. The Lieutenant-Governor has not the least doubt that among a very poor and helpless population, such as exists in North Tirhoot, many people die when food is dear who would not die, or would not die so soon, if it were cheap. He believes that there have not been deaths from direct starvation among healthy adults; but from what he saw of the people about Bahera, and some of those on the works near Durbhunga, he fears that among such a population a good many old, weakly, and sick people must have succumbed to insufficient nourishment."

"I entirely subscribe to that view. I am as unable as he was to state any number. But I believe that if it could be exactly known, it would be found so extremely small as not to affect appreciably the death-rate among the large population concerned."

"Looking to all the circumstances, however, and to the numbers receiving some sort of relief in Tirhoot (over 1,100,000 on 1st June, besides the numbers receiving aid indirectly as purchasers of Government grain), I hope that some work of humanity will be found to have been accomplished in this district up

to that date. But there remains the anxious question whether that work can be successfully sustained during the trying months yet to come?"

"In respect to the organisation of relief, I found the circles and sub-circles into which the whole country is divided to be in complete working order. And such working order implies that every village, and the majority of houses in every village, are brought under relief inspection; that those who are unable to labor have tickets entitling them to subsistence; that those who are able to labor are employed on digging the village tanks on piece-work, and are paid in rice; that enquiries are going on village by village regarding the cultivators who need advances of grain; that the village grain-dealers have a supply for retail of rice obtained from the Government stores; that the jeyt ryot, or headman of the village, has a supply of rice from the neighbouring granary for the disposal of which he is accountable; that there is a sub-dépôt of rice in every sub-circle comprising from ten to fifteen villages, and a dépôt for every circle comprising from ten to fifteen sub-circles; that arrangements are being made for regularly conveying rice from the dépôts to the villages during the flood season by carriers, by bullocks and ponies, and even by canoes; that in every circle there is a poor-house for the worst cases, and a field hospital with native medical attendants; that every sub-circle has its native officials, and every circle its European officer or its superior native officers."

"In respect to relief-laborers, the number returned is 910,657, the largest yet seen in this district. We may, indeed, hope that this may prove to be the highest point, and that during the month of June the number will decline, as agriculture and other private employments may afford subsistence after the falling of the rains. Great numbers have already gone, and will yet go off to the fields. But in case any should linger on the relief-works, while they might be better engaged privately, orders have been issued to discharge all such persons, and to afford every encouragement for the transfer of the laborers from the works to other occupations. The works will, however, be kept open for all who cannot otherwise obtain employment so long as the weather shall permit. It is to be expected that the rains will soon entirely stop tank-digging, and even impede road-making. This, however, is the very season when the men thus thrown out of work will be able to obtain private employ. If any should fail in this, they will be cared for under the circle system just described. At the worst, they would come on charitable relief, but any augmentation of this form of relief (already so large) is to be deprecated; and there is the fear that persons discharged from relief-works may try to resort to the public bounty. Orders have issued to guard against this possible abuse. Still, even during the rainy season, there will be intervals of time when people cannot obtain employment either on relief-works or in private employ. Some of these may have to be admitted to charitable relief; others will, it is hoped, be able to support themselves by what they saved from their earnings while on the works. It is very probable that large numbers have thus saved enough to sustain themselves during such intervals, and orders have issued to prevent those who are thus comparatively independent from claiming further relief. In the dispensing of such liberality as that which has been dispensed, some abuses are practically inevitable; but this is all the greater reason why vigilance should be exercised against all those abuses of the State bounty which can be foreseen. In my last narrative (25th May) I stated that rates of pay for piece-work, which had been appropriate in April, were becoming too high under improved circumstances in May and June, and that a reduction would be undertaken. I am glad to find, on the spot, that this is being carried into effect without difficulty."

"As regards charitable relief in the Tirhoot District, the number of the recipients is now returned as 166,477. Of these, many would even in ordinary years be subsisting on private charity; this year, however, they would be foodless, as the donors, being themselves in difficulties, cannot give. Many again belong to the better castes, even to the Brahmin caste. Special enquiries are being made to search out village by village all those who are pining in hunger at home, and from pride or fear are deterred from seeking relief. The

fear among some castes of being included in the same category with the paupers is such as to lead them on towards extremities. While craving aid, they will ask that they may pay a little, or be debited with part repayment, in order to avoid being classed as recipients of gratuitous relief. In very many places women are set to work with spinning and weaving, cotton being supplied to them for that purpose. The Tirhoot Brahmins constitute a well-known and numerous section of that great caste, and numbers of them are suffering, and will yet suffer more and more, that sort of distress which it appears to be the object of the charitable subscription fund to relieve; distress—borne, perhaps, with false pride, but still with fortitude—enough to straiten them sorely but hardly enough to threaten that immediate danger which State charity undertakes to obviate. Orders have been reiterated to treat these cases according to the generous and considerate intentions of the subscribers."

"As regards advances to the ryot cultivators, there has been, and still is, fear lest this class, the most important class of the community, should incur lasting impoverishment from using up for immediate subsistence that which they ought to keep, namely, their seed-grain, and the little capital of their husbandry—which result, if now allowed to happen, would leave evil traces in the district long after this crisis shall have passed away. The men have got their land, their implements, their cattle, and their own power of labor, but they have not food till next harvest. Ordinarily there are dealers whose business it would be to advance grain for food, but often—perhaps generally—they refuse to do so this year, because the prospect of next crop is not assured. Hence the need of making to the cultivators advances of Government grain repayable hereafter. But as all cultivators are not in need—as many still have small private stores—it is important to make systematic enquiry, village by village, in order to discriminate real from simulated necessity. Such enquiry is being conducted, and it is already seen that the number of really deserving applicants is very considerable. It is better that the advances should be made by the zemindars; and many of the large landlords are doing so. But where the zemindars are petty proprietors (and much of the land in Tirhoot is minutely sub-divided) the advances, if they are to be made at all, must be made by the State. In all these cases, however, the principle is borne in mind (as laid down in the Governor-General's letter of the 16th December last) of inducing the zemindar to become security, or to allow the land to be virtually pledged, in addition to such security as the cultivator himself can offer. It is hoped that a large part of the advances will be thus covered by security. Many zemindars have already agreed: more, doubtless, will yet agree; and I hope to be able to state ultimately that most zemindars, great and small, have done well in this matter. The number of cultivators in Tirhoot under advances of grain for food will be considerable, but it cannot be stated as yet."

"As I have elsewhere stated, it is on the efficiency of the system of advancing grain for food that we must partly rely for preventing the consumption of seed-grain. The ryots still possess some seed; the dealers certainly possess much, though they defer disposing of it to the last safe moment. Assistance is being rendered by making cash advances to cultivators for purchase of seed-grain; by exchanging Government food-grain for local seed-grain, which latter is afterwards sold to the ryots; by importing Government seed-grain from a distance."

"As regards the sale of Government grain, it has just been stated that there is no private rice in the markets of two-thirds of the Tirhoot District; private stores there must be, but they are not brought forward, and whether they will be, depends on the course of the rainy season. At present the local traders say that they have nothing to sell, and that they will not attempt to import until the rising rivers afford water-carriage, land-carriage being too expensive; they will not promise to do so even then. The ordinary course of trade is the reverse, namely that of exportation; they have rarely or never tried importation; the prices down south, whence rice might be obtained, are too high to yield profit to an importer to Tirhoot; they will be glad to buy wholesale from Government, and with that stock to make some profit by retail. One

may pass from mart to mart in Tirhoot, and receive from the grain dealers, great and small, this almost stereotyped reply. One may ask the grain merchants at Patna, which is the great *entrepôt* for Tirhoot, they will say that they have not, as a rule, imported, and do not intend to import rice from the south-east. They do import other grains from the north-west, hundreds of tons daily, and hope to go on importing until the Indian-corn of Behar shall come in, next September. This north-west grain they send daily across the Ganges in quantities; they will send more still when the navigation of the rivers becomes easy; the grain will go all over the southern half of Tirhoot, as far as Mozufferpore and Durbhunga; whether it will go beyond that to the more distressed parts they cannot say; probably not, it never does go ordinarily."

"Meanwhile the markets in two-thirds of Tirhoot are destitute of rice, the staple food of the people. Therefore, sales of Government rice are being opened, under the rules explained in my narrative of the 11th May, throughout the sub-divisions of Durbhunga, Modhoobunnee, Sectamurhee, and a part of Mozufferpore, and are very much resorted to by the people. But orders have been reiterated that such sales will be suspended immediately on the arrival of private supplies, and that the trade be informed accordingly. I believe that every trader must by this time know that if he will import grain, the field which the Government is forced to occupy temporarily will be at once vacated for him."

"In the remaining one third of Tirhoot, the Sub-divisions of Tajpore and Hajeeppore, and half the Sub-division of Mozufferpore, sales of Government grain have not been opened."

"As regards the allotment of Government grain for Tirhoot, 4,200,000 maunds, or 154,411 tons, the question at once arises, will it bear the depletion to be caused from June to December by all these outgoings, for paying relief-laborers in kind, for feeding the recipients of charitable relief, for advances of food-grain to cultivators, for sales to the public? Up to end of May about 642,000 maunds or 23,600 tons\* only have been expended, and this is but a small portion of the whole, and is less than was expected originally. The amount comprises regular issues only as expenditure, and does not include loss or wastage. But then the numbers of persons on relief up to the end of May—

On relief works	...	...	...	...	910,657
On gratuitous relief	...	...	...	...	190,914
Total					1,101,571

somewhat exceeded the estimate of distress (1,000,000) on which the allotment was made. The cause of the excess over estimate is the aggravation of distress in the tract immediately to the west and north of Mozufferpore. The above numbers will, we hope, decrease during June; but that will be more than counter-balanced by the development of advances to cultivators and sales to the public. All the local officers believe that the expenditure of grain will be very great during June: their estimates show an expected consumption of 1,147,000 maunds (42,095 tons) in the Tirhoot district during this month. The progress of the grain expenditure will be watched till the beginning of July, when the allotment will be reconsidered. Under any circumstances, there will be enough for some time to come. If there should be any prospect of deficiency in the autumn, additional supplies can be brought in by water-carriage."

"In regard to all the circumstances of Tirhoot, it has been determined to despatch to that district before the heavy rains set in six and a half lakhs of maunds of rice additional, four and a half from the reserve at Calcutta, and two from supplies that could be spared from neighbouring places, equal to about 24,000 tons. The total allotment for this district, originally about 154,000 tons, will therefore now be 178,000 tons."

\* This is approximate, I am not able to state the exact figure.

Sir Richard Temple writes from Monghyr on the 11th June, the following general remarks to be included in this Narrative, in continuation of his special remarks regarding the Tirhoot district:—

“During the fortnight the rains have been abundant in the eastern half of the distressed districts; and sufficient, though long-delayed, in the western half. The river Koossee, running into the Ganges north of Bhagulpore, may be taken as the approximate boundary; to the east of the river the agricultural prospect is very good; to the west, not so good. The improvement in the weather has infused energy into husbandry, and has somewhat raised the local grain markets from the condition into which they were falling, without however, essentially lowering the general range of prices.”

“I am not able to state precisely the amount of Government grain expended up to the 1st June, nor to correct properly the figures given in my Narrative of the 25th May. It is difficult to get a timely return from so many granaries scattered in remote localities. But it will probably be found that up to the middle of May the quantity expended was less than that estimated (50,000 tons). The best return that can at this date be made up, shows 57,000 tons expended up to the last week in May (though not up to the last day of May). This figure cannot be put forward as absolutely correct, but it is the best that can be given at this time of writing.”

“During the last days of May, however, the expenditure from most depôts increased rapidly: the payment of relief labourers in kind had taken effect: the sales of grain had been largely opened; the cultivators had been receiving the grain advances authorized after enquiry. These causes continued to augment the expenditure during the first days of June, and will, as the local officers believe, still continue during this month. Estimates have been obtained from these officers of the expenditure from the last week of May to the end of June. I have had the advantage of discussing with them on the spot some of the most important of these estimates. The result of these estimates is that up to the 1st July 156,462 tons in all are expected to be expended. The statement means expenditure, and does not at all include wastage or other losses. This figure must not be regarded as more than an estimate. If the actual expenditure shall prove less, then the fact is so far to the good as regards our preparations. If it shall be as much, or more, then it will put our preparations to the test. For, even after the 1st of July, there are, for the most important of the distressed districts, five months of distress yet to come, beginning with July and ending with November.”

“As is well known, in most parts of Bengal and Behar, new crops will come in during September, affording relief in some of the distressed districts. There are many distressed localities, indeed, where relief may be hoped for earlier than September. And this may naturally convey the idea that the general distress will, in the main, be over in September. Such is not the case, however, as regards North-Eastern Tirhoot,—by far the most important area of distress—and some other parts of Chumparan and North Bhagulpore. No substantial improvement can happen there till the end of November or beginning of December. If, therefore, 156,000 tons shall prove to have been actually expended, the balance of supplies will not be more than what we ought to have for safety.”

“In my narrative of the 25th of May, the number of persons receiving assistance in some shape or other from Government or from the charitable public was estimated to be upwards of 2,500,000, which number was expected to increase daily. A more precise calculation on the 18th May had given the number at 2,224,965 persons.

“The present narrative shows 1,737,768 persons on relief-works, and 307,505 persons on charitable relief, or 2,045,273 persons in these two categories alone. But, as shewn in the last narrative, there are two other categories of persons who receive assistance, namely, those who purchase, and those who obtain advances of Government grain. On the 18th of May these were

estimated to comprise 820,000 persons.\* By the 1st of June they would comprise very much more. And this consideration would bring the total from the 2,045,273 for the first two categories to nearly three millions for the whole four categories during the first week in June. I will not, however, attempt an exact figure in a matter where exactness is unattainable. When large quantities of grain are sold wholesale to be retailed, it is impossible to say precisely how many persons will receive assistance from such sales."

"Still the matter is one that has to be examined every fortnight by the light of the best calculations which we can make. And during the first week of June, if we could know the average daily expenditure of grain, we might arrive at a calculation of the number of persons receiving assistance. Such assistance is now, with but few exceptions, afforded in grain. Now, out of the 156,000 tons above estimated up to end of June, 99,000 tons were estimated for the last week of May, and for the whole month of June, say 38 days. This, at  $\frac{3}{4}$  seer per head per diem, would give 3,889,526 persons receiving assistance daily, which number is above the number, 3,500,000, estimated by me in March last. The present estimate of 3,889,526 persons would include all the four categories, and all persons of every sort receiving assistance. It is not, indeed, free from doubts, especially in regard to this, that many of those who purchase in June may be laying in some supplies for June. If this be so, then the calculation may prove to be somewhat too high."

"We shall soon have the means of correcting these calculations, but now that the elements of sale and advance enter into the computation, we shall hardly advance beyond a calculation, and shall not be able to present an absolute statement of fact. Meanwhile, so far as is known at this time of writing, the number of persons receiving assistance appears to be as high as the highest for which provision was made in March last, namely, 3,500,000. It has never been expected or affirmed that all who receive assistance would be absolutely maintained by Government. But as the provision had to be made on an estimate of the numbers likely to require it, it was necessary to reckon those who would buy, or would obtain advances of grain, just as much as those who would receive in kind either wages or subsistence."

"Looking to the supplies of Government grain now *in situ*, or in reserve, I am still hopeful that there is enough for such emergencies and requirements as may be reasonably anticipated at present. But I have not met any responsible officer of any grade who thinks that we have more than enough."

"The expenditure of so large a quantity of Government grain must be accompanied by a system of special accounts conducted by selected officers, and for this arrangements have been already made."

"Regarding private trade, I have said that the dealers in the interior of Tirhoot will not import grain until the rainy season causes the rivers to rise; and that they are anxious to take Government grain and retail that. In South Behar, on the banks of the Ganges, and in the Sarun district generally, there is much private trade in grain; even in the Tirhoot bazars there is still some barley, coarse millet, pulse, and a little wheat. But the supply on a market day is speedily exhausted, and there is no hope that private stocks will be replenished from outside until the rivers rise towards the middle of July. The source from which private trade draws its supplies is chiefly Northern India; there are many indications from Serajunge, Pubna, Goalundo, Julpigoree, and even Dacca, that Bengal Proper has, at present, very little surplus rice to send into Behar. Happily the surplus of other grains in the Punjab and North-Western Provinces appears to be great, and on an average 800 tons a day are received thence by rail at Patna."

\* See paragraph 8 of Minute dated 18th May—

117	...	...	...	520,252
14	...	...	...	291,260
				<u>820,512</u>

"The prices-current reported for the 6th June, show that by that date some of the markets of Behar and Northern and Eastern Bengal had felt the effects of the favorable rain of the previous week. Prices have cheapened materially during the fortnight in Rungpore, Pubna, Julpigoree, and Mymensing; in Central and Western Bengal, prices are as dear as they were a fortnight ago. In seven out of the ten districts of Behar, the price of common rice is now appreciably cheaper than it was a fortnight ago. In the other three districts of Behar prices are unchanged."

"Instructions have been reiterated to the local officers in all the distressed districts to suspend the sales of Government grain, wherever sufficient supplies are brought in by trade, and to inform all traders accordingly."

"At the present time there is beginning a transition from one stage of our operations to another. If the rains shall happily continue, the relief laborers will gradually leave the works, and go to the fields. Every co-operation is afforded by the relief officers by contracting or closing the works, wherever and whenever agriculture or other private employment affords remunerative occupation. The expedience of avoiding economic disturbance by restoring the people as soon as possible to their normal condition, is quite understood. Vigilance will be exercised to prevent those relief laborers who have saved from their earnings during the hot months, enough to support themselves during the rainy months, from coming on charitable relief, or receiving other assistance. But when that which has been heretofore the hardest part, namely, the management of relief works, shall have diminished, the supplying of the empty markets with rice, until trade brings up supplies, or the next crops come in, and the advancing of food to the cultivators until they can reap the fruits of their industry, will come into greater prominence. Perhaps also, the administration of charitable relief will expand. But whatever be the phase, whatever the proportions of the affair, I am sure that the officers of all grades, in all branches of the administration, will evince an unabated spirit of devotion to the humane cause in which they are engaged."

THE reports from all quarters on this subject have been most satisfactory and encouraging, and with the exception of parts of  
 Weather and rainfall. Monghyr,\* Burdwan, Midnapore, Balasore, Pooree,  
 and the Mudhoobunnee Sub-division in Tirhoot, the latest returns show an ample fall of rain sufficient for all requirements, and no excessive fall has yet been reported.

2. The reports as to the prospects of the coming crops are generally excellent, and except in those parts mentioned above,  
 State of the crops. where insufficient rain has fallen, a more than average harvest is expected. In the few places where no rain had fallen up to the latest dates to which returns had been received, there is no cause for alarm, as there is still ample time for sowing.

3. Prices have remained generally steady, and on the whole seem to be rather inclined to fall than to rise, especially in the  
 Prices. distressed districts, where there has been an almost general fall. In Burdwan, Hooghly, and Howrah, in the Burdwan division, a slight rise is reported. In the other three districts, there has been no change. In the Central districts, prices have risen in Calcutta, the 24-Pergunnahs, Nuddea, and Jessore, and a fall is reported in Rajshahye, Rungpore, Bogra, and Pulna. In the Eastern Districts there has been a slight rise in Backergunge, Chittagong, Chittagong Hill Tracts, and Tipperah, and a somewhat greater rise (from 15 seers to 14) in Noakholly. In Fureedpore, Mymensingh, and Sylhet there has been a fall. Throughout the whole of Behar and Chota Nagpore,

\* NOTE.—Reports have since been received of rain in Monghyr.

prices are easier, except in Monghyr, the Sonthal Pergunnahs and Manbhoom, where they are stationary. In Orissa there has been a slight rise in Cuttack, prices remaining as before in the other districts of the division.

4. It has been stated in previous narratives that seed-grain for the next crop would, for the most part, so far as Government or its officers could foresee, be forthcoming from the stores of grain-lenders, landholders, and cultivators. Some of the ryots would, it was supposed, have insufficient means to purchase seed, and advances of money were made to them for this purpose. At the same time there were apprehensions that in parts of Mudhoobunnee, Durbhunga, Rammuggur, and Soopole, there might be lack of seed-grain. Further experience has confirmed these views; the ryots have produced or obtained seed-grain sufficient to sow an unusually large breadth of early (September) rice, and every one seems confident that seed will also be forthcoming for the late (December) rice crop everywhere, save in a few particularly destitute tracts of North Behar. For these tracts the Government has bought—

15,000	maunds of seed-grain from	Julpigoree.
68,000	"	" " Central and Eastern Bengal.
12,000	"	" " certain tracts in South Behar where last season's crop was good.
95,000	"	

The Julpigoree seed was sent to Soopole in North Bhagulpoore. At first there was little demand for it, but during the last fortnight, since the rain fell, the ryots have become anxious to take it at the rate of 15 seers per rupee. The remainder of the seed has been distributed—

30,000	maunds to	Mudhoobunnee.
30,000	"	to Eastern Durbhunga and Mudheypore.
20,000	"	to Rammuggur.

The last consignments of seed-grain left Calcutta on the 27th May, and it is all now on its way to the depôts whence it is to be distributed.

5. The quantity of seed-grain bought by Government for distribution, is thus small in reference to the large area of distressed country; but looking to the comparative smallness of the areas where occasional lack of seed was expected, the Lieutenant-Governor deemed it unnecessary to lay in a larger supply. No arrangements were made to supply seed-grain to Dinagore or the rest of the Rajshahye Divisions, as those tracts were believed to possess sufficient supplies of their own. During the tour he has just taken in North Behar, Sir Richard Temple learnt that landholders and cultivators were themselves in some cases fetching seed-grain from a great distance, and that in Tirhoot, at any rate, no general complaint had been heard that seed-grain would be wanting over any considerable area.

6. The usual note on the movement of food-grains will be found in Appendix A. The returns of grain imported to Behar show an increase in the upward traffic from Howrah of 2,829 tons, and a decrease of 3,476 tons in the downward traffic from the North-Western Provinces and Punjab, as compared with the returns of the preceding fortnight; but, as shown in Sir Richard Temple's remarks, the decrease is probably only temporary, and we may expect to see, shortly if not an increase, at least a return to the former level of imports.

7. The rain that has fallen in the last few days has greatly improved the prospects of the worst parts of this district, though in Mudhoobunnee there is said to be a great deal of land which has still to be ploughed. In Sectamurhee the prospects of the crops are very good, and they have greatly improved in Durbhunga. Sales of grain to the public are necessarily almost universal, as private trade seems to have done little or nothing for this part of the country, and supplies were short everywhere, except in Sectamurhee, where they seem to have been fairly abundant. In Durbhunga and Mudhoobunnee almost the only stocks of grain, except those

in the Government golahs, are small stores held by private persons for their own consumption.

8. The condition of the people, to judge by the results of an inspection by Dr. MacDonnell of a considerable number of persons in the receipt of charitable relief in Durbhunga, as compared with the statement quoted in the 17th narrative as showing the condition of laborers on relief-works at the end of April, has materially improved; but in order to estimate the great advance shown by the results given in the later returns, it must be recollected that they represent the state of the most distressed section of the population, while Dr. Birch's observations were made on those actually laboring, though at that time the separation between able-bodied and weakly recipients of relief had not been so carefully made as has been done since. The following figures show the results of the two inspections:—

	Dr. MacDonnell.	Dr. Birch.
Normal condition	... 55.5	49.
Under fed	... 23.4	27.
Emaciated	... 17.8	12.

The Additional Commissioner, Mr. Metcalfe, considers that Dr. MacDonnell has adopted too high a standard, and that, as compared with the usual state of the Tirhoot peasantry, the results ought to be even more favorable than those given above; and he is probably right, as the low average physique of the lower classes in Tirhoot has been noticed in the annual jail reports, and remarked on by independent observers.

9. The prospects of this district have materially improved; land is being prepared, and crops sown everywhere. In Hajee-pore, distress had increased considerably before the rainfall, and it had been found necessary to institute relief circles and increase the number of relief-works; and though no severe suffering had been experienced, yet numbers of those newly arrived on the works looked thin and pinched, owing to an insufficient diet. In the Head-Quarters Sub-division sales of grain to the public have been found to be necessary in the east, owing to the insufficient supplies in the bazars. The western tracts and Taj-pore and Hajipore have received sufficient supplies from the Patna trade, about 1,00,000 manuds (nearly 4,000 tons), being imported weekly into the district.

10. The condition of the people continues much as before, while future prospects continue to be most hopeful. Private trade is very active in the Gobindgunge and Dhaka Sub-divisions, to which grain is conveyed by the Gunduk, and it has consequently been found possible to restrict the sale of Government grain within very narrow limits, only a little over 2,200 maunds having been sold to the public and to laborers up to date. In the rest of the district, supplies have been shorter, and sales have been found to be necessary.

11. This district continues to be well supplied with food, but the laborers increase on the relief works. The causes of the great demand for labor have been explained in previous narratives, and need not be repeated here. Rain has fallen everywhere since the date of the Collector's narrative, and now that cultivation has seriously begun, a diminution in the crowds on the relief works may be looked for. An attempt was made to draft a number of men from the district works to the Soane canal, where they would be able to obtain higher pay at piece-work rates than they could get on the district works, but though a considerable number consented to go at first, yet they afterwards refused, having taken into their heads the idea that the alleged demand for laborers for the Soane Canal was merely a pretext for getting them out of the district, and then shipping them off to the Mauritius.

12. The rainfall in the three districts of the Patna Division south of the Ganges has been sufficient for ploughing, but sowings have not yet begun. These districts are always later than those to the north of the river, and sowings are not usually made before

the middle of June, so that the prospects are still very good. The bazars continue to be well supplied with grain, chiefly through importations from the North-Western Provinces. These average 1,50,000 maunds a week in the Patna district, and the Shahabad returns also show an active trade.

13. In this part of this division, prospects continue to improve, and the rainfall, which has been general except at Buktarpore\* in the Monghyr district, is said to have been sufficient to give every prospect of a most favorable sowing season. Distress is confined almost entirely to the southern part of the Sonthal Pergunnahs, Buktarpore, and a small tract near Sheikpoora, also in Monghyr. Relief measures appear everywhere to be adequate, and there is no anxiety felt by the authorities or the people. Private trade is said to be reviving in Monghyr.

14. Rain has also been plentiful in these parts, especially in Purneah. The sowings of the autumn crop have been completed, and those of the late rice crop are in progress. Prospects are everywhere most favorable. During the period covered by the Collector of Purneah's narrative, there was a sudden outbreak of dacoities and grain robberies near Kissengunge, a place well known for the turbulent character of its inhabitants, and a panic, accompanied with riots arose among the people owing to a sudden rise of prices resulting from the cessation of imports from Julpigoree, in which district distress had appeared. The panic was allayed by sales from the Government golahs, and the offenders against the law have been arrested and punished. In no case did it appear that crimes were committed under the pressure of want, as all those arrested were hale, hearty men, in good condition.

Private trade has generally been active except in Soopool, but sales of Government grain have been found to be necessary in Purneah as well as in Soopool. In the latter tract there is said to be little or no grain except that in the Government golahs, and the sales there have consequently been very large.

15. The prospects in all the districts of this division are excellent, and up to the present time the promise of the coming year's crops is everything that could be wished. Still pressure is being felt in some districts, especially in Dinagpore and Rungpore. In the former district private trade is doing very little, and the people are almost entirely dependent for present supplies on the Government golahs. In Rungpore trade is active along the Teesta and Durlah, but in the west and north no fresh supplies are being imported. In both districts large sales of Government rice have been found necessary, and must in all probability be continued. The health of the people is generally good, and cholera, where it previously appeared, had abated.

16. The district narratives of the Deputy Commissioner of Julpigoree and Commissioner show an improvement in the district. The Commissioner has satisfied himself that the relief works and organisation will be quite sufficient to cope with any distress that is likely to arise. The only part of the district about which he now feels any anxiety is South Boda, where the people already seem to have suffered somewhat, and to have nearly come to the end of their resources, but arrangements have been made for advancing grain freely to the cultivators, and relief works are being increased. The prospects of the coming crop are excellent, and it is now calculated that only 50,000 maunds of Government grain will be wanted for the district instead of 1,00,000 as was at first calculated. A panic, arising from the distress in the adjoining parts of the district, led to grain riots and robberies in Mynagoori, where no distress has been experienced, and where none is expected to occur. The panic was taken advantage of by the bad characters of the country, who are somewhat notorious for their turbulence, and it was not till a small detachment of 50 men was brought down from Buxa to Mynagoori that confidence and order were fully restored.

\* Rain is since said to have fallen at Buktarpore.

17. More rain is reported as being wanted throughout the division, especially in Jehanabad, Burdwan, and in the west of the Midnapore district. On the whole rain seems to have been more partial throughout the Midnapore and Burdwan district than in other parts of the country, and all present anxiety about the coming crops had not therefore disappeared. Cholera is prevalent in Burdwan, Midnapore, and Bankoora.

18. There is nothing to report about this district except that distress does not appear to be increasing, and that the prospects of the coming crop are good.

19. The reports from this division are improving. In no district is the condition of the people at all critical except in Maubhoom. There, liberal advances of grain have done much to relieve distress, and what remains is amply provided for by the relief works which have been opened. Cholera has somewhat abated, and the prospects of the coming crop are good. In Palamow, the Commissioner confidently expects that in another month there will be an end of distress in that part of the country, and measures are being taken to remove the laborers from relief works to their ordinary agricultural work, where their help is much wanted.

20. The transport of grain has now almost actually ceased, except in so far as is necessary to keep the minor golahs stocked from the larger store-houses. The only districts where large quantities of grain have been received during the fortnight have been Tirhoot, the Sonthal Pergunnahs, and Maubhoom. In the first-named district, Major deKantzow has kept up his very large average to the last, and nearly 30,000 maunds (somewhat over 1,000 tons) of grain, exclusive of engineering tools, fodder, treasure, and Government stores, have been daily sent off on carts from Bunkar Ghât. The transport is expected to be completed, and the golahs fully stocked by the 15th June. In Maubhoom, considerable difficulty has been experienced, first from the cholera, and afterwards from the floods in the Damooda, as boats could scarcely be procured, but Captain Grant has successfully overcome all hindrances, and expects to complete the carriage of the whole allotment within the next few days.

21. The numbers of laborers on relief works according to the latest returns available, as compared with previous returns, is given below:—

		Last previous return.	Present.
Patna Division	...	1,112,828	1,231,496
Soane Canal	...	41,019	34,850
Gunduk Embankments	...	23,964	45,247
Bhagulpore Division	...	107,269	109,417
Rajshahye Division	...	180,064	194,131
Northern Bengal Railway	...	18,202	22,129
Burdwan and Chota Nagpore	...	69,786	96,950
Cooch Behar	...	No previous return.	3,548
Total	...	1,553,032	1,737,768

There has been an increase in almost all districts except Chumparun, Purneah, and Rajshahye. In the two former districts the decrease has been considerable; from 41,122 to 38,952 in Purneah; and from 1,46,285 to 1,29,034 in Chumparun. In the Rajshahye Division, though there is an increase in the numbers as compared with those reported in the last narrative, yet it is probable that this increase is more apparent than real, as the returns for the fortnight are much more

complete than those previously submitted. \* The present returns certainly show a considerable decrease from the total of 209,635, reported in the seventeenth narrative.

22. On the whole, the tendency is undoubtedly to a decrease in the number of relief laborers in those districts where there has been an abundant rainfall; and as the accounts of the last few days show that there are now very few places where enough rain has not fallen, it may be fairly hoped that each succeeding narrative will show a decrease in the numbers on relief-works. Strict orders have been issued that laborers are not to be kept on relief-works where field labor is available; and advances of grain are being everywhere made to ryots to enable them to feed their laborers, wherever food-grains are scarce.

23. In July, and the early part of August, in the interval between the sowing and planting of the winter crops and the reaping of the autumn crop, a considerable number of laborers will probably return to the relief-works in Behar; but in the Rajshahye Division, where the early rice harvest is much earlier than in Behar, we have good ground for trusting that if the prospects of the early rice crop continue to be as good as they are at present, distress will begin to decrease by the end of July or the beginning of August. All accounts agree in stating that the areas sown with early rice and autumn crops are much greater than in ordinary years; and as the districts, as a rule, export rice in large quantities, and as the proportions of the autumn crop vary in ordinary years from one-eighth of the whole food-area in Dinagepore and Moorsshedabad to about one-fourth in other districts, the yield of this crop ought to furnish an addition to the food-supply, sufficient to maintain a considerable percentage of the population till the main rice crop is reaped.

24. The annexed statement shows the numbers employed in each district on relief-works, with details of those working under public works and circle officers as far as they can be gathered from the returns received. Also, details of the numbers employed on task or piece-work, and on daily wages, are entered for those districts whence the information has been received; but the returns, it will be noticed, are still imperfect, and by no means represent accurately the real state of things, especially in the Rajshahye Division, whence returns are almost wholly wanting, though it is known that piece-work has been introduced and generally enforced throughout Rungpore and Dinagepore, the two districts where the largest numbers of laborers are employed. In Bogra it is applied to the able-bodied men, but not to the women and children, of whom there are very large numbers on the works.

25. Of the laborers employed under district officers and engineers, about three-fourths have been working upon roads, and, as these are more wanted in Bengal than in other parts of India, the improvement in the communications, resulting from the large amount of labour expended, will, there is every reason to hope, add greatly to the resources of the country; while the tanks that have been dug and repaired and the improvements effected to the irrigation channels and village roads by the remaining labor will provide against a want of water, which was becoming a subject of complaint in many parts, and increase the fertility of the soil and the comfort of the people.

26. Out of the whole 69 miles of embankment, 61 have been finished; 19 Upper Gundak embankment, and high level canal in Champurua. miles having been completed during the fortnight; so that the work has probably ceased by this time, and the engineers will be able to concentrate all their energies on the high level canal. On this work the centre line has been marked out up to the 68th mile, and 1,283,000 cubic feet of earth-work have been excavated. Considerable numbers have left the work since the rainfall, and the demand for labor is said to have abated.

27. The works are progressing, but labor is reported to be decreasing in Soane Canal. Arrah, owing to the rainfall, while in the Buxar division the soil is said to have become so hard from the long drought, that the more weakly laborers could not excavate it, and have consequently left the canal for other works.

28. The total amount of earth-work done on the railway up to date Northern Bengal Railway. amounts to 47,773,700 cubic feet, equal to 100 miles of 4-foot bank, and 78 miles of feeder roads have been constructed.

29. The following statement shows the numbers in the receipt of charitable relief according to the latest returns :—

DIVISIONS.	Name of Districts.	Number of centres.	This fortnight.	Last fortnight.
PATNA ... ..	Tirhoot ... ..	270	1,57,477	1,40,814
	Chuniparan ... ..	50	11,097	9,314
	Saran ... ..	65	12,304	9,700
	Patna ... ..	None.	None.	None.
	Gya ... ..	12	420	645
	Shahabad ... ..	15	410	2,001
	Total ...	430	1,82,008	1,02,673
BHAGULPORE ... ..	Monghyr ... ..	13	2,251	2,001
	Bhagulpore ... ..	14	12,783	1,418
	Purneah ... ..	87	5,145	5,056
	Southal Pergunnahs ... ..	.....	100	.....
	Total ...	114	20,179	9,075
RAJSHAHYE ... ..	Mallah ... ..	32	8,977	6,349
	Dinagapore ... ..	342	10,112	10,520
	Rangpore ... ..	26	21,680	20,346
	Bogra ... ..	30	3,731	4,043
	Moorschedabad ... ..	24	2,217	2,154
	Rajshahye ... ..	19	11,112*	2,474
	Total ...	.....	66,050	55,492
CHOTA NAGPORE ... ..	Manbhoon ... ..	.....	8,500	5,454
BURDWAN ... ..	Hoochly ... ..	.....	3,884	2,383
	Beerbhoom ... ..	.....	0,863†	5,175
	Bankoorah ... ..	.....	0,017	8,073
	Burdwan ... ..	.....	14,551	14,100
	Midnapore ... ..	.....	1,314‡	no previous return.
	Total ...	.....	38,590	30,100
	Grand totals ...	.....	3,07,506	2,57,340

\* Of these 6,101 employed in spinning and weaving, and light road work.

† „ 1,093 ditto ditto ditto.

‡ „ 850 ditto ditto ditto.

These returns show an increase in the recipients of charitable relief in all districts except Gya, Shahabad, Purneah, Dinagapore, Bogra, and Manbhoon; but in most districts the increase is not more than might naturally be expected. In Bhagulpore and Rajshahye the great increase is more apparent than real. In the former district the returns for the last fortnight were very imperfect, and a truer line of comparison would be the returns for the previous fortnight, which showed a total of 7,413 persons receiving relief. In Rajshahye, a considerable number is shown as receiving charity who ought more properly to be entered as laborers on relief works.

30. The return printed in the appendix shows that a total number of 3,026 emigrants have been sent up to date to Burmah. Out of these only 957 came directly from the distressed districts, and not one single emigrant from Tirhoot has been yet registered.

By order of the Lieutenant-Governor of Bengal,

J. F. K. HEWITT,

Offg. Junior Secy. to the Govt. of Bengal.

APPENDIX A TO THE 19TH SPECIAL NARRATIVE.

*Movement of food-grains.*

1. THE consolidated return of exports from the Bengal Presidency during the month of May is given in schedule A.

The figures are—

					Tons.
Exports	...	...	...	...	12,967
Imports	...	{ On Government account	...	...	81,943
			{ On private account	...	...
			Total	...	89,112

Of the private imports, 4,964 tons were from Orissa, 1,516 tons from Moulmein, and the rest from ports on the Madras Coast.

The total figures to date (31st May) stand thus:—

					Tons.
Exports	...	...	...	...	225,730
Imports	...	...	...	...	403,390

2. Between the 17th and 30th May, 16,546 tons of food-grains were sent up to Behar from stations below Rajmehal and Jamoore, making a total of 408,971 tons since 1st October, inclusive of Government grain. The down-traffic of food-grains to Behar from the North-Western Provinces, was 18,640 tons during the same period, making a total of 188,694 tons since the 1st November.

The up-traffic during the fortnight thus fell off by 15,963 tons, and the down-traffic increased by 515 tons, both results being due, more or less, to the near completion of despatches of Government grain to Behar from Howrah. The total amount of food-grain poured into Behar by the East India Railway to date (30th May) is shown below:—

		Govt. grain. Tons.	Private grain. Tons.	Total. Tons.
Up	...	265,475	143,496	408,971
Down	...	35,873	152,821	188,694
Totals	...	301,348	296,317	597,665

3. The importations of food-grains to Calcutta by the Eastern Canals from the 23rd May to the 5th June were 4,659 tons, making 188,632 tons in all since the 1st October.

4. The private traffic registered on the Ganges is as shown below:—

Stations.	Date.	Direction.	Tons.	Up to date from 1st November 1873.
				Tons.
Sahebgunge ...	17th May to 6th June ...	Up the Ganges	2,763	34,173
Ditto ...	Ditto ditto	Down	346	11,983
Goalundo ...	17th to 30th May	Up	691	23,397
Kooshtea ...	Ditto ditto	Down	295	12,452

CALCUTTA,  
The 9th June 1874.

G. TOYNBEE, C.S.,  
On Special Duty.

## SCHEDULE A.

Statement showing the Quantity of rice (distinguishing table and other kinds), paddy, wheat, gram, and other food-grains, exported from the Presidency of Bengal for the month of May in the present year, and last year respectively.

CALCUTTA CUSTOM HOUSE,

The 10th June 1874.

T. B. LANE,

Offy. Collector of Customs.

No. 3504—S.R., dated Calcutta, the 1st June 1874.

From—The Officiating Secy. to the Govt. of Bengal, Scarcity and Relief Dept.,  
To—All Commissioners and Magistrate-Collectors in the distressed districts of the  
Rajshahye, Patna, and Bhagulpore Divisions.

THE Lieutenant-Governor has recently received information that there are large stores of grain at or near some of the railway stations in Northern India, most of which is intended for transmission to the famine districts.

2. It is probable that much or most of this grain will find its way into the less distressed districts on the banks of the Ganges, where Government grain is not being sold to the public. But some part of these supplies may possibly reach some of the more distressed tracts. The Lieutenant-Governor, therefore, desires to draw the attention of all officers to Rule (g) of the instructions to relief committees, which provides that "sales (to the public) should be stopped as soon as the local trade receives sufficient supplies, and any competition with the local trade should be carefully avoided."

3. If, therefore, any intending importers ask what is to be the policy of Government, they should be told that if they bring in sufficient supplies to any market where Government sales are going on, those sales will cease in such market from the date of the actual arrival of the supplies until "a serious deficiency of supplies" is again apprehended. The action of all Magistrates and sub-divisional officers must be in accordance with this principle; where sufficient supplies come into a market, Government sales therein must be stopped, but they must be resumed when apprehension of serious deficiency again arises.

4. The Lieutenant-Governor must leave it to the discretion of Magistrates, and sub-divisional officers acting under the Commissioner's orders, to decide when "sufficient supplies" have been brought into any market or tract where there was previously a serious deficiency. The range of prices will be one among the several tests of such sufficiency or insufficiency. The requirements of the poorer and middle classes must always be borne in mind; and it must not be forgotten that the sales of Government grain to the public is one of the means for giving the people the benefit of the arrangements which the Government has made for averting the consequences of the scarcity.

No. A, dated Bankipore, the 31st May 1874.

From—A. C. MANGLES, Esq., Collector of Patna,  
To—The Offg. Secy. to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit the following narrative for the fortnight ending Saturday, the 30th instant.

#### A.—STATE OF THE COUNTRY.

2. There is still an abundant supply of all sorts of food-grains in the several bazars of this district, and no deficiency is reported from anywhere. The new grain from the North-Western Provinces and the Punjab, as well as rice from Lower Bengal, is being freely imported by the private traders; the amount of importation during the fortnight ending 23rd instant being 3,62,246 against 3,40,959 shown in the last narrative.

3. The subject of the block at the Patna stations has received my best attention during the fortnight, and with every one doing their best, as they are at present, I hope we may tide over the rush without any great hindrance to trade or inconvenience to the public. I spent the whole of the forenoons of the 28th and 30th instant at these stations,—on the first occasion in company with Messrs. Corbett and Mears,—and on the second with Captain Wallace, Messrs. Batchelor, Fox, Thomas, Corbett, and Mears, and am glad to be able to report that great improvements have been made since the despatch of my last narrative on the 17th instant. In the first place, many of the obstructions to the north of the line at the Patna city station have been removed, so that now there is much more room for coolies to pass in or out with their loads, and one of the slides or shoots has been put up on the bank to the south of the line, several others being in course of construction. The new siding between the city and ghat stations, though by no means complete, has been brought into use, and up to yesterday two trains, composed of some 40 carriages, had been unloaded there, and at

the time of my last visit I saw the traders engaged in removing their goods by means of pack bullocks. It was a matter for discussion as to whether Mr. Corbett had done right in making use of the siding when it is still in such an incomplete state, or whether it would not have been better for him to have left it perfectly clear to allow of Mr. Fox the more easily getting on with the earth-work. Taking everything into consideration, I am of opinion that Mr. Corbett has acted rightly, for, though no doubt in its present state the merchants are put to some difficulty in removing their goods, I think they would rather undergo this inconvenience than have them left in the waggons without the possibility of getting at them; besides which, it must be remembered that the siding is entirely composed of new earth; that the rains are not far off, and that when they once commence, till the earth has had time to settle, which it will take some little time to do, the siding will be of comparatively little use, as a cooly with a two-maund bag on his head, would have considerable difficulty in getting about, even if he could get about at all, so that I think Mr. Corbett has acted wisely in making use of it the first minute he can, even in its unfinished state, and letting the work of completing it go on at the same time. With the view of rendering the Railway Company all the assistance in my power, I have stopped the relief and local fund works in the vicinity of that part of the town, informing the laborers that they can get plenty of employment at the station, either under Mr. Fox, in making the siding, where all hands could be employed, or under Messrs. Bird and Co., in removing the bags, where only the strong and able-bodied would obtain employment, but where they would get better wages than they do on the roads. I am also issuing a notice on the mahajuns, warning them how close the rains are upon us, and how necessary it is that they should make every endeavor to remove their grain from the stations before they set in.

4. The following were the rates of food-grain obtaining in the principal markets of this district during the fortnight:—

*Patna City.*

Rice, best	..	..	..	..	11 seers.
Rice, common	..	..	..	..	12½ "
Wheat	..	..	..	..	16 "
Barley	..	..	..	..	19 "
Maize	..	..	..	..	17 "
Gram	..	..	..	..	19 "

*Behar.*

Rice, best	..	..	..	..	9½ seers.
Rice, common	..	..	..	..	10 "
Wheat	..	..	..	..	13 "
Barley	..	..	..	..	18 "
Maize	..	..	..	..	15 "
Gram	..	..	..	..	16 "

*Dinapore.*

Rice, best	..	..	..	from 9½ to 10½	seers.
Rice, common	..	..	..	" 11 to 11½	"
Wheat	..	..	..	" 13½ to 15½	"
Maize	..	..	..	" 16½ to 17	"
Gram	..	..	..	" 16 to 18	"

No return has been received from the Barh sub-division.

In the interior of the sudder sub-division the prices were as follow:—

*Bankipore Thana.*

Rice	..	..	..	..	from 10 to 11 seers.
Wheat	..	..	..	..	15 "
Gram	..	..	..	..	17 "
Barley	..	..	..	..	19 "
Maize	..	..	..	..	16 "

*Bickrum Thana.*

Rice	..	..	..	..	from 11 to 12 seers.
Wheat	..	..	..	..	" 14 to 15 "
Gram	..	..	..	..	" 18 to 19 "
Barley	..	..	..	..	19 "
Maize	..	..	..	..	17 "

*Masourhee Thana.*

Rice	..	..	..	..	from 10 to 11 seers.
Wheat	..	..	..	..	14 "
Gram	..	..	..	..	17½ "
Barley	..	..	..	..	18 "
Maize	..	..	..	..	16½ "

5. The sub-divisional officer of Behar writes: "On account of an insufficient fall of rain up to this date prices are still stationary. It is expected in all quarters that there will be a fall as soon as the rains come down. The markets are full. People are only waiting to see whether they are to expect another year of scarcity or whether things will take a better turn."

6. We had no rainfall at the sudder station during the fortnight, but very slight showers were reported from some parts of the interior, not enough, however, to enable cultivators to commence on their agricultural labors. Rain is now much wanted, and there appears to be every chance of our soon having some heavy banks of clouds making their appearance nearly every evening. The cheena crop on the ground is now being harvested.

7. No case of misery or starvation was reported from any part of the district, with the exception of the following, from the Dinapore sub-division. The sub-divisional officer says: "the death of a girl, of about 8 or 9 years of age, is reported to have occurred in the town of Old Dinapore on the 23rd instant. It appears that the deceased was begging in the street, when, on arriving at the shop of a *talee* at 7 o'clock in the morning, she sat down and suddenly died. The body was taken to hospital and a *post mortem* held. The hospital assistant stated it as his opinion that the deceased died from starvation, and in this opinion Dr. Tuson concurred. He said 'starvation and exposure.' The name of the child is not known, and she was apparently without relatives in the place. This is quite an isolated case; there are no signs of distress in this sub-division, and fewer beggars are here now I am told than usual."

8. Barring the above case, the condition of the people is as good as stated in my last report. There are plenty of relief works for them, both public and private, everywhere, so that those seeking it can always obtain labor. With the commencement of agricultural operations I have reason to hope our anxiety regarding the people will cease.

9. 147 persons were registered during the fortnight as emigrants for the Natal Colony, whereof 42 belonged to this district, 72 to Gya, 6 to Shahabad, 4 to Sarun, and 23 to other districts.

10. One case of grain-robbery was reported during the fortnight, in which a man of the Moosahir caste, in the Masourhee thana robbed one Dookhee Koornee of 10 seers of wheat and gram; he was arrested on the spot and has been sent up for trial. There were only three cases of theft, all of a petty nature.

#### B.—RELIEF WORKS.

11. The subjoined statement will show the number of laborers employed during the week ending the 23rd instant, the latest date for which information has been furnished on the several Government relief works:—

##### *Sudder Sub-division.*

		Average daily number.
Road No. 9, from Meetaipore to Mohabullypore	...	1,168
" " 11, from Nowbulpore to Masourhee	...	709
" " 12, from Durveshpore to Bickram	...	353
" " 22, from Dinapore to Nowbulpore	...	289
" " 24, from Rampore to Mohabullypore	...	503
" " 23, from Ekangy Serai to Masourhee	...	658
Total	...	3,680

##### *Behar Sub-division.*

Road No. 29, from Futwah to Behar	...	2,148
" No. 31, from Bucktiarpore to Rambagh	...	4,680
" No. 36, from Behar to Asthawon	...	1,948
" No. 37, from Rajgeer to Giruk	...	1,235
" No. 38, from Futwah to Raneebagh	...	1,432
Total	...	11,443

##### *Burh Sub-division.*

Road No. 4, from Bagh Jaffer Khan to Futwah	...	98
" No. 15, from Futwah to Burhou	...	1,325
" No. 30, from Mokameh to Surmeyrah	...	134
Total	...	1,557

##### *Dinapore Sub-division.*

Road No. 10, from Phoolwarco to Surradha	...	496
" No. 13, from Munair to Pareo	...	134
" No. 14, from Munair to Bilta	...	143
Total	...	773

or a grand total of 17,453 laborers, composed of 5,741 men, 9,055 women, and 2,657 against 15,833 reported in my last narrative.

The following are the average daily number of laborers employed by the zemindars and our advance-holders on village and tank works—

On tank at Sonmye in the south of the sudder sub-division' ...	296
Ditto at Sondali ditto ditto ...	200
Ditto at Masourheo ditto ditto ...	240
On embankment works in the south ...	387
Ditto in the south-west of the sudder sub-division ...	458
Ditto in the Behar sub-division ...	356
On a tank in the Patna City ...	200
Total ...	2,137

against 1,549 shown in the last report.

12. During the fortnight the following additional grants were sanctioned on the under-mentioned relief works :—

	Rs.
Road No. 29, from Futwah to Behar ...	2,000
„ No. 31, from Buktearpore to Raneebagh ...	5,000
„ No. 38, from Futwah to Raneebagh ...	2,000
„ No. 36, from Behar to Asthawon ...	2,000
Total ...	11,000

#### C.—TRANSPORT OF GRAIN.

13. The following statement will show the quantities of grain imported into the district during the fortnight ending the 23rd instant by rail—

	Rice	Wheat, oat, and barley.	Janera.	Other grains.
By rail ...	3,70,226	80,269	29,408	2,02,343
By river ...	3,050	125	100	1,147
Total ...	3,73,276	80,394	29,508	2,03,490

making a grand total of 6,86,668 maunds, whereof 3,20,000 maunds were Government grain received at the Barh station and the remaining 3,66,668 were private importations. Figures regarding the Government grain received at the Futwah Branch station have not as yet been furnished.

14. I have during the fortnight made enquiry as to where the very large amount of grain imported by the private traders to the Patna city is sent, and, as far as I have been able to ascertain, the following is the state of things. About 1,50,000 maunds of grain are imported into the city every week, whereof about 50,000 maunds is kept for the use of the city and the interior of this and the Gya districts, and the remaining one lakh is despatched by boats to Sukwarpore on the other side of the Futwah ghat, where a golah has been set up by the Tirhoot grain-dealers, and also to Hajepore and Lalgrunge and Govindgrunge for exportation to Chumparan. Another golah has been set up by the Tirhoot merchants at Borarpore, just opposite to Barh, to which place the grain received at Barh and Buktearpore stations is exported for consumption in Tirhoot.

15. I have lately issued a circular to all my advance-holders for the purchase of grain, drawing their attention to the near approach of the rains, and warning them that if they want to replenish their stock they should do so at once, before the grain is likely to get damaged in course of transit and before the roads become impassible for wheeled traffic.

16. Up to date I have sent about 50,000 maunds of bhoota to Chumpta Ghat, but have now, under orders of the Commissioner, stopped despatching any more, and will accordingly close my accounts with the different contractors.

#### D.—STORAGE OF GOVERNMENT GRAIN.

17. Of the 25,000 maunds of grain ordered by the Commissioner to be despatched from my golahs to Bunker Ghat, for use of the Mozufferpore golahs, about 23,000 maunds have already gone, and the rest will be sent in the course of a few days, so that we are now left with only 18,800 maunds in the district, stored in the different sub-divisions as given below :—

	Rice.	Mixed grain.
	Mds.	Mds. Srs.
Sudder sub-division ...	4,639	1,000 0
Dinapore sub-division ..	1,437	979 0
Behar sub-division ...	7,592	3,250 20
Total ...	13,668	5,229 20

18. Having therefore only some 18,000 maunds of Government grain left in the district, I do not wish to part with it all at once, which I undoubtedly should do, were I to give it instead of money wages to the laborers on all the works, and what I propose doing therefore is, to keep a strict watch over the rates prevailing in the bazars in the vicinity of the different works, and where I see them rising above the means of the people then supply the Government grain to those willing to purchase it, either through the shopkeepers deputed to the works, or to take it in lieu of money wages. With this object in view, I have, during the past fortnight, directed the Deputy Collector of Behar to commence selling the Government grain on four of the works in his sub-division, and as soon as my salt officers are relieved of their present duties of despatching grain to Tirhoot, I will commence in the same way in the Sudder and Dinapore sub-divisions should necessity arise. By this means, I shall be able to eke out the small amount of grain left to me (which I hope, however, will be quite sufficient to meet all my requirements) till I can see what the prospects of the bhadoi crops are likely to be, and till the works on the different roads shall have been brought to a standstill. These proposals will, I trust, meet with the approval of Government as did those contained in my previous narrative of selling to banias in the different villages in the vicinity of the works, which approval was conveyed to me in Government letter No. 319—T.F. of the 22nd instant.

#### E.—ADVANCE TO PRIVATE PARTIES.

19. None during the fortnight. The village works for which advances were taken are still in progress, and the zemindars who had received advances for the purchase of grain are selling it and sending me periodical returns.

#### F.—CHARITABLE RELIEF.

20. None in this district.

#### G.—FINANCIAL RESULTS

No. 798, dated Gya, the 31st May 1874.

From—A. V. PALMER, Esq., Collector of Gya,

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Dept.

I HAVE the honor to submit my fortnightly report on scarcity and relief in the Gya district for the fortnight ending Saturday, 30th May.

A.—STATE OF THE COUNTRY.

2. The annexed table shows the comparative prices of food at the principal markets in the district.

BAZARS.	WHEAT.		BARLEY.		RICE, BEST SORT. RICE, COMMON.				MILLET.		MAIZE.		GRAM.	
	Week ending 30th May.	Week ending 16th May.	Week ending 30th May.	Week ending 16th May.	Week ending 30th May.	Week ending 16th May.	Week ending 30th May.	Week ending 16th May.	Week ending 30th May. Doodnuggur ... ..	13 8	13 8	18 0	18 0	10 0	10 0	11 0	10 8	17 0	.....	.....	...	16 0	15 0

3. The table of food-grains imported, which will be given under heading C, shows that the decrease of importation is so very slight as to call for no special remark.

4. The price-currents show that though rice in some places is dear, other grains are cheap, and as long as this is the case, there is food for all. The prices remain firm. The Aurungabad sub-divisional officer remarks that the decrease of importation is owing to a scarcity of carts. The canal officers and opium department have during the past fortnight been engaging all the carts they can lay hands on.

5. The Deputy Magistrate has had some difficulty in procuring carts for bringing 5,000 maunds food-grains from Bihta. All the carts in the vicinity of the railway are reported to have been taken by the Magistrate of Patna for transport of cattle-fodder to Tirhoot, and a large number of independent cartmen have proceeded north of the Ganges to make their fortunes there.

6. The sub-divisional officer of Jehanabad reports an increasing scarcity of rice; but, as I have already mentioned with other grains at the prices marginally noted, there is no cause for alarm.

7. In Nowada the markets remain fairly stocked. At one market, Gobindpore, prices are slightly higher than in the rest of the sub-division. There is as yet no cause for interference. Road-work with Government grain is to be had in the immediate vicinity of this village.

8. In the Sudder sub-division there is no change, the importations being 2,082 maunds against 2,030 maunds of the previous fortnight.

9. It is somewhat strange that the sale of Government grain to the public in the town of Gya should not in the slightest degree have influenced the market prices there.

10. I consider the order directing these sales to have been highly judicious, and it shows that such sales, if arranged so as to exclude traders, afford material assistance to the poor, and in no way injures the legitimate trade of the grain merchants.

11. The further my inquiries go with respect to the existence of a sufficiency of seed-grain in the district, the more assured I feel that there is no cause for anxiety on that score.

12. Seed-grain is the one thing that agriculturists of Behar do take some forethought about. The orders of Government authorising the exchange of food-grain for seed-grain has been well disseminated, and it is not unreasonable to suppose that if seed-grain were scarce, or that the tightness was so great as to compel its being brought into consumption, some applications at any rate for the exchange would have been made with a view to obtain food for consumption and to preserve a portion of the seed-grain in stock.

13. I may further point out that in a district like this, in which a greater portion of the rents are paid in grain, the self-interest of the landlord combines with that of the tenant to ensure a supply of seed-grain being preserved, without which the main crop on which they live and pay their rents and revenue would not be secured.

14. During the last week there has been very slight rain throughout the district at different times, as per margin. The rainfall in Nowada was not especially reported, as it fell on three different occasions in very small quantities,  $\frac{1}{100}$ ,  $\frac{1}{100}$ , and  $\frac{1}{100}$ .

15. More rain is very much wanted. What fell in Nowada has been sufficient to set all the agriculturists to work in ploughing, and some have already sown rice. Rain is also required for the transplanting of murwa throughout the district.

16. With the exception of a little cotton, cheena, and sugarcane, there are no crops now in the ground.

17. I am happy to be able to continue to report that the general condition of the people remains good.

18. The number of persons gratuitously relieved has somewhat increased; but this is mainly owing to the house-to-house search within the municipality of Gya and the exertions of the deputy supervisors and others who, under instructions, send into relief-houses those who are fit subjects for such relief.

19. No cases of misery or starvation have been reported. With all the arrangements that have been made and the care with which these have been promulgated, such cases can scarcely occur.

20. Grain-thefts or robberies have not increased to any appreciable extent. Crime is reported to have increased slightly in Nowada, but elsewhere it is, if anything, below the average.

21. The alleged distress reported in paragraph 17 of my last narrative on the confines of the Patna district was promptly inquired into, first, by a head constable; and secondly, by the Sub-deputy Collector. The report was clearly shown to be utterly without foundation. I may mention that the prices of food ruling in the adjacent bazar were as per margin. With food at these prices it is difficult to conceive the existence of general distress.

23. I have been, and am still, doing all that lies in my power to insist on piece-work being more generally adopted.

24. It entirely rests with the officer in charge of the works whether this is or is not effected.

25. Daily payment is more popular, because, with no regularly organised or proper supervision, the system was abused, more or less, by every duffadar and laborer employed.

26. The laborers worked or not at discretion, and with the small number on our works the system was unsuitable, and certainly nothing could be more unsatisfactory or inconsistent than the results. I have therefore adopted as a general rule, and have accordingly instructed officers in charge of works, that all able-bodied men are to be offered piece-work at remunerative rates, a distinction being made between professional earth-cutters and those that are not so.

27. These rates are 50 per cent. in excess of the ordinary rate at ordinary times for professionals. The rates for non-professional laborers will be from 75 to 100 per cent. in excess of ordinary rates.

28. That those who are not able-bodied, and excluding those that are invalids, sickly, emaciated, &c., who are proper subjects for charitable relief under clause B or C of Central Committee's Instructions, should only be employed under the daily payment system; and as the number flocking to the works is comparatively small, and as there is so little demand for labor amongst the poorer classes in this district, I trust that this rule may be allowed to stand.

29. Where there are large masses of laborers and great distress, such as exists in North Behar, I fully understand the necessity of giving laborers their choice of systems, but I submit that this state of things happily does not apply to this district.

30. The daily average of laborers employed during the last fortnight is 2,861 as against 2,081 of the previous fortnight, showing an increase of 780 laborers.

31. The increase is owing to the Bela, Gobindpore and Puraya Roads having recently been started.

32. Arrangements are being made for the payment of laborers in Government grain, as directed by Government orders marginally noted.

33. In accordance with suggestions from the Commissioner, contained in a circular forwarded with his No. 121F. of 21st instant, I have made the arrangements I am about to detail.

34. I may mention that these arrangements have already been put in practice on most works.

35. It is desired that on each work Government grain should be available for the laborers employed on the works. This is effected either by a trader consenting to take food from the golah and sell it on the spot to laborers only, he receiving remuneration in the shape of  $\frac{1}{2}$  seer grain for each rupee's worth taken, or by the employment of a bunniah servant on each work to weigh and sell on behalf of Government, the bunniah being paid by a monthly salary.

36. The first course I have hitherto been able to follow is by far the least complicated, and practically the simplest and best.

37. The trader pays for the grain before he removes it from the golah, and all that remains is to see that he sells to laborers only.

38. The laborers are paid in pice, the greater part of which they exchange for Government grain. It is far better that any surplusage over and above their daily requirements for food should be in pice and not in grain, thereby enabling them to indulge in a few condiments and luxuries, which make them contented, as also to put a trifle by for the approaching agricultural season.

39. As regards contract work, we should hardly be morally justified, having once entered into a contract for money payment to change this into direct grain payment without the consent of the contractors. But practically this is effected by selling Government grain on the spot at rates slightly favorable to those obtaining in the bazar.

#### C.—TRANSPORT OF FOOD-GRAIN.

40. The annexed table will show the quantity of reported private importations during the past fortnight:—

Bazars.	Wheat.	Barley.	Rice, best sort.	Rice, common.	Millet.	Maize.	Gram.	Total.
Gya ...	432	226	131	797	...	39	457	2,082
Nowada ...	20	10	.....	25	...	10	20	85
Jehanabad ...	70	45	45	105	110	15	110	500
Aurangabad ...	149	.....	36	278	...	....	132	595
Daoodunggur ...	1,300	79	350	290	...	....	375	2,394
Total ...	1,971	360	562	1,495	110	64	1,094	5,656

41. This gives a total of 5,656 against 6,366 maunds in the previous fortnight. This decrease has, under heading A, been explained as being attributable to local causes. The firmness of prices in the markets show that there is no uneasiness as to the stocks of food.

42. The importations in the Sudder bazar require no remark.

43. They are as follow :—

	Wheat.	Barley.	Rice, best sort.	Rice, common.	Maize.	Gram.	Total.
Fortnight ending 16th	432	220	94	857	65	382	2,030
Ditto ditto 30th	432	226	131	797	39	457	2,082

#### D.—STORAGE OF GOVERNMENT GRAIN.

44. The following table shows the places of storage in the district.

Storage centres.						Quantity.	Total.
<i>Gya</i> ...	...	...	...	...	...	29,851	46,493
<i>Bela</i> ...	...	...	...	...	...	3,012

<i>Daodnuggur</i> ...	...	...	...	...	...	4,973	34,562
Grand Total						.....	1,46,360

45. Of the 5,000 maunds of grain received at Bilta station during the fortnight, 838 maunds have been carried and stored at Aurungabad. The remainder may be expected to be stored during the ensuing fortnight. Of the 5,000 maunds consigned to Bukhtiarpoore, 333½ maunds were dispatched to Nowada before the orders countermanding the consignment were received. The balance of this consignment, 4,666 maunds, is at Bukhtiarpoore, and awaits the Commissioner's orders as to its disposal.

46. As directed by Sir Richard Temple, I submit the storage and consumption of Government grain statement.

*Statement showing the Storage and Consumption of Government Grain in the Gya District for the fortnight ending 30th May 1874.*

NAME OF CIRCLE.	Dates for which figures are given.	Total allotment.	Total quantity received and stored.	TOTAL QUANTITY OF GOVERNMENT GRAIN CONSUMED UP TO DATE.			Estimate of receipt of the ensuing fortnight.	Estimate of expenditure during ensuing fortnight.
				By sale to the public or laborers.	By gratuitous distribution in any shape.	Total.

\* Sold to relief committee for charitable relief.

47. I trust in next narratives to be able to give the account of grain sold to the public, to laborers, and to relief committees, under distinct heads.

48. I also propose to submit a statement showing the cost paid on each work and the amount recouped by sale of grain during each fortnight.

#### E.—ADVANCES TO PRIVATE PARTIES.

49. 1st.—*To deal in grain.*—One application by a trader has been received, and part of the advance asked for granted. The sum asked for was Rs. 500, the amount granted, Rs. 300.

50. 2nd.—*For land improvement.*—The subjoined statement shows applications granted for land improvement during the fortnight.

*Advance for land improvement granted between 16th and 28th May 1874.*

Name of applicant and rights held by him.	Nature and locality of work for which advance is applied for.	Amount of advance applied for.	Period within which the work is to be completed.

#### F.—CHARITABLE RELIEF.

52. As directed in Bengal Government No. 3216, dated 19th May, I propose to give a detailed account as to what has been done, and what spent up to the 30th May in charitable relief under headings *b*, *c*, and *d*.

53. This may be concisely done by a reference to the accompanying statement. It will then only be necessary to explain in detail how the charitable intentions of the subscribers to the relief fund have been interpreted, and how the funds have been applied.

54. It will be observed that by far the largest expenditure is under heading *b*. This is to be expected.

55. In the first instance houses of charity were established at the sub-divisional headquarters, as per margin, where they could be efficiently supervised, and care taken that the funds were properly applied.

56. Buildings were erected or obtained, cook-houses established, and a sufficient staff of servants employed to ensure properly cooked food being punctually distributed.

57. The opinion of native gentlemen and the medical officer was taken as to the quantum of food it would be desirable to serve out daily to the recipients. This was fixed at 8 ch. rice and 4 ch. dal, and salt. To those who were thin and weakly an additional meal of  $\frac{1}{4}$  seer sathoo was provided in the evening.

58. Subsequently it was found expedient to vary the food. Wheat-porridge, sathoo, and such like, were occasionally given, orders being issued that rice and dal should never be given less than twice a week.

59. Subsequently as scarcity increased, it was found necessary to increase the number of these relief-houses. Gratuitous relief was accordingly administered at the centres marginally noted, in addition to those already established.

60. The sub-divisional officers have all taken a heartfelt interest in providing for the poor, and have spared no personal exertions in adding to their comforts; and by constant attendance at the distribution of food, have effectually put a stop to any attempt to serve out short rations under heading *b*.

61. Professional beggars, persons who from age, want, illness or other causes are found incapable of earning their livelihood by manual labor, are the classes that have been freely admitted into these houses of charity. It is satisfactory to be able to state that the greater portion of these admissions have been lepers and professional beggars. In Jehanabad, which was the last to be established, there is a large preponderance of non-professional indigents but these are mostly aged and decrepid persons. Cases of weakness from starvation are exceedingly rare.

62. These houses of charity are being resorted to now in greater numbers, in consequence of the exertions of the deputy supervisors and others, who are travelling over the country for the main purpose of seeking out all cases of distress and sending them in for charitable relief.

63. Medicines have been freely supplied for those that are sick, but these are but few. There is no doubt that had these institutions not been provided, hundreds would have died from inability to procure the necessities of life.

64. Relief under heading *c* has been extended more in the Sudder sub-division than elsewhere. A fight is always made to obtain relief without any *quid pro quo*. This, where the

means of employment is all that is required, is obviously wrong, but it requires no little patience and persuasion to bring about a commencement.

65. Relief under this head, *c*, has hitherto been confined to spinning of cotton, weaving of cloth and twisting of grass-string. These are all of the lightest possible labor, and it is surprising that relief in this shape has not been more sought after.

66. I have now authorised sub-divisional officers to start and include under this head, light labor gangs. These will consist of a class between the incapable and the able-bodied. They will be paid in uncooked grain, and their employment will be to do petty earth-work repairs, filling up holes, raising, straightening, and draining village paths, and such like.

67. Under heading *d*, two purdanasheen ladies in the Aurungabad sub-division were ascertained to be pinched for food. Their cases were at once enquired into by the Deputy Magistrate, and relief afforded.

68. A staff of native officers has this day joined at Gya, who will be employed in a village-to-village visitation, searching out incapables, those wanting work, and those who, for different reasons cannot earn a livelihood by manual labor.

69. These officers, in addition to the deputy supervisors already employed on this work, are provided with funds to relieve any immediate cases of distress, and all cases that they discover will be brought to the notice of the sub-divisional officer and of myself, or the parties will be sent in according to the circumstances of each case.

70. I think it right to state here that I do not anticipate any large expenditure under heading *d*. Relief in these cases will, as a rule, be granted in grain and not in cash.

71. I am satisfied that all my subordinate officers are actuated by but one feeling, and that is to carry out the charitable intentions of the subscribers to the fund to the best of their power; to see that these funds are humanely and legitimately expended; but that while they will spare no exertions to ferret out and relieve fitting objects for relief, they will not countenance any misapplication of funds with the expenditure of which they have been entrusted.

#### G.—FINANCIAL RESULTS.

72. The total expenditure shown in last narrative (16th May) was Rs. 1,08,906-12-6.

73. During the fortnight under notice the following expenditure has been incurred:—

##### *On account of establishment and contingencies.*

	Rs.	As.	P.
Paid to Deputy Collector of Nowada on account of salary of chowkidars and mohurirs located at the golahs of his sub-division for the month of April ...	131	14	10

<b>Grand Total ...</b>	<b>1,13,145</b>	<b>5 3</b>

74. Government grain was sold to the public at the four sub-divisional head-quarters for a few days under the Government circular No. 2950—S.R., dated 6th May. On receipt of the Commissioner's circular No. 102F, dated 15th idem, explaining that these sales were only to be where specially ordered, this was at once stopped.

75. The Commissioner's sanction to sales of Government grain to the public at Jehanabad was accorded, the high prices of rice there being precisely the same as at Gya.

76. These have since been stopped by me, on finding that though rice was high, other grains were comparatively cheap throughout the sub-division.

77. The following is a statement of Government grain sold during the fortnight:—

Sub-divisions.	To public.	To laborers.	To relief committees.	Total.
	Mds. S. C.	Mds. S. C.	Mds. S. C.	Mds. S. C.
Gya ...	1,672 22 1	38 2 12	41 5 4	1,051 29 1
Jehanabad ...	338 0 12	20 25 2½	23 6 15	381 31 13½
Nowada ...	} Particulars not given. }			242 0 0
Arunghabad ...				305 17 9
<b>Total ...</b>	<b>.....</b>	<b>.....</b>	<b>.....</b>	<b>2,680 38 7½</b>

78. In Gya alone Government grain is now being sold to the public. The sales have not interfered with the grain merchants, nor affected their prices. Grain is being sold through the trade by five selected bunniah of good character; sales from the golah direct have been stopped.

79. I have to report the arrival this day of the gentlemen as per margin.

Mr. Nawaswayam, Overseer.  
Syed Tofuzul Hossain, Tehsildar.  
Ajodhya Prasad, Moonseerin.  
Jhammanu Lall, Ditto  
Nagerhur Prasad, Ditto  
Gokool Prasad, Ditto

80. They have received their orders, and will start at once to their destinations.

81. In the Sudder sub-division grain is being sold to laborerson all the roads, with the exception of Bela. This will be arranged for at once. In Jehanabad grain has hitherto been sold to laborers by a bunniah paid at a monthly salary. This the sub-divisional officer is about to change for a bunniah receiving as remuneration half a seer of grain for each rupee's worth he takes.

82. In Arungabad sub-division "piece-work" is being gradually adopted, and arrangements are being made for bunniahs with Government grain on each work.

83. In Nowada similar arrangements are reported as made.

*Statement of Expenditure incurred on Charitable Relief, and the number of persons relieved in the District of Gya, from the commencement of operations up to 16th May 1874.*

GYA COLLECTORATE,  
The 31st May 1874.

A. V. PALMER,  
Collector.

No. 365F, dated Arrah, the 2nd June 1874.

From—H. W. ALEXANDER, Esq., Collector of Shuhabad,  
To—The Offg. Secretary to the Govt. of Bengal, Searcity and Relief Department.

I HAVE the honor to submit my 13th narrative for the fortnight ending the 30th May.

A.—STATE OF THE COUNTRY.

No scarcity of supply in the markets is reported from any part of the district; the abundance or scarcity of supply in the bazars appear to be sufficiently stocked for all local requirements.

A reference to Appendix A will show the kinds and prices of grain selling at the chief marts in the district. In the Arrah sub-division there has been little variation in the rates since the date of the last narrative. The same remark will apply to the Buxar sub-division.

In the Sasseram sub-division prices are, on the whole, easier than they were last fortnight, exhibiting a slight rise in Chomnary only.

In the Bhubooh sub-division prices in all the markets are generally steady. The Sub-Divisional Officer remarks, in regard to the two last-named sub-divisions, that "the small imports in proportion to the population do not account for the steadiness in prices. It is clear, therefore, that private stocks are being brought into the market. Hitherto there have been no signs of a famine of food in either sub-division."

There has been a slight shower of rain in the neighbourhood of Arrah on Sunday last, and a fall of hail about 3 miles to the north-east of the town. The weather has been unsettled and threatening.

In the Buxar sub-division, in the eastern part of the Bhojpore pergunnah, down south from Doonraon, a good shower of rain fell, and ploughing has commenced.

There has been no rain either in the Sasseram or Bhubooh sub-divisions; it is anxiously looked for.

The cheena crop is being rapidly harvested. The boro rice in the few places where it has been planted has turned out a good crop. The mango crop is on the whole promising, although not so good as it was originally reported.

The condition of the people remains much the same as last reported.

No cases of misery and starvation have been brought to light. Small-pox is still prevalent, but not in an aggravated form, nor more extended or serious than in ordinary years.

There have been six cases of thefts of grain; in one case 24 maunds of rice are reported to have been taken; in the other cases the amount stolen was under five maunds.

No robberies have been reported.

B.—RELIEF WORKS.

In Appendix B will be found full particulars in regard to all the relief works now in progress in the district, and the number of laborers employed on each.

A commencement has been made during the fortnight to sell Government grain to the laborers on relief works; and as arrangements have now been completed, this system will come into full and general operation during the ensuing fortnight.

In the Arrah sub-division payments to coolies (class II) in grain instead of money (excepting only 1 pice onah, which is given them for wood, oil, &c.,) was introduced last week on the relief work on the Kaemnuggur road; this week it will be introduced on the Sahar and Peroo roads.

In the Buxar sub-division arrangements have been made to sell Government grain to the laborers employed on the roads from Sonepa to Saraya and Doonraon to Bikram.

Under this head Mr. Eyre remarks: "During the week ending the 23rd May, I travelled through the entire Ramgurrh jurisdiction, and tested the measurements made in view of excavation of old silted tanks as a relief measure. I have selected—

*First.*—The Sisounda tank, on the road from Ramgurrh to Nonon.

*Second.*—The Doondoona tank, south-east of Nonon.

*Third.*—The Oopree tank, north-east of Ramgurrh.

*Fourth.*—Koolheria tank, east of Ramgurrh, on the Koodra River.

"The estimates for these works will be submitted next week. I arranged with the zemindars for the halting of the laborers either on the work or in the contiguous village, at the zemindar's cost. Bunneahs (salary 5 per month) for the sale of grain to the laborers were nominated at each village, and agreements taken from them. Existing buildings for minor depôts were selected at Nonon and at Belamm Chuck. I had wished to select a relief work of the same kind (viz., tank,) between Doorgawutti and Kuramnassa to the north-west. A slight sun-stroke, however, compelled my return on the 23rd to Mohunia bungalow. I accordingly deputed the Ramgurrh Supervisor, who had up to that time accompanied me, and knew what was to be done, to select a tank in the country named. His report has not yet been received."

Paid salesmen are now employed on the Hatta and Duronli road. They have been arranged for at the four relief works in the Ramgurrh jurisdiction, and will commence operations the ensuing week on the Jehanabad and Bhubooah road, the Jehanabad and Buraon road, and the Jehanabad and Khireo road. The work on the Akbore and Judonathpore road has been completed, and also on the Chennary and Mullipore road. There is a small sum over in the former, and proposals for a continuation of both roads will be shortly submitted.

#### C.—TRANSPORT OF FOOD.

The statement of the private importations of grain by rail will follow. The importations have not been so large lately as they were a short time ago to the stations in the Arrah and Buxar sub-divisions.

The imports into the Sasseram sub-division during the fortnight are as follows, as reported by Mr. Eyre:—

			Mds.
By rail	...	...	1,014
Interior	...	...	3,176
Exterior	...	...	3,023
Total	...	...	7,213

"These imports, especially from the interior, are mostly of wheat and gram.

"The imports into the Bhubooah sub-division during the fortnight amounted to—

			Mds.	Srs.
By rail	...	...	379	5
Interior	...	...	573	10
Exterior	...	...	1,011	30
Total	...	...	1,964	5

"There has thus been a decrease of market imports into Sasseram and an increase into Bhubooah sub-division during the fortnight, as compared with the previous same period.

"The transport for 25,000 maunds of grain to be delivered from the North-Western Provinces at Zammuniah, Buxar, and Doonraon, has been waiting for some time at the points of delivery. Some of the grain has arrived. In case of the transport means at my disposal being insufficient, I have thought it advisable to apply to the Deputy Collector of Buxar for assistance, which he has kindly promised to give. I hope to have the entire consignment stored before the rains set in."

#### D.—STORAGE OF GOVERNMENT GRAIN AT RELIEF WORKS.

The arrival at Zammuniah of 1,000 maunds of grain and at Buxar of maunds 823 seers 24 is reported for storago in the Sasseram and Bhubooah sub-divisions. The former is in

transit, the latter was received only on the 31st May. No other grain has been received or stored during the fortnight under report.

E.—ADVANCES TO PRIVATE PARTIES AND THEIR RESULTS.

An advance of Rs. 9,352 has been made to Mr. E. Solano for the purchase of grain and bullocks to help his ryots.

F.—CHARITABLE RELIEF.

The charitable relief operations in both the Sasseram and Bhubooah sub-divisions are as follow :—

HEADING B.

*Relieved at Poor-houses.—Cooked Food.*

	Men.	Women.	Children.	Daily average.

The supervising Relief Officers were engaged in regular village-to-village enquiries up to the end of the last fortnight. Up to the end of the last fortnight in the Arrah sub-division 367 villages have been visited by them, in the Buxar sub-division 217 villages, and in the Sasseram and Bhudoonh sub-divisions 550 villages.

Through their enquiries aid has been given in the way of light labor, gratuitous relief, and subsidised in-door labor to 1,548 persons.

With reference to Government letter No. 3216—S.Lt. of the 19th ultimo, I annex herewith a statement showing the number of persons relieved, and the sum spent in connection with charitable relief from the commencement of relief operations until now.

#### G.

Financial results of the fortnight are given in a separate statement (Appendix C).

No. 563, dated Durlbhunga, the 1st June, 1874.

From—C. T. METCALFE, Esq., Additional Commissioner, Patna Division,

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit my narrative report of scarcity and relief for the three Sub-divisions of Seetanurhee, Mudhoobunnee, and Durlbhunga, for the fortnight ending Saturday, the 30th of May.

A.—STATE OF THE COUNTRY.

2. Cool east winds and banks of clouds have modified the intense heat prevailing during the fortnight ending the 16th of May. The currents of air still guide the rain towards the Nepaul Terai, where there has been a considerable rainfall. The rise of the Kumlah and other rivers attest this. The lower hill ranges to the north have been clearly visible, a sure criterion of heavy rain. Slight showers have fallen in many places within our territories, but not sufficient to soak the ground. Still the agriculturists have ventured sowing in many places, and young rice seedlings are sprouting along our northern frontier and in parts as far south as Kuntoul. The lower lands in the more northern tracts have all been ploughed. For the bhadoi crops there has been insufficient rain. The prospects of rain since the morning of the 29th have lessened, and the sky had up to yesterday again assumed the brazen look of the warmer months. There is a very marked difference between the country south of Kuntoul and the more northern tracts. The southern soil is drier, while the mango orchards bear scarcely any fruits.

3. On the 28th the rainfall telegraphed was as follows:—

Narayah	...	...	...	...	...	1/2 inch.
North Poopree	...	...	...	...	...	9/10 "
South Poopree	...	...	...	...	...	7/8 "
Seetamurhee	...	...	...	...	...	9/10 "
Saidpur	...	...	...	...	...	3 1/2 inches.
Dyno Chupra	...	...	...	...	...	1 "
North Mudhoobunnee	...	...	...	...	...	2 "
South Mudhoobunnee	...	...	...	...	...	1 "
Durbhunga	...	...	...	...	...	1 1/2 "

4. In Mudhoobunnee the cheena crop has been reaped everywhere; towards the south-west it is reported as having been good. Indigo prospects, too, in this sub-division have improved.

5. In Behara and Singhiya, moong has been sown. Throughout the Durbhunga Sub-division lands have been freely ploughed.

6. From Narayah reports are that in all directions ploughing has commenced, but not to the extent that is required. Rain fell abundantly all over the sub-division last Sunday; there was again rain on the night of Wednesday. Mr. Mosley writes: "This rain ought to have sent the people to the fields more than it has done. By this time the land required for the main crop should have been broken up, which has not been done." The liberal rates are keeping back the cultivators from the fields. I find that women and children can do enough work alone to more than keep them.

The women can easily earn two annas per diem. The matter of cultivation is getting serious, and I would solicit instructions on the subject. From Seetamurhee the reports are that there has been a good downfall of rain, most favorable to agricultural operations. In this sub-division it is reported that the relief laborers have left their works to go to the fields to plough and sow. Indian-corn, rice, kownee, sharna, marwa, have all been sown. In places the dhan seedlings are ready for transplanting. To the south-east and south-west the rainfall is calculated between 3 1/2 to 6 inches, as the land has been thoroughly soaked. From Poopree the narrative shows that at present agricultural prospects are fair. A fall of 3/4 on the 25th and 1/2 further south has driven the agriculturists to the field. A very large proportion of the lands have been ploughed. To the north of Poopree the Indian-corn is coming up strong, about 1/2 of the crop having been sown. In places rice seedlings are ready to be transplanted. The summary, then, of these reports is, that if the present rain is supplemented by a further fall, there is every prospect of a good bhadoi harvest. Narayah grows no bhadoi, and there is the prospect of only moong and marwa. About Durbhunga, Bahayra and Gangdah the soil is still too dry to allow of sowing, or, indeed, much ploughing, in the chur lands.

7. Price-current of the fortnight under report:—

\* Government rice.

### State of District Grain Stores.

8. There are still extensive private stores, chiefly of dhan seed, but the holders persistently refuse to dispose of them till the rainfall is sufficient. The stereotyped reply of the holders to the agriculturists is this: "When I see your chances of crop in the moisture in the ground I will open my stores, and not till then." To my question to one of these mahajuns a few days ago, "Are you not afraid that your constituents by taking advances from the Government stores may be able to do without your seed?" the reply was, "The Government may or may not recover its advances. If I lose mine I lose everything. I can only advance when I see a positive assurance of at least a return of my advance." I give these details because I believe they show the principle on which private stock-holders work. Feeding the agricultural population between harvests is with them a profession. The grain is their capital, not to be lent except on the security of a good in-coming harvest. The grain stock is generally seed available both for sowing and husking, and hence it is not in famine times there is always seed available as soon as the rainfall predicts a possible harvest.

9. In Setaamurhee and Poopree, where there has been rain, there are no real complaints of want of seed.

10. To the private grain stocks in hand no additions are being made by private importations. Salt and Indian-corn are now coming in, but for the latter there is now but little demand. The great demand is for rice (a) for consumption, (b) for payment of agricultural labor.

11. The agriculturists who still may have home stocks and money are purchasing the Government rice to pay for field labor, and the laborers working on relief works are buying for daily consumption. Of the rice sold there a part is for the present stored, but the greater part consumed. These two classes, then, are in no immediate want. As agriculture draws labor to the fields, the grain now going into home store will again be brought forward.

Cultivation ... .. 1 begha.

1st ploughing ... ..	2 seers.
2nd " ... ..	2 "
Seed " ... ..	15 "
	19 "

12. The present rates for field-labor are two kutchas seers of grain per diem, and one seer of boiled rice. The cost of cultivation is marginally given.

13. The classes who really are now pinched for food are the poorer classes of—

1st—Agriculturists of all castes.

2nd—The poorest of the Tirhootia Brahmins, who through prejudice will not work.

The condition of these two classes at present chiefly occupy the local officers. Neither have home stores for consumption, and the former have no grain to pay for field-labor; without Government aid both must perish.

14. Amongst the agriculturists there has been much transfer of the little property they possessed, and though they will be able to get seed from mahajuns to sow, without grain advances they cannot get on.

If there is a fair bladoi harvest they will, where that crop succeeds, shortly better their condition, but in pergunnah Allapore, where the lands are chiefly rice lands, we may expect to have a large portion of the population on our hands, at least till the end of September.

15. The amount of money that the working classes have laid by is very considerable. To those who have not benefited by our works advances are the great question. All classes, whether well-to-do or poor, are willing to take money. Such advances have been stopped. Where pecuniary aid is really required, it is given in presents debitable to the charitable fund. In some of the circles the officers are taking village by village, and sparing no labor to ascertain the families whose condition requires aid.

16. Tabular Statement E shows the extent of the operations. The Durbhunga return gives the operation of the different circles:—

Name of Circle.	Money advances to date.	Grain advances to date.
Dosowta ... ..	10,792	7,939
Hussunpore ... ..	749	540
Singhiya ... ..	14,690	1,380
Gungdah ... ..	13,739	1,439
Hirnee ... ..	5,209	3,636
Warisnuggur ... ..	737	2,963
Bhundar ... ..	.....	139
Mahomedpore ... ..	1,297	2,395
Hyaghat ... ..	4,331	2,362
Durbhunga ... ..	2,049	2,397
Rohur ... ..	4,502	1,144
Lehera ... ..	3,000	698
Total ... ..	61,095	27,028

*Condition of the People.*

17. No disease or sickness is reported, save a mild type of small-pox. Those on charitable allowance are equally as healthy as the more able-bodied.

18. In his report Mr. Magrath writes. "The only people who cause any great anxiety are the people from Nepal. About 600 of these come daily to Ladanyah for cooked food, and return at night; they are in a miserable plight.

19. Destitution is (if the increasing numbers on relief can be taken as a sign) increasing.

I find in my visitations a better class of persons, Brahmin widows, &c., seeking relief. At first charitable relief was confined to the kullars, *i. e.*, the beggars, and to the weak and aged of both sexes; then the weaker amongst the laboring classes came, and now we have the widows and others who ordinarily through shame reject charitable relief.

20. As regards the condition of the classes, I annex here a statement of observations made by Dr. MacDonell. These figures also represent the worst portion of the population, *viz.* those on charitable relief. I give the figures as the result of medical observation, but my own view is that too high a standard has been fixed for what represents the normal condition of the people of the tracts:

*Dosowta Circle—*

Normal ...	...	...	...	...	41.1
Underfed	...	...	...	...	20.4
Emaciated	...	...	...	...	28.5

*In Rohur the average is—*

Normal ..	...	...	...	...	64
Underfed	...	...	...	...	13.8
Emaciated	...	...	...	...	20.5
Starving	...	...	...	...	1.7

*In the neighbourhood of Hathce the average is—*

Normal ...	...	...	...	...	63
Underfed	...	...	...	...	25.5
Emaciated	...	...	...	...	11.5

*In Singhiya—*

Normal...	...	...	...	...	78.8
Underfed	...	...	...	...	17.7
Emaciated	...	...	...	...	2
Starving...	...	...	...	...	.5

*In Gungdah—*

Normal ...	...	...	...	...	55.2
Underfed	...	...	...	...	32.3
Emaciated	...	...	...	...	12.5

*In two villages of the Bundhur circle the conditions were—*

Normal	...	...	...	...	31.
Underfed	...	...	...	...	31.
Emaciated	...	...	...	...	32.

21. Sectamurhee is under the medical charge of Dr. Gayer. I have not received any percentage of the underfed and emaciated, but the Sub-divisional Officer writes: I have travelled during the week to Shewhur, Amwah, Muspa, Bhugwanpore, Gurha, Dumra, Rogoputty, Punchore, and Mahynd circles, with Dr. Gayer, and noticed the condition of the people generally as pretty fair; but here and there emaciated children were to be seen. At Narainpore and Kouree, two children fell under observation, one of whom, though he had been six weeks under treatment, showed no signs of improvement.

The men seen working on the roads seemed able-bodied and in condition, but there was a very small proportion of women to be seen employed by the Public Works Department, which is mainly owing to the introduction of the contract system. In places I saw women working with the spade.

**B.—RELIEF WORKS.**

22. Within the last fortnight a change of system in paying the laborers in grain in lieu of money has been started, and wherever tried, and the Sub-divisional Officers have given their attention to it, it has been carried out successfully. The Sectamurhee Magistrate reports arrangements are being made to carry out this system. The plan of grain payments is more popular than that of paying in pice, and there is less room for speculation. At

Shewhur, Dyre Chupra, Garsha, Bhoolaheo, and Seetamurhee circles, I have noticed payments made in grain successfully. In Mudhoobunnee the Magistrate still clings to alternative No. 1, viz., payment in money and the erection of bunnies' shops adjacent to each work. Mr. Magrath writes: "I have not issued positive orders to pay in grain, as I am apprehensive of its exhausting my stores too quickly. In Durbhunga grain payments have been introduced on all works, and money payments have ceased. In the Mahonidpore circle the change has been partially made, and is by this time completed. In the Warisnuggur and Hyaghat circles the change is still partial. In Bhundar grain payments are in abeyance, pending the deputation of Mr. Cornish. In the Hathee Sub-division grain payments have, it is reported, been introduced everywhere, as also in Itussumpore. In the Dosowta circle it had been introduced on three tanks only. Before the next narrative the change will have been completely made." With this change the abolition of the daily-payment system on roads and tanks should cease. It is far better that the weakly should receive grain as charitable relief, than collect in crowds to do no work, as is still notably the case in the Motipore circle, and I would submit this matter for the orders of Government. The following statement shows the numbers still seeking work:—

Names of Sub-divisions.	Daily average of laborers on relief works.	Public Works.		Circle Officers.	
		Task-work.	Daily wages.	Task-work.	Daily wages.
Seetamurhee ... ..	36,883	19,265	.....	8,407	9,211
Pooproee ... ..	36,744	not given	.....	33,001	3,743
Mudhoobunnee ... ..	349,455	92,423	.....	128,441	128,591
Narayah ... ..	117,436	.....	811	116,625	.....
Durbhunga ... ..	75,801	22,077	.....	53,724	.....
Hathee ... ..	65,645	23,017	.....	42,628	.....
Court of Wards ... ..	10,329	10,329*	.....	.....	.....
Add for Court .. ..	692,293	167,111	811	382,826	141,545
of Wards, just received ..	27,450	25,841	.....	1,609	.....
	719,743	192,952	811	384,435	141,545

\* This includes only a small number of those on Raj works.

23. In Mudhoobunnee 92,423 persons were employed on public works. There was a total expenditure by Public Works Department of Rs. 1,02,793, of which Rs. 54,620 were paid on contract and Rs. 48,173 on daily wages; of the 92,423 persons, 47,426 were men, 29,94 women, and 15,054 children.

Under circle officers the proportions on task-work and daily labor vary very considerably depending upon the mental characteristics of the circle officers:—

	Task-work.	Daily labor.
Mudhoobunnee .. ..	56,594	61,652
Motipore .. ..	7,323	35,673
Butwa .. ..	21,014	3,006
Jhungahpur .. ..	17,474	7,720
Oomgaon .. ..	5,425	.....
Kuchra .. ..	20,611	20,540
	128,441	128,591

24. In my last narrative I reported the success which had attended Pundit Adjodes Pershad's efforts to induce the poorer class of Brahmins to work. This month I have to report that Mr. A. C. Mackertich, at Muddehpooora, has been equally successful. In this circle there are upwards of 140 village works under the circle officer; grain is supplied to all these works through the jeyt ryots, who purchase from the golahs and supply the people in their villages. It is perhaps invidious to make distinctions where all are working so well and zealously, but the Muddehpooora village system seems to me to be working under Mr. Mackertich's arrangements admirably. Besides Brahmins there are also Rajputs at work and the numbers, which commenced at 30 male and 11 females, with 4 children, are gradually increasing.

#### C.—TRANSPORT OF FOOD.

25. The transport operations in Eastern Tirhoot are now fast drawing to a close. The actual amount still to be delivered is small, and the operations will have been successfully brought to a close by the 15th June. The Durbhunga out-golahs have been supplied by the agency of the coolie corps, under Lieutenant Dickson, of the Bombay Staff Corps. Returns are being received from relief officers of the means by which the sub-golahs will be supplied during the rains.

*Consumption and Grain-sales.*

26. On the important point of sufficiency of stocks, the Sub-divisional Officer at Mudhoobunnee writes:—"I do not think the grain will more than just last the required time. In Jhungahpur there is a consumption of 1,200 maunds daily, and the relief officer calculates his stock will not last beyond the 15th of September. The stock in the Butwa circle will probably last only eight weeks, as the sales are from 1,100 to 1,900 maunds per diem. In the Motipore circle the consumption has only been about 3,000 maunds, but the sales are increasing. In Kuchra the sales are about 7,000 maunds per week, and at Oomgaon 14,000. The sales at Mudhoobunnee itself are not accurately given. Mr. Magrath calculates his probable daily consumption and sales at 259 tons a day, and he

speculates on the possible necessity for a further\* allotment hereafter. The sales all along our frontier are very brisk, but I anticipate that a part of the demand now made on the Mudhoobunnee golahs will be transferred to Seetamurhee. There is a very great demand for Government grain everywhere, and sales are restricted by the difficulty of weighing off more than a certain number of bags per diem. Every encouragement is being given to persons of all classes to purchase, and the supervision over the golahdars is almost daily. At the principal granaries some of the picked Native Cavalry Officers have been placed in charge.

27. The following statement shows storage and consumption:—

*Statement showing the Storage and Consumption of Government Grain in Seetamurhee Sub-division.*

28. Regarding the Narayah sales the Sub-divisional Officer reports:—"Government grain is being bought in such large quantities, that I can only conclude the people are storing it for consumption in the rains. The bunnahs, I believe, are not storing, but selling all they buy. These stores, added to those already existing, will keep the bulk of the population throughout the rains; for the relief purposes the sub-gulahs are kept constantly full, and as quickly as it is possible grain is being stored in every village.

Perhaps the best supplied markets in the three sub-divisions are those in Allapur, and now that Government rice is sold there, the supplies are plentiful and varied. The sales in Sootamurhee have been very small, only 19,832 mounds up to date; but this has been due to the sales having been conducted on what is called the rupee system, i.e., selling only a rupee's worth at a time. I have now put a stop to this, and ordered free sales everywhere to Nepalese subjects, as well as to our own.

**D.—STORAGE OF GRAIN.**

29. The amounts of grain stored are as follows:—	Mds.
Seetamurhee ...	8,04,069
Mudhoobunnee ...	6,07,347
Narayah ...	5,35,608
Darbhanga ...	7,55,196

27,02,220

**E.—ADVANCES.**

	Money advances to date.	Grain advances to date.
	Rs.	Mds.
30. Seetamurhee and Poopree ...	39,015	2,260
Darbhanga and Hathoo ...	61,095	27,028

The Seetamurhee figures are exclusive of a further sum of Rs. 30,735 advanced to traders, and under the Land Improvement Act.

In Mudhoobunnee there have been no money advances within the fortnight, and of grain 1,824 mounds advanced have been reported.

## F.—CHARITABLE RELIEF.

31. The numbers on charitable relief for the different circles vary very considerably. In the north-western circle of Dyne Chuprah, in 60 villages there are only 770 persons asking for or requiring relief; in the Butwa circle there were till lately 16,000. These figures have been reduced partly by drafting persons to their own circles, partly by striking off persons who really did not require relief. Upwards of 600 persons from the Terai have sought relief in this circle.

In the Narayah circle the number of persons on charitable relief has now swelled to 17,125.

32. The statement for the whole area of the three sub-divisions is as follows:—

Names of Sub-divisions.			Circle.	No. of men, women, and children in receipt of gratuitous relief.	REMARKS.
Sectamurhee	...	...	Dyne Chuprah	770	No details received.
Ditto	...	...	Other circles	3,533	
Mudhoobunnee	...	...	Sudder circle	1,316	
Ditto	...	...	Motipore	3,569	
			Jhungaharpur	2,470	
			Bhukwa	14,790	
			Oomgaon	1,687	
			Kuchra	4,574	
Narayah	...	...	.....	17,125	
Durbhunga	...	...	Sudder circle	9,932	Letter just received shows strict revision has reduced number very considerably.
			Mahomedpore	6,443	
			Hyaghat	12,438	
			Warisnuggur	5,530	
			Rohur	5,056	
			Bunhar	5,390	
			Lehera	11,942	
			Dosowta	12,971	
			Gungdah	10,945	
			Singhiya	5,302	
			Hirnee	6,300	
			Hussunpore	15,394	
Total			...	157,477	

33. In the Mudhoobunnee sub-division, there has been an increase in Mudhoobunnee and Motipore, and a decrease in Jhungaharpur, Oomgaon, Kuchra, and Bhukwa, as compared with the figures in the last return.

34. In Durbhunga there has been a large increase; this is due partly to errors in the last fortnightly narrative, and partly to the increasing pressure of distress among widows and the poorer Brahmins. We have now about  $\frac{1}{4}$ th of the population of this sub-division in charitable relief.

No. 1585F, dated Mozufferpore, the June 1874.

From—C. F. WORSLEY, Esq., Officiating Collector of Tirhoot,

To—The Offg. Secy. to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit my narrative of scarcity and relief in the Hajeeapore, Tajpore, and Sudder Sub-divisions, for the fortnight ending Saturday, the 30th May 1874.

#### A.—STATE OF THE COUNTRY.

In Hajeeapore Sub-division the bazars generally have been sufficiently supplied, but in thana Mhowah prices are running high, and there is an undoubted deficiency of grain.

2. In Tajpore Sub-division prices have fallen. The sub-divisional officer remarks: "The tendency of prices to fall, noted in my last report, has thus declared itself clearly during the past fortnight. I should derive more satisfaction from this state of things could I report increased activity in the local markets. This there has not been. Indeed the sale of Government grain across the Gunduck has had a distinctly depressing effect on some of the neighbouring markets. Rice has virtually disappeared from the Sarmistipore bazar, and a very active trade in the Bibbutpore market opposite Rawsera has been damped. I believe traders are getting rid of their stocks quicker than they otherwise would have, and are limiting their prospects. In Bibbutpore the traders I talked to were evidently disinclined to speculate much on importation. Rice supplies are not plentiful at the small markets in the interior; Government rice finds its way into consumption here, though not sold at any place in the sub-division. I know as a fact that carters, working at Durbhunga, import Government rice thence on their return journeys, though of course not in large quantities."

3. I am not aware of the extent to which Government grain has of late been sold in south-western Durbhunga, but my general experience leads me to question the correctness of the above views. As reported in paragraph 21 of my narrative dated 6th ultimo, I found on a recent tour that vendors of Government grain in Sectanurbee persistently refused to sell to villagers of the Sudder Sub-division, and considering how very severe distress has been in Durbhunga Sub-division, I should have expected a similar policy to prevail there. In the eastern and north-eastern circles of the Sudder Sub-division private importations, such as they were, have not been checked by sales of Government grain; and in the western circles such sales have been followed by increase of private trade. Do what we will, there must still be ample room for private trade, and with the exception of carriage, there is no matter about which private importers can have any right to complain. It is too often forgotten that when Government entered the field there was, comparatively speaking, no such thing as an import trade in grain, or vested interests of grain importers in this district.

4. In the Sudder Sub-division, scarcity of grain is very great, and it is only the system of small retail sales which I am obliged to maintain at present, that prevents a too rapid expenditure of Government grain.

5. The subjoined statement should show the kinds and prices of grain selling at some of the principal marts on 30th ultimo:—

			Wheat.	Barley.	Common rice.	Lesser millets.	Maize.	Gram.
Hajeeapore	...	...	12½	17	9½	...	15	16½
Maowah	...	...	12	15	8½	17	13	15
Tajpore	...	...	12½	16	9	15	15	16
Poorah	...	...	Not received.					
Mozufferpore	...	...	11½	14	8½	...	13	14
Sahebgunge	...	...	12	16	11	...	15	16

6. The rainfall during the fortnight was as follows:—

Hajeeapore	...	...	...	...	10
Tajpore	...	...	...	...	30
Mozufferpore	...	...	...	...	09

Over a small tract in the Toorkee circle (16 miles north from Mozufferpore), there was a fall on 1st instant of about one inch rain, and the weather is now very unsettled and cloudy.

7. The sub-divisional officer of Tajpore reports that "a great deal of marwa, sama, kownee and kodo have been sown" and that "the dhan wants rain badly, it being in many places very backward, and in some getting burnt."

In the western parts of the Sudder Sub-division, the crops are reported to be "as bad as they possibly could be," owing to want of rain. In the north, some of the lands have been sown, and many have been cultivated, but there are still considerable tracts of low rice land lying untouched. The makai lands have been nearly all prepared, and will be sown on the first good fall of rain.

8. During the fortnight I have been over the greater part of the Hajepore Sub-division. Though there is not at present any thing like distress anywhere, there are indications of pressure in the Mhoweh thana jurisdiction. Several of the laborers whom I saw on the tank-works in Shapore circle (26 miles north-east from Hajepore) were lean, and had evidently been living on a lower diet than usual; and I have no doubt, that, but for the opening of the relief works, they would soon have become very thin and weak. Most had run through their supplies of grain, and there were few who were not dependent on the works for their support. The Shapore circle is the only part of the sub-division in which there is reason to apprehend severe distress. Here the rubber crops failed, and the high prices of grain and comparatively large number of laborers on relief works, show that the failure is already being felt. In the Chutwara and Singhya circles, (16 miles north-east and 12 miles north, respectively, from Hajepore), there is a growing demand for employment, but in the rest of the sub-division, the relief works are very poorly attended.

9. The Tajpore officer considers that the majority of the laboring class are in good condition, but that "the petty cultivators are much pinched." The latter, however, will not go to the relief works. "It is not only high caste men" writes Mr. Wace "who decline to work, but koirces and kooners, and such like; everyone wants advances, and the applications are generally for money and not for grain. Mr. Dalgleish, of Dulsing Serai lately offered some rice bought under advance to some ryots who professed to be, and he says seemed to be, distressed. He demanded repayment in money in easier times at the rate of 11 seers to the rupee. They declined his offer and begged for money. Mr. Wace is now more anxious about the eastern part of his sub-division than about the country lying further west. I have only myself seen so much of the sub-division as lies between Shapore and Poosah, and in that part the condition of the people, and the state of the crops, appeared good. The Manager of Doollee Factory, however, considers that distress is near at hand in his dibat.

10. In the Sudder Sub-division there has been no marked change in the condition of the people, except in the Belvandh and Rajkhand circles, which I have lately visited with the Commissioner. In the former circle we saw several very emaciated children who were said to be in receipt of charitable relief; and though there is much distress, and many relief works have been opened, the attendance of laborers is very small. In my last narrative I noticed the unpopularity of relief works in this circle, and I have now, with the Commissioner's permission, directed Mr. S. Jackson of the Opium Department to relieve the present incumbent of his duties.

In Rajkhand circle, the number of laborers has enormously increased. It now amounts to 22,000 persons, or about one-third of the total population of the circle, and the sales of Government grain exceed 300 mannds a day.

11. No deaths from starvation have been reported.

12. In the appendix is given a statement of crime for the past month.

#### (B).—RELIEF WORKS.

13. The total number of laborers employed daily is as follows:—

Hajepore Sub-division	..	..	..	6,891
Tajpore	..	..	..	5,995
Sudder	..	..	..	178,028
Total				190,914

Detailed statements are annexed to this report.

14. In Hajepore Sub-division, payments of wages have been made partly in money and partly in grain, but Mr. Tate has now arranged to make grain-payments everywhere. In Tajpore Sub-division, grain-payments are made on all works in the Poosah circle, and also on the Jitwarapore and Dulsing Serai road. On the Belwara road, a bunniah has been appointed to sell Government grain, and on the remaining works wages are paid in money. Mr. Wace is strongly opposed to selling Government grain on all his works, believing that such a course will discourage private importations, and he would prefer to pay bunniahs for selling their own grains on out-of-the-way works; but as Government grain has been imported for the special benefit of our laborers, I have declined to sanction such an arrangement. I think Mr. Wace is inclined to over-estimate the effect of our sales on private trade. If there is a really serious deficiency of grain in his sub-division, the effect on private trade of our

feeding some 6,000 or even 20,000 laborers out of a population of 640,000 souls must be quite inappreciable; but if the deficiency is small, there is no peculiar advantage in stimulating a petty import trade that must expire with the disappearance of famine. Many intelligent natives believe, that with existing carriage resources, Government and private trade together cannot import sufficient grain for this district, and one of my circle superintendents knows a zemindar who holds 40,000 maunds of grain and refuses to sell, openly boasting that his time will yet come for making a handsome profit. Looking at the enormous private importations by rail and river into Shahabad and Patna, it would seem that the more enlightened and enterprising dealers foresee large demands that cannot be supplied by Government in the Behar districts.

15. In the Sudder Sub-division, grain payments have been introduced on many works and are being extended to all as rapidly as possible. But if the number of laborers continues to increase at the rate of 2,000 or 3,000 a day, or even remains at its present figure, I greatly fear that with grain payments, grain advances, and sales to the public, our supply will not last for six weeks.

#### C.—TRANSPORT OF FOOD.

16. Means of transport continues to be sufficient for the conveyance of Government grain.

#### D.—STORAGE OF GOVERNMENT GRAIN.

17. The amount of Government grain now stored is as follows:—

	Mds.
Hajepore Sub-division ... ..	5,170
Tajpore ... ..	20,753
Sudder ... ..	95,687

The quantity of Government grain disposed of during the fortnight, in detailed statements shewing the quantities of grain paid in wages, sold to laborers and the public, and expended in charitable relief, are given in the Appendix.

18. Good progress has been made in most circles towards filling the sub-golabs in each group; but as these buildings have been constructed to hold only 200 maunds, it will be necessary to replenish them frequently. No difficulty is anticipated in forwarding supplies regularly to the sub-golabs.

19. In the circles administered by planters, the grain will be stored only at factories and out-works, as with the resources at their command, they can easily arrange for keeping up a constant supply of grain at the relief works.

#### E.—ADVANCES.

20. The making of advances still proceeds too slowly, though there has been an improvement of late in the Sudder Sub-division, where Rs. have been paid away. The matter is a very difficult one indeed for young officers to deal with, as they have no local knowledge, and so many attempts are made by designing persons to obtain loans improperly.

The Hajepore officer writes on this subject: "There seems to be a general impression throughout the sub-division, that Government are prepared to advance money indiscriminately to any one who asks for it.

"In most of the cases into which I made enquiry, the applicants were either insolvent, or wanted the money for their private uses. The vague expression "to benefit my ryots" is invariably used, but I have not as yet had any plan proposed to me for the carrying out of this benevolent plea. I have hitherto refused these advances, and am disposed to continue doing so until I see what effect the sale of Government grain on the relief works will have on the market; and in any event I would prefer hereafter, if it should be found necessary, advancing grain to deserving ryots, to advancing money which would with great difficulty, if ever, be realised. I think the works we have opened will benefit the classes in need of help, and although the small malicks may be pinched, they hardly come under the category of those we are bound to relieve, and after all their petitions are one and all for themselves, and not for their ryots." The Tajpore officer reports that all the petitions he receives are for money which he is not competent to advance, except for the purchase of seed-grain, and of this there is no want. He is of opinion that "directly rain falls, and there is any prospect of a good bhadoi crop, money will be forthcoming for most people from the usual sources."

As the circumstances of the Hajepore and Tajpore Sub-divisions are widely different from those of the Sudder Sub-division, I trust that the action of these officers may not be considered ill-advised, and that they may be allowed to use their own discretion in selecting the time for making advances.

#### F.—CHARITABLE RELIEF.

21. The number of persons receiving charitable relief is as follows:—

Hajepore Sub-division ... ..	3,921
Tajpore " ... ..	1,155
Sudder " ... ..	7,850

Detailed statements for each sub-division are appended.

22. The Hajee pore Sub-division has now been formed into seven circles for relief purposes, each of which, excepting Hajee pore itself, has been placed under the manager of a factory. With the Commissioner's approval, a salary of Rs. 100 per month has been allowed to two managers of small factories, and also to two assistants in other factories, and an assistant on Rs. 100 per month will be placed under Mr. Tute, who himself administers the Hajee pore circle. For each planter's circle an establishment has been sanctioned on Rs. 100 per month.

The names of circles and superintendents are given below :—

Names of Circles.	Names of Superintendents.	Names of Assistants.	REMARKS.
Hajee pore .. ..	Mr. Tute Sub-divisional Officer.	One, not yet appointed.	
Singhiya .. ..	„ Pope ..	Mr. Sheffield ..	Head-quarters of circle 12 miles north from Hajee pore.
Bhatowlia .. ..	„ Macgregor ..	....	Ditto 18 miles north.
Karhari .. ..	„ Campbell ..	....	Ditto 15 miles north north-east.
Sarsai .. ..	„ Park ..	....	Ditto 11 miles north-east.
Chntwana .. ..	„ Blake ..	....	Ditto 16 „ „
Shapore .. ..	„ Smith ..	Mr. Maclean ..	Ditto 26 „ „

In the extreme south of the sub-division there is no probability of distress, and consequently no circle has been formed in the jurisdiction of Mohwar outpost.

23. Charitable relief is given at the head-quarters of each circle on every Sunday at 5 P. M., and each pauper receives a week's supply of food.

24. Of the recipients of charitable relief in the Hajee pore Sub-division it appears that—

Two-thirds are professional beggars and persons hitherto supported by private charity.

One-third are persons reduced to distress through failure of crops.

25. In the Tajpore sub-division the relief organisation consists of 4 sub-committees and 5 relief circles under management of planters. The names of the circles are Dhollee, Jitwar-pore, Harsingpore, Shapore Undi, and Dulsingserai. The question of salaries and establishments has not yet been settled.

26. In the Sudder Sub-division it has been found necessary to sub-divide the sudder circle into two parts. Mr. Warde-Jones retains charge of one portion, which will still be called the sudder circle ; and the other under the name of the Chajun circle (8 miles south-west from Mozufferpore) has been placed under the charge of Mr. Kavanagh. This, I hope, is the last change that I shall have to report in the organisation of circles in the Sudder Sub-division.

#### G.—FINANCIAL RESULTS.

27. Statement showing the financial results of Sudder, Hajee pore, and Tajpore Sub-divisions for the fortnight ending 30th May, 1874 :—

For Collector.

The 4th June 1874.

No. 2745F, dated Sarun, the 3rd June, 1874.

Memo. by—J. S. DRUMMOND, Esq., Offg. Magistrate and Collector of Sarun.

FORWARDED to the Secretary to the Government of Bengal in the Statistical Department, Calcutta, for information, with reference to his Circular No. 80 of the 17th November, 1873.

*Narrative of Scarcity and Relief in the Sarun District for the Fortnight ending the 30th May 1874.*

**A.—STATE OF THE COUNTRY.**

*Abundance or Scarcity of Supply in the Bazar.*

WHILE private trade has been more active than ever in the Sewan sub-division, there has been a heavy falling off in the importations at Revilgunge, which have decreased by nearly one-third; but as there are about a lakh of maunds of grain stored there, this may be due to the market being over-stocked. The bazars in the interior have been generally sufficiently supplied.

2. In the sudder sub-division, during the fortnight, the imports were, at Revilgunge 59,800 maunds; at Dooreegunge 5,401 maunds; at Maharajgunge 1,271 maunds; at Sutterghat from Chumparun 396 maunds; and at Panahpore from Patna 2,080 maunds. The exports to Tirhoot and Chumparun amounted to 5,828 and 3,330 maunds, respectively.

3. Mr. Hudson writes as follows from Mushrukhi:—

“I have no reason for supposing that there has been any falling off during the past fortnight in the supply of food in the bazars; but I have been too much occupied with the arrangements for distribution of the Government grain to make personal investigation into this matter. Some time since, I heard that the prices fixed for Government grain, as well as the mere fact of its storage, had caused many of the bunnahs to shut up shop and cease business, reserving their stores of grain for the time when the Government supplies should be off the market.

“The Head Constable here, however, tells me that the commencement of distribution of the Government grain has, on the contrary, caused a present abundance in the markets, as the bunnahs have brought in their stocks hastily, fearing they would be left on their hands; and such ryots as had stocks intended for sale have also contributed their store. This latter, however, would not amount to much, as in the most well-to-do parts of the sub-division there were not more than two or three ryots per village who possessed such stocks, and the stocks did not exceed on an average 10 or 20 maunds. The Head Constable tells me that since the advances of grain commenced, the bunnahs have lowered their prices, and that ‘oosna’ or ‘jowahana’ chaul, which used to sell at 15, 16, 16½, up to 17 seers the kutchha seer, now sells at 18 and 19 seers.”

4. The following is Mr. Wright's account for the Sewan sub-division:—

“Reports from all quarters state that the bazars continue to be well supplied by private importations, which are still on the increase. During the fortnight, the private importations of food-grain at Siswan, Durrowlee, Sewan, and Gathani, amounted to 68,183 maunds. This is very satisfactory indeed, and shows that the private trade of the division is fully capable of supplying the wants of the people. Traders state that importations will increase more with the setting in of the rains.”

5. Mr. Hodgkinson makes the following report under this head, with respect to the Hntwah Raj:—

“No actual deficiency of the food-supply has yet been reported in any portion of the estate. Importations are going on, but only on a very small scale, from Goruckpore. The grain imported is principally barley.”

*Kind and Price of Grain selling at the different Marts.*

6. The kind and price of grain selling at the principal marts and at the thanas and outposts are given in the annexed statement.

*Stock of Food in the hands of the People.*

7. On this head Mr. Hudson reports as follows :—

"From time to time I have come across instances of ryots importing grain for their own use, with the proceeds of the cart-hire earned in Government transport of grain. I continue also to meet occasionally the pack-bullocks of petty bunnoahs from the interior of the sub-division; but Mr. Ekshaw of Bala is decidedly of opinion that at the time of the commencement of relief operations there were no stocks of grain in the Bussuntapore thana at all; and that but for the institution of the relief works, the lowest and poorest classes of people would have died by hundreds."

8. And the following remarks of Mr. Hodgkinson, respecting the stocks in the Hutwah Estate, may be quoted :—

"The distribution of advances has afforded an opportunity for making enquiries from individual cultivators as to the stocks which they have. In villages which consist wholly or principally of high lands, I judge that the ordinary cultivator has still a good month's supply by him; while in the rice villages the stocks are almost entirely exhausted; mahajuns and thiccadars, however, have still not inconsiderable stocks. I believe that, taking the sub-division as a whole, the aggregated stocks in it (unsupplemented by the grain imported by Government and the Raj) would have been quite sufficient to last till the middle of July."

*Rainfall.*

9. There has been no rainfall during the fortnight in the sudder sub-division, but in portion of the Sewan sub-division there was a good fall of rain on the 25th. Mr. Wright reports :

"During the period under report, clouds have been hanging about and a strong east wind has been blowing almost daily; but with the exception of a small heavy shower on the forenoon of the 25th instant, there has been no rain. The rainfall on the 25th was not general, but was confined to thanas Burragaon and Burrowlee, and the north and east portions of thana Sewan. There was light drizzling rain at Durrowlee on the 24th, but not in the jurisdiction of any of the four outposts of that thana. A slight shower of rain is at the present moment falling here at Sewan."

10. And Mr. Hodgkinson writes :

"About half an inch of rain fell at Hutwah on the 24th May, but the fall was very partial."

*State of the Crops.*

11. Rain is urgently wanted both for the crops in the ground and to admit of sowings for the bhadoi and aghancee crops, and I am happy

\* There was altogether yesterday a fall of 1½ inches of an inch.

to say that at the moment of writing rain\* is setting in, which I trust may be general throughout the district.

12. Under this head Mr. Hudson writes :—

"The ryots will sow everywhere on the first fall of rain. The first crop sown will be marwa, kodo, sawan, and rice for transplanting, called jarhan jariya, and berar. This last-named crop, and also marwa, is already found sown in some places where the ground is low and has retained some moisture. Cheena is to be seen everywhere in different stages of growth, but for the most part only in the immediate vicinity of villages and tolahs."

13. Mr. Wright reports as follows :—

"The rain of the 25th has been of immense benefit to the young crops on the ground in the part of the country where it fell, but elsewhere the crops are suffering very much from drought. The crops in Burragaon and Burrowlee thanas have now twice, although at a very long interval, had the benefit of a good rainfall, which the crops in Durrowlee and a portion of Sewan have not received. Agricultural operations, however, are not backward in any of the thanas, and as soon as the rains set in, which cannot now be far off, sowing the crops that remain to be put down and transplanting such as have germinated in nursery beds, will be vigorously carried on. A good deal of kodo and other seeds have been sown dry in anticipation of rain, and these in places where the rain has fallen will now no doubt spring up quickly."

Mr. Rattray in his report says that "rain is much wanted, and till its fall there will be very little demand for labor in the fields. Paddy is in a forward state, and only awaits a few showers for transplanting."

The Sub-Deputy Collector, Baboo Rajkishore Narain, in reporting on the crops in thana Sewan, writes as follows :—

"The condition of millet, as well as sugarcane, has changed for the worse since my last report on the subject. The great heat and total absence of moisture in the land have been, as a matter of course, injurious to the crops \* \* \* \* The wells often fail and irrigation cannot be carried on satisfactorily. \* \* \* Cotton has now been gathered, and the plants

are being rooted out and fields vacated and prepared for future use. As this is the season for sowing kodo, sawan, &c., they are being sown in suitable fields, much more in the northern part of the thana, where there has been a heavy shower of rain yesterday (25th). It rained heavily in the northern part of the sub-division, and has done much good to everything, and has contributed much towards the preparation of fields as well as towards sowing kodo, rahar, &c."

Of thana Burrowlee, in a report just received, the Sub-Deputy Collector says that "the state of crops in general appears good in all parts of this thana. Millet has not suffered so much from the western wind in this part of the sub-division as in the elakas of Sewan and Durrowlee. The reason appears to be, that the land in this part was too moist (on account of the abundant rain of the 27th April last) to suffer from the drying effects of the wind. Again, the rain of the 25th instant also has been sufficiently heavy in almost all parts of this thana, and has done immense good in all matters of agriculture. Kodo, marwa, and sawan, &c., are now everywhere being sown; young paddy plants in deep clours, where they have been sown, look deep green and pleasant. In short, every food-crop standing is thriving and giving hopes of future good. The fall of rain has done incalculable good, and the threatened famine now appears stopped in progress."

14. From Hutwah, Mr. Hodgkinson makes the following report:—

"In some parts where rain fell on the 24th May, makui and other grains have been sown; but the area of sown land is very small yet. The cheena is coming in, and is a very fair crop in most places. It will form a material addition to existing stocks,—probably not less than a ten days' supply for the whole population. Sugarcane is generally a fair crop, but in some places requires rain sadly."

*Condition of the People.*

15. With the exception of the Bussuntpore thana, where distress is undoubtedly greatest, and seems to be telling more and more upon the people, there are no indications of any material change in the condition of the people beyond such as are afforded by the increasing numbers of people coming on our hands for assistance in one shape or another.

16. Mr. Hudson writes as follows of the people in the Bussuntpore thana:—

"The condition of the people in the Bussuntpore thana is, in my opinion, considerably inferior to that of the people in this one. I infer this from three characteristic circumstances which have come under my observation, viz.—

- (1) That about one-third of the whole number (as I am told) of the laborers on the relief works are cultivators; that is, ryots possessing a plot of land which they have been obliged to desert.
- (2) That a large proportion of the said laborers are seen at a glance to belong to the higher castes; whereas here it is quite rare to see Rajpoots or Brahmins amongst them.
- (3) From the number of badly-fed and emaciated persons whom I have seen amongst the laborers in Bussuntpore thana; whereas I have hardly seen any upon the relief works here."

17. The Sub-Divisional Officer of Sewan makes the following report:—

"From the reports received from the different quarters of the division no serious distress appears to have shown itself anywhere amongst the people. Ample provision has been made to relieve all distress amongst those who are fit recipients of charitable relief, and the poor laboring classes find work in the fields or at Government relief works.

"The Sub-Deputy Collector, Baboo Rajkishore Narain, writes, under this head, that the condition of the people (in thana Sewan) is not bad as yet; no one has died of hunger, nor has any one been found fasting for three or four days at a time. Price of food is daily growing higher, and is causing distress to all; rubber grain in the hands of poor farmers appears now to be exhausted, and the majority of that class are now borrowing money to support themselves.

"Of the people in thana Burrowlee he says—'The condition of the people is very good, and there is hope of its being better by and bye.'

"Mr. Rattray states that 'reports from the relief circles are favorable, so far that no serious distress prevails, and no deaths are known to have occurred from starvation. \* \* \* The poor of every village find ample employment on the public roads and tanks. In the relief circles visited by me, including the Sewan relief circle, I have noticed no alarming distress. The relief measures in hand are keeping the poorer classes in food, and undoubtedly many from starvation.'

18. And Mr. Hodgkinson writes thus:—

"No marked change has taken place in the condition of the people, with the exception of a few individual cases (which are invariably relieved when discovered), principally among professional beggars; the population scarcely presents any difference in physical appearance to other years."

*Known Cases of Misery and Starvation.*

19. Mr. Hudson writes as follows under this head :—

"No cases of starvation are known to have occurred, but many cases of demi-starvation (as above reported) have come under my observation. Miserable and revolting objects are to be seen amongst the pensioners at every relief centre, and persecute me daily here. But these I believe, like 'the poor,' are always with us, and furnish no special indication of the existence of distress. Most of these are cases of incurable wretchedness, such indeed being their stock-in-trade, nor could they be restored to the outward semblance of well-being by the utmost efforts of charity. Here, however, I must not fail to note, as an indication of the poverty of some classes of the people in Bussuntpore thana, that when at Bala Factory, I saw about 20 boys and women, in the early morning, engaged in grubbing up and sifting the surface soil on the spot where the payments of coolies had taken place the night before, in order to glean such few scattered grains of rice as might have been spilled in distribution."

20. And the Manager of the Hutwah Raj, Mr. Hodgkinson, reports thus :—

"A death was reported by Mr. Reid, of Maniarah, of a professional beggar, who had been in receipt of gratuitous relief in the shape of cooked food for a fortnight. The death had no doubt been accelerated by previous starvation. It does not appear that the person belonged to any village in the sub-division."

21. No other specific cases of misery or starvation have been reported.

*Grain-thefts or Robberies.*

22. There have been twelve grain-thefts during the fortnight.

23. Mr. Hodgkinson writes under this head :—

"Mr. Buskin has informed me that an unsuccessful attempt to break into and steal rice from the Sroopore store-houses was made about a fortnight ago by a number of persons, none of whom were identified. It is suspected that some of them were factory servants."

24. A report has been received that at one of the embankment golahs the persons in charge were removing the Government grain across the river, and selling it with the view of purchasing other cheaper grain in the market, and appropriating the difference. The matter is under enquiry.

*Condition of any Special Tracts.*

25. As apparent from previous portions of the narrative, it is more and more evident that the Bussuntpore thana comprises the worst tract in the district. There are, however, large quantities of grain stored there; advances to the cultivators village by village are in progress; spinning relief is largely afforded to purdah women; and when the village relief organization is thoroughly completed, it is hoped that the distress may be coped with even on the closing of the relief works which have so long kept large numbers in these parts from starvation. But it is trusted that the work on the new road from Bussuntpore to Sewan may still be carried on during the rainy season, and afford employment to many who cannot be expected to find continuous occupation in agricultural operations.

**B.—RELIEF WORKS.***Progress of Relief Works.*

26. The annexed statements show the relief works in progress, and the number employed thereon. The mean daily number employed during the fortnight was 226,137, and the number on the last day was 219,344. The returns have been received so late that there is now no time to analyse or comment on them; so merely the figures are given.

27. Under this head Mr. Hodgkinson writes :—"Payments in grain have not been made direct to the laborers yet; they will be commenced from the 1st June. But a considerable quantity of the grain shown under the head of 'sales to public' has been sold to bunneahs, and through them found its way into consumption amongst those employed. The distribution of grain advances has entailed upon me and my staff (now reduced by the illness of Mr. Boileau) such an immense amount of additional work, that I have hitherto been unable to organise any of the prescribed systems."

*Collection and Despatch of Laborers for the Soane Canal Works.*

28. Arrangements had been made for the despatch of 10,000 laborers to the Soane Canal Works, and it was thought that there could be no difficulty in sending the whole 20,000, when, owing to a mischievous report set on foot by some one, that the laborers were all to be shipped to the Mauritius on pretence of being engaged for work in the Arrah

district, a panic set in among them, and all suddenly declined to go. It may be that the attempt to induce to go in whole families may have engendered suspicion amongst an ignorant and distrustful body of people, and every effort is now being made to get them to leave on the terms offered, singly or not, as they like. Still the result has hitherto been unfortunate. During the rainy season, I hope, we may be more successful. Another circumstance, which at the present time is against the scheme, is that the Noonocahs, or professional 'digging class, have been, and are still, hard at work all over the district, manufacturing saltpetre; and as they earn considerably more than they would in the canal works, it will be difficult to persuade them to go until the rains put a stop to their present occupation.

#### *State Emigration to British Burmah.*

29. There were 41 emigrants in the depôt, and they were all despatched to Calcutta on the 30th May. Orders have now been received to discontinue further recruiting.

#### C.—TRANSPORT OF FOOD.

30. Under this head, Mr. Hodgkinson reports thus regarding the Hutwah grain supplies :—

"I regret to say that the transport of Raj grain has not been going on satisfactorily, owing to the scarcity of available carts. But an officer has been deputed to Revilgunge, who will, I trust, quickly succeed in despatching the grain accumulated there, either by carts now or by boats which will come up the Daha on the first fall of rain. The accumulation mainly arises out of the appropriation by Government of the greater part of the carriage on the East Indian Railway. Messrs. Schone, Killburn and Co., from whom the Raj rice was principally purchased, being only private traders, have therefore been unable to get consignments of grain sent off regularly, and on two occasions our transport operations were brought to a temporary close, owing to there being no grain at Revilgunge to bring in. Not only has this entailed delay, but it has lost us carts which were working for us, and which went over to other parties when we could no longer give them employment."

#### D.—STORAGE OF GOVERNMENT GRAIN.

##### *Distribution and Expenditure of the Government Grain.*

31. There having been still further changes in the distribution of the Government grain, a revised statement of the allotments as they now stand is appended; receipts and expenditure of Government grain are also shown in this statement. To meet, at least, to the extent possible, the demand for grain in thana Chupra on account of the relief laborers, the entire quantity now remaining at Revilgunge has been ordered to be *detained* there, and the balance remaining to be transported at Singhai Ghât has been diverted from Bala to Gurkha. This closes all transport operations, and none too soon, as the rains appear to have commenced.

##### *Gradual Expenditure from Government Grain Stores, and possibility of more Grain being actually required.*

32. If sale of grain to the relief laborers is to be maintained, more grain will certainly be required for the Chupra and Manjhee thanas, as without it it will be impossible to make grain advances to the ryots. As in these two thanas alone there may possibly be 60,000 maunds required to be advanced in this way, and with the limited stocks available it seems very unadvisable to cripple our resources at the outset by disposing of so much grain to the relief laborers, I would ask that further sales or payments of grain to relief laborers in these thanas may be stopped at once. It may be said that more grain might be diverted from other places, but independently of the impossibility of foreseeing whether all the grain may not be wanted in the places where stored, it would be a business of great difficulty now to transport it.

#### E.—ADVANCES TO PRIVATE PARTIES, AND THEIR RESULTS.

33. There have been no money advances during the fortnight, except for purchase of seed-grain and plough cattle, on which account Rs. 732-2\* has been advanced. The grain advances to ryots are shown in the annexed statement. Though these advances are only just commencing, rapid progress with the preparation of the village lists is being made in most parts of the district, and it is hoped that the allotments for each village will be completed and the orders on the golahs be in the hands of all ryots requiring advances by

\* Besides Rs. 2,108 for land improvement, making up the total on this account to Rs. 1,671.

the end of this month at latest. The Government orders have been received to make these advances of cleaned rice at 12 seers for the rupee, as far as possible, so as to avoid to some extent the incentive offered to the people by the extremely favorable rates fixed for other sorts of rice to speculate with the Government grain. What effect this has had, or will have, on the number of applications for advances, cannot yet be stated, but it is not believed that the necessity of taking rice at a higher rate will deter those really in need of such advances from applying; though it is possible that objections may be raised to the use of cleaned rice at all, on the ground of the coarser kinds forming the ordinary diet.

34. Mr. Hudson reports as follows regarding advances:—

"I have commenced the village distribution of the Government stores of grain, and hope to have got well through with it, before the setting in of the rains shall have rendered impassable the lines of transport. Advances for land improvement are now stopped, partly owing to the near approach of the rains, and partly owing to the pressure of work entailed by the village distribution."

35. The following report is submitted by the Sub-Divisional Officer of Sewan:—

"During the fortnight advances in grain have been made by me to zemindars to assist their ryots to the amount of Rs. 500 only. I have made no advances in cash. As Mr Rattray has been in Sewan for nearly the whole fortnight, parties requiring advances have been referred to him, and during the fortnight he has given orders to 124 applicants for advances in grain to the amount of 5,949 maunds 36 seers, valued at Rs. 15,359-4-0.

\* \* \* \* \*

He has also given Rs. 200 in cash for land improvements. Mr Rattray reports also that grain advances have been made to ryots by the Circle Officer of Karhala to the amount of 20 maunds, and by the Circle Officer of Mairwah to the amount of 92 maunds."

"Mr. D. N. Reid, in charge of the Suddowah circle, is making extensive advances to the ryots in his circle on the joint security principle. I am unable to state the quantity of grain to be given in advances for which he has issued orders, as his report has not reached me. The accompanying statement, however, shows the quantity of grain actually given out from the Burrowlee golah in compliance with his orders.

"No advances have as yet been made by Mr. Rattray or myself to whole villages on the joint security principle. Lists, village by village, of applicants requiring grain advances are being prepared, and as soon as they are ready, advances will be made."

Mr. Rattray reports as follows regarding the preparation of these lists:—

"During the past fortnight, every endeavour has been made by me to hasten the preparation of the village lists of applicants for grain advances. Forms and instructions are now in the hands of every Circle Officer, and I am glad to be able to report that the work is progressing favorably in the majority of the circles in this relief sub-division. I have been able to visit the relief circles at Mairwah, Bousopali, Hajipurwah, and Dhanowtee. Mairwah has the largest number of villages allotted to it amongst all the circles placed under my supervision. The member in charge, Baboo Bubbhan Singh, is actively interesting himself in the management of his circle. The preparation of village lists has so far progressed in the Bhagar and Bousopali circles under the direct charge of adjacent Circle Officers, that there is no longer any necessity for the appointment of special officers to the charge of these two circles. Owing to the inability of Mr. Proudfoot to look after the management of the Sohagrah circle, the preparation of the village lists in that part of the sub-division is likely to be delayed. Baboo Bikramjeet Dubé, zemindar of Bukulori, near Sohagrah, has been asked to accept the management of the circle. His reply has not been received yet. Very few villages have been allotted to the Sohagrah circle; consequently the work, when once started, will not take long in completion."

Mr. Rattray has been directed to appoint a special officer to the charge of the Sohagrah circle if Baboo Bikramjeet Dubé does not accept the management at once, so that no delay may take place in preparing the village lists of that circle.

36. Mr. Hodgkinson makes the following report under this head, with respect to the Hutwah Raj:—

"A large quantity of grain has been given out in advances to ryots, and orders for a very much larger amount issued. As soon as it was known about Hutwah that advances were being given, my house was besieged by villagers, who came uninvited; one day at least some 7,000 or 8,000 ryots collected. The advances are being made village by village. Dates are fixed for each village to attend; and each case is then gone into. Orders have been distributed to nearly 200 villages at Hutwah alone; and

Mr. Browne at Bhokey and Mr. Buskin at Sreepore, have given out a large number of tickets. The amount that will be distributed in advances will probably exceed 60,000 or 70,000 maunds. I regard this as the most important portion of the whole relief system; and I trust that if I have been found backward in carrying out other portions of it, it will be attributed to my desire to finish, as far as possible, the distribution of advances before the cultivating season is brought in by rain falling."

F.—CHARITABLE RELIEF.

37. The number receiving charitable relief, as far as is known, is given in the annexed statement.

38. With increased staff at my disposal, I have been enabled, with the view of pushing on the village relief organisation as fast as possible, to divide the district into six relief sub-divisions, composed as under, and in charge of the gentlemen named, and the progress made in the new sub-divisions will be noticed in the next fortnightly narrative:—

Names of Officers.	Names of thanas placed in charge.	Population.
1. Major W. Jackson ... ..	Chupra ... ..	236,986
2. Mr. C. F. Tonnèro ... ..	Manjheo ... ..	136,063
3. " W. H. Hudson ... ..	Mushrukh & Bussuntpore ... ..	166,704
4. " W. Barry ... ..	Pursa & Dighwara ... ..	329,698
5. " A. Rattray ... ..	Sewan, Durrowlee, and a portion of thana Burrowlee ... ..	544,409
6. " G. J. S. Hodgkinson... ..	Burragnon and a portion of thana Burrowlee ... ..	350,000

To assist Mr. Hudson, who has the heaviest charge in the sudder division, Mr. Grant has been placed at his disposal, and deputed to Bussuntpore thana, with head-quarters at Gopalpore, and put in immediate charge of the circle; and it is trusted that the work in that sub-division will now be pressed on with increased rapidity.

39. Three new members have been added to the Relief Committees, viz.—

Baboo Debi Pershad, zemindar of Mushrukh.

" Choonee Lall, bunker of Chupra.

" Preonath Chatterjoo, agent to Messrs. Ralli Brothers and Co., Revilgunge.

40. Mr. Wright reports as follows:—

"The accompanying two statements,\* made out from returns received from the gentlemen in charge of relief circles, show the number of persons who have received gratuitous relief, and the number receiving relief in the way of cotton-spinning."

"With reference to the orders contained in paragraph 5 of Government Circular No. 3216—S.R., of the 19th ultimo, I beg to state that from the commencement of relief operations up to date sums, aggregating Rs. 3,350 in cash, have been sent to the officers in charge of the relief circle in this sub-division for affording gratuitous relief to the incapable poor. Out of the above sum, Rs. 577-15-8 has been expended in giving gratuitous relief to the poor under clause (b) of the Central Committee's notification. Besides this, Rs. 7-13 worth of grain has also been given in gratuitous relief up to date. The above relief was given to 4,752 persons. Under clause (c) assistance has been afforded to 226 pordah-mushkeen women at a cost of Rs. 104, in spinning cotton. The officers in charge of relief circles have each been furnished with a supply of cotton wool for the purpose of affording employment in spinning for those who are in need of it and able to work. Under clause (d) no relief has as yet been given."

Mr. Rattray reports, under the head of charitable relief, that he has issued instructions to the Circle Officers, directing that relief is to be confined to each village for its own distressed, so as to prevent the congregation of masses at the head-quarters of each circle. The distribution of relief to the poor of each village is to be under the care of the village putwarees, who are to be under the supervision of the Group Superintendents. Village returns of charitable relief will be furnished to the Circle Officers by the Group Superintendents for incorporation with their weekly returns.

\* Embodied in the abstract district return.

The plan of village relief alluded to by Mr. Rattray has been and is being adopted elsewhere in other parts of the district, and is no doubt the best system.

41. Mr. Hodgkinson writes as under :—

“The attendance of the villagers affords an opportunity of making the fullest enquiries, village by village, as to the persons requiring charitable relief. The monthly allowance is distributed through the putwaree to persons unable to come for it from infirmity or caste prejudices; and cotton for spinning is given out in the same way. I regret I am unable to state the exact number of persons receiving relief under clause (d), as no separate list of them has been kept. I will endeavour to supply the information desired in my next fortnightly narrative.

“Village circles have been roughly sketched out in Bhorey, Marur, and Dhobowl; and I intend to visit this portion of the estate at once, and definitely make the necessary arrangements to put them in working order, as well as to organize a system for the payment of the relief laborers in grain.

“Owing to the extremely small size of the villages in this part of the district, one Village Superintendent can easily look after 20 or 25, if not more. The number at present receiving charitable relief is shown in the annexed table:—

No. Circle.	Average daily number of persons receiving cooked food.	Average daily number of persons receiving uncooked food.	Total.
1. Bhorey ... ..	108	204	312
2. Maniarah ... ..	10	5	15
3. Jugdishpore ... ..	35	.....	35
4. Chukia ... ..	21	.....	21
5. Gopalgunge ... ..	15	.....	15
6. Hutwah ... ..	50	143	193
7. Sroepore ... ..	148	108	256
8. Sonowhula ... ..	12	13	25
Total ... ..	399	473	872

“This return is, I regret to say, very incomplete, as the tehsildars in charge of Afrad (Sonowhula) and Dhungharee (Brajaria) do not appear to have understood the instructions given. There are, I learn from other sources, about 200 persons in receipt of the monthly allowance in these tuppals, whereas 13 only are shown in the return, evidently the number to whom new tickets have been issued. The actual number in receipt of charitable relief is about 1,100.”

#### G.—THE FINANCIAL RESULTS OF THE FORTNIGHT.

42. The financial results of relief operations are given below :—

	Rs. A. P.	Rs. A. P.	Rs. A. P.
Total expenditure as previously shown ... ..	.....	.....	17,71,716 2 7½

HUTTAH,

The 4th June 1874.

J. S. DRUMMOND,

Offg. Magistrate and Collector of Sarun.

BHUBANESWAR DUTT,

Supdt., for Manager, Court of Wards,  
Raj Huttah.

No. 1728F, dated Chumparun, the 1st June 1874.

From—H. KRAV, Esq., Collector of Chumparun,

To—The Offg. Secretary to the Government of Bengal, Scarcity and Relief Dept.

I HAVE the honor to submit the fortnightly narrative of scarcity and relief for the fortnight ending the 30th May 1874.

#### A.—STATE OF THE COUNTRY.

During the past week (23rd—30th) there has been, I am very glad to be able to report, a most opportune fall of rain, which was more or less general throughout the district. It has been of immense value, enabling the cultivators to prepare their lands and sow paddy, marowa, sathi, and maize. This rain has also saved the grass which was being rapidly burnt up, compelling cattle-owners to feed their animals, on the leaves of trees. The country, which before the rain had assumed a brown and burnt-up appearance, is now becoming green again.

In the Motihareo Sub-division (No. 1), owing to the quantities of Government rice thrown into the market, the state of the bazars seems more favorable than it was a month ago; wheat and maize, which had disappeared as articles of food, are now being offered but find no purchasers. Even the Government stores of these grains are refused, Mr. Oldham says, though offered at one seer less than the current bazar rate. Rice is sought with general eagerness, and has now been issued in quantities sufficient to make it very fairly abundant. Private importations have not yet reached as far as Segowlie.

Regarding grain in stock, Mr. Oldham states "that there are few, even of the persons laboring on the works, who have not some little store of 'ashar' or barley. The zemindars, large farmers, and mahajuns, and most of the well-to-do cultivators, still hold stores; there is not the slightest reason to apprehend a deficiency of seed-rice of which there are large stores in many places. It is thought that the supplies of maize seed are shorter, but nothing like general anxiety on the point is expressed. The mahajun's stores are still tightly held up, as they acknowledge, till rain gives them a chance of opening them safely and profitably." It had rained in a partial manner all the past week, beginning on the 23rd. The shower, however, had been very partial, and Mr. Oldham states that there is still a large tract of the rice-growing country north of the Sikrawah which has had no rain to speak of. He says, "Generally, however, sowing-rain has fallen and done much good. The millets (oheena and kodo) are now being largely resown in areas not ready for rice or maize. Rice has already been sown in considerable quantities, and there has been enough rain in a few places to give a good hope of its germinating."

On the Nepal border very heavy rain had fallen.

It is the tract immediately south of it that has not had enough. As to the condition of the people, Mr. Oldham says: "The condition of the people continues so far satisfactory, that is, all in want are provided for. The number of recipients of charitable relief is decreasing. The inspectors report that on each successive tour they find fewer and fewer ticket-holders, and that former recipients have recovered sufficiently to join the works. The poor-house inmates are now only 66." No cases of bad distress had been found amongst people of the respectable classes, though diligent enquiries had been made. Cases of emaciation on the works are still fewer than they were, and the work-people are generally thriving. The poorer cultivators are still the class that is feeling the scarcity most. The present position of the people is thus described by Mr. Oldham: "A portion of the population has benefited decidedly and directly by the scarcity. This comprises not only those whose services have had to be sought for in connection with it, but the bunniahs and holders of grain into whose hands the large sums spent on works ultimately come with this portion subtracted, the rest of the population are all feeling the scarcity from the well-to-do cultivator, whom it compels to the utmost frugality, descending through the poorer cultivators, who are so reduced and pinched that the effects of the scarcity have told perceptibly on their persons, down to the pure laborers, full half of whom are working for bare life on the relief works, and who would die by thousands were those works closed for a week; many of these people have had to subsist in years of plenty on one meal a day, and in this exceptionally healthy season, find no difficulty in thriving on it now. Food is their only object, and till rice became procurable in the bazars at its present rate, all but the old amongst them used to grumble loudly at the Sunday dole of pice instead of grain, saying that they had done so long without salt and condiments that they did not want them then."

No further cases of misery and starvation have come to light, but the whole sub-division, Mr. Oldham says, "causes incessant anxiety and needs constant watchfulness. The needs of the northern portion, which I have always regarded as the worst off, and in which most works have been maintained and the greatest attention concentrated, have now been I believe fully gauged, and its condition is improving. In the south Shikranah tract, on the contrary, in which the "rubbee" crops were fair, and which had not had so much attention paid to it, there has been almost a rush upon the works within the fortnight, and this has been the more unexpected, as there was heavier rain here than in parts of the north section, where the laborers are beginning to leave the works in large numbers."

This account of the condition of the people is on the whole satisfactory. Now that rain has fallen, and there is every prospect of a continuance of moisture, the mahajuns will doubtless commence making advances to the ryots.

In the Dhaka sub-division (No. 2) Mr. Kilby reports that there is no change to chronicle. The bazars continued to be supplied from Revelgunge, Sahibgunge, and Chapra, and as far as he has ascertained, the trade is even more brisk than it was during the previous fortnight. This Mr. Kilby attributes to the fact of many more carts being now available, as the Government importations have ceased. The Titura and Meerpoore circles, which had hitherto been considered the best off, have showed signs of distress, and more relief works have in consequence been started and the difficulty met.

The fact shows, however, as Mr. Kilby says, how dependent the people are on the relief works, and that constant vigilance is necessary. The Government rice has been given to the laborers at the rate of 12 seers per rupee, but the public at 10 to 11½. Arrangements are being made to distribute mixed grain in lieu of rice to the laborers every third day, as it is found to be deteriorating. Small-pox has decreased in this sub-division, and now that rain has fallen, will probably disappear. The health of the people is on the whole remarkably good. The rain had been pretty general; about 1 inch had fallen.

In the Govindgunge sub-division (No. 3) Mr. Weekes reports that rice still continues very scarce, and that in most villages the ryots have now consumed, it is believed, the whole of the rubber crop. Some of the ticcadars are said to have stores of grain, though much smaller than usual; this they are holding back to pay their laborers for work done in the rains. There had been two heavy showers of rain which had fallen over the greater part of the sub-division. It was greatly wanted; "not only had the millet and indigo been scorched up over an enormous extent of country but shrubs, bushes, mango and even jack-fruit were withering." The condition of the people, Mr. Weekes says, "has visibly changed for the worse, they begin to crowd on the relief works, and village works have been opened in consequence in the worse tracts, and advances of grain made to the cultivators (20 seers per man) pending larger advances." A brisk trade, however, is going on in maize and gram. In a few places, such as Kessariah and one or two other large warts, grain is stored, and this is now finding its way into the markots. Fears are entertained as to the supply of maize-seed, and seed-rice is much wanted.

From the Bettiah sub-division Mr. Samuells reports that good accounts have come in from all the circles; there had been two falls of rain, and it was raining when he wrote (31st). He says: "The first fall of rain did not reach Bettiah town, and passed over Lowria without results. At Lowria, however, and at Dokrala Lalseriah, and all down the banks of the river, the fall ranged from 1 to 2 inches. Its effects were perceptible at once in the diminution of the number of kodalee-wallahs on the roads. The fields are being rapidly prepared, and I have heard no complaints of difficulty in procuring labor, nor have I reason to believe that there is any general scarcity of seed-grain. Isolated cases there no doubt are, and it is with regard to these that I should like authority to buy on behalf of the charitable committee, say 100 maunds for distribution through circle officers to the very poorest classes. We are not authorised to buy seed-grain, and the people who have no seed-grain to exchange for food grain are the very people I wish to assist; to give them money would not mend matters, as they might in some places have a difficulty in buying."

To meet these cases Mr. Samuells has purchased 100 maunds from Mr. Gibbon for immediate distribution, and charged the same to the charitable fund.

The bazars are, Mr. Samuells reports, well supplied through the local trade. The bunniah's stores of rice are failing, Mr. Samuells thinks, but other grains are plentiful.

The general health is reported to be excellent, and the condition of the laborers on the relief works could not be better.

From the Ramnuggur sub-division (No. 5) Mr. Howe reports as follows: "There has been rain during the past week, heavy in the north north-west and central part of the sub-division and comparatively light in the east. A severe storm is also commencing as I write; ploughing has every where commenced." No change in the condition of the people is reported, but there had been a steady increase in the number resorting to the relief works, the daily attendance being now 31,880. The rain had not as yet drawn many from the works, but when once the rains fairly set in, a large decrease may be expected, as most of the laborers who are cultivators also will return to their fields.

The following are the prices at which food-grains have been procurable in the five sub-divisions.

Therefore the grand total number of persons employed is ..	...	...	...	...	2,439,933
And the daily average number of persons employed is ..	...	...	...	...	174,281

In the Motecharee Sub-division, the works on the frontier road have been closed in order to leave a reserve for the rains, and the laborers have been diverted into two large tanks in the neighbourhood, which will give full employment till the end of June. In the south of the sub-division, two new reserve works have been opened, and work has also been supplied by the Public Works Department on the Motecharee to Bettiah road, and on two tanks by its side. It was hoped that the high level canal would have furnished work by this time in this sub-division, but it would seem that there is little prospect of the work being started for some time.

This is much to be regretted, as although sufficient work can be found, it must necessarily be of a less productive character than is expected from the canals, and is certainly not so well supervised. I have addressed the Engineer on the subject, and hope that the work may be commenced soon. Mr. Handcock, the Executive Engineer of East Chumprun, is gradually absorbing all Mr. Oldham's road-work under his supervision, and by the end of the month, will have assumed charge of all the roads except three.

The system of grain payments described in the last narrative, has been introduced on all the works in this sub-division. The only change made is that, instead of the first-class which receives 18 chittacks per head, containing all male adults, only those who bring their tools are assigned to it. All other adults, male or female, are included in the second-class, and get 12 chittacks each. The third as before.

Mr. Oldham's rates thus correspond with the Executive Engineer's rates.

In sub-division No. 2 (Dhaka) the numbers on the works are increasing, as also where payments are made on all works in grain. Nos. 1 and 2 of the three alternatives (Circular No. 2853-S.R., dated 4th May) were tried, and the latter proved the best system as it involved, it was found, less speculation; no difficulty was experienced in getting bunnials to sell on all the works.

In the Gebindgunge sub-division, the food supplied is all Government grain. The condition of the laborers is said to be 'fairly good.' Payments are made with measures made of bamboo. The rate is generally as below—

15 chittacks per man.  
12     "     "     weman.  
9 to 10½     "     "     child.

In the Bettiah sub-division, the system described in the last narrative of supervision through local agency has been largely extended, and Mr. Samuells says with considerable benefit. He is entitled to much credit for working it out; all payments are made in grain. Mr. Samuells speaks very highly of the way he has been assisted by Mr. James the Assistant Engineer in introducing grain payments. He says: "I cannot speak too highly of the untiring energy of Mr. James, to whose efforts it is solely due that payments in grain have been started on all roads under his department in a marvellously short time. I have much pleasure in stating that at this moment all laborers on every road, tank, or village road in this sub-division are paid in grain." Hitherto direct payments in grain were not universal, only because the permission to adopt the alternative of entertaining salaried bunnials and local subsidised traders on the works, had been taken advantage of. It will thus be seen that the Government orders on this subject were not intentionally overlooked, but on the contrary were carried out to the letter. I notice this, because from the tenor of some telegrams lately received, it would seem that His Honor the Lieutenant-Governor was under the impression that his orders had not been carried out in this district, and more especially in the Bettiah sub-division. I trust this explanation, and that submitted by Mr. Samuells, will satisfy His Honor that this has not been the case.

From Ramnuggur Mr. Howe reports on this head as follows:—

"Payments in kind have been introduced on almost all works, and to a great extent task labor also. The first alternative (Circular No. 2853), has for some time been in force in this sub-division, but on the whole it does not work satisfactorily; so great is the demand for Government rice that the bunnials are often tempted to sell before they come to the head of the work, and therefore it was only with the utmost difficulty, and by constant personal supervision, that our laborers could obtain supplies near the work. The second course is I think more complete, as payments can be very rapidly made, and as speculation under that system is almost impossible. I am therefore taking steps to introduce it, and have 20,000 zino tokens made, as paper tickets are often lost or destroyed. Meantime, in order to give immediate effect to the Government orders, I adopted the third plan named in paragraph 3 of the circular quoted, and this has proved very successful. Payments in kind have been made up to 1,047 maunds during the fortnight. In some few places the ticket system has been introduced. This system is now in force at Harnatar, Bugha, Rampur, and on all the works under the Public Works Department near Ramnuggur. I regret that Colonel Boulderson reports that there are difficulties in the east, and that the people do not readily take to the change, but every effort is being made by Colonel Boulderson, and I trust that very soon the system which has succeeded in every other part of the sub-division, will be found applicable to the east also."

The condition of the laborers, Mr. Howe says, continues good.

#### C.—TRANSPORT OF GRAIN.

The Government consignments have been finally closed. Private importations into the Dhaka sub-division continue to go on briskly, but some of the mahajuns, Mr. Kilby says, seem now to hesitate to import, they say their profits are so small, and that as such large quantities of Government grain are being expended, the demand is not so great as it was a short time ago. The bazars are well supplied with all kinds of grain, and prices have fallen.

#### D.—STORAGE OF GRAIN.

All the sub-divisions except Dhaka and Gobindgunge have their full allotments.

These two sub-divisions are short, in consequence of a discrepancy having occurred in the accounts of despatches and receipts of Government grain. This has been reported separately.

The sales of Government grain are shown below and a subjoined statement gives the information required in Circular No. 3369—S.B., dated 26th May.

Up to date of last return.				During the Fortnight.

Sales to the public are going on briskly in the Motiharee, Bettiah, and Ramnuggur Sub-divisions. In the Gobindgunge and Dhaka Sub-divisions, private importations are taking place; sales of Government grain are therefore more limited. Mr. Oldham reports that he has removed all restrictions on sales, but only by the most peremptory injunctions, the native officials having the greatest objection to the sales, on the ground "that the stores which might serve for another year of famine are being expended." This accounts for the sales at Narkatya and Segowlio, both of which golahs are under Mr. Oldham's immediate supervision, being the largest.

Mr. Oldham explains that his statement of consumption of grain up to date exceeds considerably the grand total of his last statement, and of the weekly returns forwarded to Government, all of which, owing to non-receipt of returns, changes of establishment, and other causes, were more or less erroneous. The statement now submitted shows the expenditure up to date correctly. Sales of Government grain at the two frontier golahs of Adapore and Kutkonwa, which in my last narrative I reported had been deferred, have now, under the orders recently received been opened out, and a consignment of 3,000 maunds have been moved up from the reserve golah at Ramgurwa to replenish the supply at Adapore. In the Ramnuggur district the reallocation of grain directed by the Commissioner has been carried out, and storage room for 25,000 maunds of seed-grain is very nearly ready. This will be apportioned in the following manner:—

	Mds.
Ramnuggur ...	12,000
Bugha ...	8,000
Shikarpore ...	5,000

Sales to the public, Mr. Howe reports, have done much good and are rapidly increasing. During the fortnight 7,235 maunds, or nearly as much as was sold from 12th March to 12th May, have been sold.

*Statement shewing the Storage and Consumption of Government Grain in the district of Chumparun in the date nearest to the 30th May, for which returns may be available.*

## E.—ADVANCES TO PRIVATE PARTIES.

The following sums have been expended under this head during the fortnight:—

	Rs.
I. For storage of grain .. ..	2,000
II. For assistance of ryots .. ..	11,309
III. For land improvement .. ..	11,132

The total amount expended up to date under these heads—

I. ... ..	139,000
II. ... ..	163,739
III. ... ..	66,297

In the Motiharee sub-division, the only advances now being made by the relief officer are made in grain, and for the support of poor cultivators during the season which has now commenced. So far, the amount advanced has only been 2,540 maunds to zemindars on their personal security for distribution among their ryots; but the following arrangements have been made to extend this description of relief.

The sub-division has been apportioned as follows:—

- 1st.—Villages held by the Bettiah Raj, farned or direct.
- 2nd.—Villages similarly held by Balu Durga Persad, zemindar of Modhubun.
- 3rd.—Villages held by the zemindars of Bhootpore, in the south of the division.
- 4th.—By the Motiharee, Tirkulia and Ramgurwa indigo concerns.
- 5th.—A very few inconsiderable freeholds, separately settled, and resumed villages, not 5 per cent. of the whole.

Mr. Oldham reports with regard to this distribution as follows:—

"As regards the Bettiah villages, whether held direct or in farm, Mr. Gibbon has given me power to advance up to 10,000 maunds of grain for which the Maharaja will be security. Mr. Gibbon, with whom I am altogether in accord, wishes only the poorest cultivators to be advanced to, and those who have property available, to be left to help themselves. This they have made no signs of doing yet. The men who are most clamorous for advances, are those who tender bamboos and trees in security, while they utterly decline to sell them; never have these materials been so dear, and the difficulty in getting them has been invariably the cause of delay in preparing storage room. Cows and calves, though plentiful enough, are most difficult to procure, and a money-lender who had over 1,500 women's ornaments in pledge to him last year, has not received one-fourth of that number this year. I am now advancing in the Bettiah raj by means of the village panchayats already organised (reported in the fortnightly narrative for the fortnight ending the 18th April), and my relief inspectors; and at the same time in villages belonging to petty proprietors by the same agency, and on the proprietors' security, though hitherto this has been difficult to get. The amounts advanced are to be made over in gross to the panchayat members, who will give receipts for them, and undertake their distribution. I have not yet received any returns, but operations on this system have already begun."

The other two large native zemindars are not residents of the sub-division, and have not responded fully to Mr. Oldham's call. Baboo Durga Persad has however done a great deal for the relief of his ryots in an irregular and spasmodic way. He has given large advances.

The three indigo concerns have already given large advances. The Motiharee concern has now taken 1,500 maunds more for distribution to the ryots, and Ramgurwa 1,000, with an intimation that more will be wanted. Over Rs. 17,000 worth of grain has been expended in advances by the Tirkulia concern, and the manager has recommended the proprietors to apply for a further advance from Government for this purpose. Mr. Oldham is making arrangements with the sub-deputy Opium Agent to distribute 10,000 maunds through the Opium agency, and this is also about to be done in the sub-divisions of Dhaka and Gobindgunge; large advances will be made in this way during the ensuing fortnight.

The advances will be made on the joint security of the respectable men and officials of each village, who will be responsible for the return of the amount which they will give to the poorest cultivators.

As the Opium Department have agents in almost every village, this plan will be very effective and easily worked.

In the Bettiah sub-division, although the returns show no grain advanced to ryots, yet this class has received large advances in money and grain both from native and European land-owners. The European residents have received upwards of Rs. 25,900 from Government for this purpose in this sub-division alone, the greater part which has all been distributed. The Bettiah raj has distributed grain in one way and another to the value of Rs. 2,00,000. These advances have been all made on good security, every respectable ryot it may be asserted, has received an advance.

"There remains" (to quote Mr. Samuells) "those who are not respectable, or whose holdings are not sufficiently substantial to admit of loans being made thereon. To expect a landlord to advance to a will-o-the-wisp is scarcely fair. This should be done by the committee, and charged to charitable relief; these men are for the most part now at work on

the roads"—"they come under class 4 Circular No. 48T.F., and the amount advanced to them should be looked on as a charitable advance under heading d of the committee's rules." The loss may be estimated, Mr. Samuells says, at 20 per cent. He considers that during the rains the system of charitable relief should be largely extended and strengthened by advances, made merely on a promise to repay, and made without formality. He promises to take this up at once, and would have done so before, but his time and attention has been so entirely taken up by payments in grain.

From Ramnuggur Mr. Howe reports as follows under this head:—

"The benefit derived by the people from advances is now becoming very apparent. I have during the last fortnight visited the north and north-west, and have made very careful enquiries. In tuppels Rajpur and Sohurch, Mr. Gibbons' arrangements are excellent, and have done much good. Mr. Gibbon has made large advances, not as tuocavees but as payments for wood, cut and brought from the jungles by the villagers. This has enabled a large number to obtain a livelihood, and when the real strain came, when prices reached famine rates, and severe distress began to show itself, the remedy was comparatively easy. The opening of sales, and enlarging of our works afforded sufficient relief, for the main body of the people had sufficient to fall back upon. There are 10 villages in this tuppeh, where owing to irrigation, a good crop was obtained last year, and in which no relief was given or required. The remainder (36 in number) lost almost their entire crop. The tuppeh may safely, however, be left to itself, as Mr. Gibbons' arrangements, and our relief works appear amply sufficient.

"The people show less anxiety than elsewhere to receive advances, and where the zemindar's provision is sufficient, Government action is not called for. Sales to the general public have restored confidence; our works have supported, and will support for some time, a large number, and Mr. Gibbon is prepared to make advances as loans should this be required. Beyond, therefore, continuing our works, and keeping a careful watch, nothing further need be done in this tuppeh.

"Coming next to the Tharoo tuppels of Camparun and Dane, the advances made under the Raja of Ramnuggur's security, have amply provided for the former which suffered very much; 1,100 maunds of grain have however been distributed among the assamees, and from local enquiries I find the condition of the people of this tuppeh much improved. I think they will now without difficulty manage to tide over the present season. In tuppeh Dane, advances have been fewer, as there was a better crop owing to irrigation. I have not visited the Raja's khas tuppels in this circle i.e., Jamoulce and Changae, during this fortnight, but from reports received from the Tehaidars, the large advances made have considerably improved the condition of the people. In Ramgir also, large advances have been made by Colonel Boulderson under the Raja's security, and I now feel no anxiety for any of these tuppels. Before the rains fully set in all advances will be completed. It will then be a question whether special advances will have to be made for those ryots who now labor on our works, but I think that our previous advances will benefit a large number of this latter class, and that therefore advances to those who now live by labor, will be comparatively small.

"Enquiries on these points are being made. In tuppeh Batsarah, large advances have been made. Mr. Fiddian (the circle officer who has joined during the fortnight), is now engaged in completing certain enquiries, after which advances for this tuppeh will also be closed.

"The only part of the sub-division where the question of advances remains a little unsatisfactory, is in the south east, i.e., in tuppels Deorar, Chanki, Gopala Rusta, Bulthur, and Sathi.

"In these the procedure under Circular No. 48TF, has been adopted, and considerable advances have been made. These tuppels have suffered very much, the entire crop almost having been destroyed. Mr. Gibbon has made some advances which proved very timely, and helped the people at a most critical period. But they were insufficient, and now Mr. Gibbon is only prepared to advance to those ryots, who come under clause 4 Circular 48TF. Under these circumstances we are acting under the Circular, and making advances to the other classes of ryots. I trust these advances will soon be completed, and that I shall in my next report, be able to record that these important tuppels have also been fully provided for.

It will be seen from this review, that the condition of the cultivating classes has greatly improved, owing to the rapid progress made in tuocavee advances, and that the only tuppels where they have not yet been fully completed, are those in the south-east of the sub-division.

#### F.—CHARITABLE RELIEF.

Mr. Oldham reports that Circular No. 3216—S.R., of 19th May only reached him the day before the despatch of his report; he is unable therefore to give the accounts thereby required. All the accounts under this head are being kept distinct and separate, and there will be

eventually no difficulty in collecting them from the different disbursing sources. Mr. Oldham's system is as follows :—

"The whole area of the sub-division is covered by ten relief centres of which two are entirely voluntary, six assisted by paid agents on small salaries as inspectors and clerks, and the remaining two supervised by Government officers, being in fact all the villages not included under the voluntary supervision portioned off into two groups. The two entirely voluntary bodies are the Motiharee towq committee, and the Kurmawa committee, which provide for a group of fine villages looked after by their own zemindars. The former works on a thoroughly efficient system, maintaining a hospital, a poor-house, and the home relief suggested by the Central Committee. The Kurmawa Committee consists nearly of the local zemindars who have undertaken, and are actually seeing that none of the inhabitants in the villages under them suffer from want. In the other eight circles relief is administered in a uniform system. The village officers are charged with the duty of reporting all cases of distress, and their action is supervised by the paid officers, as well as at irregular and longer intervals by the committee members and myself. In the cases of people who, from infirmity or other social position cannot move from their homes, grain is sent to their doors, while others are relieved by monthly tickets at the centre itself.

In the Dhaka sub-division, Mr. Kilby reports that the inspectors and sub-inspectors have settled down to their work, and begun to know what is wanted of them. Application for cotton to spin continues to be made, and cotton has been procured from Revelgungo.

Mr. Weekes reports under this head, that the distribution of relief continues to go on smoothly. Rs. 2,322-12 have been expended in cotton relief but difficulty is experienced in getting sufficient cotton. Mr. Weekes has had to send long distances to other districts for it.

From Ramnuggur, Mr. Howe reports that the system of charitable relief described in former narrative continues in force, and no change has been found necessary.

Pauperism is I am glad to say not on the increase. The number receiving gratuitous relief still amounts to about 2,000. Every effort is made to provide for cases under heading d, and to carry out the views expressed in circular No. 3153—S.R. paragraph 3. A good deal has been done, and the operations are being extended.

The information called for in Circular No. 3216—S.R. of the 19th May has not been supplied by the relief officers, the circular having reached them too late to enable them to include the figures in their returns. They have been requested to furnish it as soon as possible.

The average number of persons relieved under this head during the fortnight is shown below :—

Motiharee sub-division	...	...	...	800
Dhaka	...	...	...	3,584
Gobindgungo	...	...	...	2,238
Bettiah	...	...	...	3,375
Ramnuggur	...	...	...	2,000

#### G.—FINANCIAL RESULT OF THE FORTNIGHT.

Total expenditure from the district and subordinate treasuries, as shown in the last narrative, full details of which were therein given, Rs. 20,45,933-15-8.

Expenditure during the fortnight under report :—

<i>Relief Works.</i>				Rs.	A.	P.
Executive Engineer, East Champaran	...	...	...	54,426	0	0

I have brought 500 maunds from Burheya station (that neighbourhood having been saved by a plentiful rubber crop) to Burriarpore, for transmission to Khurruckpore, for the use of the relief centre there, and another 500 maunds to be substituted for cash payment at the Khagarria works; and in this way all the grain in the golahs situated in places I now consider safe will be brought by degrees to the two foci of distress.

#### E.—ADVANCES TO PRIVATE PARTIES.

In the Bukhtiarpore circle Rs. 3,850 in cash had been advanced to 13 zemindars and jagirdars before the orders about grain advances were received, and since then 258 maunds of grain have been advanced to 17 zemindars, and 200 maunds to 119 ryots.

In Begoo Serai the zemindars are holding back from taking advances, but the ryots are only too glad of them. Mr. Wilkins is working this well, and I hope before the posting of this report to have some figures to submit showing how he has progressed. Mr. Currie is, I know, making these advances in large numbers every day, and I hope also to receive his figures before closing this report.

In the sudder station I have advanced 600 maunds to six landowners.

#### F.—CARITABLE RELIEF.

Mr. Manson has, during this fortnight, closed the Chupraun poor-house, and drafted off the deserving objects to their homes, supplying them with village-relief tickets.

The relief centres in Begoo Serai are working well. There is a large increase in the numbers relieved at Begoo Serai itself, which the Sub-Assistant Surgeon in charge of the centre reports to be caused by the pressure beginning to be felt by the lower classes of the town and neighbourhood, and also by an influx of distressed Tirhootees. These latter must be fed up and sent back to their homes as soon as practicable.

The following information is in accordance with Government letter No. 1250:—

N.B.—Nearly 4 per cent. belonging to the non-laboring classes, of which the rest are all laboring classes.

RAM RUTTUN MOJOMDAR,  
Assistant Engineer, in Executive charge,  
Mungkyr District.

No. 522—S.R., dated Bhagulpore, the 3rd June 1874.

From—F. H. BARROW, Esq., Assistant Collector and District Grain Officer, Bhagulpore,

To—The Secretary to the Government of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit this the fourteenth Fortnightly Narrative of the Bhagulpore District. The Collector himself is away at Soopool and has directed me. to write the Narrative in his absence.

#### A.—STATE OF THE COUNTRY.

2. At head-quarters and over a large tract of country, on the 25th May, we had a rainfall of 1·48, and during the past week ·58. Soopool and Narridiggur had falls of ·38 and ·50, respectively, on the 23rd and thereabouts; there was also a heavy rain at Bhuttaneah, but Soopool had no rain five miles to the west. A good shower fell also at Birpoor and Bheemnuggur in the north. Throughout the fortnight rain has fallen all over the Soopool Sub-division, and Mr. Smith writes that "there has been quite enough for all current agricultural operations."

3. The Banka Deputy Collector writes very favorably of his sub-division. They still want rain, but in the north and west it has fallen plentifully and the ryots are hard at work. With the exception of a few cases of cholera at Kutooria the health is good. There is no charitable relief worth speaking of.

4. Mr. Martin from Muddehpooora reports the condition of the people good. Prices remain stationary. They have had slight rain, and ploughing has commenced. The "Moong" (dall) will soon be ready, and the low land paddy is promising. As the bullocks of the country are wanted for ploughing, the carriage of grain is very difficult. In Muddehpooora itself all the allotment is stored, *viz.*, 1,68,000 maunds; of this up to the present, 9,534 maunds only have been sold or disposed of.

5. The people, he says, are now beginning to require advances in order that they may be able to go on with their cultivation. The Group Superintendents are making the necessary inquiries. The present works seem sufficient to keep off all distress.

6. The Soopool Sub-divisional Officer reports the condition of the people to be good, having much improved. Of prospects he cannot speak decisively. Some think the crisis is over, while others assert the worst is to come. But in the worse case he believes the preparations to be ample. There are no cases of starvation, and the very poor have been sufficiently relieved.

7. Rice is only quoted at nominal prices, but murwa and other grain is plentiful from 12 to 14½ seers. Whether the people have stocks in hand seems still an open question.

8. In Simrahi Circle Baboo Ram Shunker Sen reports the bhadoi crops to promise well, but the aghani to be not much sown. The cultivators want seed, and he has managed to purchase 100 maunds. Moong is ripening, and other crops are in a fair condition.

9. Of the seed-grain for Soopool, 9,000 maunds had arrived; the people refused to buy 10 seers the rupee, but Mr. Smith expects a rapid sale at 15 seers as now sanctioned.

10. The head-quarters price current shews—

					Sr.	Ch.
Common rice	...	...	...	...	10	11
Wheat	...	...	...	...	13	14
Maize	...	...	...	...	15	2
Gram	...	...	...	...	15	12

11. The statement of cases against property for the month of May last cannot be given as the returns are not to hand.

#### B.—RELIEF WORKS.

12. I annex a statement of relief works under the Public Works Department, and also one shewing the works done by the Durbhunga Court of Wards, exclusive of road from Durbhunga to Singhessur, on which about 2,000 people are employed as reported by Mr. Smith, but we have no returns. There has been a large falling off in the number of laborers employed on the latter works, probably owing to the work being done by contract during the last week or so. The average for the whole fortnight is over 7,000, whereas the number on the last day was but 4,419.

13. With reference to Government Circular No. 144T.F., dated 5th May, I give a list of all roads and other relief works by sub-divisions and circles as far as we have got information as below :—

**SOOPOOL SUB-DIVISION.**

**SOOPOOL AND EKAR CIRCLES.**

Ditto to Mohiama	...	...	...	332
				<u>1,665</u>

*Abstract.*

		Soopool Sub-division.	Muddelpoora Sub-division.	Sudder Sub-division.	Banka Sub-division.
(a).—The number of Public Works	{ On piece work	19,032	1,100	962	1,600
Department laborers.	{ On daily wages	.....	.....	.....	65
(b).—The number of laborers	{ On piece work	4,435	233	Nil.	Nil.
under Circle Officers.	{ On daily wages	558	467	Nil.	Nil.
(c).—The number of Court of	{ On piece work	7,147	Nil.	Nil.	Nil.
Wards laborers.	{ On daily wages	2,000	.....	.....	.....
(d).—Grand Total	{ On piece work	30,614	1,333	962	1,600
	{ On daily wages	2,558	467	.....	65

14. In almost all the works under the Department Public Works and the Circle Officers the piece work system is now in force. In some of them the laborers are paid entirely in grain, and others partly in grain and partly in cash, and on others again (I suppose a few) wholly in cash.

## C.—TRANSPORT OF GRAIN.

15. Of the Bhagulpore station (which is the only important one in the district) the imports of the last fortnight are 15,578 maunds, and the exports 11,957. Nearly all the exports were wheat and oats for Howrah, and the imports, except about 2,000 maunds of rice from Bengal, were wheat and grain from up-country.

16. Nearly the whole of the grain for this district has been transported. Mr. Hennessy has engaged all our carts he can get to carry seed-grain up to Tirhoot, but this has become a difficult task as all the cattle are wanted for ploughing.

## D.—STORAGE OF GOVERNMENT GRAIN.

17. The annexed statement will shew that nearly all our grain is stored—seven lakhs out of 7,33,000 of our allotment. We have only about 20,000 maunds more to store which I expect has been already done.

18. In Soopool 18,000 maunds are being removed into group villages and will be under Group Superintendent.

19. In the Soopool Sub-division 1,00,417 maunds have been disposed of up to the 23rd May, 82,180 being sold to the public and laborers.

## E.—ADVANCES TO PRIVATE PARTIES.

20. No advances have been made to private parties. Rs. 500 have been sanctioned for helping ryots and ordered to be paid in grain.

## F.—CHARITABLE RELIEF.

21. Of the 23 centres opened in Soopool, 16 have been closed, and the few persons attending therein have been put on house-to-house relief. In the remaining 7 centres, 456 people are in receipt of cooked food. Of the circles for which figures are given, 1,237 persons are on the house-to-house register of the Bongong Circle; on that of Ekar Circle, 5,194 persons, to whom 1,268 maunds are issued monthly; and 3,513 on that of Soopool, who receive 1,017 maunds monthly. Weaving and spinning relief very popular, but no figures are given.

22. Baboo Ram Shunker Sen reports that the relief houses are shunned, people thinking there is a design on their caste, but the "Sirkar" is in great favor, as it is believed that money may be had on the mere asking.

23. The average number relieved daily at 5 centres in the Simrahi Circles with cooked and uncooked food is 404. The number relieved under the house-to-house-ticket system is 324, that by cotton spinning 921, and by weaving 84.

24. In Muddchpoora spinning and weaving relief is in full operation; large numbers of persons avail themselves of this kind of industry. About 700 people have been helped by house-to-house relief.

25. We are still unable to give all the accounts prescribed in Government letter No. 3216—S.R., dated the 19th May last.

26. The Sloopool ones will be prepared immediately under the personal orders of the Collector.

27. Muddchpoora was sent 5,000 out of the 20,000 received from the Central Committee. Their accounts up to the present stand thus:—

	Rs.	As.	P.
(b) "No expenditure has as yet been incurred under this head except that for distribution of rice at centres. The rice locally bought and distributed in the way of food cooked or uncooked, costs ...	368	5	3
"Contingent expenses for cooks, &c. ...	107	6	6
(c) "Price of cotton bought for spinning, &c. ...	981	10	6
"For light works in tanks, &c. ...	1,950	4	0
"Hospital comforts ...	102	5	0
(d) "Of this class of persons but few require help. I have not heard of any one having been so helped. I wrote to Mr. Kirkwood asking him to let me know if persons helped under the house-to-house rules come under this head; he said they did not he thought. "Some ryots were helped and received from the Subscription Fund	72	0	0

#### G.—FINANCIAL RESULTS OF THE FORTNIGHT.

Total expenditure from the district and sub-divisional treasury as shown in last Narrative ...	5,76,851	13	8

### Progress Report of Famine Relief Works for the

[illegible]

fortnight ending Saturday, the 30th May 1874.

SUPPLY OF FOOD THEREAT			Condition of the laboring class, and general features of the country.	Mode of payment.	Rate of wages.	Arrangement for tools.	Disbursement during the fortnight.
From Bazar.	From Government mooluk's shop.						
		Mils. S. C.					
60 per cent...	40 per cent ...	51 0 0	The condition of the laboring class is better than in ordinary years. Grains of sorts are available from local bazars. Laborers come from an average distance of two miles; very few remain at sites of work either in huts or mango tops, the rest return to their homes. Their general occupation last year was ploughing, cultivating, and reaping. Piece-work is in force throughout all the works. No deaths occurred during the period under report. Water is not sufficient. Paddy, musong, and other rubber crops have been in expectation of rains. There was no rain during the week; the low land is partially moist for ploughing. The rumour about is that should there be no rain during June, the prospects of the crop will be unfavorable. No respectable classes have joined the work yet.	.....	Rs. 1-14 to Rs. 2-3 per 1,000 c. ft.	From Govt. store ...	8

F. H. BARROW,  
For Collector.

No. 1943F, dated Purneah, 3rd June 1874.

From—W. KEMBLE, Esq., Magistrate and Collector, Purneah,

To—The Offg. Secretary to the Government of Bengal, Scarcity and Relief Dept.

I HAVE the honor to forward herewith the fortnightly narrative for the period ending 30th May 1874.

A.

I have, during the past ten days, visited myself every relief circle in the district. Everywhere the crops are looking well, particularly in the north, where there has been a most beneficial fall of rain. In a few villages near Kushba Amour, the hail and wind has done considerable damage to the kauni and the mangoes. In every thana it has been brought to my notice, and I have myself seen, that a much larger area than in other years has been planted with bladoi rice. The late rains have enabled people to hoe and weed their fields. As evidence of the distress in Kushba Amour, Dengrahi, and South Kishengungo, I may mention that in some villages complaints were made to me that the ordinary laboring class were obliged to go on our works because the owners of fields could not afford to pay hired laborers, and had to weed and hoe and plough their own fields.

SUPPLY OF FOOD IN THE BAZARS.

Notwithstanding the large sales of Government grain, there has, in my opinion, been no falling off of private trade. I am constantly in the town, and at every visit find the traders as busy as ever. In my last narrative I said that Mr. Ratnay had reported that "private importations were rapidly ceasing, making way for Government rice." I added that his impressions were formed from what he saw in the neighbourhood of his golahs, as I was satisfied that private trade could go on side by side with Government sales. I thought then that he was wrong in this opinion, and what I have since seen confirms my view of the question in that sub-division.

I have this fortnight seen in Kudbah as many pack-cattle as ever bringing grain up from Sahebgungo, and I have seen it sold in the hâts. I was at Dengrahi ghât a few days back, and learnt that about 250 maunds of rice had been taken by private traders northwards across the ferry on that day. Since prices have risen at Kishengungo, complaints have been made by residents in Purneah, that the traders of that sub-division were buying in Purneah bazar.

Lieutenant Coles, relief superintendent of the Sudder, reports that at Mathour hât, 10 miles from Purneah, up the Gauges and Darjeeling road, he found a number of petty traders selling rice at 10 seers for the rupee; he reports the same of other hâts. On Saturday, on my way from Kudbah, I met traders going to and coming from market with private grain. In order to prevent any clashing with private trade, an arrangement, first commenced at Kushba Amour, has been made to sell at centres on days other than hât days, is being carried out throughout the district. Government grain, however, finds its way to nearly every market.

CONDITION OF THE PEOPLE.

The condition of the people has improved in every circle except in Kishengunge and Bahadoorgunge, where, up to within the last month, importations from the Morung and Julpigoree kept the markets plentifully supplied. After the supply from the north began to fail, the people were in great distress, and there was a rush to get employment upon our works, and to buy grain from our stores; the people seemed seized with a panic; dacoities and grain-robberies were numerous. I visited Kishengunge and Bahadoorgunge myself, and directed that the sales from the Government golahs should be made by paid moodies at the different minor golahs; the traders in the bazars were encouraged to turn their attention to importing from Purneah, and advances, which some of them took, were offered to them.

Baboo Ramchand Setya, agent for Rae Dhunput Singh, who has done much for his ryots in Kudbah, has bought some Government grain in Purneah, which he will send to Bahadoorgunge for sale to his ryots. Mr. Craven, the sub-divisional officer, has arrested a large number of dacoits and rioters, many of whom he has convicted and punished. Captain Knyvott, the District Superintendent of Police, has gone up with some extra constables, and reports that the country is now quieter, and that the robberies had all been committed by halo and hearty men, and that in no case did the offenders appear to be in want. Kishengunge has always been notorious for the lawless character of its inhabitants, and a number of bad characters have been recently released from jail. I have called upon all these to furnish security for their good behaviour.

Lieutenant Carnac has arrived to take charge of the sub-division as relief sub-divisional officer; this will leave Mr. Craven time to look after its criminal administration, and to restore, soon I hope, complete order.

The annexed memorandum shows the increase in crime.

### B.

Mr. Cordner's return is attached; it shows a daily average of 17,404 laborers, being 1,406 less than were reported last fortnight.

The decrease is principally on the lower Koosi road No. 1, where the laborers have gone off to their fields.

On roads Nos. 5, 9, and 16, where the old and infirm have, since the last report was sent up, been drafted on to the petty relief works, and on road No. 7, where a few cases of cholera appeared, which caused all the work-people to disperse to their homes, the native doctor and relief officer went out and administered relief, rain fell and the disease soon disappeared, and the District Engineer now reports that the number of laborers is again increasing.

On the big north road the number of laborers has increased from an average of 6,058 to 8,044 per diem. Except on the north road, to which, under special orders, the system has not yet been extended, all the laborers are paid in grain. A full review on the working of the system, which, so far as I have seen, is very satisfactory, will be submitted with the next report. The number of laborers on the relief officers' works amounts to a daily average of 24,753, being an increase of 11,490 over last fortnight's number. A copy of return C is annexed.

In the Sudder circle, the principal work is the Bishenpore tank, which, in the middle of the most distressed villages in this part of the country, affords work to 1,987 persons daily, mostly women and children. In Kushba Amour, Mr. Gouldsbury has 36 works, affording employment to 8,355 persons. I reported in my last narrative that women were working here with the hoe; from the last report, and from what I have seen myself, I find that they continue to work satisfactorily and willingly. In consequence of the near approach of the rains petty repairs to village roads are being planned, such as can be carried on in any weather.

In Bahadoorgunge and Kishengunge there has been a great demand for work. Mr. Bertelsen has eight roads in hand running all through his circles, besides a few tanks. Baboo Rajanee Nath has more tanks than roads. Work being opened at 30 villages, two most useful tanks have been nearly finished by the light labor ticket-holders on the Ganges and Darjeeling road.

Mr. Rattray has all along had ample work in hand. In Kishengunge sub-division, 6,360, and in Arrareah 6,990 persons are employed. On every one of our relief works payments are made in grain. I have seen them made in the Kishengunge and Kushba Amour circles: the people are all made to sit down according to their villages in gangs, and if their tasks have been done they get their daily dole served out. The task imposed is in all cases light, and it is only the incorrigibly idle who cannot get through it. Eight women do 100 cubic feet of earth-work in Kushba Amour; in Kishengunge, a little more.

### C.

In consequence of the demand for grain for Julpigoreo and Kishengunge, transport operations have been got in full work again. To supply the 50,000 maunds to Julpigoreo maunds have been sent off from Dengra; 10,000 maunds are now *en route* from Purneah; 5,000 have been sent from Kaleengunge, and an order for 6,900 sent to the Naib of Boda on Gawalpokhur which is close to his frontier, and 5,000 maunds are to go on from Bishengunge, which will be replenished from Kudbah.

In consequence probably of bad weather, the Maldah boats have not been arriving very fast lately. I have heard of two boats having been lost, but the contents were in each case recovered. We have been working pack-ponies in the Sudder circle to fill the minor golahs.

The following table shows the number employed and engaged:—

			Employed.	Engaged.	Total.
Sudder ...	...	...	750	500	1,250
Kishengunge	...	...	400	281	681
Bulrampore	...	...	...	84	84
Total				...	2,015

No returns have been received from Dengra or Kushba Amour where I have seen pack-ponies working in large numbers, and it was reported to me that Mr. Thornton had despatched grain by their means to Bahadoorgunge.

## D.

The stocking of minor golahs has been going on satisfactorily.

Mr. Gouldsbury has in this been most energetic; he has not only got his 17 minor golahs stocked, but he has distributed a few maunds to nearly every village in his circle, where it is kept in the custody of the headman.

The quantity stocked is as follows :—

					Mds.
Sudder	...	...	...	...	5,792
Kusba Amour	...	...	...	...	7,454
Dengrah	...	...	...	...	9,500
Bulrampore, about	...	...	...	...	8,950
Kudbah	...	...	...	...	Not stated.
Kishengunge	...	...	...	...	10,791
Bahadoorgunge	...	...	...	...	Not stated.
Arrareah	...	...	...	...	Ditto.

Though in Kudbah, Bahadoorgunge and Arrareah the actual quantity stored is not reported, I know that the golahs are ready and transport work going on.

## E.

The only advances made have been in grain, viz. —

1,000 maunds to Mr. Shillingford.  
500       "       "       Cave.

Bonds have been taken from these gentlemen to sell the grain at the Government rate, viz., 15 seers for Burmah and 12 seers for cleaned rice.

The advances made to villages by relief officers will be noted under the next head.

## F.

I annex a copy of my district relief return for the month, which shows a daily average of 21,000 persons relieved, after deducting those shown as relieved by sale of grain.

In the Sudder circle Mr. Coles has included in the persons relieved by uncooked food those who came to his centres for relief under the ticket system.

Mr. Rattray has not yet fully introduced relief by ticket or by spinning and weaving, but he has been so very liberal in his general advances, that the necessity for this more special kind of relief has not been felt.

The system of advancing to village communities on their joint bonds has been worked chiefly in the Sudder, Arrareah, Dengrah, and Kushba Amour circles. In Bulrampore, acting on my order that so long as he found the village people ready and able to buy grain he should not advance to them, Mr. Meiklejohn has not taken any bonds, but a few have been taken in Kishengunge and Bahadoorgunge. Last week I ascertained that in Kusba Amour and Dengrah, where there had been the greatest failure in the crop, the people had nearly all been supplied with an advance, with which they could, without having to consume their seed-grain, keep themselves and their field-laborers in tolerable comfort. I also saw that there was too great a rush for advances, that many persons applied for them, and in many cases got them, who ought not to have had them; and that the time of the relief officer, who ought to be more actively engaged in looking after real relief work, was too much taken up in listening to exorbitant demands and in settling disputes among villagers as to who should be and who should not be entitled to share in the village allotment.

I also began to fear lest our stock of grain, for which there was a daily increasing demand for wages on our relief works and for purchase, should fall short; I therefore ordered that no more advances should be given, and that sales in small and limited quantities by salaried moodies, scattered in greater numbers over the country, should be increased. The annexed table shows the quantity of grain sold and advanced during the fortnight. The village grouping has now been in a way finished all over the district in Dengrah; and in Kushba Amour it has been very completely carried out. In Kishengunge circle the arrangements appear good, and will no doubt be soon placed in working order by Mr. Carnac, who proceeds to-morrow to take charge of the sub-division. In Bahadoorgunge Mr. Bertelsen has arranged to have 17 groups, but has not been able, owing to press of work in such a large circle, where distress has been more severely felt than was anticipated, to allot to each by name the proper number of villages, and to instruct the Superintendents in their duty. In Arrareah Mr. Rattray has arranged all the villages in his sub-division, viz., 746 in 89 groups; these groups I have divided into four circles, under the assistant relief officers, Gown Chunder Mookerjee, the Sub-Deputy Collector, and Gour Sahai, whom I have nominated as inspector.

The groups are in charge of the headmen of the villages, whose principal business will be to attend to the distribution of grain according to tickets given by the relief officer's assistants.

The total number of circles completed and officered is as follows:—

Sudder	...	...	...	13	
Kushba Amour	...	...	...	17	
Dengrah	...	...	...	12	
Bulrumpore	...	...	...	8	more to be appointed.
Kudbah	...	...	...	12	
Kissengunge	...	...	...	12	} to be revised by Mr. Carnac.
Bahadoorgunge	...	...	...	17	
Arrareah	...	...	...	89	

All these, except those in Arrareah, are minor golas and relief centres.

If to the number of persons who according to the abstract from the daily relief return referred to in the first part of this section, which shows a daily average of 21,000 persons in receipt of charitable relief, be added 14,209, the number employed on the Department Public Works roads, we have a total of 35,209.

The total quantity of grain disposed of by the sale to the public and advances during the fortnight is 63,707 maunds.

It is hard to say how many persons relieved are represented by this; Mr. Rattray estimates that the quantity of grain which he has advanced, viz., 39,536 maunds, will be divided among 18,768 households—taking 5 persons to a household, this will give relief to 93,840 persons.

The annexed table shows the working of the native doctors. Dr. Picachy, the Civil Medical Officer, is now making a round of the circles. He visited Kudbah with me on Saturday, and found everything working well; he is now going up north.

#### G.—FINANCIAL RESULTS OF THE FORTNIGHT.

The expenditure reported last fortnight amounted to Rs. 7,17,939-9-0 + 12,604-11-5 = 7,30,544-4-5.

	Rs.	A.	P.
Village roads	10,468	0	0
District Engineer	1,80,000	0	0
Planters and others for district road repairs	8,915	2	0
Purchase of tools and plant	5,351	2	6

*A Daily register of persons relieved each month in each Relief Circle for the month beginning 25th April, and ending 24th May 1874 (inclusive).*

N. B.—1. This is to be kept by each superintendent. It should show results from the 25th of one month to the 25th of the following month. One copy should be sent by the superintendent direct to his immediate superior, another to the Collector, and another to the Commissioner. These last two should be posted so that they will reach the addressees not later than the first of the following month.

2. Each Collector is also required to send on the 1st of each month for the whole of his district, a Statement of relief in the above form.

The figures in column 3 show the actual stock in the government Golahs on the 25th May 1874, as per goldahars' returns, exclusive of the grain in the minor golahs as reported in the body of the fortnightly report. The figures in columns 4 to 8 will not generally tally with the last return, as the circle officers have submitted more accurate returns this time.

W. KEMBLE,  
Magistrate-Collector.

**PURNEAU DISTRICT.**

*Progress Report of Famine Relief Works for the week ending Saturday, 23rd May 1874.*

Names of roads.	Progress in marking out relief works.	Process in carrying out relief works.	Number of laborers thereon.			Supply of food thereat.	Condition of the laborers and general features of the country.	Mode of payment.	Rate of wages.	Arrangements for tools.	Disbursement during the week.
			Class I.	Class II A.	Class II B.						
No. 1, Puneah to Keogsum.	All line has been laid out, and is being carried out in progress.	3 parties at work.	1,011	411	2,012	348 8 6	<p>There is a further decrease in the number of laborers on this road to that stated in last week's report. I was under the impression that probably a large number might be put on the 2nd class relief works, but on visiting them I found very few able-bodied men employed.</p> <p>The road does not run through a high plateau, but through a country of low hills, and a great many of the employed laborers are now employed on other work.</p> <p>The class IIB people are being employed in the early portion of the week, and have now been handed over to the relief officer. Rain is very much required in this part of the country, as the country is high and sandy, so that it can't remain so long without rain as the lower lands.</p> <p>Condition of laborers is very good. There has been an increase in the number this week as the works have been opened out in some new places. It is expected that the end of the week will see class IIB laborers being handed over to 2nd class relief work.</p> <p>When these people come to us we just give them work until arrangements can be made concerning them, as we refuse work to no one until we are satisfied that they are fit to do it.</p> <p>For the 2nd class work being ready for the laborers.</p> <p>Rain is very much wanted up in the north.</p> <p>As yet the crops look well, but they can't stand much longer without a good shower; clouds have been hanging about, and rain is daily expected.</p> <p>Condition of the laborers is everywhere very good.</p>	<p>All payments are made to the laborers by sub-cashiers, the number of whom depends on its month. A sub-cashier generally pays two or three parties, if they are not too far apart. He is himself situated between two parties on either side; and as he is allowed two cash jemadars, he sends them out to each of the parties, except that these cash jemadars receive pay orders from the sub-cashier, and the money is given to the leaders of the various parties for dividing it among the laborers. The sub-cashier is backed by the pay orders signed by the sub-cashier, thereby making them receipts, and hands them over to the sub-cashier, who makes the necessary entries in his cash-book, and sends them out in weekly to Executive Engineer for recoupment accompanied by the vouchers.</p>	<p>The contract rates are as follow for class No. 1.—Ordinary earth-work in banks up to 5 feet in height at 3 annas per 100 c. ft. Earth-work in hard ground up to 5 feet, 4 annas per 100 c. ft. Earth-work in hard ground up to 5 feet, 5 annas per 100 c. ft. Earth-work in banks above 5 feet, 4 annas per 100 c. ft. Earth-work in banks above 5 feet, 5 annas per 100 c. ft. Earth-work in banks above 5 feet, 6 annas per 100 c. ft. Earth-work in banks above 5 feet, 7 annas per 100 c. ft. Earth-work in banks above 5 feet, 8 annas per 100 c. ft. Earth-work in banks above 5 feet, 9 annas per 100 c. ft. Earth-work in banks above 5 feet, 10 annas per 100 c. ft. Earth-work in banks above 5 feet, 11 annas per 100 c. ft. Earth-work in banks above 5 feet, 12 annas per 100 c. ft. Earth-work in banks above 5 feet, 13 annas per 100 c. ft. Earth-work in banks above 5 feet, 14 annas per 100 c. ft. Earth-work in banks above 5 feet, 15 annas per 100 c. ft. Earth-work in banks above 5 feet, 16 annas per 100 c. ft. Earth-work in banks above 5 feet, 17 annas per 100 c. ft. Earth-work in banks above 5 feet, 18 annas per 100 c. ft. Earth-work in banks above 5 feet, 19 annas per 100 c. ft. Earth-work in banks above 5 feet, 20 annas per 100 c. ft. Earth-work in banks above 5 feet, 21 annas per 100 c. ft. Earth-work in banks above 5 feet, 22 annas per 100 c. ft. Earth-work in banks above 5 feet, 23 annas per 100 c. ft. Earth-work in banks above 5 feet, 24 annas per 100 c. ft. Earth-work in banks above 5 feet, 25 annas per 100 c. ft. Earth-work in banks above 5 feet, 26 annas per 100 c. ft. Earth-work in banks above 5 feet, 27 annas per 100 c. ft. Earth-work in banks above 5 feet, 28 annas per 100 c. ft. Earth-work in banks above 5 feet, 29 annas per 100 c. ft. Earth-work in banks above 5 feet, 30 annas per 100 c. ft. Earth-work in banks above 5 feet, 31 annas per 100 c. ft. No. 5, Deygrah Ghat to Moor- khal.	Whole line has been laid out, le- velled, and esti- mate submitted.	8,473	8,473	5,473	523 0	1,352 6	3	1,352 11 3	It may be observed, that the rate per 100 c. ft. for task-work is in excess of that for contract, but this it must be remembered that a man can never earn as much as a woman, and he can at any time join the contract gang, where by real hard work he may be enabled to do as much as a woman, and then must now join either the contract or task-work gang, and the assistance allowance will only be granted to such as are really unable to do earth-work. They will be chiefly employed sloping and dressing of roads. The pay for this class, is— Men .. .. . A. P. Women .. .. . 1 6 Children .. .. . 1 0
No. 6, Deygrah Ghat to Bhupia Talpoore.	Whole line laid out and levelled, and estimate sub- mitted.	8,400	490	8,990	285 23	1,037 15	8	1,119 12 3	
No. 7, Bulram- pore to Tara- pore.	The whole line has been laid out and levelled, and esti- mate submitted.	6,059	273	5,994	490 0	1,065 0	0	5,645 15 1	
No. 8, Hurin- khore to Mal- dah.	Work surveyed and levelled, and estimate sub- mitted for sanction.								

There are signs of distress towards the eastern end of the road, but as far as the Public Works Department laborers are concerned they are all in good condition. The crops are looking well, but rain is much wanted in this part of the country. A light shower fell at Kishore on the 26th. The number of laborers are gradually increasing, but we have not yet got the able-bodied class. A great many people are now engaged in the fields at weeding and other work.

We have no class I laborers, as the road laborers have taken all of them off their hands. The crops are looking well, but rain is much wanted. The condition of the laborers is every-where good.

There is a decrease in the number of laborers this week, as some left the road for field work. All the laborers are employed on piece and task-work.

Rain is much wanted in this part of the country, and the bhadon crop is suffering as well as it was.

The condition of the laborers is fast disappearing in this part of the country, though our numbers are still reduced in consequence of the panic. The laborers who left the work between the 16th and 18th miles have not as yet returned. This has thrown the work back a great deal, but it is expected that in a few days all will be as before.

It was unfortunately one of our largest parties of class I laborers, who were dispersed, so that our number in this class are much reduced in this week's report.

This is the last week that we will show such a number of class I laborers on this work, as Mr. Meikrishnan has informed me that he is now prepared to take them over from us.

The crops are looking well, as the heavy rain fell on the 12th instant did a great deal of good.

The condition of the laborers is good.

The number has decreased on this road, as many of our class I laborers has been taken over by the district officer, and also some have left the road for field work.

Work can be taken in hand as soon as it is considered advisable to do so.

W. KEMBLE,  
Magistrate-Collector.

R. A. CORDNER,  
Executive Engineer Purneah, District.

No. 349—S. R., dated Doomka, the 2nd June 1874.

From—JOHN BOXWELL, Esq., Officiating Deputy Commissioner, Sonthal Pergunnahs,  
To—The Offg. Secretary to the Government of Bengal, Statistical Department.

I HAVE the honor to submit a narrative for the fortnight ending May 31st.  
I have received reports from Deoghur, Rajmehal, Jamtara, Kundahit, Hendua, Benagarhia, and Godda. The last only came in to-day. I have not heard directly from Sultanabad.

#### A.—STATE OF THE COUNTRY.

Grain has absolutely failed nowhere, but it is quite clear that in many places we have been barely in time with Government aid to save failure.

Sahebgunge is well supplied; plenty of food can be had at a fair price. In Rajmehal the price of rice went up to 7 seers. Mr. Stewart brought the price down to 9 seers by importing and selling from a Government store.

Rice is said to be very hard to get down the bank of the Ganges from Rajmehal. The reports are from Englishmen who ought to be able to import, at all events for their own coolies. Some traders in the Daman have imported from Sahebgunge maize, which they previously exported from Bario. It is plain enough that this export of grain was pure waste.

Mr. Stewart says about Rajmehal:—"The real cause of the deficiency was the inability of private traders to import rice with any chance of being able to sell it at remunerative rates." This is an obscure sentence, and the matter wants enquiry.

In Godda prices are high, and rice is very high, but among five markets quoted by Mr. Grant, the following is the line of cheapest food:—

(1.)	Belbadda	...	Barley	...	13	seers.
(2.)	Perozepore	...	"	...	14	"
(3.)	Murrow	...	{ " Rice	...	15	"
				...	11	"
(4.)	Godda	...	{ Barley	...	15	"
			{ Rice	...	12	"
			{ Barley	...	15	"
(5.)	Pathargawa	...	{ Gram	...	13	"
			{ Janara	...	12	"

This cannot be called bad for a distressed district.

Both in Rajmehal and Godda people are said to be looking well. Mr. Stewart does not wish to start charitable relief; Mr. Grant has already begun. Mr. Grant believes that as the native store of food lessens day by day the people are being pinched more and more, and that they are now suffering great distress. I shall give some reasons later on to show that the facts reported by Mr. Grant would support a more hopeful lookout than his.

Mr. Wilnot says food is getting scarcer in Deoghur. He has searched out so-called cases of half-starvation with great care; he has reported them minutely, and I agree with him in thinking them all rather favorable signs than otherwise. If nothing worse than the worst of them has occurred, the sub-division is well off for the times.

Prices are rising, and people are becoming very anxious. There, as in the district generally, there is an inclination to cry out to the Government to give help. This feeling is very infectious; it has come across our border from Manbhoon chiefly.

In the south of the district prospects now are a good deal worse than anywhere else. I have already described this tract; it is about cut in equal parts by the Ajay river, and one-third of it lies west, and two-thirds east of the chord-line at Jamtara. As I have already said, it has been neglected by everybody. In October the Jamtara officer was removed to settlement work. The police were left there against orders, because I was afraid to remove them suddenly in the face of scarcity difficulties, with no superior officer on the spot.

The farthest parts of Pabia are more than 50 miles from Doomka by a bird's-flight across the Ajay, and the more, with no road.

A fortnight ago Mr. Smith went to Jamtara, giving up all other work to manage relief. His report shows a bad state of affairs: people are thin and wretched, none are said to have died of actual want of food, but the poor people are all very badly off. Mr. Smith says—"the appearance of a great many people who flock to our works is very bad indeed; the signs of want of food show plainly on them,—men, women, and children are equally emaciated, some so much so that I have made them over to the native doctor for sick diet. Again, one day it was reported by a chowkeedar that two persons were dying; I sent off the native doctor at once, and found that two children, aged 10 and 2½, were suffering greatly from want of food, but they had been relieved by the village mustajir before he arrived."

Mr. Smith has been giving charitable relief in Jamtara.

Within the last fortnight we have an immense accession of strength in officers. Mr. Hand has taken charge of relief operations in Jamtara; sub-deputies are at work in Nala and Kundahit, and a caucongo in Jamjuri; I have also turned the Deputy Inspector of Schools into a relief officer.

The distances are—

Jamtara to Nala ...	...	15 miles S. E.
„ to Kundahit ...	...	23 „ E.
„ to Jamjuri ...	...	15 „ N. E.
„ to boundary of district ...	...	23 „ W.
Doomka to Jamtara ...	...	40 „ S. W.

We have lately got a supply of 13,000 mannds of rice to Jamtara, which has been distributed between Jamtara, Kundahit, and Nala. Useful clearing of old tanks has been started; the poorest people are being relieved gratuitously; while work is given to all who can and will work. This part of the district has thus been caught not a moment too soon. There is now breathing time to settle on the next step, which I shall do under orders of the Commissioner.

Nearly the whole of the past fortnight I have been in Doomka. I went to Noni for two days, and then sent Mr. Birch there. The zemindar of Nagwan has promised to obey orders in everything, and has engaged to take Rs. 5,000 advance from the Government to help his tenants,—they are mostly Southals, and are averse to dealing with him. Mr. Birch reports badly of the ryots' prospects, but neither he nor I saw any signs of present want anywhere; they are noisy and clamorous for help, and say if they don't get it they must eat their seed-corn. The eastern part of Hendua belongs to Rajah Nilanund Singh; his naib has sent a message that he wishes all the ryots to be left to him, but he wants to borrow Rs. 20,000 from the Government. I am in doubt whether the strict order to made future advances only in grain applies to advances for the improvement of estates or not: I expect an answer daily from the Commissioner. The west of Hendua belongs to Baboo Udit Narayan Singh, of Nagwan; beyond saying he would like to borrow, he has done nothing yet to help his people, he says they won't let him. I have heard no bad news from the Damau, and all the people who come from that side look comfortable; in fact, there are no miserable people coming into Doomka yet from any quarter.

The chowkedars of Mohammadabad came in yesterday. The pergunnah is 20 miles long and 10 wide in the widest place; it lies immediately south of the Kanibahal hills, north of Beerbhoom, and east of Kundahit. The chowkedars all looked well and hearty; some of them who had been dispossessed of their land this sowing time were loud in complaint, but there was not a word of anybody starving. There had been rain in the east about Rajbunndh, and ploughing was going on, and a little dhan had been sown. In the west they were still waiting for rain.

This pergunnah of Mohammadabad I had always classed with Kundahit and Dari Malleshwar. In Benagarhia I was told Mohammadabad was in a worse plight than Dari Malleshwar, and Mr. Dawson said the Mohammadabad crops were as bad as any in his beat. I know the hard times must be felt there, but nothing like the cry has come up that has come from Kundahit. I have had no special report from Sultanabad; but I have heard incidentally that things are looking better there than was feared some time ago.

The weather has changed all over the district. The change was long in coming, and is slow now, but undoubted. We had very few storms and very little rain in April and May, though lightning was unusually fatal. Ploughing was long delayed. At Doomka for the last ten days clouds have been gathering and clearing; thunder is frequent; some good showers have fallen. The hot westerly winds have long ceased, and now the sky is black with clouds, and it has just stopped raining. In Rajmehal Mr. Stewart thinks the rains have set in steadily. There has been a little rain in Deoghur; none yet in Godda.

Small-pox is bad in many places, and cholera has broken out often in widely distant parts, sometimes very fatal over a small area, but never settling down badly on any one considerable tract, or lasting long anywhere. I hear of no fever except among Bengali clerks and our servants.

Food-thefts are not increasing, they seem more numerous in and about Doomka than anywhere else; but we have had three dacoities at the two ends of Mohammadabad.

Beggars are wonderfully few. Lepers, cripples, and blind men come for copper or rice, generally on Sunday; but I can safely say that, judging from the bodies of the people I have seen, I should never have dreamed of scarcity. The short crops we saw in November and December, the cessation of rain, and what I hear, are the sole grounds for believing in the scarcity.

I know now that in Kundahit and Jamtara there are many people whose bodies show signs of want of food, though I have not seen them. But this fact remains, that Manihari, North Rajmehal, Sultanabad, and Benagarhia cried out long before Kundahit and Jamtara, and that Jamtara alone up to this shows actual signs of want. This proves that cries are not to be trusted. I suppose everyone knows this, but there is no harm in saying it.

I have heard of about 30,000 mannds of grain stored privately. I can only repeat that I think the information useless. There must be so much more than we shall ever know of, and so many lies are told when questions are asked, that I think the heading might very well be struck out.

The crops on the ground are now hardly anything,—a little sugarcane is about all.

### B.—RELIEF WORKS.

The list of work is given separately with the daily average. Piece-work and grain-payments have been introduced wherever there is grain to pay, that is, in Rajmehal,\* Godda, and Jamtara.\*

In Benagarhia payment must be made in cash because the grain there in store belongs not to the Government, but to a merchant who has bought it for cash from the Government; we could not give coolies orders on stores not our own.

The new road from Doomka to Mullarpore has been lined out. The Commissioner has stopped work on it. The small Daman bunds are going on well enough.

Payment in grain has been begun so lately that it has not been found possible to discuss the system at length in this report.

On one of our largest works, the Jamtara and Doomka road, grain had not been stored till within the last fortnight, and even now only to the extent of 2,000 maunds.

At Katikoond we have no grain, and there never was any proposal to store there. I perfectly understand that we must pay in grain wherever we have it, but I have not understood so far that we are to indent for such additions to our original estimates as will enable us to pay in grain everywhere.

### C.—TRANSPORT.

Our transport difficulties may possibly be beginning, up to this we have had none; we had plenty of carriage, and generally short distances. We shall have to import more grain than was expected, partly on account of the orders to pay laborers in grain, and partly on account of the unexpected distress in Kundahit and Pabia. No part of the southern distressed tract is more than 25 miles from a railway, loop or chord-line. The Ajay is between the chord-line and Kundahit; from Saintia the More and another river are between the loop-line and Muhammadabad. From Mallarpore there is no river in the way, but there is no road.

From Saintia there is a good road to Soory and on through Nagar to Kundahit. Carts will now be dear and hard to get, a Sonthal who owns 15 refused to hire out one because tillage time is coming on. But there will be no very great difficulty in carrying what rice we want. My first batch of 30 Doomka carts left this to-day. We have already got 4,000 maunds of rice across the Ajay from Jamtara and into store at Nala. There is nothing to say about carriage in the north and east.

### D.—STORAGE.

The Rajmehal rice has all been received and stored. Some of the Taljhari rice is at Patna, waiting for a wagon to carry it on, and the Patna rice is in the bungalow. I believe the Godda rice is all stored; the report is not clear. I have heard nothing of storage at Sultanabad. In Jamtara there is room now for 5,000 maunds, golahs for 4,000 more are being made; the zemindar could give room for 6,000 if required. At Nala a golah for 2,000 maunds is nearly ready.

Golahs are being made at Kundahit. 4,000 maunds have been sent to Nala; 2,000 have been delivered to the Public Works Department for the Jamtara road; and 1,000 have been advanced to the zemindar of Jamtara.

### E.—ADVANCES.

There is nothing to report.

### F.—CHARITABLE RELIEF.

About 100 persons a day are receiving charitable relief. The officer at Nala is also giving relief; particulars have not been received. Mr. Grant has expended in charitable relief over 6 maunds of rice. Charitable relief is only just begun; in the next narrative I shall have results to give.

### G.—FINANCIAL STATEMENT.

The information is given in a separate sheet.

---

## SONTHAL PERGUNNAHS DISTRICT.

## Progress Report of Famine Relief Works for the week ending Saturday, the 16th May 1874.

No.	Name of Work.	Progress in marking out relief works.	Progress in opening relief works.	Number of laborers thereon.	Supply of food thereat.	Percentage of classes of laborers.	Condition of the laborers and the general features of the country.	Mode of payment.	Rate of wages.	Arrangements for tools.	Disbursement during the week.
1	Doomka to Jambhara road.	Estimate being prepared; leveling and surveying completed.	Works opened on the 10th, 15th, 20th, 21st, 23rd, 27th, 30th, 31st, and 40th miles.	CLASS I. Men ... 5,893 Women ... 2,134 Children ... 936 CLASS II. Men ... 6 Women ... 12 Children ... 24	Nil	Task-work 99,996, and daily labor 0'001	The laborers employed on this road are generally strong and healthy. Scarcity is felt on almost all the localities over which the road runs.	On alternate days to task-work laborers, and daily to day laborers by cash jemadars in the presence of officers.	Task-work from 3 as. to 4 as. per 100 c. ft. Substantially wages—A. P. Men ... 1 6 Women ... 1 0 Children ... 0 6	Supplied partly by department, and partly by the laborers themselves.	R. A. P. 690 1 9
2	Kasibond to Ambur road.	Line chosen	Nil	Nil	Nil	Nil	.....	Nil	Nil	Nil	Nil
3	Jambhara to Deoghur road.	No progress made during the week.	Earthwork 60,065 c. ft.	CLASS I. Men ... 1,827 Women ... 804 Children ... 265	Rice and other food-grains are still procurable in the country.	Cont. per cent.	The laborers employed on this road seem to be strong and able-bodied men. The poorer classes of people in the country seem generally distressed.	Daily by ant-cashier.	Earthwork, hard soil at 3 as. 6 p. to 4 as. per 100 c. ft., and soft soil at 3 as. per 100 c. ft.	Supplied partly by Government and partly by the laborers themselves.	127 5 6
4	Handia to Godda road.	Laying out complete.	10 chains in 1st mile, 9 chains in 8th and 9th miles, and 6 chains in 19th mile.	CLASS I. Men ... 306 Women ... 126 Children ... 46	Food-grains easily procurable from the markets.	Ditto	Condition of the laboring class is very poor and miserable. General features of the country hilly and jagged. Soil hard in most parts.	Made every day, partly by the head ant-cashier and partly by sub-cashier.	3 as. per 100 c. ft. on light soil, and 4 as. to 6 as. on hard soil.	Ditto	41 7 6
5	Godda to Burhat road.	The work is going on under the Civil Officer.									
6	Tinpar to Borio road.	Complete project	Completely opened.	CLASS I. Men ... 2,660 Women ... 2,380 Children ... 209 CLASS II. Men ... 66 Women ... 35 Children ... 64 CLASS I. Men ... 3,271 Women ... 1,540 Children ... 724 CLASS II. Men ... 968 Women ... 311 Children ... 160			No information received this week from the overseer in charge of the work. Explanation called for.				598 0 0
7	Borio to Mouhar road.	Ditto	Ditto				Ditto	Ditto			684 0 0

*Progress Report of Famine Relief Works for the week ending Saturday, the 16th May 1874.—(Continued.)*

No.	Name of Work.	Progress in marking out relief works.	Progress in opening relief works.	Number of labourers thereon.	Supply of food thereat.	Percentage of classes of labourers.	Condition of the labourers and the general features of the country.	Mode of payment.	Rate of wages.	Arrangements for tools.	Disbursement during the week.
The work is going on under the Civil Officers.											
8	Burhail to Sahagunge road.	Complete project...	Completely opened.	<p>CLASS I.</p> <p>Men ... 5,998</p> <p>Women ... 6,356</p> <p>Children ... 3,363</p> <p>CLASS II. 76</p> <p>Children ... 76</p>	Up to this time difficulty has not been felt by the labouring class in obtaining food-grains from the hettias and bazars. The stock of the country is enough for $\frac{1}{2}$ of the inhabitants till the next harvest.	Task-work, cent. per cent.	The condition of the people has not become very miserable yet; food grains are still available, but their value is gradually enhancing; so it seems that distress will be soon felt.	Twice a week by sub-cashier and overseer in charge of work.	Digging tankur at 4 sa. per 100 cubic feet.	Supplied by department.	28 5 9
10	Metalling Bhaulpore and Soory road.	Ditto	Ditto	<p>CLASS I.</p> <p>Men ... 891</p> <p>Women ... 873</p> <p>Children ... 193</p>	Ditto	Ditto	Ditto	Twice a week by overseer in charge and sircars.	Ditto and carting metal at 8 sa. per 100 cubic feet.	Ditto	30 12 6
13	Repairs to Bhaulpore and Soory road.	Ditto	Ditto	<p>CLASS I.</p> <p>Men ... 164</p> <p>Women ... 6</p>	Ditto	Ditto	Ditto	Twice a week by overseer in charge and sircars.	Ditto	Ditto	30 12 6
14	Repairs to Babawa and Burhail road.	Ditto	Ditto	<p>CLASS I.</p> <p>Men ... 870</p> <p>Women ... 669</p>	No information received this week from the Superintendent in charge of the work. Explanation called for.	...	...	...	...	...	...
15	Repairs to Moorsore and Amrapara road.	Complete project.	Completely opened.	<p>CLASS II.</p> <p>Men ... 32</p> <p>Women ... 38</p>	Repairs nearly complete. The work is stopped at present, as it cannot be carried on until the rains set in.	...	...	...	...	...	...
16	Repairs to Pakour and Hetrupore road.	Complete project.	Completely opened.	<p>CLASS I.</p> <p>Men ... 516</p> <p>Women ... 180</p> <p>Children ... 14</p>	No information received this week from the Superintendent in charge of the work. Explanation called for.	...	...	...	...	...	...
17	Repairs to Doom-ha station road.	Complete project...	Ditto	<p>CLASS I.</p> <p>Men ... 59</p> <p>Women ... 18</p>	Same as in No. 10 ...	Task-work, cent. per cent.	Same as in No. 10	Twice a week by overseer in charge and sircars.	Digging tankur at 3 sa. 6 p. per 100 c.ft. and carting at 7 sa. per 100 c.ft.	Supplied by department.	6 8 9

[illegible]

No high-caste coolies have yet appeared; they generally belong to the lower classes, such as Sonthals, Dhangers, Baoories, Koots, &c.

**DENO NATH MOOKHERJEE,**  
*Accountant, for Offg. Executive Engineer, on tour.*

## Progress Report of Famine Relief Works for the week ending Saturday, the 23rd May 1874.

Names of Works.	Progress in marking out relief works.	Number of laborers thereon.			Percentage of classes of laborers.	Quantity of rice received and issued to laborers from Government granaries.				Supply of food thereat.	Condition of the laborers and the general features of the country.	Mode of payment.	Rate of wages.	Arrangements for tools.	Disbursement during the week.
		Class I.	Class II.	Total.		Name of laborer.	Quantity issued for laborers.	Quantity issued to laborers.	Rate.						
Doomka to Jantara road.	Estimate being prepared; levelling and surveying completed.	...	...	82, or 3, 8, 173 per cent.	...	Nil	Nil	Nil	2,000 maunds of Government rice arrived at Jantara.	The laborers are generally able bodied and strong. Distress felt on almost all the localities of the road.	On alternate days by sub-cashiers.	Task-work from 3 a.s. to 4 a.s. 9 pie per 100 c. f. Note.—No laborer is sent such as Brahmins, Kewars, &c. have not answered to work, but some unprofessional men, such as Khosroes, are sent on the works.

No daily reports received. The overseer in charge of works shows in his weekly progress report that the number of laborers on this work has been included in that on the Boro to Moulhali Road, No. 7. Explanation called for.

DENO NATH MOOKERJEE,  
Accountant, for *Offg. Executive Engineer, on tour.*

No. 5162—S.R., dated Bhagulpore, the 9th June 1874.

From—H. M. DURAND, Esq., C.S., on Special Dnty, Bhagulpore,  
To—The Secretary to the Government of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit the fortnightly Divisional narrative due this day.

#### A.—STATE OF THE COUNTRY.

2. Since the submission of the last report, the condition of the distressed tracts has on the whole continued favourable. The most marked feature of the fortnight under review has been the considerable rainfall by which the greater part of the division has been visited. Accounts from all quarters agree in showing that heavy showers have fallen throughout the four districts, and prospects are materially improving. The one exception is the Godda Sub-division of the Sonthal Pergunnahs, from which no rain is reported. The deficiency, however, appears to be local. A severe storm passed over the neighbouring tract of Moneebaree some days ago, and numbers of labourers were leaving the works for their fields.

The Bukhtiarpore circle in Monghyr was still suffering from drought when the Collector's fortnightly narrative was submitted, but Mr. Manson has since reported the welcome fall of a smart shower, and there seems to be every prospect of more.

From the report of the Purneah District for the week ending 4th June it appears that the rainfall at the Sudder Station amounted to 4.19 inches, and the Collector states in his diary for the previous week that heavy rain had fallen elsewhere and the crops were looking well.

From the north of Bhagulpore the accounts are equally satisfactory. Mr. Kirkwood telegraphs on the 3rd instant "torrents of rain during the last 12 hours," and his narrative received yesterday gives further particulars. It may be gathered that the whole of the distressed tract has benefited largely, though unequally, by the weather of the last few days.

The same remark applies to the division; a sudden impetus has been given to the cultivation. Labourers are steadily at work in the fields, and in parts the relief works are showing a decrease in numbers.

#### *General Condition of the People.*

3. The general condition of the people seems to be good. Prospects have decidedly improved of late, and there are no symptoms of increasing distress in the tracts originally affected. In Kissengunge, there seemed at one time to be serious grounds for apprehension. The price of grain had risen in parts to the extreme famine figure of five seers, and crime was greatly on the increase. The Collector, however, visited the sub-division in company with the District Superintendent of Police, and it was ascertained that the various robberies and dacoities reported were the work of old and notorious criminals, not of a starving population. Action was successfully directed against several of these cases, and the panic has, in great measure, passed away. The Collector is still of opinion that there is a decided deficiency of grain throughout the tract in question; but it is hoped that by the aid of advances the southern trade may be stimulated, and that meanwhile the measures of relief adopted may prove fully adequate to meet the wants of the population. I may mention here that in addition to the special sub-divisional officer recently appointed by Government, two naib tehsildars have been sent to Kissengunge for employment on relief work.

In the Monghyr district the tract of country about Chakaic was lately reported to be suffering from a sudden increase of distress, but since that time the Commissioner has had the opportunities of eliciting full particulars from Mr. Campbell, the Joint-Magistrate at Jamoore, and he is of opinion that there was hardly sufficient cause for the alarm. It appears that some 200 or 300 persons have collected about Simultolah where they have been receiving relief from Mr. Foley. Mr. Campbell seems to have assumed from this circumstance that distress existed in the surrounding country, though he admits at the same time that his own special inquiries, and those of the sub-deputy, failed to support the assumption. It is stated that the people assembled in Simultolah in receipt of relief came from eighteen specified villages. The Commissioner has directed an inquiry to be made with a view to their identification. If the result be to show that the people in question do not belong exclusively to the villages specified, but rather to the beggar population of the whole sub-division, there would be no reason to anticipate equal distress throughout this part of the country where Mr. Campbell himself reports that crops were not specially bad. In case the recipients of relief do in fact belong exclusively to the specified villages, it will be ascertained whether there be any special circumstances to account for their condition. If it appear that the whole tract is likely to be affected in the same manner, immediate action will be taken. Meanwhile there is no reason to apprehend any failure of food supply, as Mr. Foley is in possession of a store of grain, and the place is within reach of the railway.

With regard to the remarks made in the fortnightly district narrative of the Sonthal Pergunnahs concerning the state of the Deoghur Sub-division, no details as to the distress therein referred to, have yet reached the Commissioner. An application for a supply of 7,000 maunds for the town of Deoghur was lately made, and to this demand the Commissioner refused to accede without further particulars. A report has been called for. Reference was made in the last narrative to certain alarming statements which had been circulated as to the state of the Sinerahi circle. Mr. Kirkwood has visited this tract, and it appears from his report that the

country around Peepra is in fact suffering somewhat severely; the rest of the circle seems to be free from any increase of distress. Mr. Kirkwood found the management of affairs very far from satisfactory. He thinks more works should have been opened. The officer in charge seems to have trusted entirely to the principal roads which the people did not follow up as the work gradually removed further away from Peepra. Measures have been taken to bring about a better state of affairs.

#### *Seed-Grain.*

4. The question of seed-grain still seems to be in a somewhat unsettled condition. In Purneah, where alarm was at one time felt, there appears to be an ample supply. The Collector came some time ago to the conclusion that advances of food made to ryots with the view of setting free any means they might possess for the purchase of seed would be a sufficient measure of relief. Since then nothing further has been heard on the subject.

In North Bhagulpore the people refused to purchase at cost-price the seed brought up from Julpigoree. Mr. Kirkwood, however, seems sanguine that the whole quantity will be gladly taken at the local rate of 15 seers. In connection with this point the Commissioner has noticed in the last fortnightly narrative of the Bhagulpore Division, a remark to the effect that Baboo Ram Shunker Sein had purchased 100 maunds of seed-grain for relief purposes. It is not understood why the imported grain was not utilised, and an explanation has been called for. Mr. Kirkwood is now at Sinerahi, and will no doubt set matters on a proper footing.

In the Monghyr district there seems to be some difficulty in the seed-supply. During his visit to Monghyr, three days ago, the Commissioner had an opportunity of ascertaining the latest views of relief officers on this point. They seem to be of opinion that there is a deficiency of seed in certain tracts, though it is to be procured in other parts of the district. Mr. Currie especially reports that it is impossible to carry out the proposed arrangement of advancing grain to ryots for exchange in seed. Under these circumstances the Commissioner has directed the Collector of Monghyr to take the orders of the Lieutenant-Governor immediately on His Honor's return from Tirhoot, upon the proposal now again brought forward to advance in cash for the purchase of seed. The Commissioner is himself opposed to the cash advances. He entertains considerable doubts as to the alleged deficiency. Seed is admittedly procurable in Kherukpore, immediately adjoining the distressed tract of Jamooce. Moreover, the distress in Jamooce itself has so far fallen short of general expectation. There seems to be even less ground than usual for trusting the outcry that ryots are helpless in obtaining seed, and the Commissioner cannot but think that the granting of cash advances in this case would involve an unnecessary departure from the declared policy of Government.

#### *Prices.*

5. A table of prices throughout the division is appended.

The Commissioner has noticed in the district narrative of the Sonthal Pergunnahs, a table showing "the line of cheapest food" in the Godda Sub-division. He would remark on this point that prices in Godda seem to him to be excessively high. Mr. Grant's report shows the rates of rice at Belhadda, Ferozpoore, Godda, and Patherguma to be from 7½ to 9 seers. In Murrow only does the price fall to 11 seers. Mr. Grant has started charitable relief among certain destitute women and children, who had collected at head-quarters, and it appears to the Commissioner that his action was fully warranted by the state of prices in his sub-division. According to the latest returns there has been a considerable fall in the price of rice at Purneah, which is owing, no doubt, to the favorable prospects of the season.

#### *Village Groups.*

6. There is nothing important to note with regard to the state of the grouping system. The work is going on well everywhere, and no hitch or difficulty seems to have arisen.

#### **B.—RELIEF WORKS.**

7. The condition of the relief works throughout the division is on the whole satisfactory. The Purneah district particularly shows a most gratifying state of affairs. Regular piece-work and payment in kind have now been universally introduced, and the system is working admirably. With reference to the question of payment, the Executive Engineer remarks, "Payments to laborers in grain is now the established rule in this district. Just at first starting some of the laborers objected to the new system, but where its advantages were explained to them and that they would have no difficulty in disposing of what they earned over and above that required for consumption, they all agreed to it, and the new arrangement is now very popular."

The number of laborers in this district, is increasing. On a few works a decrease is noted, but this is owing, no doubt, in part to the absorption of second-class laborers, and to the late rainfall, which has given an impetus to agricultural work.

In Bhagulpore, the state of affairs is not altogether so satisfactory. Grain payments are not yet universal throughout the district. In the case of works south of the Ganges, payment in cash cannot be avoided, as there are no Government grain stores within reach, but some other works are still under the old system, and an explanation has been called for by the special Executive Engineer.

The number of laborers on a few of the works shows a decrease. This is no doubt attributable, as elsewhere, to the rainfall and the absorption of the second-class labor.

In Monghyr where the state of the works has always been backward, cash payments are still very general. Measures have been taken to bring about the more rapid introduction of the new system.

In the Godda Sub-division of the Sonthal Pergunnahs, Mr. Grant reports that the number of laborers has risen from 8,000 to 12,046. In other parts of the district numbers fluctuate, probably under the same influences as have been at work elsewhere.

The introduction of piece-work is going on rapidly, and seems to be generally successful. Appended table shows the percentage of first and second-class laborers in each district. It will be seen from this that Monghyr is decidedly behind-hand. An explanation has been called for and the matter is under enquiry. The broad results of the fortnight under review seem not unsatisfactory. The percentage of regular contract piece-work laborers throughout the division is about 84. The second-class laborers now form only 5 per cent., and they are still being rapidly absorbed. Grain payment is being introduced on all works which admit of it, and where already introduced is becoming popular. The condition of the laborers is good, and the work seems to be sufficient to meet the wants of the population.

#### *Import and Export.*

8. The annexed table shows the movement of grain under review.

*Classification list of laborers on D. P. W. Relief Works throughout the Division during the fortnight under review. Total number of laborers of all classes, 334,395.*

NAME OF DISTRICT.	CLASS I.		CLASS II.
	(a) Laborers doing actual contract piece work.	(b) Laborers doing task work.	Laborers paid by the day.
Bhagulpore ... ..	147,738 over 90 per cent. ...	10,915 under 7 per cent. ...	4,813 under 3 per cent.
Monghyr ... ..	26,923 „ 70 „ ...	1,531 „ 5 „ ...	10,294 over 25 „

Total for division ...	280,564 or about 84 per cent.	36,444 or about 11 per cent. ...	17,907 or about 5 per cent.

#### *Storage of Grain.*

9. A table is appended showing the storage of grain throughout the division.

The three Districts of Bhagulpore, Monghyr, and Purneah have now been mapped out with a view to the rapid defusion of food during the rainy season, if necessity should arise for replenishing the Government golahs. Suitable depôts have been chosen in central positions on road or river, and it is hoped that a sudden call from any point could be promptly met.

The special report upon this head called for by Government Circular No. 1838—SR, of the 26th March, has lately been submitted.

#### *Sales.*

10. With reference to sales of Government grain, the Commissioner is glad to be able to report that no interference with private trade has as yet been observed. From all sides accounts agree in showing that in those parts of the country where Government sales are allowed, there is absolutely no private trade, or else that if trade does exist there is ample room for sales as well. In the Purneah District alone, as far as the Commissioner is able to judge, does private trade show any vitality, and here the Collector especially reports that he has observed Government sales and private sales going on side by side. The cheaper Government grain is a convenience to the poorer classes, while those who are well-to-do prefer paying a higher price for the food to which they are accustomed.

Mr. Wilkins again writes from Begoo Serai to the same effect. The sale of Government grain has in no way interfered with private trade in his sub-division, and its results seem to have been most satisfactory.

In a report just received from Mr. Kirkwood he mentions that “some grain” is finding its way into the south of Soopool Sub-division from Monghyr, and that a few hundred maunds of Bengal rice coming up the Koosce had reached Protabgunge and Belluabazar in the eastern part of the same tract. The late Government circular requiring officers to observe the rule of non-interference with trade will no doubt lead the Collectors to watch the state of supplies in this part of the district, and to stop the sales of Government grain if it seems right to do so.

#### *Advances.*

11. Advances are now universally in grain, and they are apparently becoming very popular. Mr. Currie writes from Luckee Serai:—“The ryots are crowding in for advances in

grain." In North Bhagulpore Mr. Kirkwood reports that extensive advances are being made. An agreement has been entered into with Raja Lellanund Singh, from which it is hoped that much relief may be looked for. The Commissioner has arranged that the villages in the Raja's territory are to be inspected and a list drawn out showing the number of ryots and the amount of advance required. The list will be presented to the Sub-divisional Officer and an order issued on some suitable golah. The ryots will attend in person to receive the grain, the Raja at the same time executing a bond and engaging to pay to Government the value of the grain so loaned. It may now be anticipated that advances will be required in considerable quantities. The late rainfall, as before remarked, has everywhere started cultivation, and the people are coming in for aid. No doubt many of the labourers on relief works will now leave their employment and come upon our hands for a different form of relief in the shape of advances.

#### Charitable Relief.

12. I have already had occasion to mention that the condition of the Godda Sub-division has induced Mr. Grant to start charitable relief in that part of the district. His operations are happily of no very great extent at present.

In the district of Purneah the Government relief operations are going on well. Besides this Rai Luchmeputt Singh has signalised himself by his liberality in the distribution of food to the distressed population. During the fortnight under review a large number of persons have received daily relief at his hands. The Collector writes, "I have much pleasure in bearing testimony to the good work done by Rai Luchmeputt Singh, and the active interest taken in it by his agent Baboo Ram Chand Setya."

In North Bhagulpore charitable relief is on a good footing and exhibits weekly more satisfactory results. The improvement noticed in the last divisional fortnightly report continues to make itself seen. The poor-houses and centres are giving way to better methods of relief. Mr. Kirkwood reports that 27,595 persons are now actually on the household registers as against 24,000 a fortnight ago. He looks for a further increase of 4,500 during the next fortnight, and anticipates a final total of no less than 41,095 before the end of the rains. Besides the system of house-to-house relief by tickets, many other forms of relief are in force and are doing good.

In Monghyr the relief operations are on a comparatively small scale, but they are said to be sufficient for the wants of the population.

#### Returns.

13. Certain returns usually submitted with the divisional narrative have not come in. That showing the consumption of grain throughout the division for the period ending the 8th June, the fortnightly poor-house return, and the abstract relief returns for the month of May, are altogether incomplete. The Commissioner is therefore forced to send in this report without them. He fears that it is hopeless to go on any longer trying to obtain accurate returns for the separate period dealt with by his fortnightly narrative. Every effort has been made, but without avail. It appears to him that it will be better in future to submit the divisional report without appending returns, as it seems impossible to offer anything more trustworthy than a mass of guess-work figures. The returns appended to the district narratives, and those submitted direct to Government by sub-divisional officers, will convey the necessary information, though it is greatly to be regretted that no later figures can be sent in with the Divisional report.

*On Special Duty.*

*Narrative of Scarcity and Relief in Moorshedabad for the fortnight ending the 30th May 1874.*

I HAVE the honor to forward my narrative of scarcity and relief in the Moorshedabad district for the fortnight ending Saturday, the 30th May 1874.

During the fortnight I visited Rampore Haut, saw some of the relief works that have been going on in the vicinity of the head-quarters of the sub-division, and arranged various relief matters with the sub-divisional officer. There are a good many Sonthal villages in the west of this sub-division, and I have given directions that minor relief works in the way of repairs to village roads, &c., be kept on as long as possible.

**A.—STATE OF THE COUNTRY.**

1. *Abundance or scarcity of supply in the bazaar.*—There is still a sufficient supply of food-grain in the bazaars and hats of the head-quarters' sub-division, but the stocks in the hands of sellers are by no means large, and require frequent replenishment. In the Lalbag sub-division the rice supply in the bazaar at head-quarters is still sufficient for the requirements, but in thana Bhadrighaut the supply is scanty, and the village shops are ill supplied. In all small bazaars in the Jungipore sub-division the supply of rice is becoming more and more scanty. In the larger bazaars the supply is sufficient to meet the demand. In consequence of the scanty supply of "Purbi" rice some enterprising merchants of Dhulian are importing rice from Calcutta by rail. It is reported that difficulty is experienced in transporting the grain from Pakour to Dhulian in consequence of impressment of carts for service in the Behar districts. The sub-divisional officer has represented the matter to the Extra Assistant Commissioner of Maheshpore, within whose jurisdiction Pakour lies. The Behar transport is, I believe, finished, and carts will return very shortly, if not arrived already. It is to be regretted that no enterprising merchants are to be found in the Raghunathgunge bazaar. A cargo-boat laden with "Purbi" rice arrived here on the 27th instant. No such thing has been heard of within the last six months, owing probably to the bad state of the river. In the Rampore Haut sub-division the supply is scarce in the markots of Nulhatty, Palsa, and Khargram, but in thana Rampore Haut the scarcity has not been very much felt. When at Azingunge the other day, I found that the local merchants were importing rice, chiefly from Burdwan, Gooshkhora, and Mancoor on the chord line.

2. *Kind and price of grain selling at one or more principal marts.*—The average price of common rice in the Sudder sub-division is 11½ seers per rupee—not much different from the price given in the last narrative, but showing an upward tendency. It is dearest at Sorajgunge, Gowas, Jellinghee, Nowadah, Satooee, and Kandee, and cheapest at Dowluttabad, Maidangah, and Sukteepore. Until very recently, rice was cheapest at Nowadah, in the south-east of the district, where both aous and amun of last year were fair, and the sudden rise in the price was, I believe, owing to the absence of rain which made the prospects of this year's crops look gloomy. The late rain, which has fallen in Nowadah as

elsewhere, will, I trust, bring the price down to a more normal rate. There is a slight rise in the prices of wheat, barley, and gram in some station circles, being counterbalanced in fall in other stations. In the Lalbagh sub-division the best kind of rice is sold at Jeangunge at  $9\frac{1}{2}$  seers, and in the city at 9 seers. Common rice sells at these marts at 11 seers, at Bhugwangolah at  $10\frac{1}{2}$  seers, at Bhadrihant and Sagurdighee at  $9\frac{1}{2}$  to 10 seers per rupee. Wheat is quoted at 13 seers, barley at 19 to 20 seers, and gram at 17 to 18 seers per rupee. In the Jungipore sub-division, in the Raghunathgunge bazaar, the retail price of rice is  $10\frac{1}{2}$  to  $10\frac{3}{4}$  seers per rupee. At Shumshargunge rice sells at  $12\frac{1}{2}$  to 13 seers. At Mirzapore the latest quotation is from 10 to  $10\frac{1}{2}$  seers per rupee. At Dewansera rice sells at 10 to 11 seers. It is dearest at Sooty, where it sells at  $9\frac{1}{2}$  seers. In the Rampore Haut sub-division the prices are as follow:—

				Fine rice.	Coarse rice.
Rampore Haut	...	...	...	9	11
Nullahy	...	...	...	...	12
Palsa	...	...	...	...	11
Khargram	...	...	...	$10\frac{1}{2}$	12

3. *Any information obtained regarding the amount and kind of grain believed to be in stock in the hands of zemindars, traders, ryots, and others.*—It does not appear that large quantities of food-grains are still in the possession of most of the mahajuns, zemindars, and others; but I believe that the mahajuns have sufficient in stock to lend to the ryots, and some are doubtless holding back their stocks in anticipation of a rise of prices. The sub-divisional officer of Lalbagh reports that there is every reason to believe that the stock in the hands of the traders at Baluchar and Azimgunge is still considerable. There is a large amount of paddy stored at Patibona on the Ganges in the Bhugwangolah thana. In thana Bhadrihant it appears on inquiry that several traders have, comparatively speaking, large stocks, but that they hesitate to advance to ryots. Advances of this kind naturally depend much upon the prospects of the crops, as involving the prospect of eventual repayment. The late favorable rains will doubtless have the effect of causing the mahajuns to lend more freely. The sub-divisional officer of Rampore Haut appears to consider that the stocks are small, and I believe that they are very scanty in the Khurgaon thana; but notwithstanding the comparatively large quantities that have been exported during the past five months, the exportations from this sub-division by rail still exceed the importations.

4. *Rainfall, if any.*—There has been considerable rainfall during the fortnight under report throughout the whole district, as has been specially reported. The rain has been very beneficial to the standing crops of aous, amun, sugarcane, mulberry, and indigo. Its utility in replenishing the water-supply which in nearly all parts was very deficient, and in some almost absolutely wanting, and in causing an increase in the pasturage for the cattle, cannot be exaggerated. The rain has also, I believe, helped to some extent to check the course of epidemic diseases, and it certainly has dispelled much of the gloom which overhung the prospects of the crops.

5. *State of the crops.*—The crops have passed through a most critical time, and their prospects are now, I believe, everywhere favorable. Had the rain, however, which fell during the last week of May, been delayed for a week or ten days more, a large proportion of the aous crop would have been destroyed and the amun seedlings would also have suffered. The relief sub-divisional officer of Kandi reports that the rain, which appears to have fallen more copiously in the Bhurtipore thana than in other parts of the district, except perhaps about Jungipore, has greatly improved the prospects of the aous crop, most of which is now 7 or 8 inches above the ground. Harrowing and weeding are actively going on. In the south-east of the sub-division the outturn of this crop would greatly relieve the local markets. The sugarcane is also very promising, and the indigo will probably yield more than usual. The mulberry too has been considerably benefited. Throughout this sub-division there is the greatest activity among the agricultural classes. Some of the amun has now come up. The til, however, will suffer from the rain. Much of it is now being cut. The mangoes have been injured, and many trees stripped by the high winds which have preceded or accompanied the rain. The Lalbag sub-divisional officer reports that at the commencement of this fortnight the state of the crops was very critical. Rain was then absolutely needed for the young aous plants as well as for the amun sowings and for indigo. The rain has however removed all anxiety on the subject. It has already invigorated the young aous paddy, and on all sides ploughing has commenced. The indigo and other crops on the "dearah" lands has specially been benefited. The sub-divisional officer of Jungipore states that the prospects of both bhadoi and haimunt crop have been improved by the rain. The late sowings of boro paddy have also been benefited by it. The sub-divisional officer of Rampore Haut reports that the outturn of boro paddy will be most probably fourteen-sixteenths of an average crop. The late rains have enabled the cultivators to commence their agricultural operations, and have done much good to the sowings of aous, til, and sugarcane. In the east of the Sudder sub-division, where the aous is the chief crop, the plants, and especially the early sown ones, were languishing on account of the heat and lack of moisture; but the crops in this part of the district have, for the time at any rate, been

saved by the timely rainfalls. A larger area than usual has been sown down with the early rice, and the calamity of an almost total loss of the sowings, with difficulty in many cases of procuring seed for resowings, would have been very great.

6. *Condition of the people.*—The agriculturists have been much encouraged by the late showers. Mr. Jones, special relief officer, states that reports of distress among persons of a position above that of the ordinary cultivators are becoming more common, either because distress is increasing, or their aversion to accept assistance is wearing off. There has not been, so far as my experience has gone, much aversion on the part of this class to accept assistance, provided that the assistance is of the kind desired. I am inclined to believe that the distress among the "bhadra lok" has been, and is being, exaggerated, as I know that in certain cases it has been exaggerated with regard to persons lower in the social scale. The average price of rice throughout the district during the past month of May has been at the very least 11½ seers per rupee, whereas during the same month of 1866 (with which year the present one may well be compared), the average price was 10 seers per rupee. So far therefore as the price of rice is a criterion of distress, the "bhadra lok" must have suffered more in 1866 than in the present year, and yet very little was heard of their sufferings. I was not in this district during that year, but I have made very frequent inquiries in various parts of it, and nowhere have I been told that there was great suffering, still less that there were any cases of starvation. Notwithstanding, however, the lower prices of the present year there is a prevalent impression, which is probably not incorrect, that the stocks in the district are smaller than in 1866. The sub-divisional officer of Lalbag says that the labouring classes within the three thanas of the municipality do not appear to be in any distress, as they can always procure employment. In thana Bhugwangolah, though people are not so well off as in municipal bounds, there appears to be as yet but little want, and this want is specially on the part of persons who in ordinary years are supported by charity. This class of persons are also suffering in the Bhadrighat thana, and here it does appear that the poorer ryots are somewhat pinched. Their own stores are but very small, mahajuns refuse to advance them grain, and the village shops afford but meagre supplies. As stated in my previous narratives, the distress in the eastern and south-western portions of Mirzapore, in the Jungypore sub-division, is greater than in any other part of that sub-division. Next comes N.-W. Sooty—Shumshergunj—which was hitherto well off, and is now as bad as the eastern portion of thana Sooty. The number of beggars there is fast increasing, while the amount of private alms is diminishing. I have recommended that there should be a Sub-Committee at Dhulian for thana Shumshergunj. The Sub-Divisional Officer reports that the condition of the people has not improved, but rather become worse, since the submission of the last narrative. The late rains, however, have given employment to the agricultural classes nearer their homes. The Sub-Divisional Officer of Rampore Haut reports that the poorer class of people are generally in difficult circumstances. In thana Khargram it has been reported that the poorer classes get one meal a day, and that with difficulty. Work for the able-bodied is supplied on the Badshahi road, and other minor relief works have been started. As parts of the Khargram thana are away from the water-trucks, I have sent a relief assistant with special instructions to visit the less known parts, and have requested the Sub-Divisional Officer to proceed at once to make enquiries and observations in some of the villages. Gratuitous relief in the shape of cooked food in some places and uncooked in others is now given in many places in this sub-division as well as in other parts of the district.

7. *Actual Facts as to any known cases of Misery and Starvation.*—In the Jungypore sub-division a rumour was afloat that two cases of death from starvation had taken place at Bohotali, in thana Sooty. On enquiry by the relief assistant, the rumour has turned out to be utterly unfounded. The Sub-Divisional Officer of Rampore Haut states that no cases of misery and starvation have yet come to his notice.

8. *Grain-thefts and Robberies.*—Six cases of petty theft of grain, such as paddy, linseed and rice, were reported during the fortnight in the head-quarters sub-division. In the Jungypore sub-division no case of grain-theft was reported during the fortnight; though one case of theft of a brass vessel occurred, due, the Sub-Divisional Officer reports, to scarcity. Since January there have occurred three dacoities in thana Mirzapore, of which two took place within five days of each other: the Nowadparah dacoity on the 13th May, and the Tackshok dacoity on the 18th. This indicates the quarter in the Jungypore sub-division where the distress is heaviest. There have been three grain-thefts in the Rampore Haut sub-division during the fortnight under report. A comparative statement of crime is annexed which shows a very marked increase of crime in all the sub-divisions except Lalbag. It will be observed that there have been no less than eight dacoities in the fortnight, while in the previous fortnight there was only one. This offence appears to occur by fits and starts, a period of freedom from its occurrence being followed by one in which the offence abounds in various parts of the district. Many of these dacoities are doubtless owing to the pressure of high prices on the bad characters of the district, who prefer plunder to work.

9. *Condition of any Special Tracts.*—Cholera and small-pox are still prevalent in some parts of the sudder sub-division, but since the rain cholera has slightly decreased. Fever is

said to be prevalent at Saktipore. Cases of small-pox and cholera still occur in the City Moorsheadabad Municipality. Cholera appears in isolated cases in thanas Bhugwangola and Bhudrihaut. In the latter thanas mallpox exists in some villages to the north and north-west of Sagurdighoe. The mortality has, however, considerably decreased. Cholera is raging in most parts of the Rampore Haut sub-division to a certain extent. The Sub-Divisional Officer of Jungypore reports that these diseases have abated since the late rain, and this has probably been the case elsewhere. The extra Native Doctors who have been deputed to this district have been sent out to those parts in which the ravages of disease appeared to be worst, and have given medical relief to many of the sufferers.

#### B.—RELIEF WORKS.

The average number of persons employed on the several relief works is 4,142. The laborers are generally in good condition; food is easily obtained except in the cases of a few works. Cash payments are made at the rate of two annas per diem, except in the case of one work, at which the payment is made at one anna nine pie per diem. The rates of task-work vary from two annas six pie to three annas per 100 cubic feet. The workmen, as a rule, bring their own tools. A statement showing the expenditure on relief works during the fortnight is herewith submitted. The orders contained in the Government No. 3369—S.R., dated the 26th May, will be carried out as soon as Government grain is distributed to the various works. It is now being sent to the places where the principal works are carried on, and supplies have been diverted to the three sub-divisions, and for the use of some of the Relief Sub-Committees.

#### C.—TRANSPORT OF FOOD.

It appears that 8,101 maunds of food-grain have been exported from the Rampore, Haut sub-division, and 5,636 maunds have been imported to the sub-division during the fortnight under report. As before remarked, private importations are being made into the Lalbagh and Jungypore sub-divisions, at Azingunge and Dhulian. The stormy weather of the past month was unfavorable to imports by the Ganges in the east of the district, and these fell off largely.

#### D.—STORAGE OF GOVERNMENT GRAIN AT RELIEF WORKS.

The prescribed statement is annexed, with the columns filled in as accurately as is possible, considering the recent arrival of the grain and the uncertainty as to its consumption as wages for labor, for gratuitous relief, and for advances to zemindars and ryots. Of the consignments hitherto sent, portions have been diverted and forwarded to various places in which it is required for these purposes. The expenditure on rice by the various Sub-Committees in gratuitous relief, has of late considerably increased, and there is reason to believe that this will be progressive, as prices increase during the rains. I have therefore requested that the daily supply of 500 maunds of Government rice may be continued for a week at least after the lapse of the fifteen days during which it was ordered to be sent. In some places arrangements for storage had before been made, in others they are now being made, and for works in the vicinity of head-quarters supplies will be sent out from the central godah at Berhampore as they are required.

#### E.—ADVANCES TO PRIVATE PARTIES AND THEIR RESULTS.

There were 46 cases pending at the end of the previous fortnight under the Land Improvement Act in the sudder sub-division; seven fresh applications were received during the fortnight. Out of the total 53,31 cases are under investigation; in eleven cases orders for payment have been made; in one case the applicant has refused to take advance; in three cases applications have been rejected, and in seven cases the securities tendered have been found to be insufficient. A sum of Rs. 2,828 has been advanced to fourteen parties during the fortnight under report.

In the Rampore Haut sub-division, 249 applications for land improvement have been received during the fortnight. Some of these have been sent to the police for enquiry, but no money has yet been paid to the applicants. For the applications filed in the previous fortnight, Rs. 935 have been advanced for the excavation and re-excavation of tanks.

Many of these appear to have been made by ryots who desire advances on the security of their jotes. The Sub-Divisional Officer has been informed that the duty of making advances to such rests with the zemindars, to whom advances could have been made, if necessary, under the orders of Government.

#### F.—CHARITABLE RELIEF.

The statement prescribed by Government No. 1251—S.R., dated the 5th March last, is annexed as regards each sub-division separately. There was a balance of Rs. 844-1-1 only at credit of the District Relief Fund at the close of the last fortnight. The total receipts during the present fortnight amount to Rs. 28,471. This sum includes the grant of Rs. 20,000 made to the Relief Fund by the Central Committee during the past month, and a Government grant of Rs. 7,963, being the equivalent of private subscriptions in the district to that amount. The total expenditure from the fund during the fortnight has been Rs. 12,701-12-6.

During the past fortnight a cook-house has been started at Gokum, and a leper's hospital at Rungamati; preparations are being made for the distribution of cooked food at Saktipore. The registration of the blind, lame, infirm, and leprous has been completed in the villages under the Salew, Talihpore, Bharatpore, and Saktipore Sub-Committees. To these lists additions must necessarily be made from time to time. Mr. Jones reports that basket-making is now a regular branch of relief work at Kandi. The system of granting small loans to ryots and chowkeedars is being carried into effect.

*Jungypore Sub-Division.*—In this sub-division the monthly subscription promised up to date is Rs. 69-8, and donations Rs. 826-8. The total receipts up to date amount to Rs. 2,484-7-9, and the total expenditure during the fortnight is Rs. 1,539-4-8, leaving a balance of Rs. 945-3-1.

During the fortnight under report 135 persons received wages, amounting to Rs. 35-18; three persons received doles of pice, amounting to Rs. 4, and 4,400 persons received doles of rice weighing 86 maunds and 20 seers.

In the Lalbag sub-division, Roy Luchmiput Sing Bahadoor has given employment to the people of Mohimapore and the neighbourhood, by opening extensive works on a garden which he has lately purchased there. He is also, I am informed, selling rice at the rate of 13 seers per rupee to the poorer classes.

The City Moorshedabad Municipality is employing extra coolies, and about 75 in number have been engaged daily on an average. Tanks excavations and road repairs are also going on in several parts of the sub-division, giving employment to a large number of people.

The total amount collected up to date in this sub-division is Rs. 5,131-11-6, and the total expenditure Rs. 3,580-10-4, leaving a balance of Rs. 1,551-1-2 at credit of the Sub-Divisional Relief Fund at the end of the fortnight under report.

Particulars of the expenditure under heading (d) cannot be given in this narrative as regards the whole district, for it has been the practice to make allotments of sums to the various Sub-Committees, to be expended in the various modes of relief, without any specification as to the amounts devoted to each. Particulars have, however, been called for from the Sub-Committees, and I trust to be able to give information on this subject in my next narrative.

*Statement showing the Storage and Consumption of Government Grain in the District of Moorshedabad for the fortnight ending 30th May 1874.*

- 1.—Name of Circle, Moorshedabad district.
- 2.—Date from which figures are given, the 30th May 1874.
- 3.—Total allotment of Government grain, 7,500 maunds.
- 4.—Total quantity of grain stored, inclusive of grain transferred to other districts, 1,517 maunds.

*Total quantity of grain consumed up to date.*

- 5.—Estimated grain receipts of the ensuing fortnight, 10,000 maunds.
- 6.—Estimated grain expenditure of the ensuing fortnight, 2,500 maunds.
- 7.—Remarks.—The grain has reached Berhampore almost at the close of the week, and there are no data on which I can form an accurate conjecture as to the expenditure of the ensuing fortnight. I have, however, on a consideration of the numbers of laborers and of those on relief works, estimated the consumption at 2,500 maunds.

W. WAVELL,

*y. Magistrate-Collector of Moorshedabad.*

No. 1176—S.R., dated Dinage, the 1st June 1874.

From—E. E. Lewis, Esq, Offg. Magist of Dinagepore,

To—The Offg. Secretary to the Govt. omgal, Scarcity and Relief Dept.

I HAVE the honor to submit the narrative for fortnight ending 1st June 1874.

## A.—STATE OF RENTRY.

The boro dhan has now been nearly all reaped and has turned out a very good crop; an unusual quantity of this species of rice has grown this year, every available patch of water having been turned to account. This is principally grown in the circles of Porsha and Churamon, and the produce will go to lessen prices and mitigate distress in those places. In Porsha it may be expected to fly the market to the exclusion of Government grain for the next month. The sale of boro will have only a local effect, and the fact of its presence in the market will not affect prices at distance; for instance, in Bindol circle, where no boro is grown. The bhadoi, I am glad to say, is looking very well indeed, and, unless no rain falls between the present time and middle or end of June, promises a good return. The absence of rain during the early part of this month raised serious apprehensions in some places, for the plants in some tracts were beginning to flag and look yellow: the good fall of rain, however, which we have enjoyed during the last few days, has put an end to all anxiety, and we may now count, with able confidence, on a good bhadoi crop being cut in the middle of August. A larger field than usual of this crop has been sown; in some places as much as one-fourth the average, and there has been no want of seed or of bullocks to plough the lands. Late rain has enabled the farmers to begin sowing their lands for the bhadoi.

weeks, circle officers will be able to test the genuineness of the outcry regarding want of bullocks, and see whether any land is left untilled because the occupier is unable to procure plough-cattle. The health of the people too has improved since the rain fell. Cholera, as noticed in a former narrative, was at one time prevalent in some places; it has now, however, almost disappeared, and will, I hope, soon die out altogether. As regards the outbreak of cholera in Luckerhat, the circle officer reported as a curious fact that though the disease was raging in many villages, it had not attacked the coolies working in the vicinity, and some of them living in the affected locality. The supply of grain throughout the district is everywhere reported as not equal to the demand, and rice generally is not sold cheaper than 6 or 8 seers per rupee. There are, however, still stocks in the hands of well-to-do ryots and mahajuns, and these reach the market in dribblets. The deficiency in Porsha circle has been met by the boro rice coming into the market, and in Patiram, to a certain extent, by the importation of a few hundred maunds of rice from Pubna, which was sold at one or two places for 9 and 10 seers per rupee. The appearance of this rice caused the officer in charge at Patiram to stop sales to the public. I directed him to resume them, however, for our sales of Burmah rice do not compete in the least with the mahajuns' sales of country rice, for every one who can afford it will buy the latter, even though dearer than what is supplied by the Government sellers. It stands to reason also that if it is no competition for us to sell at 12 seers per rupee, when the mahajun sells at 8, it is less interference with his business when he sells at 10. At Tambuli also it is reported that, gaining confidence by the sight of the Government stores, holders of stocks are selling, and the price of rice has fallen to 10 seers per rupee at many of the hats. I noticed in a former narrative that distress had been found to prevail in thanas Habra and Chintamon on the east side of the district, and it had been found necessary to depute an officer there to undertake charitable relief and sales of rice to the public. The charge is a very heavy one, and almost more than one man could manage. I was glad therefore to hear of the arrival of Mr. Rajkissen Sen, appointed as relief superintendent of this district. I have appointed him to the charge of that circle; the officer originally appointed, Baboo Prosonno Coomar, being directed to assist him, and manage relief operations under his direction. There is yet another circle to be filled up. The major portion of Thakurgaon thana to the north is reported to be in such a state that the appointment of an officer to that quarter has become necessary. I learn that Baboo Joges Chander Mitter is on his way here; I intend send him there as soon as he arrives. In Thakurgaon, as in parts of Birgunge, as in thanas Habra and Chintamon, there was a pretty fair crop of rice in many places, quite sufficient, if not parted with, to have kept the people until the next crop came. The rice however was not kept. Attracted by the high prices and the certainty of a ready sale in the vicinity of relief works, the Thakurgaon villagers sold all, and perhaps more than all they could spare; the consequence is prices have risen, and there is a general outcry that the supply is not equal to the demand. I hear also that exactly the same thing has happened in Julpigoree district, which borders on Thakurgaon, and from which we get our supplies for Ranisankoil, Hemtabad, and Bindol were long drawn. The want in Thakurgaon and, as I take it, in Julpigoree is not of money but of grain, and this want must be supplied from our Government stores. I have sent instructions to commence golahs at Thurgaon, Ruhia, and Atwari, and have instructed Mr. Scanlan at Ranisankoil at once to send some rice to Thakurgaon for sale, and also to let it be known that for the present palkars and others who supply the hats of East Thakurgaon can buy from our Government golahs at rather more favorable rates to cover the greater expense of transport. The golahs at Thurgaon, Ruhia, and Atwari, are not far from the Julpigoree border, and will, I trust, and to supply the wants in that direction, for of course dealers in that district will be allowed to buy what rice they require from our stores. When the rains begin, and the roads become heavy for cart traffic, rice can be sent to Thakurgaon up the Tangon from Tambuli by boat from thence, if necessary, by cart to Ruhia and Atwari, both those places being on high road to Darjeeling. It appears probable that our stores will now have to be moved, to a large extent, into those parts of the district which we hoped would escape altogether. I expected of course that the surplus stocks of these places would be liable for the distressed tracts; but I did not expect that the villagers would part with their rice to such an extent as to need help themselves. During the last fortnight Mr. Jones, the circle officer of Durgapore, has had to resign his post. Exposure to sun and the constant worry and anxiety so impaired his health that, with much relief, he was obliged to ask to be allowed to return to the station, and resume his own appointment of Superintendent of Police. Mr. Jones has been in charge of relief works since Nuber, and has shown great energy and zeal in the discharge of his duties, and I regret very much that ill health has compelled him to give up his post after having borne the burden of the work so long. Mr. Pollen has been transferred from Kaliagunge to Durgapore and Baboo Juggodis Nath Roy has gone to Kaliagunge. Regarding the supply of grain, I am more and more convinced that there is enough, and more than enough all. A cry was raised when the time for bhadoi sowings came on, and one of our officers wrote very despondingly on the subject, fearing that much of the land would not be cultivated; and yet, though the season for bhadoi can hardly be said to have passed away, there is already a certainty of one-eighth, if not one-fourth more than of this crop having been sown. The loudest complaints came from Durgapore, and there only has quantities of bhadoi been sown, but thousands of acres are green with paddy aghani, or early winter rice, which is sown a little sooner than the hemanta, and is grown in the Durgapore circle. The

fact is, the villagers having had so much done for them, think they can get anything they want by simply asking for it; and as advances for seed-grain answer equally well to defray marriage expenses, and, it was imagined, could be got without interest being payable, demands on that account were at one time plentiful. I am glad Government have come to the resolution to make no more cash advances; there is no great lack of means in the country; the principal want is of grain, and that can be supplied from our stores. Cash advances are always liable to abuse, for it is almost impossible to ascertain that money borrowed is properly laid out, whereas advances of grain are of no avail except for immediate use.

#### B.—RELIEF WORKS.

I subjoin a list showing the works in hand in the various circles, with number of men, women, and children on each, distinguishing, so far as my information goes, between those employed on piece-work and those earning daily wages. It will be observed that in Durgapore circle there are now about 10,000 persons at work, not counting those employed on some works made over a short time ago to the officers of Kaliagunge and Chooramun. This is a great decrease on the number employed at one time on the daily-wage system; but it is a decrease that was to be expected on the introduction of a labor-test, which compelled those to stay away who came simply because they could draw pay for doing nothing. I have every reason to believe that many of the coolies employed by Mr. Jones, just before I insisted on piece-work being introduced, made up small boards of money that will enable them to live till the bhadoi crop comes in. I have, however, reported separately on this subject, and need not recapitulate: suffice it to say that I am sure the number of coolies on the works at Durgapore will not much exceed the present total before they are all dispersed to their homes. Our number of laborers has now, I think, reached its maximum, and from this time I expect the numbers to decrease, as the people return to look after their cultivation. I do not think that any trouble will be experienced in dispersing our coolies to their homes; nowhere have we any masses of laborers on daily wages; all able-bodied men are doing piece-work, and their attendance will gradually decrease. The women and children will not indeed obtain much employment as agricultural laborers, but there need be no difficulty in dealing with them: the roads will require to be dressed and turfed, temporary bridges will have to be put up, and petty repairs of various sorts executed, which will afford employment; the organisation for charitable relief, moreover, will have been completed, and the officers will be in a position to deal with distress, if it exists. As for the men, I am convinced that Government are doing wisely in limiting their help to grain advances: assistance in this shape however will, I think, be required, and the attention of circle officers was drawn to the subject some time ago. As some confusion and uncertainty appeared to exist, however, in their minds as to the intentions of Government, I have lately issued a circular to them, in which I have described the principles on which they are to work, as well as the action that I expect them to take in the matter. Government, I have told them, are prepared to assist the villagers by providing them with food-grain, and are prepared to do so in two ways. The markets must be kept supplied freely with Government grain, so that any one who wishes to buy may readily supply himself at a comparatively cheap rate. Sales from Government godowns therefore must be made without limit or reserve of any kind; the more wholesale the transactions are the better. Further, besides securing that rice shall be obtainable in the market for those who can buy, Government are prepared to advance grain to those who are in present want of funds, and cannot buy for their daily consumption; to meet this want, advances may be made to villages. In making such advances individual dealings should be avoided; otherwise the two or three men of substance in a village will obtain their own supplies separately, leaving the mass of the advance to be made on the unsafe security of the poorer ryots. Any village wanting an advance can get it on the understanding that the amount asked for covers all demands for that particular locality. A bond for the repayment of the price of the rice, calculated at the rate at which palkars and dealers are supplied, should be signed, and property pledged as security; the time for repayment has not yet been fixed, but I assume it will not be till after the next winter crop has been gathered. As to security for repayment, I have directed the mundals and other respectable villagers to be first requested to hold themselves jointly and severally responsible for the debt, pledging their property as security; their names only will appear on the bond, they being charged with the proper distribution of the grain, and being entitled to recover the individual amounts from their fellow-villagers. If the respectable inhabitants decline, then the zemindar must be appealed to; if he too refuse, then, if the grain is really wanted, it must be advanced on the security of the ryot's holdings and crops. Cases may arise in which it becomes necessary to provide grain where no security can be given: in such cases grain must be given, not advanced, and treated as charitable relief. As to cash advances, I have all along told my officers that I deprecated any help being given in this shape, and that until distinct instructions to do so were received from Government, advances in cash were not to be made. Advances of grain have been made to some extent, but not in every case, very wisely; for I find that Mr. Tweedie at Porsha has made advances repayable in kind. He has been forbidden to make any more, but of course the agreements entered into must hold good. The advances were made by Mr. Tweedie on his own responsibility, and without reporting the action he intended to take; and it was only on visiting his circle during his late tour that the district grain officer discovered what had been done. Mr. Tweedie was on the eve of making large advances in this way, for the ryots were not slow to perceive the advantages of borrowing rice when it is selling in the market at 12 seers per rupee, and repaying in kind when it is very likely to be down to 27 or 28

seers per rupee : further action in this direction however has been stopped. I have suggested to my circle officers to inquire whether the villagers would be willing to repay the advance in labor instead of cash, i.e., whether, instead of paying the amount entered in the bond, they would consent to keep a certain length of road in repair, or afford a contingent of laborers to work free of charge. The proposition, I am told, finds much favor, and seems to me to afford a very feasible plan for keeping in repair these miles of road which we have constructed at no little expense. If Government sanction my proposal, I intend to take a bond for the amount of grain advanced to any village, and if convenient, enter a stipulation to the effect that instead of paying so many rupees, the villagers undertake to do certain work, failure to perform the stipulated work rendering them liable to be sued for the amount of the bond. If advances are generally made on the security of the poorer ryots, I anticipate some difficulty in recovering the amount, for, in such cases the zemindar has a lien for rent, the mahajun probably has another for an old debt, and amongst these conflicting claims, I fear the price of grain advanced will often be irrecoverable : even in the case of mandals and respectable villagers, obstacles will often be thrown in the way of Government realising their dues. To facilitate the realisation of those advances, I consider a short Act should be passed declaring the Government lien to be prior to any other lien of a similar nature, and enacting some short and summary procedure for the occasion. Of the alternative modes of payment in grain, it was at first determined to adopt payment through moodies stationed at the roadside, and all the circle officers reported that they had carried out the orders of Government. Mr. Faison, at Bindol, has done so most thoroughly, for his sales to coolies average a seer per head per diem for men, women, and children : others again have not been so successful. I have therefore directed all payments for the future to be made in grain, the duffadar of each gang receiving the total amount due for his men, and distributing the rice as each person has to receive it. Baboo Harimohon Chaud alone introduced the system of payment in grain instead of through moodies ; and his having begun to do so was alluded to in the last narrative by the district relief officer, and seems to have given rise to some misapprehension as to the action taken by me : the system has been introduced by Baboo Harimohon with perfect success.

#### C.—TRANSPORT.

A little rice still remains to be brought into Ghoraghat, Tambuli, and Kaliagunge, but more than the total allotment has already been stored in the district, some of the golahs having received more than was originally intended.

#### D.—STORAGE.

I append a list showing the golahs in each circle, with the amount of grain stored in each. Sales from our golahs have been ordered throughout the district without limit or reserve, and officers report that grain is so sold. I am not, however, quite satisfied that some restrictions on sales are not placed at some places ; otherwise I cannot account for the large sales at some places, as compared with the small sales at others, the supply being now, I expect, pretty well equalised over the distressed tracts : a glance at the table will show this. I am the more puzzled at this, looking to the large sales effected from our golahs at Dinagapore. The Sudder circle I never considered a specially bad tract, rather the contrary ; and yet here our sales now average nearly 1,000 maunds a day. Much is of course due to the fact of this being the head-quarters, and much is also due to the activity and intelligence of the grain officer, Baboo Harimohon Sen ; but still taking everything into consideration, I do not understand why some of the other circles do not more nearly approach our standard of sales. At Patiram and Putnitolla the sales are said to have reached their maximum. I do not see how this can be however, unless rice is imported to a much larger extent than it has been : a few hundred maunds is a mere drop in the requirements of those two circles. Elsewhere I expect the sales, if properly arranged for, will increase up to the end of August, when, if there is a good bhadoi crop, the demand will diminish ; the extent to which it will fall off depending a good deal on how far we have by that time got rid of our Burnah rice. If by August we are selling country rice, some of the better classes who do not eat bhadoi, as being coarse and now, will turn to the Government stores for their supplies. The next fortnight should show an increase in the sales at Birgungo, for lately the circle officer there, under some mistaken idea of increasing the profits, has been selling Burmah rice at 10 seers per rupee, instead of at the price fixed by Government, at which rate of course people declined to purchase an unpalatable grain. He has been instructed to use his discretion more wisely for the future. I hope also, during the next week or so, to have sales of Government rice effected all over Thakurgaon, and arrangements made whereby dealers in Julpigoree district can be supplied if they wish it.

#### E.—ADVANCE.

The subject of advances to villagers has already been touched upon. Several zemindars have lately come forward applying for advances ; they have been given to understand that advances in cash are no longer to be given except for purchase of seed-grain. One zemindar has agreed to take grain ; whether the others will do so or not I cannot say.

#### F.—CHARITABLE RELIEF.

The annexed table shows that there has been an increase in the number of persons receiving charitable relief. The letter calling for a return of funds expended under heads b, c, and d, of the rules framed by Central Relief Committee, was not received in time to permit of the figures being supplied in this narrative ; they will be ready during the next fortnight. The amount of rice expended in charity has been shown in the grain return, and

besides this the only other form of relief is employing women in husking rice, spinning cotton, making gunny bags, &c. The group system has not been fairly introduced here. The Minute by Sir George Campbell, and the letters on the subject, have been duly circulated, but the officers find great difficulty in obtaining the services of men of sufficient standing and education, or with sufficient leisure to act as group superintendent. A mandal will often willingly enough look after the poor of his own village, and distribute rice, but will object entirely to go beyond his own village; and I consider the system which is generally adopted here the best suited to the requirements of the district, viz. to divide the circles into divisions, putting each division under charge of a paid inspector, who is not a local inhabitant. Every village again is managed and looked after by its own mandal; or, if the village is a large one, by two or three respectable inhabitants; the inspector's duty being to go round and inspect the village lists, see that charity is not afforded to improper objects, and generally to arrange for charitable relief through the agency of the local authorities. I have authorized the circle officers making small payments of three or four rupees a month to these village mandals as a remuneration for their trouble. It is remarkable, however, how many of them are giving their services willingly and asking for no remuneration whatever. The class of men to make efficient group superintendents is not to be found as a rule amongst our villagers, and I consider the above plan better suited to the people we have to work with. It sometimes happens that an intelligent man, ready and capable of acting as group superintendent, is found; such men are made assistant inspectors, which is virtually group superintendents. We may expect an increase to our numbers receiving relief when the road-work is stopped, and the women and children are turned off. The circle officers however report that they are prepared to deal with this increase; and, as I have pointed out, minor works on the roads will give employment to some.

E. E. Lewis,  
*Offg. Magistrate.*

No. 987, dated Beaulah, the 2nd June 1874.

From—W. H. D'O'LY, Esq., Collector of Rajshahye,

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit my narrative for the fortnight ending on the 31st May.

## A.—STATE OF THE COUNTRY.

The heavy rain which fell on the 24th, 25th, 26th and 28th of May has done an immense deal of good. The *aus* dhan, which had germinated, was much benefited. On the 27th there was no rain, and on the morning of the 28th, while on my way to Tannore, I saw cultivators busy preparing and sowing their lands; but by 9 o'clock A.M., a storm swept over the country accompanied by very heavy rain which stopped both the sowing and the preparation of the lands. The ryots who before were praying for rain now prayed that they might have no more for a time at least, fearing that it would destroy the seed freshly sown, and there is no doubt that the heavy fall on the 28th did so to a certain extent; for it was so heavy that a stream, which before the rain was barely up to my horse's knees, was so swollen the next day that it was scarcely fordable. There have been since then some fine clear days, which following the rain have given precisely the weather best suited both for finishing the ploughing and preparation of land, and to bring forward the young rice plants. Only two applications for seed were made to me while I was in the interior, regarding which I directed Mr. Manisty, the sub-divisional officer, to make enquiries; he will provide seed if necessary. I observed, however, before the rain, that there were baskets of seeds in many of the fields which were being prepared. The *boro* dhan has been harvested; the yield has been fair, but the introduction of this grain into the markets has not, I regret to say, improved the price of common rice. *Kann* has been harvested in the North Bhuring sub-division, and has yielded a good return. The worst feature of the fortnight has been the sudden rise in prices in almost all parts of the district; this occurred in the early part of the fortnight. It was hoped that timely rain would improve the prospects of the coming crops, and at the same time the price of food. The rain has, however, come in quite sufficient quantities to secure the first

result, without effecting the last, except in Nattore, and part of the North Bhurind sub-division. Importations have been very slack. The time of year is not favorable to transport, and dealers do not care to run the risk of losing their cargoes in the present unsettled state of the weather. The condition of the people has not yet much changed for the worse in spite of the high prices that have prevailed. There have been no cases of starvation, and nowhere have I seen or heard of such privation as would make its presence visible in the emaciated forms of its victims. There is no doubt whatever that the opening of poor-houses and the distribution of food both in return for labor and gratuitously, has averted such a result. In the north of Pootea prices are high and relief is most sought for. Mr. Walton, who is in charge of a silk filature in that thana, tells me that the people have been eating largely the seeds of water lilies, but this is only in addition to other food. I have opened an additional poor-house in this part, and intend to visit it immediately. Cheena is selling at 19 seers 8 chittacks per rupee in some of the Pootea markets, and mash-kullai at 22 seers 8 chittacks per rupee. The District Superintendent of Police reports that "cases of crime against property show no increase disproportionate to the difference in circumstances of the three years compared. There are only fifteen cases more reported in May of 1874 than in May of 1872, which was a year of plenty. There have been eight small thefts of food-articles during the fortnight, a number which is probably not at all in excess of the proportion of ordinary years."

#### B.—RELIEF WORKS.

The number of persons employed on roads, &c., has decreased owing probably to the rain which has, to a certain extent, stopped work, and has also attracted away many to their fields. The numbers employed under the District Engineer and certain planters during the fortnight are as follow:—

				Total.	Daily average.
1st week	..	..	..	6,761	966½
2nd week	..	..	..	5,839	834½

The number employed by relief officers is given in the chapter on charitable relief.

#### C.—TRANSPORT OF GRAIN.

*See Statement.*

#### D.—STORAGE OF GOVERNMENT GRAIN.

			Maunds.	Seers.
Out of the total allotment of	..	..	1,00,000	0
We have already stored	..	..	93,518	37½
		Balance	6,481	2¾
Out of the balance we have to receive at Nowgong	..	..	3,707	5
At Rumbagha	..	..	2,268	10
			5,975	15
Short receipts at several golahs	..	..	505	27½
			6,481	2¾

#### E.—ADVANCES TO PRIVATE PARTIES.

The Government orders to advance grain and not money have only just been received and will be carried out.

Advances in money have been as follows:—

			Rs.	A.	P.
Up to date of last narrative	..	..	1,09,332	12	0
Advanced during the fortnight.	..	..	14,400	0	0
Total	..	..	1,23,732	12	0

#### F.—CHARITABLE RELIEF.

##### *Baulah Sub-Division.*

The daily average number of persons fed gratuitously at seven poor-houses was 1,870. The number employed in husking rice, spinning cotton and jute, collecting kunker, weaving, &c., was on an average daily 2,366.

*South Bhurind Sub-division.*

The number of persons relieved at seven poor-houses during the fortnight was as follows:—

	Daily average.
Working on roads, tanks, weaving, spinning, &c., &c. ...	3,122
Receiving gratuitous relief ...	965
Total ...	4,087

*North Bhurind Sub-division.*

The number of persons fed gratuitously was very large and out of all proportion to the number employed on work. This has been brought to the notice of the Sub-divisional Officer.

Daily average number of persons employed on husking rice, jute and cotton spinning, collecting kunker, &c. ...	613
Receiving gratuitous relief ...	2,206
Total ...	2,819

*Natore Sub-division.*

The returns are full of mistakes, and altogether unreliable. They, however, tend to show that the number of persons relieved was small.

## G.—FINANCIAL RESULTS.

	Rs.	A.	P.
Total expenditure as shown in the last narrative ...	3,11,599	4	6
Detail of the above—			
Advanced for the conveyance of Government grain ...	1,73,391	6	6
Advanced to Mr. Luff, &c., on cheque ...	1,06,422	15	10
Advanced for storage of Government grain ...	50	0	0
Grant-in-aid to charitable relief ...	8,761	13	0
Paid on account of contributions to District Relief Fund ...	465	0	0
Salary and deputation allowance ...	6,726	2	6
Advanced for purchase of golah materials ...	9,453	0	0
Ditto for relief works ...	1,873	12	0
Expended for ditto ...	3,005	0	0
Advanced for purchase of seed for free distribution ...	600	0	0
Tentage and travelling ...	205	15	8
Contingencies ...	644	3	0
<i>Expended during the fortnight from the Sudder Treasury.</i>			
Advanced for conveyance of Government grain ...	10,737	8	8
Salary and deputation ...	363	14	3
Contingencies ...	11	13	0
Total ...	11,113	3	11
Add total expenditure as shown in the last narrative ...	3,11,599	4	6
Grand Total ...	3,22,712	8	5

RAJSHAHYE,  
The 1st June 1874.W. F. FAGAN, Lieut.-Col.,  
*District Superintendent.*

No. 1003, dated Beaulah, the 4th May 1874.

From—W. H. D'O'LY, Esq., Collector of Rajshahye,

To—The Offg. Secretary to the Government of Bengal, Scarcity and Relief Dept.

I HAVE the honor to request you to be good enough to add the following in my fortnightly narrative for the fortnight ending on the 30th May last:—

Under—

"E.—Advances to private parties."

Advanced by the sub-divisional officer Nattore ... Rs. 2,400 0 0

"G.—Financial results of the Nattore sub-division during the fortnight."

Advanced for storage of Government grain ... Rs. 100 0 0

Paid to Mr. Luff, &amp;c., on cheque ... ,, 22,694 3 3

Total ... Rs. 22,794 3 3

No. 502F, dated Maldah, the 1st June 1874.

From—F. WYER, Esq., B.A., Offg. Magistrate and Collector, Maldah,

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit the fortnightly narrative for the period ending with the 30th ultimo.

A.—STATE OF THE COUNTRY.

During the last week there has been a most bountiful rainfall throughout the whole of the district, with the exception of Kalliacluk, where it has not been sufficient. This rain has greatly improved the prospects of the bhadoi crop; in point of fact, that crop will now, in all probability, turn out a very good one. A greater extent of land than usual has been sown with it this year, and nothing could be more promising than its appearance throughout the whole of the northern part of the district west of the river Molananda. I went over all this part of the district last week, and found that bhadoi had been sown on every available spot of land. In ordinary years, a good deal of jute is sown there; this year, instead of jute, the land is sown with rice. Since the rain which fell on the 25th, 26th and 28th, a number of the laborers in the Chanchul sub-division has left relief works to weed their fields; weeding will give permanent employment to many of these men. Mr. Reily had to reduce the wages on some of the works, owing to the agriculturists being unable to obtain laborers for weeding.

In the Barin the boro dhan has been reaped and turned out very well, yielding as much as 17 mounds a beegha; here about half the land for hymanta sowings has been ploughed up, and some of the laborers have left relief works for ploughing. The price of rice has fallen considerably during the last week. This is owing to the rain having greatly improved the prospects of the bhadoi crop. The following table will show the latest prices of rice and paddy at the principal markets in the district:—

	Paddy per rupee per seer of 80 tolaah. Seers.	Ordinary rice per rupee per seer of 80 tolaah. Seers.
English Bazar ... ..	15 to 17	12
Nowabgunge ... ..	...	10½
Maldah ... ..	...	12
Rahimpore ... ..	16½	10
Tulseegunge ... ..	15½	10½
Samsi ... ..	...	10
The quantity of rain which fell at the sudder station, during the fortnight, was ... ..	...	2.85
Ditto at Chanchul ... ..	...	2.22

There have been several cases of cholera in the Barin; 77 deaths have been reported. As soon as the outbreak was reported to me, I sent a native doctor to the villages where the disease was said to have shown itself. The rain which has so opportunely fallen will probably put a stop to it.

Condition of special Tracts.

During the past fortnight the number of people gratuitously relieved in the Chanchul sub-division has increased from 18,356 to 28,461. The whole of the north-east portion of this sub-division has been divided into 39 village groups. The number of villages in each group varies from 7 to 12; at the centre of each group a muuchul, on Rs. 10 a month, and weighman on Rs. 4, has been appointed. In the Sudder Circle, it was found necessary to form only three of these groups. In Gomastapore circle four such groups were formed. In Shibgunge, none; in Gomastapore, 4; Total 43.

In the Maldah Circle it does not seem necessary to form any of these groups. A small centre was opened at Kedijoor.

There were two deaths from starvation reported during the fortnight, both in the Chanchul sub-division. One of the persons who died was a *lanti*, who was on his way, with three others, from Kudbah thana in Purneah to English Bazar; he fell ill near Multipore, and was left by his companions, who returned to their home. He was found in a dying state and fed in Multipore relief centre, but died soon after his having been admitted. There seems to be no doubt but that the death of this man was owing to his not having had enough to eat. The second case was a man who crossed over from the Southal Pergunnahs at Futtehpore. This man had been ill for the previous six months, so his death can hardly be attributed to starvation.

B.—RELIEF WORKS.

The number of persons employed on relief works is given in the annexed table. Those employed in the Chanchul sub-division are not given in detail. They worked on 13 roads and 16 tanks; the daily average during the fortnight in that sub-division was 1,518 against 1,784 last fortnight. There was a great falling-off during the last week of the fortnight.

In the Sudder sub-division the daily average was 6,773, having increased from 4,463. Thus the daily average working in the whole district has increased from 6,247 to 8,321. The

daily average sent in direct to Government is wrong. Before the receipt of Government orders on the subject, I sent out orders to pay all the laborers employed on relief works  $\frac{3}{4}$  of their wages in kind and  $\frac{1}{4}$  in cash. Since receiving the orders I have changed the proportion to  $\frac{2}{3}$  and  $\frac{1}{3}$ . The coolies do not like receiving so little cash. On one road near Goinastaporo they left work in a body but returned after one day's absence.

I allow the laborers uncleaned Burmah rice at 14 seers for the rupee. In the Department Public Works cash is paid to the laborers and grain sold to them through *modies*. The total amount of rice sold to laborers under the Department Public Works and civil officer during the fortnight was 2,359 maunds 21 seers  $1\frac{1}{2}$  chittacks, and the number of laborers employed was 116,397.

Annexed is the statement called for by circular No. 3369—S.R. :—

--------------------	---------

#### C.—TRANSPORT OF FOOD.

The following table shows the total amount of grain received into the district and despatched to Purneah and Maldah—

	Mds.	S.
Total quantity received ... ..	967,802	0
Despatched to Dinagepore and Purneah ... ..	775,798	8
Stored in the district ... ..	135,635	0

1,20,070 maunds were sent by boat to Purneah. Of this 54,009 maunds were sent by Mr. Livesay direct to Dengra Ghaut, and a good deal of this has reached its destination. 66,061 maunds were sent in larger boats to Dumrail, to be sent on from there to Dengra in smaller boats. Most of these larger boats stuck fast between Maldah and Dumrail, so that only 2,500 maunds had reached Dumrail when I was there last Thursday. The river has risen six inches since then, and Lieutenant Green has removed the snags and other impediments in the river between Maldah and Dumrail, so that by lighting the big boats and sending on the grain in smaller boats, there is every probability of all the rice reaching Dumrail by the end of the week. The whole allotment for the Dinagepore district has been forwarded. Mr. Livesay is now, by order of the Relief Commissioner, forwarding the Dinagepore reserve, and will continue doing this as long as the road remains in fair order. The daily average sent off by boats from 17th to the 29th, on which date the boat service was closed, was 2,713 maunds.

The quantity transported by land carriage averaged 1,360 maunds per diem.

## D.—STORAGE OF GOVERNMENT GRAIN.

The following quantities of grain has been stored in the several golahs of this district, viz. —

	Maunds.
At English Bazar	4,462
„ Old Maldah	27,195
„ Gazole	9,995
„ Chanchul Sub-division	44,008
„ Nawabgunge	8,750
„ Jhelim	1,000
„ Seebgunge	1,500
„ Gomastapore	1,125
„ Parbuttypore	1,000
Total	135,635

Of rice entered as stored at English Bazar 9,985 maunds are in transit.

Of the rice sent to Chanchul the whole has been stored in the chief golahs, and Mr. Reily is now engaged in filling the subsidiary golahs in each group; he is placing from  $\frac{1}{2}$  to  $\frac{3}{4}$  of the rice in 30-seer bags to facilitate carriage.

The following table will show the quantity of grain sent out to subsidiary golahs from the sudder during the fortnight:—

	Maunds.
To Amirtoc	100
„ Bulbul Chandi	400
„ Moheedipore	300
„ Kaliachuk	200
„ Arahpore	100
„ different persons in English bazar	99
Total	1,199

Baboo Sitakant Mookerjee, grain officer, has given the details of the system followed, in a letter of which I annex an extract, showing the centre golahs from which the subsidiary golahs are supplied:—

1. English Bazar, including the reserve golahs at Fulbari	1. Bholahant. 2. Bulbul Chandi. 3. Kaliachuk. 4. Moheedipore. 5. Arahpore. 6. Amirtoc.
2. Old Town Maldah, including reserve golahs at Chanchul	Maldah.
3. Gazole	1. Bamungollah. 2. Myna. 3. Bargateah. 4. Moheshrampore.
4. Gomastapore	1. Parbuttypore. 2. Rohumpore. 3. Sirsi. 4. Alsapore.
5. Nawabgunge	1. Jhelim. 2. Nawabgunge. 3. Seebgunge.
6. Chanchul Circle	1. Dumrail. 2. Shompgungo. 3. Shekhsatun. 4. Multipore. 5. Gokulpore. 6. Chanchul. 7. Tulsigunge. 8. Shamsi. 9. Debeepore. 10. Bhadu. 11. Kusidah. 12. Futtealipore.

## E.—ADVANCES TO PRIVATE PARTIES AND THEIR RESULTS.

During the fortnight Rs. 400, which sum had been sanctioned by Mr. Alexander, was advanced to the naib of the Tahirpore Court of Wards for excavating two tanks; 395

sales will be supplied from Chillakhal; Durwani sales from the railway stores. I met at Durwani the Commissioner of Cooch Behar, and he agreed to take the 10,000 maunds he requires for Boda mainly from the northern golahs, so as to leave me free to draw on the southern ones to recoup my sales. At the head-quarter markets the supplies have only been half the usual quantity, and from Dinagepore 160 maunds only have come in during the fortnight. The prices are  $7\frac{1}{2}$  seers the rupee.

In Molung the opening of the public granaries at Meetapukar and Talimgunge has done much to relieve distress; 1,400 maunds have been sold in 14 days. The prices fell in the local markets, and the traders have now begun to take passes to bring rice from Kallygunge, where they can draw their supplies cheaper than elsewhere. In Pirgunge the system of passes has been very successful from the first. It coincided with the almost total failure of the Dinagepore supply, and was most opportune. The relief officer reports that the rice thus brought in on passes only supplemented the deficiency of supply from other sources. A total of 1,764 maunds was thus brought into the markets. In Govindgunge the traders have hitherto drawn their supplies from the south, but are now turning their attention towards Kallygunge.

But while the western markets have thus failed us, the supply from the south has much increased, and the Teesta trade is very active, as is also that up the Dhurlah, and the eastern thanas are now well supplied with grain at cheap rates, so that a speedy close of relief works there is anticipated in consequence of the orders for paying laborers in grain which are being now carried out.

My importation returns show a total of 62,000 maunds, besides 14,000 local supplies, of which 34,000 come from Serajgunge and the south, and 20,000 from the north and north-east (including Dhurlah trade).

Sales have been continued at Santamari and Chillakhal at the usual rate of about 300 maunds a day at each place, and sales have been commenced at Alaikuree in the Mahigunge division, but at present only 47 maunds have been sold there. My total sales to the public will be shown under heading C.

Market quotations are as follow:—

			s.	ch.	
Mahigunge	} per Re.		7	7	of 80 tolahs weight.
Nowabgunge					
Sadullapore	"	...	8	0	ditto.
Govindgunge	"	...	8	0	ditto.
Sundergunge	"	...	8	0	ditto.
Satiburee	}		8	0	ditto.
Jaghir		...			
Alaikuree	"	...	8 to 8	5	ditto.
Gaibunda	"	...	8 to 9	0	ditto.
Boraburee	"	...	10 to 13	5	ditto.

We have had a copious rainfall during the fortnight (7 inches) the whole of which has fallen within eight days. On the night of the 23rd we had a severe thunder-storm. The lightning struck at the foot of a tall tree on the race course, dug a zig-zag trench along the ground for 15 yards, and then branched into two forks—one of which contained the trench 11 yards further. At the commencement the state of the crops was very critical; they were withering in every direction, but now in most parts the early rice is safe. In the south Govindgunge and Pirgunge more rain is wanted. About one-fourth of the jhally rice has been lost, but the late rain will go far to save the nous proper in these thanas. In Pirgunge the Mahomedans celebrated a second Mohurrum in their joy at the rain. Govindgunge is still in a critical state. The relief officer is looking forward to the next fortnight with great anxiety, and should not heavy rain fall he anticipates a prolongation of distress for two months, and may need more rice. This division probably, however, participated in the heavy down-pour which accompanied the storm of the 27th. I was at Durwani, where it was very

\* I have just heard that there has been a good fall of rain in Govindgunge.

severe. It was equally felt here and down the whole length south to Bogra, as far as I have heard at present.\* In Alipore, Borabaree, and elsewhere some of the rice has been cut. In some places unripe rice has been brought to market, so eager were the people to secure the proceeds; and towards the east in Mahigunge and Alipore the rumour got abroad that the Government intended to take a considerable portion of the crop to recoup the expenses of the famine, and fears were entertained that the people would take to a wholesale cutting of the unripe crop. Every effort was made by Government officers and zemindars to dissipate these fears, and the minds of the people have now been again reassured.

The condition of the people is not worse, which is as much as can be said at this the most trying season of the scarcity. Many cases of distress still come to light, and distress is spreading widely in Govindgunge, Pirgunge and Molung, the only three thanas which are seriously affected by the famine. Mr. Daumont reports: "A man, his wife and child came to me at Kamdya for relief; they were so emaciated and weakened by starvation that they could hardly walk, but they are now doing well; they came from Panch Bibi thana in Bogra. The people who have been long employed on relief work are in fair condition, but some of the new arrivals have a starved look." So the Molung officer writes: "The distress is intense on all sides, and in many places the reduced appearance of the ryots too plainly shows that their struggle for life is very hard, and that the iron grip of famine has at last been laid upon the land"; and he instances a professional fakir, who lived on income received from his disciples,

and who in April last, though he applied for relief but refused to go to the roads, or take cotton-spinning for his family, now came to get the latter relief, adding that though for generations no one of his family had to spin cotton for bread, none of them had ever before felt the pinch of famine. The group system is being set on foot in the three circles above-mentioned, Govindgung, Peergunge, and Molung, not throughout, but in those parts only where the aous is not extensively grown, and the people will have to depend in a great degree on the amun crop. On the Kamdya side, Mr. Damant has personally introduced the system, and drafted all the women and children into their own villages where they are working on village paths, cutting jungle, &c. Two hundred women are employed at the golahs in rice-husking. It is also about to be introduced into the south-east of the thana and in parts of Pirgunge. Contract work has been introduced on all the roads. A number of the coolies left for a day or two, but all are coming back again. In Pirgunge the system of piece-work is completely carried out. In Molung the relief officer has most successfully carried out my instructions regarding the removing of the women and children to the villages. He has working 6,991 men against 317 women and 467 children, while 558 have been drafted to village roads. This material reduction has been made in the number of those employed, and work is extracted in every case. The work done in the villages is to a great extent real work and useful to the public. In Govindgunge the rates for subsistence have been raised by the relief officer, in consultation with the Commissioner, from  $\frac{1}{4}$  seer rice and one pice per adult, and  $\frac{1}{4}$  seer and half pice per child to  $\frac{3}{4}$  seer rice and one and a half pice per adult and  $\frac{1}{4}$  seer rice and one pice children. I cannot but think that these rates are unnecessarily high, especially in the matter of the cash payment for condiments, and the allowance of rice for children. My former rates are still in use at Molung and seem sufficient.

The question of advances is in progress of settlement. From Govindgunge I have no detailed reports; but the laborers on the road will be given leave and advances for about a month to plough and plant their amun crops, on the same system that has been adopted with success in the case of the aous cultivation; and as in the bad parts all the population have come out to work this plan seems one best calculated to work well. In Pirgunge and Molung lists are well advanced. Lists in 74 villages have been made in the former thana and 46 of the latter; but in these two thanas the question depends very much on the prospect of the aous crop. If it does not fail extensive advances will not be needed. The lists are being rapidly completed, and some advances have been already made in Molung. In one case, 280 maunds have been advanced to 100 persons on the joint security of the village.

In Govindgunge there will be need to advance money for seed-grain. I expressed my opinion to this effect in a previous report, and the Commissioner has, in his visit to the circle, reported especially on this subject, and made an application for sanction to advance the money. There is sufficient need to be had for money, and the Government rice is wanted for consumption, and cannot be advantageously exchanged for it. The Molung officer is making arrangements to effect exchange of rice for seed-grain. It will be necessary to advance for this purpose to ryots in the west of the thana in those cases where zemindars have not provided for their ryots, and all arrangements are being made for the purpose. In Pirgunge as yet no exchange has been made, but it is anticipated that seed-grain will be obtainable in the markets.

In Sundergunge, Sadullapore, and Mahigunge circles distress continues, but supplies are good. There are still a number of children on the roads here, but measures are in hand to remove them. The number under relief in these circles is comparatively small.

In Kumargunge and Durwani distress is comparatively light, and in Borabaree I anticipate that operations will soon be in a position to be wound up.

#### B.—RELIEF WORKS.

The number of relief works is as under :

DIVISIONS.	MEAN NUMBER OF COOLIES EMPLOYED DAILY.			
	Men.	Women.	Children.	Total.
A. Govindgungo ... ..	20,738	4,159	6,083	30,980
B. Pirgunge ... ..	3,785	546	627	4,958
C. Sadullapore ... ..	2,593	1,013	2,132	5,738
D. Sundergunge ... ..	250	606	1,162	2,018
E. Molung ... ..	6,991	317	467	7,775
F. Mahigunge ... ..	1,104	198	929	2,231
G. Kumargunge division ... ..	1,155	3	10	1,168
H. Borabaree ... ..	412	47	68	527
I. Durwani ... ..	850	.....	82	932
Executive Engineer's ... ..	493	.....	17	490
Total ... ..	38,351	6,869	11,577	56,797

Govindgunge still shows an increase, while Molung and Pirgunge have a decrease. Measures are everywhere in progress for paying the laborers in grain instead of in money. This has been done practically all along, as the people were sold grain at cheap rates which they eagerly bought.

#### C.—TRANSPORT OF FOOD.

The Kallygunge transport has now been completed, and the carts and pack-bullocks have been discharged. During the fortnight 37,000 maunds were despatched, including nearly 16,000 maunds sent to Dinagapore out of the excess quantity sent us. Only 5,000 maunds out of the 10,000 allotted for Mymensingh have yet been taken away. The work at Kallygunge consists now of sales from the reserve there on passes to traders, and further supplies sent up to Chillakhal out of the same reserve to maintain the heavy sales we are now making at our different northern sale depôts. Some slight amount of transport work is still remaining at Panialghât in filling up Molung division, and in despatching rice to Kishoregunge in order to keep a supply for the sales about to be commenced there.

Add advances sanctioned, but not taken by the parties...	20,500	0	0
Total ... ..	2,05,750	0	0

## F.—CHARITABLE RELIEF.

*(Prepared by the District Relief Officer.)*

During the past fortnight the applicants for charitable relief have increased, and their wants have everywhere been supplied. From Govindgunge, however, where additional numbers were expected, it is reported there has been no increase as yet.

A most sensible change for the better is apparent among the people from the seasonableness of the weather, and the beginning of the new harvest; still there is no sign yet of the expected diminution of numbers among those requiring charitable relief. They are temporarily on the increase in the parts where scarcity and dearth are at present most felt.

It is noticeable that there has been a falling off of attendance at the cooked food relief centres. For the fortnight ending May 2nd there were 3,987 recipients of cooked food in the Mahigunge division; the numbers at present are 1,325. One new private relief centre has been opened at Boratee in the Kumargunge circle.

Eight maunds of the spun thread have also been given out in that circle for weaving into dories and saringies (mats and carpets). Any of the thread not disposed of in this way will be taken at the jail for manufactures.

The numbers employed in light work cannot now be shown with any completeness, as the transfer from the roads is being gradually proceeded with, and the necessary returns have not been sent in by the relief officers. Endeavours are being made to get the returns as accurate and complete as possible.

Advances to poor people with cotton or thread, or other materials, for charitable relief with employment, are now being made partly in grain and partly in money.

The returns hitherto submitted have, from their incompleteness, understated the numbers charitably relieved. From the reports, obtained too late for incorporation in the district return, more accurate information of the past and present progress of charitable relief will be prepared for submission hereafter.

E. G. GLAZIER,  
Offg. Magistrate and Collector.

No. 509—S.R., dated Bogra, the 1st June 1874.

From—E. J. BARTON, Esq., Offg. Magistrate-Collector of Bogra,

To—The Offg. Secy. to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit the fortnightly narrative of scarcity and relief in this district which is now due.

2. On the 13th May 1874 I arrived in this station, and began my duties as district officer. On the 26th May 1874 I assumed charge of the office of Magistrate and Collector of the district from Mr. Kelly on his being appointed Officiating Judge of Rungpore. I have therefore been directly connected with relief operations here during the entire fortnight.

3. Mr. Robinson, the Relief Commissioner, was in the district for a good part of the fortnight.

4. *Condition of the country and people.*—I have travelled a good deal in the interior during the fortnight, and from ocular observation I am in a position to say that in no place which I visited was the condition of the country or the people such as to cause very

Name of place.	Number of pucca seers per rupee at which rice was selling during the last fortnight.
Bogra town ... ..	9½ to 10½ seers.
Dupchanchia ... ..	10½ seers.

Sherpore ... ..	7½ "
Shibgunge ... ..	8 to 10½ seers.

great anxiety, although undoubtedly the great price of food must have inflicted hardship and some hunger on the very poor. The price of food everywhere is high, as will be seen from the quotations noted in the margin, which represent almost accurately the bazar rates down to this day. Notwithstanding this great dearness, which must cause pinching to very many, I cannot say that I anywhere observed upon the persons of the people signs of hunger or of deficient sustenance. Men, women, and children, have an appearance of

being sufficiently nourished. Every where the village bazars were adequately supplied with food, although at very high rates. The hāts are great institutions in Eastern Bengal, and on hāt days one may see almost the whole of the population of the neighbouring villages congregated either for business or pleasure. Wherever I have been, I have found the people, with few exceptions, in their usual state, although it is universally said that if Government had given no help there would have been great distress. Nowhere have I observed any general depression. The hāts are very fairly supplied with rice and other food-grains. There is certainly no difficulty in getting food for any one who has money to buy it. The very poor must be straitened, but measures for their relief are in full operation, and they have not been slow to take advantage of them, as will be seen further on in this narrative.

5. The state of the country has been further ameliorated by a most propitious rainfall of a total of about 4½ inches, which extended over three days of last week, and seems to have been very general throughout the district. The young plants of the aous crop, both in the khair and pali lands, were beginning to look a little parched from the long drought which had prevailed before, and undoubtedly the crop would have been very considerably damaged had this drought lasted for five days longer. But the bounteous and ample rainfall has removed all danger, and there is every probability of the people securing a bumper aous harvest in the month of August next. This will vastly improve the condition of large tracts of the district, and will increase the food-supply of the whole. In those portions of the district where there is no aous (and they too are extensive), it is to be feared that high prices will continue to prevail.

6. The minor crops are also doing well. Jute, mulberry, sugarcane, and sesamum, are promising very well. The bora rico and the pulse called mug-kalai have been out, and have yielded upon the whole an average weight of grain.

7. *Relief works under the Executive Engineer.*—The works under the Executive Engineer

Men ... ..	9,455
Women ... ..	13,513
Children ... ..	14,179
Total ... ..	37,147

number forty and consist of 18 roads and 22 tanks, and I find that during the fortnight ending 16th May 1874 laborers were engaged on every one of them. The total daily average of these laborers for the fortnight ending the 16th of May is as noted in the margin.

8. On the 16th of May work had ceased on 18 out of these 40 roads and tanks. I much fear that the recent heavy rain, and the near approach of the rainy season, will compel us to stop our tank-works before any of them are finished.

9. One of the great features in these relief-works is the small number of able-bodied laborers whom one sees upon them, and the crowds of women (generally old) and children who meet one everywhere. The piece system is applied to the able-bodied men, but not to the women and children who may be found squatted in thousands along the roads, and engaged (when they are doing anything) in gently tapping the surface of them with bamboo sticks. The little work they do is useful, for it smooths the tops of the embankments which the able-bodied have thrown up. Although we cannot apply the piece-work system to women and children, it seems very desirable that we should make them work a little more than they have hitherto done. They will be divided into

convenient gangs. Each gang will have a certain length of road (well within their strength) daily measured off to smooth by the operation of tapping, and will be required to do that daily task. It is however a work of great difficulty to organise these swarms of women and children. I am not at all sure that the best thing we could do with them is to turn them off, giving each a supply of grain. However, if we could get work out of them, the stronger of them will be very useful in smoothing the surfaces of the *cutcha* roads. An endeavour will be made to get some work out of them, but I am not at all sanguine of success. I have given orders that, in introducing the daily task, no great pressure or compulsion has to be used.

10. Mr. Clay, c.s., has been engaged in turning the feeblest of the old women off the works, and the result of his labor is noted in the margin. Each old woman got 20 seers of rice, and was sent with it off the roads into her village. This form of weeding will be continued.

Number of old women turned off.	Total grain given to them.
2,802	Mds. 1,401

11. All those who are turned off the works are entered in the village registers of the relief officers, and they will not be lost sight of.

12. On joining here I took steps to carry into effect the orders of Government to pay the laborers on relief works in grain. On the 16th May 1874 I addressed all the circle officers on this subject, directed the measure to be at once taken in hand, and sent them a set of simple rules which I had drawn up. At first, fearing the effect of the sudden introduction of this novel form of payment everywhere, I ordered the grain payments to be made on six only of the most important works; but on receiving more stringent orders from Government, I ordered the system to be extended to every work in the district. There was necessarily some little delay in getting so important a measure into working order; grain mohurrirs had to be appointed, subsidiary golahs had to be established where necessary, grain had to be carted off to many of the works. I can say that no time was lost. Mr. Clay and the relief officers have been specially entrusted with the duty, so as to secure its being successfully carried out with the least possible inconvenience to our laborers. I am now able to report that it is in full operation already on several roads and tanks, and in the course of a few days this will be the case for every work in the district.

13. I anticipate that one effect of the introduction of grain payments will be to greatly diminish the number of laborers on our works, certainly of the able-bodied. I hear that when grain payments were introduced, the able-bodied left who were working on certain portions of the Dinagapore road.

14. Henceforth, by special orders of the Relief Commissioner, payments of laborers, whether in grain or money, will be in the hands of the relief superintendents of circles and under their general superintendence. Being nearer the works, they will be better able to look after the supervisors than the Executive Engineer. This and grain payments together will prevent or lessen those abuses which have to some extent been going on. During the time of my predecessor four supervisors were sent to jail. At present I have inquiries into the conduct of three of them going on. Abuses were and are inevitable when work has to be done through the agency of men of this stamp.

15. *Storage of Government grain.*—The completion of the storage of grain in the remote interior golahs was a matter of pressing importance, inasmuch as the rains are near, which will make inland transport over our district roads almost impossible. To this therefore every attention was paid. Fortunately the exertions of my predecessor had succeeded in gathering a considerable number of carts, which greatly facilitated the operation. The Deputy Collector, Baboo Madhuv Chundra Maitra, and the ministerial officers rendered valuable assistance. The result is that I am able to report that the transport of Government grain

Number of interior golahs to be filled from Bograh.	Amount stored in them last fortnight.	Amount stored in them this fortnight.
	Mds.	Mds.
33 golahs ... ..	55,072	99,061

from Bograh and its storage in the interior are nearly finished. In the margin I append figures which give a short compendium of what has been done. These figures do not of course include the amounts stored at the central golahs of Bograh, Shariakandi, and Chandanbasia. They shew the storage in the remote interior in minor golahs. The balance of the rice (10,000 maunds) at Chandanbasia

for Bograh will be transported in boats.

16. I have said that the work of storing

Name of gola.	Amount of rice now in the golah.

Total ... ..	24,301

all golahs which are to be filled from Bograh is as good as finished. There still remain the marginally noted golahs into which are to be put 20,000 maunds rice lying at Nowgong in addition to the grain now in them. Captain Conolly was entrusted with this duty and sent to Nowgong. Unfortunately he could not get carts, and was able to send away only about 1,000 maunds, when he received orders transferring him to another duty connected with the inspection of golahs. The Relief Commissioner is giving all possible aid in the transport of this Nowgong rice, and I have no doubt that we shall manage it. I only on

the 29th May learned from Captain Conolly what difficulties he had in getting carts. I have already sent away more than three hundred carts from this place, and hope to have a good many more off in a few days. Lieutenant Hanki is at Nowgong doing Captain Conolly's work, and I think there is every prospect that it will be done. Many of the above golas are approachable only by carts.

17. Arrangements have been made to send by boat a balance of 10,000 maunds still due to the central gola at Bogra from Chandanbasia. The rivors are already open for small boats, and one convoy has left Chandanbasia for this place. The boat transport will cost about one-third of what the transport by cart costs us.

18. In order to provide against the chances of fire, I have had another gola (able to hold 13,000 maunds) built at Bogra at some distance from the former golas. The new gola is already finished and ready for the reception of grain. I intend to fill it with the rice which is coming in boats from Chandanbasia.

19. *Advances.*—I give below a statement shewing the advances of all kinds which have been given up to date for purposes connected with relief.

	Up to the last fortnight.			This fortnight.		
	Rs.	A.	P.	Rs.	A.	P.
(a) Advances to traders and others for the purchase of grain (paragraph 4, Circular No. 80) .. ..	500	0	0	0	0	0
(b) Advances to zemindars for improving water-supply of a village (paragraph 21, Circular No. 80) ..	3,150	0	0	0	0	0
(c) Advances to zemindars to help their ryots. (See Government letter No. 403—S.R. of the 3rd February 1874) .. ..	12,900	0	0	7,970	0	0
Total .. ..	46,550	0	0	7,970	0	0

20. *Sales of Government grain to the public.*—I submitted a scheme for the sale of Government grain to the public to the Relief Commissioner while he was here, and he has sanctioned it in all its details. It is much the same as that which has been sanctioned by Government, and which has been followed in previous famines. The extent of our stocks compels us to put certain restrictions upon these sales, which, while they will, I hope, prevent the exhaustion of our golas, will not rob the measure of its value as a means of relief. The cheapest rate at which we shall sell to the public is 12 seers for clean and 14 seers for mixed rice. At present we are selling a little cheaper than the local bazars, at from 10 to 11 *pucka* seers per rupee according to quality. The system of sales (which I need not minutely describe here) is simple, and has proved itself to be practicable so far as it has gone. We shall have sales at the golas, and sales by *bunneahs* in the villages. Already we have

Name of circle.	Quantity in maunds sold to public.

	Sales begun.
Khetlal .. ..	0 32 0
Total .. ..	535 11 0

engaged several *bunneahs*, although we are but beginning. These sales will be carried on in all the six relief circles and over all the district under the immediate control of the superintendents and their assistants. I give in the margin the latest returns, which are the operations of only three days, merely to shew that we have made a beginning. This is one of the best forms of relief, and there are symptoms that, when our starting sales become thoroughly known everywhere, large numbers will come to buy from us, probably more than we can safely supply.

21. We are much impeded by the want of weights and scales. Six sets sent here from Calcutta have been lying at Serajgunge for the last two months. I wrote to the Magistrate there a fortnight ago to send them up, but I have not received them yet.\* In addition to these we urgently require six sets more, for which Mr. Commissioner Robinson has made an application. I beg that they may be sent from Calcutta without delay.

\* The six sets have arrived to-day and have all been despatched into the interior.  
E. J. B.

22. *Loans of grain to ryots.*—This form of relief has been freely administered during the fortnight. I append in the margin a synopsis of what has been done under this head in each relief circle.

Name of circle.	Quantity of grain given away in loans to ryots.
	Mds. S. C.
Bogra .. ..	8,258 0 0
Shibgunge .. ..	2,006 0 0
Sharinkundi .. ..	17 35 0
Adamdighi .. ..	1,373 0 0
Khetlal .. ..	301 28 12
Panchtibi and Badalgachi .. ..	826 27 11
Total .. ..	13,473 11 7

23. Shortly after my arrival here I found that in some places, notably in the relief circle of Bogra, these loans were given, notwithstanding very clear orders by my predecessor on the subject, with a profusion and a recklessness which would probably end in demoralizing the people, and in other abuses. I endeavoured to check this, and

pointed out to each circle officer what were the orders of Government as to the way in which these loans should be managed. In most places this had the desired effect, and the loans are now administered with more discrimination and care.

Name of circle.	Name of Superintendents.	Number of Assistant Superintendents.
Bogra ... ..	J. Nugent, Esq. ... ..	4
Shibgrunge ... ..	K. G. Gupta, Esq. ... ..	3
Khetlal ... ..	Baboo Umee Chunder Ghose	3

Budalgrachi ... ..		
Adamdighi ... ..	F. R. S. Collier, Esq. ... ..	3
Shariakandi ... ..	Baboo Harris Chunder Ghose	2

24. *Charitable relief.*—As already reported by my predecessor, all the necessary machinery for this is in full working order. The circles are manned as noted in the margin. The bungalows of some of the Superintendents are ready, and those of others are approaching readiness.

25. The group system, village visitation, and village registration, are introduced only in the worst parts of the district. A synopsis of the work of the relief officers in this direction is given in the margin; village registers of those to be relieved in many of the worst tracts have already been opened.

Name of relief circle.	No. of villages visited during the fortnight by the Superintendent and his Assistants.
Bogra ... ..	98
Panchibibi ... ..	33
Adamdighi ... ..	45
Sherpur ... ..	46
Shibgrunge ... ..	41
Khetlal ... ..	66

26. Every form of relief is being administered, and every exertion is being made to discover and succour the distressed. Donations of rice and money (the latter are nearly stopped) have been given. Loans of grain have been freely made. Light labour gangs have been formed. The spinning of thread,

the weaving of cloth, rope-making and gunnybag-making and other descriptions of work, are being carried out in each relief circle. I append to this report a table (Appendix A) which will shew the Government what has been the work of the relief officers in all these directions during the fortnight.

27. Relief centres and poor-houses will be opened at the marginally noted places as a precautionary measure against the sudden appearance of severe distress during the rains, and as a means of relief to those who are homeless and sick and utterly disabled.

REMARKS.—In column 4 does not appear the balance of grain which is lying at Chandanbasta, the place of receipt. I beg to state here that I do not guarantee the accuracy of these figures. They are as accurate as I have been able to make them. Certain calculations made by the Relief Commissioner and myself make me fear that there is an error in the grain accounts.

NOTE.—Besides this some of the minor golas have been stored with rice.

E. J. BARTON,  
Offg. Magte.-Collr. of Bogra.

No. 903, dated Pubna, the 1st June 1874.

Momo. by—W. V. G. TAYLER, Esq., Magistrate of Pubna.

SUBMITTED to the Officiating Secretary to the Government of Bengal, Scarcity and Relief Department, for information.

Fortnightly Narrative of the Pubna Sudder Division ending the 30th of May 1874.

A.—STATE OF THE COUNTRY.

THE state of the country is somewhat worse than at the date of last report. Prices have risen, and the pressure from more high prices, is no doubt more generally and severely felt. The prospects of the future are, however, much brighter. We have had heavy rain during the past week, which has done much good to the *aus* crop. Though distress is general, it cannot be said that there is anything approaching to famine in any place. That stocks of rice are now falling low, may be assumed from the considerable rise in prices, and the diminution of imports. As such distress is likely to increase until the harvesting of the *aus* crop

commences, the relief committee have applied for 10,000 maunds of Government rice for distribution through the sub-committees. Money is now in the hands of all the sub-committees, for the purchase of grain in small quantities, to meet any cases of urgent destitution that may arise. No cases of actual emaciation have been reported, and the little sickness now prevailing shows conclusively that the distress felt up to the present, has not been severe enough to affect the general health of the district. This is one of the most reassuring facts in connection with the present scarcity and high prices.

#### B.—RELIEF WORKS.

The numbers employed in Chatmohar and Sujanagar roads are 438. Malanchi road has been just finished, and a new road from Radhanagar to Munshedpore *via* Maligacha has been opened lately. The numbers employed on that road are 37.

#### C.—TRANSPORT OF FOOD.

None.

#### D.—STORAGE OF GRAIN.

Government grain has been written for, but has not yet arrived. The sub-committees have been authorised to purchase and store in small quantities in order to meet emergent cases of distress, and this has been done in some places.

#### E.—ADVANCES TO PRIVATE PARTIES.

Sanction has just been received for advances to zemindars, but no advances have yet been made.

*Charitable Relief.*—Rice and dāl are being given by the sub-committees to the indigent, old, and sick persons who are totally unfit for relief work. The number cannot now be ascertained from the sub-committee reports. No Annachattras have been established as yet.

*Financial results.*—The private subscriptions, Rs. 7,860.8 have been promised up to date, of which only Rs. 4,544 have been realised; measures are now being taken to realise them shortly.

Expenditure as detailed below:—

	Rs.
Sent to Sujanagar sub-committee for road works .. ..	900
„ to Broja Lall Babu for Malanchi „ .. ..	100
„ to Chatmore sub-committee for „ .. ..	1,100
„ to Foridpore „ .. ..	500
„ to Supervisor of Maligacha „ .. ..	100
„ to Sudder sub-committee for charitable relief .. ..	400
Cost of repairing a cart track from Mochampore to Radhanagur .. ..	50
Sent to Mofussil sub-committees for charitable relief .. ..	1,900
Total .. ..	5,050

*Ninth Fortnightly Narrative from 16th to 28th May 1874.*

#### (A.)—STATE OF THE COUNTRY.

In my last narrative I stated that the gradual exhaustion of stores had produced an increased demand for rice, and that a series of storms had almost stopped the supply by boat, the result being a scarcity of rice in the bazars. Two other causes contributed to prolong this dearth, a rise of prices in the marts outside this sub-division, and a general belief among traders that the current rates were only temporary, and would be followed by a fall, to the injury of all who ventured to import. This state of things continued during the early part of the present fortnight; during the last few days imports have been large, probably about 2,000 maunds a day. Rice may now be had in considerable quantities at all the principal river side hāts, but it is selling at famine rates as the following table will show—

Name of market.	No. of seers per rupee in last return.	No. of seers per rupee in this return.
	Seers.	Seers.
Serajgunge ... ..	Nil	10
Raigunge ... ..	12½	7½
Pangasi ... ..	12	9
Taras ... ..	10½	10½
Ullapara ... ..	12½	9
Subgacha ... ..	Nil	8½
Chowali ... ..	Nil	8½

These figures show the retail prices. Wholesale purchases have been made at Rs. 4 per imperial maund in Serajgunge, and Rs. 4-4 at Ullapara. The very high rate at Raigunge has attracted a good deal of rice to that mart, where it is generally scarce, and no doubt prices will fall there to 9 seers per rupee. At one time during the fortnight as much as a rupee was given for six pukka seers.

I believe that the stocks of two-thirds of the people are now quite exhausted, and that they will have to live by buying in, or what grain they gather until the aous is threshed. There are no accumulations in the hands of traders. The sub-division is therefore dependent on its imports, and any check to these, such as a week of storms, or a cyclone, would be disastrous.

The rainfall during the fortnight has been 2.58 inches. It has done much good. The crops are backward about Keijure, but may be said, generally speaking, to promise well. There are however some lamentable exceptions. Hail has destroyed the flowers of the til in many places, and seriously injured the young jute plants. The sudden rise in the river Jamoona has swamped much low land, not only on churs, but also in the country. I know of about 300 biggahs of fine crops thus destroyed at Jamerta, and 500 at Goitel, on the road from Ullapara to Taras. Along the rivers more extensive damage has been done. These accidents would not occasion serious anxiety in ordinary years, but the case is different when, as at present, the population has already been reduced to poverty and rice is at famine rates.

I have met very many men in an emaciated condition; some of them cultivators working in the fields. Most of those who receive charitable relief may be classed as known cases of misery, which, but for our assistance, would have led to starvation. The most painful occurrence reported during the fortnight, was that of a woman who gave birth to a child unassisted, in a field near Jantoil. I found her at the amochatra when I happened to visit, it next morning, and she said her husband had deserted her, and that she was coming in from Ullapara to me for assistance when overtaken by labor on the road. Of course she received a relief ticket, which will enable her to get food at her own house during the famine.

The people generally are passing through a very critical period. The majority of the cultivators in the two distressed thanas are living on insufficient food, but are comforted by the belief that the sufferings will now be short, as the kaon, til, jute, and aous crops will all be partly, or wholly out in two months. All the indigent classes in these thanas are on our hands. In the other two thanas, the paupers, that is the beggars other than native fukeers, the women who live by husking rice, the old and sick poor, are in great straits, as we have not introduced the village relief system in these parts. The distress of the cultivators is less, but still it is everywhere felt. At present the sale of mowha gives them the means of subsistence. These thanas where the amun crop was tolerable, have suffered the most from flood and from hail.

#### (B).—RELIEF WORKS.

Hitherto the ryots of Shazadpore and Serajungo altogether refused to accept earth-work; those of Raigungo and Ullapara had taken to it very sparingly, only when it was brought to their doors and they were reduced to extremities. They argued that it was better for one of the family to die than for the whole to be reduced to poverty by abandoning their cultivation, and moreover a cultivator in these parts loses social position by working on the roads. During the present fortnight some cultivators have asked for work near their homes. The season is too advanced for much good being done in that way, but I have nevertheless commenced to open three village tracts, that from Jhoul to Ullapara, that from Raigungo to Bernhkolah, and that from Shazadpore along the khall to the Orasagar. The latter is part of the postal track between Serajungo and Pubna. I have also engaged to cut some noxious jungle at Jhoul. We have no return as yet of the number of coolies engaged on these roads.

The numbers engaged on the roads previously opened are—

Hurrial tract .. .. .	71
Goiloe ditto .. .. .	71
Bhodragha ditto .. .. .	10

The returns for the Chandaekona road have not been sent to me lately, probably they have gone to the Public Works Department. My account of it showed 179 laborers. I wish the Hurrial and Goiloe coolies would come into Chandaekona where really good work is being done under competent supervision. The two tracts mentioned are in the remotest part of the sub division and much of the ability and honesty of the work depends on the mohurir in charge. Hitherto coolies have been paid in coin. When the Government rice arrives this system will be changed.

#### (D).—STORAGE OF GOVERNMENT GRAIN AT RELIEF WORKS.

A good deal of rice is consumed at our relief works, but it is rice bought by the local committee, and its cost will, I presume, be defrayed from the charitable relief fund, although a part of it has been advanced by Government. The committee at its first meeting asked for Government grain, but this request was not complied with. Thrown on our own resources, we at first bought locally, either at the relief hats which are themselves rice marts, or at Serajungo. We found by experience that these markets, though they had been well supplied during the first month of the famine were liable to be exhausted; and having for some days found great difficulty in meeting our tickets (a stoppage in the payment of which would be bankruptcy in its worst form), we issued orders for considerable purchases which, when completed, would give an adequate stock, making us independent and secure. From Messrs. Wilson and Company a firm with extensive commerce with eastern districts, we bought 1,500 maunds at Rs. 3-13 a maund, bags and packing included, and we ordered 3,000 maunds on commiss on. Mr. Alexander agreed to supply 7,000 maunds from Calcutta at Rs. 3-14, and two thousand maunds of this order has already arrived at Serajungo; the remaining 5,000

will be delivered in the course of the week at Ullapara and Raigunge. After these arrangements had been made, I received information that Government intends to send us 4,000 maunds. We have therefore in hand, or immediately expect, 15,500 maunds of rice. The Government supply I propose to use only for annachatras, advance to zemindars, and payment of coolies. I will store at Serajunge, where I have hired a godown capable of holding 15,000 maunds. Two thousand maunds of rice, locally purchased, will also be kept in the same place. I mean to send 2,000 maunds to Taras, if the road continues open long enough to despatch it; if not I will send as much as I can to that place. The balance is being stored at Raigunge and Ullapara. Adequate arrangements for storage have been made at Raigunge and Ullapara. I requested the superintendent of the circle to see to the storage at Taras sometime ago, but have not as yet been informed as to whether these orders have been executed. I will go there myself next week and see that all arrangements are properly made. Carts have been engaged for despatch of rice.

The golah at Serajunge will be a Government one, and a clerk is required. I will appoint one on Rs. 20 a month. Weighmen will also be necessary.

With regard to the sufficiency of the stocks, I am unable to express a confident opinion until I see how the system of issuing grain, instead of cash to zemindar's, works. It has not as yet been introduced, as the Government rice has not arrived. I, however, expect that the Government 4,000 maunds will be taken off our hands in this way during the month of June, provided it comes to hand soon. The remaining 11,500 maunds will, I hope, last us during June and July. We have at present about 9,000 persons on our relief lists, and may expect an average of 14,000 during those months. The allowance is 12 seers a month for an adult and 6 for a child. Assuming that half the ticket-holders are adults, this gives a monthly consumption of 4,650 maunds. We have to allow something less than 1,000 maunds for annachatras. Serajunge is within easy access from Calcutta, and I may confidently say that we can always obtain rice in time, if our present supply proves inadequate.

#### (E).—ADVANCES TO PRIVATE PARTIES AND THEIR RESULTS.

The landholders of Serajunge have made a good use of this opportunity of lending money given by Government. Up to date Rs. 43,067 has been disbursed to them on loan for assisting ryots. To-day I received applications for loans aggregating Rs. 11,610. The sum of Rs. 4,562 has been sanctioned, but not drawn from the treasury.

Two questions will naturally be asked as to those advances; do the ryots get the benefit of them, and will Government realise the amount? The first I can answer in the affirmative. Wherever ryots have complained that they did not get the money advanced, I found on inquiry that no real abuse existed. Either the ryots wanted more than the zemindar thought could be safely lent to them, or they objected to the terms of the bond, or they found that only the favorites received. In no instance did I see occasion to believe that the money had not been lent to ryots. The realisation of the money will no doubt give us much difficulty if we have to proceed as ordinary creditors. All those who have taken loans are in possession of land, but the title deeds they produce, such as revenue receipts, would by no means satisfy a conveyancer. Some of those who borrowed are embarrassed, and will make every effort to procure delay, but I understand that Government is willing to take some risk in the matter, and to undergo some trouble hereafter. The change in system will be made when Government rice arrives, and may probably lead to a contraction in the rate of issue of loans. I have, however, to-day received an application for 100 maunds from the manager of the Tagore estates, and I sent an order for the amount on the relief store, to be repaid from the Government stock when it arrives.

#### (F).—CHARITABLE RELIEF.

The committee is engaged in giving relief on the village system. There are two superintendents of circles and six assistant superintendents engaged in visiting each village in the distressed tract. All the villages are reported to have been once visited; those in much distress to have been inspected several times. On each visit tickets are given to any persons found to be in actual distress and incapable of road work. If the ticket-holder, though unfit for rough labor, can spin, weave or twist jute, a clause is inserted in the tickets that the relief will be conditional on the performance of an allotted task proportionate to the applicants supposed powers. The number of these tickets issued is about 9,000. Those who take them are generally diseased, aged, or women having no immediate relatives to support them. When the relief system was introduced, these classes were in the distressed tract suffering so much from hunger and improper food, that after inspecting some villages I was in serious apprehension of a number of deaths from famine. I found many of them living on pumpkins, and any uncooked food they could get without regular meals. The monthly allowance on a ticket is now 12 seers of rice and 3 seers of dāl, given fortnightly. Half tickets are given for children.

In addition to this relief given in uncooked food after local inquiry, cooked food is now supplied at fifteen places, under the supervision of local committees, to emaciated persons. The number relieved under this head is not large; the average number fed, according to the returns received, being 182 at an annachatra. An annachatra is also kept by Raj Lockee Dabhya, a Brahmin lady living near Taras, which is much crowded, the food there being good and plentiful. A zemindar at Katanga contributes 25 per cent. of the cost of the annachatra there.

(G).—FINANCIAL RESULTS.

Expenditure up to date on—	Rs.	A.	P.

SERAJGUNGE,  
The 28th May 1874.

P. NOLAN,  
Assistant Magistrate.

Remarks by Magistrate.

I OBSERVE that whereas the average number of distressed people who are now obtaining gratuitous relief at Serajgunge are 182 at an annachatra, those on relief works amount only to the inconsiderable number of 331. In the Sudder sub-division our experience is very different; we are employing on relief works 475, while we are not at present giving gratuitous relief to 100 people. Mr. Nolan's attention has been called to this. It is satisfactory to observe that imports have increased in Serajgunge since last report, and there would seem to be no likelihood of deficiency of stores.

PUBNA,  
The 1st June 1874.

W. V. G. TAYLER,  
Magistrate.

No. 1146, dated Dinagepore, the 8th June 1874.

From—W. LEF. ROBINSON, Esq., Relief Commissioner of the Rajshahye Division,  
To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit the following narrative for the past fortnight.

A.—STATE OF THE COUNTRY.

2. This has certainly improved everywhere since my last report, as the late heavy falls of rain have done much good; in fact the rain during the last fortnight may be said to have saved the sown crop in this part of the country, i.e., Bogra, Rungpore and Dinagepore.

3. I have travelled during the fortnight from Bogra to Rungpore, and on to Dinagepore, and everywhere the crop is very fair, though in some places it is of course better than in others, but almost everywhere the ryots say they expect to reap a 16-anna crop now, and in Rungpore, where this crop is very early, they will very soon begin cutting it.

4. The rainfall in Bogra and Rungpore was particularly heavy, 2½ to 3½ inches of rain falling at a time; but in Dinagepore the rainfall has been much less, though still sufficient to save the crops. The change in the appearance of Dinagepore is very marked since I left it over two months ago. Then everything was burnt-up, and withered, and now all is fresh and green again, and even the bamboos which were dead or dying before, appear to have taken a fresh lease of life, and certainly the country round has not looked as fresh and green as it does now for upwards of a year.

5. The markets are still tolerably supplied with rice but at a very high price, and at Dinagepore itself Government grain finds a ready sale. At one time as much as 2,000 maunds a day were being sold at the Dinagepore golah alone, but for the last few days sales have fallen off in consequence of some one having started a story that in three or four days Government would sell at the rate of 16 or 17 seers for the rupee. This story, or one similar to it, seems to have been very industriously and extensively circulated, many circle officers having been told that rice was being sold at that rate in some neighbouring circle, when there was really no foundation for the statement.

6. Mr. Lewis also was out last week near the Purneah border, and the ryots there all declared they heard Government was selling rice in Purneah at 17 seers, and wanted to know when he was going to do the same. The total sales from the Dinagpore golah up to 7th June, amount to 30,000 maunds, but I have no returns yet from district officers as to the total amount of their sales, a mistake which I hope to get corrected this week. A fresh circle is about to be opened at Thakoorgaon in the north of Dinagpore, and grain is already being pushed on there with a view of meeting the wishes of the Cooch Behar authorities, but I have no fear myself of there being anything like famine in that part of the country, though the high prices of course create distress among the poorest class. I have at this moment received a telegram from the Commissioner of Cooch Behar, saying that things have much improved at Julpigoree, and that the rice sent for him is to remain at Kallyunge.

#### B.—RELIEF-WORRS.

7. These are being gradually contracted, as laborers are being drafted off for cultivation or under the group-system, and in a great many places the system of payment in grain will I think still further reduce the number of laborers. I have a note from Mr. Damant this morning, in which he states that the group-system and payments in grain are both working successfully in his circle, and he does not anticipate any large decrease in the number of laborers on account of payment in grain whereas in the north-east of Rungpore across the Teesta, the laborers at once left on payment in grain being adopted, and, indeed, in that part of the country there is very little distress.

#### C.—TRANSPORT OF FOOD.

8. This may be considered as over, practically, except perhaps in part of Bogra, and such alterations in the distribution of stocks from main golahs as circumstances render necessary. The transport officers, Captains Conolly and Ker, are now travelling about inspecting golahs. The balance of the supply for Purneah is, however, still being forwarded by the Mahanuddee route.

#### D.—STORAGE OF GOVERNMENT GRAIN.

9. This may also be said to have come to an end, subject to the changes above alluded to. Reserved stores have been, and are being, pushed forward towards the Julpigoree border to meet the wishes of the Cooch Behar Commissioner.

#### E.—ADVANCES.

10. None have been made by me.

#### F.—CHARITABLE RELIEF.

11. This is being carried out everywhere. The group system has been introduced in thanas Gobindgunge, Pirgunge and Molong in Rungpore, and Panelibibi, Khetlal, Bogra, part of Adumdigee, (i.e., around Doobchucheen), and Sherepore in Bogra, and in all the bad parts in Maldah. In Dinagpore the group-system has not been introduced strictly according to the Government orders, that is to say, 10 or 12 villages have not been put in one group, with a man on Rs. 30 to Rs. 50 a month to look after them; but the Magistrate has preferred to put each mundal in charge of his own village, and to put the supervision of a certain number of these villages, 30, 40, or 50 under an inspector, who, again, is looked after by the circle officer. I have not as yet had time to go thoroughly into the arrangements he has made, but I will do so as soon as possible; and if proper supervision is really exercised over each individual mundal, I do not propose to interfere with the Magistrate's arrangements, but it is necessary that the supervision should be real and not merely nominal.

#### G.—FINANCIAL RESULTS.

12. Are given by the district officers.

No. 1473—S.R., dated Berhampore, the 7th June 1874.

From—E. W. MOLONY, Esq., Commissioner of the Rajshahye Division,

To—The Offg. Secretary to the Government of Bengal, Statistical Department.

I HAVE the honor to forward the usual fortnightly narrative of relief operations to the 6th instant.

2. There has been no material change to report since the period of the last district reports which have been before Government. I am happy to say that the weather has been all that could be desired for the growing crop of early rice, and for the sowing and cultivation of the main crop. No change in the state of the people has been reported. I append a statement comparing the year 1866 with the present one, and with the average of five intermediate years; from this it will be seen that in the districts of Dinagpore, Rungpore, and Bogra, prices range very much higher this year than in 1866, while in the other four districts they may be said to correspond very fairly; also that while food was procurable in May of 1866 in all the districts except Dinagpore and Rungpore at about double the ordinary price, and in

those two districts on better terms, it is now procurable in Dinagpore, Rungpore, and Bogra only at three times the ordinary price, which must be considered quite a famine rate. The statement also shows that the time of highest range of prices has yet to come, and no very considerable relief can be expected before November.

#### RELIEF WORKS.

3. I am not able to report the result of the introduction of the rice-payment system. It has been introduced into Rajshahye, where there was Government grain stored, and is being introduced into Moorshedabad and Pubna. Until the returns of a week or two after its introduction are received, its effect in thinning the number of laborers cannot be reviewed.

#### TRANSPORT AND STORAGE.

4. There is nothing to report on this head, except that rice is arriving for Moorshedabad, and that I have authorized the Magistrate of Pubna to intercept, if he can, a part of the 10,000 maunds of rice ordered for Serajgunj, for use in the sudder sub-division of his district. It is quite desirable that he should do this, as I see by Mr. Nolan's last narrative that his local purchases have been more extensive than I thought. The Central Committee have made a grant of Rs. 50,000 to the Pubna district, a large portion of which was asked for to pay for the grain purchased locally. There is rice going forward for the Coah Behar division from Goalundo, which is to be landed at Kaligunge. The small steamer *Frank and Ada* is available at Kaligunge for the Teesta navigation, but I have just heard of a fall of the rivers, and that she cannot get beyond Pannial Ghat on the Teesta. The rivers must, however, soon rise now, and perhaps it would be expedient to send on the Coah Behar rice in steamers without landing it at Kaligunge. This, however, is a question which must be decided locally.

#### ADVANCES.

5. There is nothing to report under this head.

#### CHARITABLE RELIEF.

6. There has been no sudden accession of numbers that I have heard of. Doubtless, an increase must be expected in the present and two following months. The Calcutta Committee have signified their wish that assistance should be liberally given to the more respectable classes, as well as the destitute, leaving the method of distribution to the discretion of the local officers and committees, according to the varying circumstances of cases. This desire of the Committee will be made known to all the officers concerned.

*Comparative Statement showing the average monthly prices for coarse rice ruling in 1866 and in 1874, compared with the average of five intermediate years, from 1868 to 1872.*

E. W. MOLONY,  
Commissioner of Division.

No. 89—S.R., dated Burdwan, the 3rd June 1874.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division,

To—The Secretary to the Government of Bengal, Scarcity and Relief Department.

1. I HAVE the honor to submit herewith in original the district fortnightly narratives for the fortnight ending 1st June, and request that I and District Officers may be furnished with printed copies of them.

2. *Hooghly*—This report calls for few remarks. There has been heavy rain from the 24th to 30th ultimo in Hooghly, amounting to 3.74 inches, but it seems that in the interior the rainfall has been less. The crops are flourishing, and ploughing and sowing are going on briskly. It is reported that double the usual quantity of land will be sown in Serampore with early rice-crops. Wherever one goes, it is evident that high lands, which are only productive in very rainy seasons, have been prepared for a crop. Mr. Pellew observes that in some villages which were severely visited by the epidemic fever in former years, there are necessarily individual cases requiring relief; but he believes that the rain will remove all cause for anxiety in regard to the agriculturists who are able to work.

3. The comparative number of persons employed on relief works in the previous and current fortnight, as given in the Collector's report, are entered in the margin. There was a misprint in my last narrative of 5887 for 4887. The number employed on works executed from tucavee advances has risen from 1532 to 1822.

4. Large quantities of rice are being exported from the Hooghly, Chundernagore, and Mugra Railway stations. The importations of Government rice had not commenced in Hooghly until the last working day of the fortnight under report.

5. The daily number of persons receiving charitable relief was as follows:—

	Present fortnight.		Previous fortnight.
Men ..	..	626	452
Women ..	..	1878	1290
Children ..	..	1180	641
Total ..	..	3884	2383

6. I have little to add to Mr. Pellew's remarks with reference to the Government Circular order No. 3246—S. R. There are a number of helpless persons, the relics of families which were almost annihilated by the Bengal epidemic fever (now known under the misnomer of the Burdwan fever), which laid waste some of the finest villages in Hooghly during the last ten years. According to the late census statement 6, class 7, the beggars and paupers in Hooghly and Howrah were 5,750 males and 4,269 females in number, so that charitable relief is still within very moderate bounds in comparison with these figures.

7. *Beeerbhoom*.—The report of the Collector is more cheerful. The rain has produced most beneficial results, and the Collector thinks that distress has reached its climax; and there has been a lull in the outbreak of robbery and dacoity, which have been the subject of my special report to Government. There has been also a downward tendency in the price of grain.

8. The average daily number of persons employed on relief works was 10,374 during the current fortnight against 7,717 in the previous fortnight. The Collector states that the numbers have been somewhat reduced since the change of weather, but the statement shows that the actual number of persons employed on the last day of the fortnight was 11,003.

9. The exports of grain by Railway amounted to 7,024½ maunds. 1,000 maunds of Government grain were expected to arrive at the Bulpore station on 29th ultimo.

10. The total number of persons in receipt of daily charitable relief on 23rd May was 9,803 during the fortnight under report against 5475 of the previous fortnight. A classified statement is given in the Collector's Appendix Return V with reference to Government Circular Order No. 3216—S.R. According to the census returns the beggars and paupers in Beeerbhoom numbered 4,310 males and 2,188 females, total 6,498, so that the total 8,098 of the recipients of daily gratuitous relief in rice is in excess of those figures.

11. *Bankoorah*.—In this district also there has been a good rainfall, and the Collector remarks that, whereas during the preceding week things looked very gloomy, there is now a change for the better, and the people seem more hopeful for the future.

12. It is to be regretted that the talookdars and others are so reluctant to come forward to take advances for their ryots. It is very clear that if advances are made direct to ryots the Government chances of payment are very small, as the local creditors of the ryot will doubtless attach the crops before the agency that Government can employ can reach them. The only chance which Government has of recouping itself will be by the introduction of some procedure similar to that provided by sections 10 and 23 of Act X of 1871, the Road-Cess Act, as I have already suggested demi-officially.

13. The daily number of labourers employed during the fortnight was 3,188 against 2,947 in the previous fortnight. The Collector states that he is procuring returns of the number of labourers employed on private works, by which I presume that he refers to the works carried on by tucavee advances.

14. Government grain to the amount of 1000 maunds has been received during the fortnight, and is being judiciously utilized by the Collector and the Executive Engineer. The Collector has very properly sent on a second consignment of 1,000 maunds to the relief of those parts of Manbhoom which are more accessible from Bankoorah than from Purulia, and he has indented for further supplies for the Bankoorah district.

15. The total number of persons receiving daily charitable relief appears to be 9,047 against 8,073 in the previous fortnight. The Collector has endeavoured to supply the information required by the Government Circular order No. 3216—S. R., but it cannot be given with much accuracy at present. According to the census, the beggars and parpers in Bankoorah numbered 2,444 males and 624 females, so that there are a large number of persons outside of this class receiving charitable relief.

16. *Burdwan*.—The Collector has, as usual, submitted an abstract of the sub-divisional reports, with a few brief remarks of his own. The rainfall seems to have been general throughout the district, although less rain had fallen in the Jehanabad sub-division than in other parts of the district. The Collector has offered a tolerably confident opinion on the state and prospects of the district in the final part of the 2nd paragraph of his report; but I think it will be safer to await the results of another fortnight before attempting to arrive at any definite conclusions.

17. The statement of the daily number of persons employed on relief works shows a total of 14,178 for the fortnight under report against 8,985 of the previous fortnight. The Collector will be requested to give some explanation of this large increase.

18. The export of food-grains from the district amounted to 27,887 maunds during the fortnight. The import of 50,000 maunds of Government rice destined for Manbhoom does not really concern Burdwan. Three thousand maunds of Government rice have been received for the use of the Burdwan district, of which 800 maunds have been despatched to Cutwa for storage.

19. In the district of Burdwan also, the talookdars appear to be averse to make use of concession G, for obtaining advances for their ryots; and the Collector's account of the disinclination of the ryots to combine collectively for this purpose is instructive. I would also invite attention to the statement that an application for an advance was made with a view to apply the money to the worship of an idol! The offer of the Government grain is apparently having a wholesome deterrent effect on applicants who are not really in absolute need of advances. To those to whom advances are really necessary, I would apply the same protection for the interests of Government as has been suggested in Bankoorah.

20. *Charitable Relief*.—The Collector has made no attempt to give the information required by Government Circular Order No. 3216—S. R. The Statement No. 5 shows a daily total of 14,551 persons relieved against 14,169 of the previous fortnight, of these persons 3,200 are fed at the cost of His Highness the Maharajah of Burdwan. The census returns show the beggars and paupers of Burdwan as numbering 14,033 males and 4,997 females, so that the number relieved is well within the limits of the ordinary pauperdom and mendicancy of the district.

21. The narratives for Howrah and Midnapore will be forwarded as soon as they are received.

No. 112, dated Hooghly, the 1st June 1874.

From—T. H. PELLEW, Esq., Offg. Collector of Hooghly,

To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit the narrative for the fortnight ending 30th May 1874.

#### A.—STATE OF THE COUNTRY.

2. There is no scarcity of grain in the bazars, although the hâts and bazars in thana Kristonuggur have to get their supply from Ampta.

3. *Kind and price of grain selling at certain specified marts*:—

1	2	3	4	5	6					
Names of principal marts.	QUANTITIES PER RUPEE BY THE SEER OF 80 TOLAHS.									
	Wheat.		Barley.		Rice, best.		Rice, common.		Gram.

Serampore ...	12	12	16	20	8 8½	8 9	12 13	12 13	13 14	13 14
Ohanditolah ...	...	...	...	...	0½ 0	11 0	13 0	13½ 14	13 0	11½ 0
Boidyabatty ...	13	13	17½	17½	8 0	8 0	12½ 0	13½ 0	13 0	14 0
Bhudreear ...	12	13	16½	17	...	...	12 12½	12½ 13½	14½ 0	14½ 0

From this it is clear that the price of common rice has risen one seer in the rupee in the

southern portion of the district. I find also from police reports that in thana Kristonuggur, coarse rice is selling 11 seers in the rupee.

4. *Information as to the kind and price of rice in the hands of zemindars and traders, &c.*—Same as in previous reports.

5. *Rainfall if any.*—At the sudder station and at Dhunyakhally, 22 miles to the westward, it rained on the dates as per margin. The storm of the 30th at Hooghly was a very sudden and heavy one, 2·80 inches fell at the sudder station in less than three-quarters of an hour. It rained more or less during the fortnight in all the thanas of this district except in Huripal, where there was no rain. Generally, it may be said that the fall in the east was greater than in the west of the district.

	Hooghly.	Dhunyakhally.
24th	·15	Nil
26th	·48	·21
27th	·28	·53
29th	·05	·42
30th	2·80	·0
Total ...	3·74	1·15

6. *State of the crops.*—Aous, or early paddy, and the seed-beds of amun, or late paddy, have been and are being sown in a few places in all the thanas of this district. The late rains have done it good. It is reported that in thana Serampore, about double the quantity of land which is usually sown with early *dhan* will this year be sown with it. But rain is much wanted to keep it alive. In thana Bullaghur, *jola dhan*, sown on the bank of the Hooghly, has been harvested; sugarcane, *til*, *patal*, *uckchay*, *kankur*, *jlunga*, water-melon, pumpkins, &c., which were dying for want of rain, have been refreshed by the late rains. The ginger, onion, *huldi*, which have been sown, have mostly failed to germinate for want of rain. Lauds are everywhere being ploughed for the cultivation of early and late rice.

7. *Condition of the people.*—I yesterday examined the country extending in a straight line for 22 miles west of Hooghly. Over a large part heavy rain had fallen, and ploughing and sowing both early rice and the seed-beds of late rice was going on. In some fields the rice was visible above the ground. The mango, jack, and plantain trees on either side were covered with fruit ripe or nearly ripe.

8. From the large quantities of castor-oil cake manure being transported in carts from the banks of the Hooghly to the interior, and the large quantities being spread over the ground, it is clear that the condition of the peasantry generally is by no means desperate. Potatoes, mangoes, and mustard were being transported from the interior towards the towns on the Hooghly, and the mass of the peasantry doubtless subsist on the profits of such trade and that in vegetables, plantains, jack-fruits, &c. The road was lined with people going to and from the Hooghly and Chandernagore Sunday-market. Beyond 12 or 14 miles this traffic naturally diminishes but does not cease.

9. In some villages, specially those in which fever has been severe, there are individual cases requiring relief amongst people formerly supported by the charity of distant relatives or rich natives, but who, hearing that organized measures of relief have been taken, have ceased to assist them.

10. In certain villages also, where the zemindars are poor, a certain amount of assistance to the ryots may eventually prove necessary, specially if a full supply of rain be denied; but I believe rain will remove all cause for anxiety in regard to the agricultural population who are able to work.

11. *Grain theft.*—Five cases of grain theft have been reported—two from Serampore and three from Hooghly. Of the two reported from Serampore, one is pronounced false by the Police, and the other, in which a burglar made his entrance by cutting a hole in the wall, and stole away Rs. 5 worth of grain, is still pending with the Police. In one of the three reported from Hooghly, paddy of the value of Rs. 16 has been stolen from a granary; in another, eight annas worth of rice has been stolen from a shop; and in the third five annas worth of rice has been stolen from a kitchen. The thieves have not been traced.

12. *Condition of Special tracts.*—There are no tracts which can as yet be said to be in a specially distressed condition.

13.

30. *Separate chapter under Circular No. 3216—SR., of the 19th May.*—The orders of Government were received too late to enable me to obtain separate figures for relief under heads B., C., and D., from the voluntary unpaid sub-committees whose agency is alone employed in this district. Moreover, no Government grain has been received during the fortnight, and all relief has been in money.

31. What has been done is as follows :—Over every ten to fifteen villages in the district a voluntary unpaid sub-committee has been entrusted with the task of

\* These are small serais for the relief of travellers.

searching out distress in any form and reporting to the District Committee. These Committees generally proceeded to visit each village and draw up lists, in concert with respectable residents, of all by whatever cause or in whatever position who were unable to maintain themselves.

32. According to their reports, funds were supplied to the local Committees for relief. Weekly reports and accounts were demanded and have been received with fair regularity from most of the Committees.

33. Endeavours have from time to time been made to induce the Sub-Committees to substitute relief under head C. for that under head B. Some Sub-Committees have responded to these endeavours, but others allege their inability to do so. Considerable trouble is involved in giving labour, and hence there is a difficulty.

34. Until the 20th May it was not understood that it would ever be necessary to give separate figures under heads B., C., and D. I have now, however, ordered the distinction to be made in future, but it will take some time before the Sub-Committees, who are not, as a rule, accustomed to drawing up statements, will thoroughly understand the meaning of the orders.

35. There is, however, little doubt that at least half of the men relieved and three-fourths of the women and children come under head D. as explained in paragraph 3 of the Government circular, viz., "women, children, weakly people of high castes, Brahmins and others, who from mishap or social usages are unable to come upon the Government relief works." In this district, as has before been explained, a large number of persons—old widows, young boys, fever and spleen-stricken persons of both sexes and all ages—are to be found, the only surviving members of what were once large families of fairly prosperous agriculturists, traders, and others, which have been broken up and ruined by the ravages of the Hooghly epidemic fever. In certain villages half the population are more or less in this condition. They are unable to work properly, they have given up their lands or trades, and drag out a miserable existence by gradually selling off their family goods. The funds of the Committee are freely spent upon such persons.

36. It is, however, somewhat difficult to distinguish the more forlorn of these from the class of professional beggars, crippled and helpless poor of the lower orders, in which class many of them have long ago become mingled.

37. The following remarks of the inspecting relief officer on the condition of the village of Mandra will illustrate what I have stated above:—

"The recipients of relief here have, with few exceptions, *if any*, been suffering from malarious fever. It must be a matter of satisfaction to the District Relief Committee to learn that the measures of relief work which they have organized have kept alive upwards of 100 people who, without such aid, would ere long have perished \* \* Nowhere, I believe, are so many deserted houses as in Mandra \* \* Many a young man and woman are gratuitously relieved here, and I did not insist upon the Sub-Committee to make them work which have hardly time and ability to do on account of fever."

38. It must be remembered that in this district it has been found necessary for several years past to supplement private charity by organized relief in the shape of the distribution of money, food, clothes, and stimulants. The effect of high prices was still further to diminish private benevolence and has thrown these sufferers on the Committee's hands.

No. 207, dated Soory, the 1st June 1874.

From—R. D. HIME, Esq., Offg. Collector of Beerbhoom.

To—The Commissioner of Revenue, Burdwan Division.

I HAVE the honor to submit my district narrative for the fortnight ending 30th May.

#### A.—STATE OF THE COUNTRY.

Matters seem to have reached their climax, and with the favorable change in the weather last week, there appear signs of a change for the better, indicated by a slight fall in prices, a more hopeful tone of public feeling, a lull in the outbreak of robbery and dacoity, which characterised the first ten days of the fortnight, and the re-appearance of a chowkeydar, returning, like the first swallow of summer, to his chakran lands. Pauperism has seriously increased during the fortnight, and I fear cannot be expected to decrease till the beginning of September, when, if the crops promise well, a heavy fall in prices may be looked for as holders will be anxious to dispose of their stocks before the new rice comes into the market. I do not, however, expect any serious increase of pauperism during the intermediate months, distress having now, I think, about reached its worst, and the renewal of agricultural operations promising a turn for the better. Rice is readily procurable at the current market rates in the principal bazars (*vide* appendix 1), though still scarce or unprocurable in many villages, and, where procurable, generally sold one seer dearer than in the bazars. Four grain-robberies have occurred, but no death from starvation has been brought to light, and the relief agency continues to cope successfully with distress. Cholera and small-pox still prevail, causing a lamentable mortality, but shew some abatement in virulence during the last few days.

#### B.—RELIEF WORKS.

Two new relief works have been commenced during the fortnight, viz., the construction of the Mullarpore—Andee road (No. 21), and kunker-cutting for the Bulpore—Surool

road (No. 22); the number of laborers on district works of all kinds is given in form C. Since the change in the weather last week, the numbers have been somewhat reduced.

C.—TRANSPORT OF GRAIN.

Exportation continues, 7,024½ maunds having been exported during the fortnight under review against 8,062½ maunds of the preceding fortnight. Simultaneously some importation of rice from Moorshedabad into the eastern part of this district is reported.

D.—STORAGE OF GRAIN.

One thousand maunds of Government rice were expected at Bulpore on the 29th ultimo, and the necessary arrangements for storage were complete; 500 maunds of this rice will be at once purchased on account of the charitable committees, and the remainder distributed in advances to zemindars under concession G. (*vide* Appendix Return II.)

E.—ADVANCES TO PRIVATE PARTIES.

Are shewn in appendix return III.

F.—CHARITABLE RELIEF.

*Vide* appendix returns IV and V. Since last report four new relief-houses have been opened at Ryepore, Shahjapore, Srinidhipur, and Ramnugger. The expenditure up to date amounts to Rs. 20,576-4-10½.

G.—FINANCIAL RESULTS.

Up to date Rs. 59,725 have been drawn from the Treasury on certificates granted under Act XXVI of 1871. Rs. 41,972, have been placed to credit of the Executive Engineer for relief works; Rs. 4,000 have been advanced to Messrs. Farquharson and Campbell of Ilambazar; Rs. 2,000 to Mr. Jones of Gonatea; Rs. 750 to Baboo Kishuree Mohun Roy of Naguree, and Rs. 75 to the Munduls of Kuliara for the construction of roads chargeable to relief; Rs. 1,114-6-6 have been expended on the excavation of the Rajah's tank, and Rs. 4,615-8 placed to credit of the charitable relief fund on account of the Government subscription.

## APPENDIX RETURN II.

*Statement showing the storage and consumption of Government Grain in the District of Beerbhoom for the fortnight, ending 30th May 1874.*

- 1.—Name of circle, Beerbhoom.
- 2.—Date for which figures are given, commencing 30th May, the date on which the first invoice of Government grain was received.
- 3.—Total allotment of Government grain, 1,000 maunds, and 1,000 maunds per week till further orders.
- 4.—Total quantity of grain stored, exclusive of grain transferred to other districts, 1,000 maunds, less loss in transit.

*Total quantity of grain consumed up to date.*

- 5.—By sale to the public or to laborers, none.
- 6.—By gratuitous distribution in any shape, none.
- 7.—By advances to ryots, none.
- 8.—By payments in kind to laborers, none.
- 9.—Total, none.
- 10.—Estimated grain receipts of the ensuing fortnight, 2,000 maunds.
- 11.—Estimated grain expenditure of the ensuing fortnight, 2,000 maunds in charitable relief, and advances to zemindars under concession G.

## APPENDIX TABLE III.

*Statement showing the Number of Applications under the Land Improvement Act XXVI of 1871, up to 30th May 1874.*

Ditto of certificates drawn ...	...	...	172	59,725

## APPENDIX, STATEMENT IV.

*Statement showing the progress of Charitable Relief in the District of Beerbhoom, for the fortnight ending 30th May 1874.*

Number of committees and sub-committees as yet appointed ...	9
Number of special relief sub-divisions opened and officered ...	19
Number of regular relief circles opened and manned by special officers ...	12
Number of relief circles opened and manned by planters, zemindars, and other residents ...	10
Number of work-houses or centres for the distribution of food and gratuitous relief ...	20
Number of men, women and children (with total) in receipt of gratuitous relief in any shape, through the charitable relief organisation, daily ...	9,801

REMARKS.—Of the total number of recipients of charitable relief, 542 are weavers, and 1,151 women, the former receiving advances of money and thread, the latter of money and cotton, which they spin into thread supplied to the former.

## APPENDIX RETURN V.

*Statement showing the number of persons relieved up to 23rd May 1874, submitted with reference to Government No. 3216—S.R. of the 19th May 1874, paragraph 5.*

B				Rs. A. P.		
Total number of meals given up to 23rd May 1874, i.e., persons fed for one day ..	..	..	1,77,142			
Total number of persons receiving gratuitous relief in rice at present ..	..	..	8,098			
Total cost to date ..	..	..	..	9,402	15	7½

C

Total number of weavers and spinners supplied with thread and cotton and advance .. ..	1,693		
Total cost to date .. ..		6,812	3 9

D

Total number of families under heading <i>d</i> ..	12		
.. cost to date .. ..		34	12 6
.. number of persons in receipt of relief on 23rd May .. ..	9,803		
.. of all cost up to date under all heads ..		16,339	15 10½

REMARKS.—The persons relieved under heading *b* are of the lower class, beggars, day-laborers and the like principally, including many persons disabled by sickness or infirmity; those relieved under heading *c* are of a better class, professional weavers thrown out of employment by the stagnation of trade, and distressed women, many of them widows of the cultivating and other lower middle classes to whom advances of thread and cotton for weaving and spinning are made; these are on task work, and paid according to their work. Twelve respectable distressed families receive gratuitous monthly allowances of food or money under heading *d*; no action has been taken under heading *a*.

R. W. HIME,  
Officiating Collector.

No. 358, dated Bankoora, the 1st May 1874.

From—W. R. LARMINIE, ESQ., Officiating Collector of Bankoora,  
To—The Commissioner of the Burdwan Division.

I HAVE the honor to submit my report for the fortnight ending 1st June 1874.

STATE OF THE COUNTRY.

2. Prices have remained nearly stationary since my last report, and are as follows:—

Prices in different places.

	Wheat.	Barley.	Rice, best sort.	Rice, common.	Gram.
	M. S. C.	M. S. C.	M. S. C.	M. S. C.	M. S. C.
Bankoora ..	0 13 0	0 21 0	0 10 10	0 12 8	0 14 4
Bishenpore ...	0 13 0	0 20 0	0 11 0	<sup>Coarse.</sup> { 0 13 12 } 0 13 8	0 13 0
Chatua ...	0 13 8	0 18 0	0 12 8	0 13 0	0 13 8
Andah ...	0 13 0	0 22 0	0 11 0	0 13 0	0 14 0
Gungajulghatty ...	0 13 0	0 18 0	0 12 0	0 12 8	0 14 0
Burjorah ...	0 15 0	.....	0 13 8	0 14 8	0 16 0

3. I had hoped that the rain would have cheapened the food-grains, but there has been no change in consequence. The supply is sufficient in the greater part of the district. There was a temporary scarcity in the west of Chatua, near the borders of Manbhoom, but I was able to meet the want by sending for sale about 40 maunds of rice which had been husked by the women receiving relief and which was over and above what we required for gratuitous distribution.

4. I have been making special inquiries as to the supply of seed-grain. As far as I have been able to ascertain there is sufficient in the district to meet the requirements of the year, but there are many ryots who have got little or none, and it may become necessary in giving advances of grain to cultivators to buy seed-grain from those who have more than they require. As a general rule, ryots keep their own seed-grain, and seldom trust to mahajuns for its supply.

5. There has been rain all over the district during the last week, more than 2½ inches at head-quarters. Ploughs are to be seen everywhere at work, and in some places the sown seedlings are above ground. During the preceding week things looked very gloomy, but there is now a change for the better, and the people seem more hopeful of the future.

6. The mahajuns and others are now making advances more generally, but only to those who have paid up their debts. Most of them decline even to take advances from Government to supply defaulters, so that if we relieve those who really need it by advancing grain, our chance of repayment becomes very small; for the local creditors would doubtless attack the crops before we could, and thus leave the ryot without the means of refunding what he borrowed from Government. I have granted some applications from talookdars, but the general feeling seems to be that there is no use in throwing good money after bad.

7. I am doing all I can to influence the talookdars in favour of their ryots, but in the end, I fear, we must advance directly to many. The western portion of thana Chatua is in this respect as bad as Moheshra. Sonthals, who are notoriously improvident, being very numerous in that quarter of the district.

8. The granting of advances will, however, be the cheapest method of giving relief. If the poorer ryots cannot cultivate their lands, we must support them for an indefinite period; and even though a large percentage of the grain lent be lost, it is better to place them in a position which will enable them permanently to support themselves than to continue feeding them from day to day.

9. All apprehensions of a water famine have now ceased.

10. Distress is showing itself more distinctly amongst the manufacturing classes, and the higher castes are demanding relief in somewhat larger numbers. I have no doubt that it is now well-known throughout the district that relief can be had wherever required, and there are very few, I think, who hesitate to make their wants known in some way or other.

11. During the fortnight under report 127 coolies with 78 dependents have been registered as emigrants for the tea districts.

12. One grain dacoity has been reported from Bishenpore thanna. It appears to be a true case, but is of a trifling character, only Rs. 12 worth of property having been stolen.

13. No cases of starvation have been brought to light.

14. The labour report shows a slight increase in the number employed on relief works. This is due chiefly to the transfer of labourers to new roads, mentioned in my last report, having been completed.

15. I have taken steps to procure the information called for regarding the number of labourers employed on private works. Eight tanks have been reported as complete.

#### TRANSPORT OF FOOD.

16. Importation both of cleaned and unhusked rice continues. Exportation is said to have become rather slack.

#### STORAGE OF GOVERNMENT GRAIN.

17. Delivery was taken during the last week of the first instalment of Government grain, viz., 1,000 maunds. I have selected four places for storage of large quantities, viz., at Meja, Sattora, Gungajulghatty, and Bankoora. The various relief centres will be supplied from these. The grain received seems to be all partially unhusked. We will therefore be able to supply those employed in husking with work in cleaning it. The cleaned rice will then be used either for gratuitous distribution, or will be sold to the labourers on relief works. Most of our roads are being made by contractors, who are bound under certain conditions as to minimum rates, &c. The Executive Engineer reports that he has made arrangements with these contractors to distribute to the labourers, at the rates specified, the necessary amount of grain. As the works are constantly inspected, any attempt at raising the price would be at once brought to light, and the labourers have in many places expressed their wish to have rice brought nearer to their work. We will of course erect golahs and deliver the grain at our own expense.

18. The second instalment of 1,000 maunds is being delivered at Raneegeunge today. In consequence of the urgent representations of the Deputy Commissioner of Manbhoom, I will send the whole consignment to Raipore. I have already asked you to indent for a further supply, which will, I hope, reach me before what I have received is exhausted.

19. Next report will give a regular statement as required, showing storage and consumption.

#### ADVANCES TO PRIVATE PARTIES.

20. No further inquiries have been made into applications for tucavee advances. The total sum actually drawn is Rs. 49,061, and a further sum of about Rs. 3,500 will probably be expended. As inquiries have been most carefully made throughout both, as to the security offered and the benefits likely to arise from each work, the act may be considered, I think, to have worked very satisfactorily.

21. Advances of grain have been sanctioned to the amount of about Rs. 2,000, and inquiries are being continued.

#### CHARITABLE RELIEF.

22. The numbers of persons receiving gratuitous relief shows a further increase, which would have been still greater had not a very close supervision been exercised over some of the sub-committees. Besides these, there are 1,153 engaged in work for which they are paid by the sub-committees. Nearly 900 weavers, &c., have received advances up to date.

23. *Special section showing total amount of relief given, and its nature.*—It is not possible without examining every register of every sub-committee to state accurately the total number of persons who have received gratuitous relief, but an approximation sufficiently near the mark has been obtained by adding together the maximum number relieved on any one day at each centre. The total thus calculated is 14,119, whereas the daily number now relieved is 9,047. The difference is partly due to the fact that nearly all the sub-committees, at one time or other admitted to gratuitous relief persons capable of doing some works such persons being subsequently profitably employed. Sub-committees also, in many instances, relieved persons whom the inspecting relief officers afterwards struck off from the lists. Advances have been made to 880 persons for weaving, spinning, &c.; 518 persons have been employed in husking paddy; and 217 persons are employed in light works. One hundred persons relieved under heading D.

24. The total cost up to date is Rs. 14,804-9-10, being Rs. 8,051-9-10 under heading b, Rs. 6,703 under heading c, and Rs. 50 under heading d.

25.

W. R. LARMINIE,  
Offg. Collector.

BANKOORA COLLECTORATE,  
The 1st June 1874.

No. 419F.R., dated Burdwan, the 1st June 1874.

From—E. H. WHINFIELD, Esq., Offg. Collector of the Burdwan Division,

To—The Commissioner of Revenue, Burdwan Division.

I HAVE the honor to submit the fortnightly narrative for the Burdwan district due to-day.

A.—STATE OF THE COUNTRY.

The Raneegunge sub-divisional officer reports that the supply of rice at Raneegunge has been slightly less but still sufficient, some 7,650 maunds having been dealt with. That the importation from the south will soon be checked by the rise of the Damoodar; that prices are slightly higher in the west of the sub-division but lower in the east, ranging from 11 seers good rice, to 13 seers 8 chittacks coarse rice per rupee; that seed-grain is obtainable at 20 seers the rupee (which seems a high price), but the prices at which this is sold in the bazars are not an exact sample of the prices ruling in the villages; that little or no seed-grain has been eaten, and the information received as to the stocks in hand is reassuring. That 2·24 inches of rain have fallen; that both aous (in Kaksa) and amon rice are being sown; that the planting of sugarcane has been almost finished, and the standing cotton and til crops are doing fairly well; that no change has occurred in the condition of the people. That no cases of starvation are known to have occurred, and no cases of distress to have remained unrelieved; that there is no real distress among the cultivators as a class; that cholera is very bad indeed, and three additional native doctors have been deputed by the civil surgeon to treat it. That small-pox has disappeared; that thefts are commoner than usual; that no emigrants have been registered, and that applicants for employment on the works near Raneegunge are few.

The Bood-bood sub-divisional officer reports that the supply of grain in the bazars is abundant; that the price of good rice is 11 seers 12 chittacks the rupee, and that of common rice 12 seers 10 chittacks; that the supply of seed-grain is deficient, though the traders are supposed to hold large stocks. That 1·58 inches of rain fell on the 22nd, 26th, 26th and 27th ultimo, which has done much good to the standing crops (cotton and til) and facilitated sowing; that sowings of both tora (aous) and amun rice are progressing. That additional relief measures are required in a group of villages round Potenah and Sharool, which lies at the distance of about 4 miles from the Mullickpore and Gulsec food depôts, and that distress prevails in this part but no cases of deaths from starvation are reported.

The District Superintendent of Police reports that the supply of grain in all the bazars in the Sudder sub-division is abundant; that good rice is obtainable at 11½ to 12 pucca seers per rupee, and coarse rice at 12 seers to 14 seers pucca; that paddy is obtainable at 22½ pucca seers per rupee, and biri kalai at from 12 to 15 seers; that the stocks in hand are believed to be considerable; that 3·5 inches of rain have fallen during the fortnight which has done great good to the cotton and sugarcane; that paddy sowings are going on, that no deaths from starvation have occurred, and that there have been no grain-thefts except in Sahibgunge.

My own opinion about the Sudder sub-division is, that there is a certain amount of distress in thana Sahibgunge, and that distress is beginning to make its appearance in Khundughose, south of the Damoodar. The village sub-committee of Gopinathpore in the latter thana, reported two deaths from starvation last week; but on immediate enquiry being made it turned out that they were deaths from fever. These village sub-committees, as a rule, write their reports in a flowing style, and are prone to attribute any death that may occur to starvation. But there is no doubt as to the existence of some distress in this quarter, and measures have been taken to relieve it. The allegations as to the impossibility of getting rice, which came in so thickly from some villages in the east of Sahibgunge some weeks back have now ceased; and I believe that the truth was simply that consumers were not willing to pay the prices asked. I think so for the reason that when the committee started a relief work in Sahibgunge, whereon the laborers were to be paid in rice instead of in money, the coolies at once turned round and said they would rather have the money.

The Cutwa sub-divisional officer says that prices have risen. Rice is now selling at Cutwa at Rs. 3-12 per maund, and in the interior at Rs. 4 per maund, and paddy at Re. 1-15 to Rs. 2-2, but that there is a good supply of grain. That the mahajuns on learning that Government grain was to be stored in Cutwa, at once began exporting to Moershadabad in considerable quantities; that there is no doubt the village mahajuns hold considerable stocks which they are holding in expectation of a further rise of price; that the stock of seed-grain in the hands of substantial ryots is sufficient; that during the fortnight 3·67 inches of rain fell at Cutwa, and the rainfall in the interior was equally heavy. That the outturn of til will not be more than 4 as., but sugarcane has made a very fair start, and aous paddy is being sown extensively; that the condition of the people is about the same as before reported; that cases of real distress and suffering have come to light, and the number of applicants for gratuitous relief is increasing.

The Oulna sub-divisional officer reports that the supply of rice in the bazars is abundant; that prices range from Rs. 3-3 to 3-6 a maund, and paddy for seed sells at 20 to 25 seers the rupee; that the stocks in hand are believed to be considerable; that 1·27 inches of rain fell at Oulna during the fortnight, but more is wanted. That the cultivators are busily engaged in ploughing the lands and sowing aous-paddy, jute, and sugarcane; that the middle classes are well off, but the poorer classes are distressed. That cholera and small-

pox still linger here and there; that no deaths from starvation have come to notice up to the present time; that no grain-thefts have occurred, and no emigrants have been registered.

For myself I do not believe in the existence of any serious distress in Culna. Every test applied seems to negative it. Thus on the Buddipore and Boinchoe road, local labor is simply not obtainable; and the Executive Engineer tells me that the Buddipore zemindars have to pay their coolies as much as 4 annas a day to induce them to work. Similarly Mr. Miller tells me the Moharajah had to stop work on his large tank in Culna for want of hands.

The Jehanabad sub-divisional officer states that the weather has been unsettled throughout the fortnight, but only 80 inches of rain fell at Jehanabad; that more rain is wanted; that rice is freely obtainable everywhere; that prices have slightly risen and now range from 12 to 15 picea soers the rupee. That mahajuns still hold considerable stocks; that seed-grain is abundant and sells at about 22 soers per rupee; that the til, cotton, and sugarcane now on the ground will be benefited by the recent rain; that there has been no deterioration of the condition of the people; that cases of cholera have been reported from the neighbourhood of Sanknara, whither the Assistant Surgeon has gone to treat them; that no deaths from starvation have occurred; that one grain-theft occurred, but it was not due to pressure of want, and that no portions of the sub-division are in a specially distressed condition, though cases of distress amongst beggars and the like turn up here and there.

Now that five months of the year are over, and we are well advanced into the period estimated to be that of the greatest pressure, I think it may be asserted with some confidence, *first*, that the alarmist predictions of those who, in the cold weather asserted that all the stocks would be exhausted by this time have been conclusively refuted by the actual events; *second*, that the scarcity and distress of the present year are not nearly so great as in 1866; and *third*, that provided the relief operations be continued on the present liberal scale, and provided the rains do not again fail, there is no well-grounded reason at all for apprehension in regard to the future.

#### B.—RELIEF WORKS.

3. These are shown as usual in statement No. I. The Rancegungo sub-divisional officer says the number of laborers on the two works in his charge is very small, which would show that those works, under the present restrictions, do not any longer afford any just cause of complaint to private employers of labor in Rancegungo. The Bood-bood Deputy Collector has also two works in his charge, giving employment to over 800 men a day. The Cutwa Deputy Collector has seven roads in his charge whereon work is now being done by about 1,000 coolies daily. The Culna sub-divisional officer is carrying on work on five roads, but the total number of laborers is only about 150. The Jehanabad Deputy Collector has a number of Chowkedary Union roads on hand, employing some 350 coolies daily. All the other road-works are in charge of the Executive Engineer. All the work done is paid for by the piece, the slight experience gained of daily wages having been ominently unsatisfactory. In the case of one work, the cowrie plan of payment has been adopted by the Cutwa relief superintendent, who says it requires a great deal of supervision.

#### C.—TRANSPORT OF FOOD.

4. The railway returns for the weeks ending 16th and 23rd May shew 27,887 maunds exported, and 54,524 maunds imported; but about 50,000 maunds of this was the Government rice brought to Burrakur for Manbhoom. About 10,000 maunds are reported to have been imported into Culna during the fortnight, and importations from Midnapore and the south still continue to be made into the southern sub-divisions.

#### D.—STORAGE OF GOVERNMENT GRAIN.

5. Nearly 1,000 maunds of Government grain have been received and stored in one of the railway buildings at Kanoo Junction, and advice of the despatch of about 1,000 maunds more for that place has been just received. Also about 1,000 maunds have been received at Burdwan, 800 whereof have been despatched to Cutwa for storage, and the rest has been sent to Narigram and elsewhere. The district committee have also stored rice at Burdwan and in Culna for their food depôts. The Government grain has come within the last few days only, and hence the statement required by Government letter No. 3369—S.R., dated 26th ultimo, cannot be filled up as yet.

#### E.—ADVANCES TO PRIVATE PARTIES.

6. Advances applied for and granted under the Land Improvement Act are shown in Statement II, and those to zemindars and ryots under concession G. of circular No. 175—S.R., dated 17th January, and His Honor the Lieutenant-Governor's Minute of 20th April last in Statement III. We are not disposing of the applications of the latter class as quickly as could be desired, for reasons indicated below. The Rancegungo sub-divisional officer says these applications are made in moderate numbers, but there is great difficulty in getting the applicants to put them into a definite shape. The landlords, he adds, shew a marked reluctance to aid their tenants by taking these advances. In Bood-bood some 19 applications in all are under enquiry. In Cutwa a great many applications have been received, as also in the Sudder sub-division. As a rule, the talookdars will not take advances of this sort. When urged to do so they make the excuse that their

ryots are heavily in their debt as it is, and if they were to make them further advances it would be exceedingly doubtful if they ever recovered them. Then in the case of the ryots themselves, other difficulties present themselves. A very large number of applications is presented by single ryots for advances, but when they learn that advances cannot be made to each man individually, and that all the ryots in a village must take an advance together on their joint and common security, most of them draw back, as those who are better off than the rest do not like to risk their property to benefit their poor neighbours. This has prevented the ryots of even the worst villages, such as Joykristopore, from taking advances. I saw these men myself the other day and they were most clamorous for advances; but when an officer went to make the necessary arrangements, they drew back and said they would think about it. This result is satisfactory in one way, as it tends to shew that the need is not really so urgent as has been supposed; but at the same time I think some concessions ought to be made, and I have therefore, on my own responsibility, and in anticipation of sanction, issued orders that when this objection is raised, it will be allowable to make the advance on the security of those of the ryots who consent to give a joint engagement and security to repay it, excluding altogether the dissentients. It is needless to say that a very considerable number of applications are presented by persons who have not the slightest claim to such indulgence. In one case inquired into, the applicants admitted that they intended to apply the money to the worship of their Idol, Raghunathjee, and similar admissions have been made in other cases. The substitution of grain for money advances will have a good effect in checking applications of this sort. In some cases applicants, on learning that grain was to be given and not money, have at once declined to take advances.

#### F.—CHARITABLE RELIEF.

7. The particulars of this and of the expenditure thereon are given in statements IV and V. The relief of the distressed middle classes is effected by liberal advances to weavers in all sub-divisions except in Culna, where the sub-divisional officer says they refuse to take them, and by giving out paddy to be husked and cotton to be spun by the women. In Bood-bood, Rs. 39 worth of rice has been given during the fortnight to 134 persons of this class in the villages round Potenah, and money has been given in Rahana Paraz, Shirrai and Sharool, &c., to similar persons, who will in future be relieved by doles of uncooked rice from the new food depôts at Potenah and Sharool. In Cutwa, Rs. 478 worth of paddy has been given out for husking at home; and Rs. 50 were advanced to the sub-committees at Ketugram and Anukhona to give aid to purdanishin women. Other women of this class have been gratuitously relieved in money or grain in Cutwa, and a few in Burdwan. But in point of fact, these classes of people do not require relief, excepting in Bood-bood and Cutwa, and not there to any very great extent. During the fortnight a new food depôt for the distribution of uncooked food has been opened at Narigram in Khundoghose, and others are about to be opened at Gopinathpore, Potenah and Sharool.

**BURDWAN COLLECTORATE,**  
*The 1st June 1874.*

**E. H. WHINFIELD,**  
*Offg. Collector.*

No. 93—S.R., dated Burdwan, the 4th June 1874.

From—C. T. BUCKLAND, Esq., Commissioner of the Burdwan Division.

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

IN continuation of this office No. 89—S.R., dated 3rd instant, I have the honor to submit, in original, the fortnightly narrative for the district of Midnapore.

2. The Collector has not attended to the instructions conveyed in paragraph 5 of the Government Resolution of 25th April, in which he was informed that his reports might, with advantage, be made very much more concise. There is the usual tendency on the part of the Collector to make the most of everything that can be represented as distress; whereas, it is my opinion that, with the exception of those parts which have been visited by the epidemic fever, Midnapore has had a season of almost unparalleled prosperity. If there is no cessation of the rains, there need be no cause for any sort of anxiety about Midnapore on the score of exceptional want.

3. The census for Midnapore gives the paupers and beggars of the district as 18,998 males, and 6,273 females. The weavers in cotton are returned as 26,276 males, and 552 females, to whom may be added, 6,713 female spinners.

4. The number of laborers, shown as employed on relief works during the fortnight under heading B, is 9,367; of whom, 5,348 are employed on the ordinary embankment and canal works of the district, which leaves only 4,019 who can be properly described as employed on relief works. The daily average number of the recipients of charitable relief at the food-depôts is only 464, and the number of weavers to whom advances have been made appears to be 850. If there is any reliance to be placed in figures, these figures do not indicate anything like distress.

No. 106, dated Midnapore, the 1st June 1874.

From—H. L. HARRISON, Esq., Collector of Midnapore,

To—The Commissioner of Revenue, Burdwan Division.

I HAVE the honor to forward herewith the report for this district for the fortnight ending the 30th May.

#### A.—STATE OF THE COUNTRY.

2. The two weeks composing the fortnight have been very different in their influence upon the prospects of the district. During the week ending the 23rd May, and indeed up to the 25th, the rain held off, and the continued drought led to reports of distress pouring in from all quarters. The chief need was that of work. Our system of relief roads has been arranged to afford relief wherever there appeared likely to be a surplus laboring population; but the impossibility of carrying on the ordinary agricultural operations, combined with high prices, intensified the distress very much, and warnings came in from several reliable quarters among others from Mr. Rice, manager of Messrs. Watson and Co., in the western jungle mehals, that a crisis was impending, and unless work could be provided for the bulk of the population the worst might be feared.

3. Fortunately the rain came just in time, and just in the places where it was most needed. An inch of rain, more or less, has fallen over the whole of the north-west, and nearly as much over the north-east of the district, sufficient to enable all agricultural operations to be resumed, and to save the aous which had already been sown. It has also been sufficient to raise the Cossye fully two feet, and enable water to be given to the fields under lease to the canal, to whom the early and muddy water of the river is of great value towards securing a full crop.

4. The rain not merely gives employment to the greater portion of the population, but also improves their credit with the mahajuns and facilitates the procuring of loans of grain.

5. I have just returned from a six-day's tour in the thanas of Lalbung, Garbeta and Chundercona, visiting especially Garbeta and Chundercona. Both from reports of reliable persons, and also from examining the people myself, I am fully satisfied that the state of the northern portion of the district is this:—

6. There is little or no risk of actual starvation unless we are again visited by a prolonged absence of rain, which does not seem probable, but there is much more pinching and distress than in ordinary years. It is probable that the poorer classes in one-third of the district are living on one meal a day, and will have to continue to do so till the prospects of the new crop are plainly good. There is ample food and ample seed in the district, but many ryots have great difficulty in purchasing the latter, and the mahajuns are very slow to make advances. I have had several applications to advance seed to ryots supported by the Deputy Magistrate of Tumlook, and the Special Deputy Magistrate.

7. The question is whether, under these circumstances, any relief should be given. If no relief is given, the people will, I believe, pull through, but with a good deal of suffering and distress, and dacoities and thefts have been exceptionally numerous during the last six weeks. Still, I would, on the whole, recommend that no more be done than is being done, except in the way of providing labor. It appears almost certain that we shall work fully up to the liberal allowance we have had for the road fund. This will perhaps suffice if the

Previous fortnight	...	...	41	for	14,913
During fortnight	...	...	5	,,	2,700
Total			46	,,	17,613
Pending			45	,,	12,186

20. Of these eight have been recommended to you for sanction during the fortnight. The enquiries in the rest are not yet complete. Messrs. Watson and Co., oppose on principle every application for an advance in any of the pergunnahs in their hands i. e., two-thirds of the jungle pergunnahs.

## F.

21. Several difficult questions have been before the relief committee during the fortnight in consequence of the numerous applications for advances which have been made.

22. The tussur weavers of Anundpore have applied for advances, and both the Deputy Collector of Tumlook, and the special Deputy Collector, have independently recommended advances of seed-grain to be given to agriculturists.

23. The consideration of the question was deferred till my return from Garbeta and Chundercona, and it was then agreed that it was inexpedient, under all the circumstances, to comply with the request. Although very limited advances were asked for, not exceeding Rs. 2,000 in all, it might be accepted as certain that if once started, such applications would pour in, and would be urged on by the mahajuns who would be only too glad to be relieved of the charge of making advances in so unprofitable a year. It is certain that there is abundance of seed-grain in the district, and the committee considered it improbable in the extreme that any mahajun or zemindar would allow the land, to which he looks for an income, to remain fallow for want of seed.

24. For the present, therefore, the committee have restricted their advances to distressed cloth-weavers. Their circumstances are peculiar, as they have had in one year to contend against high prices and fever, with a constantly declining trade.

25. Four food depôts are open. Daily average:—

Chundercona	...	...	70	127	70	45	312
Radhanuggur	...	...	19	60	20	19	118
Kherpai	...	...	10	12	7	5	34
Rajnuggur	...	...	Returns not received.				

26. I visited the Chundercona depôt during the fortnight, and am satisfied that it is well and economically managed; 88 of the men and women are put to light labor, and the entire body of recipients are periodically overhauled, and such as are able-bodied are sent off to some of the relief works in the neighbourhood. Chundercona is by far the most distressed place in the district, and its relief is very well organised.

27. About 600 tantees in Chundercona have received advances, and about 500 more must have them. Those who have received, are paying back the sums advanced satisfactorily, and the accounts are clearly kept.

28. About 250 tantees in other places, chiefly Kherpai and Radhanuggur have also received advances of thread.

29. Of the 312 relieved at Chundercona, 27 came from places outside the town limits.

31. *Supplementary.*—With reference to paragraph 5 of Government orders No. 3216—S. R. of the 19th May, directing a special chapter to be devoted to shewing the actual expenditure under each of the three heads B, C and D up to the latest available date, I regret to say that the Tumlook report has not been received, and without it I cannot give the information. It is only recently that the distinction has been fully understood, and I must ask permission to defer precise figures till next report. Your covering letter only reached me on the 30th, two days before the despatch of this report.

32. Meanwhile all officers distributing relief have been directed to be specially liberal under head D, though I am happy to say that not much expenditure under that head will in any case be needed in this district.

33. The Garbeta report is annexed. The Tumlook report has not been received.

Dated Burdwan, the 6th June 1874.

Memo. by—C. T. BUCKLAND, Esq., Commissioner of Burdwan.

FORWARDED in original to the Secretary to the Government of Bengal.

No. 143, dated Howrah, the 3rd June 1874.

From—J. B. WORGAN, Esq., Offg. Deputy Collector of Howrah,

To—The Commissioner of Burdwan.

I HAVE the honor to forward the usual fortnightly narrative of the state of crops, present and prospective, prices of food, weather, and general condition of the people, up to yesterday's date..

2. The yield of the boro dhan crop, grown in thanas Khanakool and Ampta in the Mohesrakha sub-division, and in thanas Doomjoor and Juggutbullubpore in the Sudder sub-division, being the only *present* crop, was reported on in the last narrative. From the information then at my disposal, I was led to form a worse opinion of it in some respects than it perhaps deserved. I called on the Deputy Collector in charge of the Mohesrakha sub-division for a report of the careful enquiry about this crop, and I gather from what he says, that the very bad yield ascribed to the Khanakool thana was true only of the eastern portion of the thana. He puts it at 4 annas of a full crop. On the west, the crop is said to have been about 10 annas of a full onc. In the Ampta thana he reports that the crop has been a 4 anna one.

3. In the Sudder sub-division, I have no reason to modify the opinion expressed in my last report as regards thana Doomjoor; whilst as regards thana Juggutbullubpore, I learn from Mr. Reily, who saw the crop there about a month ago, and is in the constant receipt of information on the subject of crops throughout the district, that the yield may be put at the same figure as in Doomjoor, or about 4 annas of a full crop.

4. As regards the prospects of future crops, there is no doubt that the sowings have been much retarded by the unusual character of the weather. The last week, however, of May showed an improvement in this respect, six-tenths of an inch of rain having been registered at head-quarters; and I am glad to observe that the Superintendent of Police speaks of there having been a slight fall of rain throughout the district on the 25th and 26th ultimo. I gather from his reports that the people are sowing the aous, and preparing the land for the amun crop, but that much more rain is needed. The same is reported by the Deputy Collector of Mohesrakha, who adds that the aous is grown only in thana Ampta, and parts of thana Bagnon and Khanakool, and that the amun is the staple crop of the sub-division, consisting of the above three thanas, and thanas Shampore and Oolooheriah.

5. As respects the Sudder sub-division, four of its six thanas are town thanas. In the two country thanas, Doomjoor and Juggutbullubpore, I am informed that in the former, about half the land has been put under the plough, but scarcely any sown in the elaka of the station; whilst in the elaka of the Sankrail outpost, about 10 annas of the land has been ploughed and 2 annas sown. In the latter, about 4 annas of the land has been ploughed, and a small portion sown. The sowing is being kept back for rain.

6. Prices show by the last report received from the District Superintendent (up to the 30th ultimo), a tendency to improve in Shampore and Sankrail. In other places, they are unchanged, except in Ampta, where they have risen from Rs. 3-5 to Rs. 3-12-6 a maund for common rice, in consequence of the recently-reported drain upon the stocks there. The cheapest price is at Oolooheriah, where it is Rs. 2-11 per maund, and the highest at Ampta as above, as may be seen from the following:—

		Price of common rice per maund.		
		Rs.	A.	P.
Oolooheriah ..	..	2	11	0
Khanakool ..	..	2	13	0
Bagnon ..	..	2	13	0
Shampore ..	..	2	14	0
Doomjoor ..	..	3	2	0
Sankrail ..	..	3	8	0
Sudder station ..	..	3	5	0
Juggutbullubpore ..	..	3	9	0
Ampta ..	..	3	12	6

7. The weather I have already noticed in paragraph 4. I may add that as I write a heavy thunder and rain storm is passing over this place.

8. The general condition of the people of the district I have no reason to think unsatisfactory, and indeed prices are not such as to make one suppose that it should be so. They are high, but not abnormally so, as far as I can make out. There is at present no increase of crime whatever, nor have any reports of distress reached me. The Deputy Collector of Mohesrakha reports, under date the 30th ultimo, that there is at present no fear of scarcity any where in the sub-division, and the same may be said of the Sudder sub-division.

9. The result of relief operations during the fortnight tends to the same conclusion. In my last report I mentioned that I had requested the Moherakha sub-divisional officer to submit an account of the expenditure on this score in his sub-division, and I find now that up to the 31st ultimo, out of Rs. 300 sent to him, only Rs. 1-14-0 has been spent on relief. Several private individuals are said to have done a good deal, but I do not gather that the number or description of the indigent thus provided for has been anything out of the common. I mentioned at the same time, that the expenditure by the District Superintendent up to the 15th of May had been Rs. 21-1-6. I have since received from him statements showing that up to the 29th he had been advised of an expenditure of Rs. 6-7-6 in the fortnight for the whole of the eleven thanas in the district, distributed amongst 63 persons, an average of about 4 persons a day.

10. I annex copy of a statement received from the Executive Engineer, showing the number of coolies employed on the district roads during the fortnight, being 396 in all, against 323 in the previous fortnight. They are all reported as being in good condition, and the increase in numbers seems to have no significance when contrasted with Mr. Wells' remark that coolies are scarce.

11. I come finally to the subject of land improvements under Act XXVI of 1871. On this matter a weekly statement is submitted to the Collector of Hooghly, from which I find that the total number of applications up to the 30th of May was 13, of which 8 were rejected, and 5 were pending, out of which 2 had been reported for sanction to the Collector of Hooghly. As far as I have seen, the cases here are not really worthy of mention in connection with the subjects of this report. None of the proposals that I have looked into are of more than personal, and none of them of agricultural, scope, but I mention the subject as it seems to be usual to do so.

*Extract from the Fortnightly Return of Coolies employed on District Roads during the fortnight ending 31st May 1874.*

NAME OF ROAD.	Number of coolies.	Supplies of food.	Condition of laborers.	Mode of payment and rate of wages.	Arrangement for tools.	REMARKS.

CHINSURAH,  
The 1st June 1874.

J. H. WELLS, C.E.,  
Exec. Engr., Hooghly and Howrah Districts.

No. 1531, dated Chota Nagpore, the 26th May 1874.

From—COLONEL E. T. DALTON, C. S. I., Commissioner of Chota Nagpore,

To—The Offg. Secretary to the Government of Bengal, with His Honor the Lieutenant-Governor, Monghyr.

I HAVE the honor to submit my half-monthly narrative for the fortnight ending 25th May 1874.

2. The weather was hot and dry till the last day or two of the period under report. On the 25th, rain fell at Purulia, and yesterday we have had showers here, and last accounts from Palamow gave promise of rain about the same time. It will be of great benefit to the early sowings of summer rice, and to the earlier crops now on the ground. The area of the ground this year prepared for early sowings considerably exceeds that of previous years.

3. A small quantity of choena, and jethooa marua, to which artificial irrigation could be applied has been reaped; but the deficiency of water, more or less felt in all the districts, militates against an abundant return from these early crops.

4. Except in the Manbhoom district, where cholera has appeared, causing a serious panic amongst the cartmen, the health of the people has otherwise been fair, though the mortuary returns of three districts, Manbhoom, Lohardugga and Singbhoom, give 192 deaths last month to 166 during the same month in 1873.

5. *Hazareebagh*.—Since my last half-monthly narrative despatched from Govindpore on the 14th instant, I have visited the stations on the Grand Trunk Road up to Hazareebagh, and remained there four days in consultation with Mr. Beadon.

6. The contemplated storage of grain at the chuttis was nearly completed, but there were no indications of distress amongst the people. A road had been commenced as a relief work from Buggodur, northwards, but Mr. Macarthy informed me that the people evinced very little inclination to work on it. No distress has appeared in and about the station of Hazareebagh. The jungle-produce is still contributing largely to the stock of food now being consumed, but it is reported from some quarters that this has caused diarrhoea amongst the poorer classes.

7. I am satisfied with the arrangements made by Mr. Beadon for obtaining prompt and accurate information regarding the condition of the people. Weekly reports are received from the police of all parts of the district, and these are supplemented by the reports of four sub-divisional committees, embodying the information of 30 sub-committees. The portions of the district most affected by scarcity are the northern parts of Khurrukdeah, including parts of the Dhunwar estate. The arrangements made to give relief were noticed in my last report, but Mr. Peppé, the manager of Dhunwar, who joined me again at Hazareebagh, was enabled to inform me that the change in the system of work ordered by me was being rapidly carried out.

8. Whilst at Hazareebagh the following questions were discussed:—Loans of rice to cultivators and others for food. The rules for these advances now promulgated in Hazareebagh are briefly as follows:—

Government rice may be given as a loan to substantial ryots to provide a stock of food for their family and farm laborers, to be paid for on or before the 31st March, at the rate of one rupee for 12 seers of clean rice. Quantity to be given not ordinarily to exceed 3 maunds, but if the farm is extensive, and the number of hands employed above the average, up to 6 maunds may be given.

The zemindar or his agent, or the thiccadar, to certify to the validity of the security.

A larger quantity of rice can be issued to a body of substantial ryots who agree to be jointly responsible.

Loans of rice may, in the same manner, be made to other persons who are sufficiently substantial to give fair hope of repayment. Money advances direct to ryots for food or other purposes not to be given, but they may be made to zemindars under Government orders No. 1799 of 25th March last.

9. Some seed-dhan is in store in the bhandars belonging to the Government estates and estates under Court of Wards. The distribution of this at the usual rate of one maund for one and a half maunds to be repaid to the bhandar at the close of the harvest, has been authorised. This is done to keep up stock in bhandars, and to avoid discouraging the usual dealers. When the seed is all distributed, it was determined that money advances might be made in such estates at 12 per cent.

10. The rules issued for labor provided for the strict enforcement of piece-work for the able-bodied, and Government rice was to be sold to the work-people at 11 seers for the rupee, this now being, and having been since January last, the prevailing rate. Considering the large stock in the hands of mahajuns, and the large sums advanced to such persons to stimulate importation, we did not rule that the work-people should be paid in rice; but under orders of Government now received, this will be carried out in all places at which the Government grain can be made available.

11. The roads in progress—22 in all—will give employment for some months to come, but as minor works are wanted to employ people living too far from road-works, we propose to take up tanks likely to give good drinking-water if restored, and make wells where required by the public, to be paid for from the Government grant and donations of parties interested, if we can obtain any. A project of a large tank on the encamping ground at Chowparun has been approved. I propose to allot to it Rs. 1,000 of Government money. The zemindar, Baboo Namnarain Singh, has promised Rs. 500, and the Deputy Commissioner will obtain more subscriptions if possible. The estimate is Rs. 2,500.

12. Relief centres for distribution of food, cooked to some, uncooked to others, have been opened, but the numbers fed in each are quite insignificant. In the Pachumba sub-division, there are seven such places, and the aggregate of the persons fed amounted to 86 only, all beggars. At Koderna, 14 people are fed gratuitously, and the same number are employed on light labor.

13. Mr. Beadon was of opinion that the 40,000 maunds of rice, to which quantity the Government have at my recommendation consented to raise the Hazareebagh supply, would be sufficient. He says, in a letter dated 23rd instant just received—"I find I would require Rs. 50,000 to complete the roads already undertaken; if the coolies are all to be paid in rice at 12 seers for the rupee, I think we should require 15,300 maunds for the coolies." According to this calculation the quantity sanctioned should suffice.

14. On the whole, I conclude that we are fairly ahead of distress in Hazareebagh, and the arrangements made should, if nothing untoward occur, enable us to keep so.

15. *Loharduggah*.—Of the sudder sub-division of the Loharduggah district, I have nothing whatever to remark.

16. For Palamow, the narrative\* by the Officiating Assistant Commissioner for the fortnight ending the 16th instant, received only yesterday, is appended. It will be seen from this that the number of

\* No. 381, dated 23rd May 1874.

persons employed on relief works have increased by 6,788 over the number exhibited in the previous fortnightly report; and has now reached 24,000. This involves a heavy expenditure; and from all that has been reported during the last month from Palamow, I cannot think it is necessary that such an unlimited number should be employed. Feeling this, I, on the 18th instant, sent orders to Palamow to lower the rates all round by one pie a head, and to enforce piece-work rigorously. The Assistant Commissioner, it will be seen, had already directed the reduction in the case of women, who flocked to the works in Lieutenant Grey's circle out of all due proportion to the men; but as I found the cultivating season had actually commenced, and that the farmers would soon require the work-people, I thought it best to direct a general reduction throughout Palamow. From Mr. Forbes's report it does not appear that the reduction has driven one woman away from the work. It is probable that the piece-work, which I fear has been little tried in Palamow, will have a more potent effect. We have been hearing for some time that the laborers, living on such cheap food as mohwa and jungle-produce, were saving up their wages. Farmers and zemindars complain that they are not hard enough worked for the pay they get; and as we do not wish to enter into a competition prejudicial to the interests of the employers, we must find the point at which the laborers will only resort to us as a *pis aller*.

17. When in January last arranging for the probable requirements of Palamow, my first thought was, with reference to the isolated position of the sub-division, to stimulate in every possible way the importation of food-grain. With this view the assistance of the most influential zemindars was invited, and the mahajuns encouraged to import to the utmost extent, and even the ordinary cultivators were moved to import on their own account with their own cattle. It is on this account that we have now a large stock of rice in the country, and as represented in my letter No. 182T, of the 18th instant, I was unwilling to enter into competition with the traders by paying the work people in rice; but I find from letters since received, especially a demi-official from Mr. Bernard, that this has been determined on as a necessary policy, and I am sending out orders to Palamow to use up the Government stores for payment of coolies without reserve, including the additional 10,000 maunds available at Dehri.

18. The Palamow Charitable Relief Committee has a large fund at its disposal—about Rs. 10,000 available. They have only spent Rs. 392 against Rs. 462 of the previous fortnight, and the persons served are for the most part ordinary beggars. If all goes well, another month will probably see us nearly clear of relief operations in Palamow.

19. *Manbhoom*.—I have not yet received a copy of the half-monthly report of the Deputy Commissioner for the fortnight ending 16th instant.

20. I understand from his letter to Government, No. 1074 of the 21st instant, and a demi-official communication, that he proposes to post the officers recently appointed, and arrange for circles as follows:—

*Gorindpore*.—Relief officer Mr. H. W. Mackenzie, Extra Assistant Commissioner.

Assistants, Mr. W. H. Mackenzie, and Mr. Rebell.

*Rughoonathpore, East*.—Relief officer, Captain W. L. Samuells.

Assistant, Mr. Peade, Opium Department.

*Rughoonathpore, West*.—Mr. B. L. Gupta, c.s., Relief Officer.

Assistant, Baboo Raichurn Ghose, sub-deputy Collector.

*Purulia*.—Mr. R. D. Harc, Relief Officer.

Assistants, Baboos Jodoonath Chowdry and Pertap Digwar.

*Manbazar Circle*.—Mr. D. DeDombel, Relief Officer.

Assistants, Mr. S. N. Banerjee, and Moonshi Neamat Oollah.

The posting of Mr. Wingrove is not yet fixed.

I approve of these arrangements. The division of Rughoonathpore into two circles had been determined on before I left Manbhoom.

21. Since my last report, the District Superintendent of Police has visited Burrahbloom, and though that large pergunnah has enjoyed harvests since last famine, and is said to have yielded a 14-anna crop this year, and is known to have exported an immense quantity of grain, he reports that about 251 villages will require assistance, and grain is actually now

\* January 1874.

being distributed as loans. Rice was selling in Burrahbloom after the harvest\* at 21 seers for the rupee, and at the present time the quotations are 16 seers. The villages in need of assistance are in the hills towards the south bordering on Singhbloom. The only relief asked for is a loan of rice to help them through the next month, or till the rains, when it is expected that the mahajuns now holding back will resume the usual advances.

22. During the period now under review, the circumstances of the Khaspel pergunnah have been carefully probed and tested by the District Superintendent, and he found that a considerable number of the cultivating classes were near the end of their resources and wished for loans of rice; two feeding depôts had been established in Khaspel, and road-works were going on, which provided for the laboring classes and paupers, but additional relief was required for some very poor Brahmins and Kaists who would not work. All this

has been arranged by the Purulia committee and sub-committees, and the details will, I doubt not, be found in Colonel Rowlett's last narrative which I have not yet received.

23. Loans of rice continue to be given out rapidly. I do not know what quantity is shown as having been so disposed of in Colonel Rowlett's report for the fortnight ending 16th instant. In my previous narrative I estimated that it would probably have reached 42,000 maunds by that date. Since that date, or during the week ending 23rd instant, the issues in loans have been—

	Mds,
Govindpore .. .. .	5,605
Rughoonathpore... ..	8,327
Purulia .. .. .	3,912
Total ..	17,842

Besides, rice has been sent for distribution to Burrahbhoom, Bagda and Khaspel.

24. In the two Rughoonathpore circles, the 10 depôts were, at the close of last week, giving cooked food to 1,601 men, women and children, and uncooked food to 1,777 persons, and supporting 191 by means of in-door work.

25. The chowkedars throughout the district are having a hard time of it. They are ordinarily paid in grain or cash by the villagers, but this year it is found most difficult to realise their dues, and we cannot expect them to work for nothing. I have therefore sanctioned a proposal of Colonel Rowlett's to give to each chowkedar in the distressed tracts one maund of Government rice.

26. For chowkedars of Khaspel, the Manbhoom rural selected area for vital statistics, we have done a little more. I have sanctioned a payment from the Ghatwalli fund of four annas to each chowkedar as he comes to make his weekly report, till the price of rice falls, or the sanction of Government be obtained to another proposal for their remuneration.

27. The outbreak of cholera, reported to Government in my letter No. 1490 of the 23rd instant, has added greatly to the difficulties of transport. Colonel Rowlett, under date the 26th instant, writes that the cartmen were refusing to proceed to Rughoonathpore where the disease is still bad. It is "less at Burrakur," and not increasing in Purulia. Every effort is being made to settle with the cartmen, and I trust the panic will soon subside, or that their fears may yield to some extra remuneration. In such an emergency the Deputy Commissioner must exercise his influence and authority both.

28. A fair start has been made in providing employment for the people on village tanks. In the Govindpore circle, sites of eight stick works have been selected, and others have been started in other circles, of which I have no details.

29. I learn from Colonel Rowlett's note of yesterday that refreshing rain has fallen at Purulia, and it is expected that this will greatly benefit and accelerate the sowings.

30. No grain-robberies are reported to have taken place in Manbhoom. The grain carts are escorted by men of the rural, *i.e.*, Digwaree, or Ghatwalli police, who are paid in Government rice for this extra duty. There have been a few cases of incendiarism of granaries, in consequence, it is supposed, of the owners refusing to advance or sell, and a report has reached me that one of the wealthiest merchants of Manbhoom has, for the same reason, been brutally murdered. It is said he had 30,000 maunds of dhan.

31. The latest information received of the number of laborers employed on local public works in Manbhoom was on the 9th instant—

Males .. .. .	8,906
Females .. .. .	3,144
Children .. .. .	919
Total ..	12,969

32. *Singhbhoom*.—I have had no letters from Captain Garbett during the fortnight, and no changes have been reported from Singhbhoom. Captain Garbett has, I believe, gone to visit the southern Pirs again.

No. 381, dated Daltongunge, the 23rd May 1874.

From—L. R. FORBES, Esq., Offg. Assistant Commissioner of Palamow,

To—COLONEL E. T. DALTON, C.S.I., Commissioner of Chota Nagpore.

I HAVE the honor to submit herewith my 7th narrative of scarcity and relief in the Palamow sub-district for the fortnight ending Saturday, the 16th May 1874.

*Seventh Narrative of Scarcity and Relief in the Palamow sub-district for the Fortnight ending Saturday, the 16th May 1874, submitted in accordance with orders contained in Government Circular No. 80, of the 17th November 1873.*

#### A.

*Abundance or scarcity of supply in the Bazar.*—As reported in my last narrative, the markets continue to be fully supplied. The agricultural importers of the sub-district have

now closed their operations, to allow their bullocks rest before the ploughing season commences, but supplies are being kept up by the local traders and outside importers. The amount of rice imported during the last six or seven months by the local traders is enormous; they have all got their golahs full. I have been again assured by trustworthy persons that in Garwa alone there is upwards of a lakh of maunds in store. None of the local traders have as yet offered any of their stocks for sale, nor will they, it is said, until they have satisfied themselves as to the prospect of the coming harvest, that is, when the rice has been transplanted in August. In the meantime, outside traders, are proving equal to the occasion. These will continue to import until the end of June, and by that time agricultural operations will be in full work, and the people will be in a measure independent of the markets. The amount of mowha in the country is very large. This crop, as I have said before, has been the saving of the country. It is now selling in the bazars at something less than a maund and quarter per rupee. During the fortnight considerable exportations of mowha have taken place to Shahabad, and rice also has been sent thence. For Bolonjiah and Japla, too, I have now no longer the fears I once had, and if the rains fall propitiously, the people there will have no reason to complain. To give an example of the amount of grain now in the sub-district, I may state that I have been assured by several mahajuns that even in ordinary years their assameos, i. e., those who take loans of grain, &c., from them usually commence applying at this time of the year, but that up to date they have not received a single application. This they attribute partly to the fact of the people having imported largely on their own account, and partly to the mowha crop. The fact is, that the note of alarm that was sounded throughout the country in December and January last has been productive of immense good. Rumours reached the people of a general famine throughout Benegal, and each man strove to the utmost of his power to secure for himself a stock of food while he could. Both food and seed-grains have been largely imported, and I feel confident that when the time comes there will be no lack of either. The people seeking relief on the roads belong to the poorest classes, possessing no plough-cattle of their own, but who have a small area of homestead land, and subsist by field-labor. To these of course importation on their own account was impossible.

*Kind and prices of grain selling at one or more specified principal marts.*—The following table exhibits the kind and prices of grain selling at five of the principal marts. Prices have an upward tendency; but I am assured that the price of rice is not likely to rise much above ten seers per rupee. In my last narrative I stated that prices would most probably rise as importations decline and the season advances. They will probably reach their highest about the middle of July, by which time the local traders, beginning to see their way, will commence to offer their stocks in the market, and prices will gradually go down.

NAMES OF MARTS.	QUANTITIES PER RUPEE BY THE SEER OF 80 TOLANS.					
	Wheat.	Barley.	Rice.		Mowha.	Indian-corn.
			Wholesale.	Retail.		
Daltongunge ... ..	13'50	19'08	12'94	11'62	40'50	14'04
Garwah ... ..	12'94	18'50	12'36	11'36	47'25	16'87
Hussanabad ... ..	12'04	18	11'50	10'50	42	14'75
Sathorwah ... ..	13'50	18'50	12'36	11'36	45	14'87
Manka ... ..	12'35	18'50	12'36	11'25	60'75	12'36

*Information regarding the amount and kind of grain believed to be in stock, &c.*—I have no precise information on this head as I have already stated. From information I have been able to obtain, I gather that the amount of grain in the country is now very large, and that even a large proportion of the agricultural classes have a larger stock of rice in hand than they usually have.

*Rainfall.*—There has been no rain during the fortnight, but clouds still continue to hang about. The days are hot, and the west winds have been blowing with considerable force, but the nights are extraordinarily cool,—towards morning quite cold, in fact.

*State of the Crops.*—The sugarcane, the only growing crop, is doing well; cucumbers, melons, and such like fruits, are plentiful. The people are beginning to employ themselves on their homestead and high class lands, laying down manure, and hedging, &c., and cotton-growers are busy burning their dalia lands, and in a few cases dhan-seed has already been scattered on the land in order to take advantage of the very first showers.

*Condition of the People.*—I have nothing to add under this head beyond what I stated in my last narrative. I believe I may confidently assert that the condition of the people everywhere throughout the sub-district is at present excellent, and that if all goes well within the next two or three months, they will hardly be sensible of the crisis through which they have passed. The mowha and the relief-works have come to their aid so smoothly and easily that they have not had an opportunity of experiencing the pressure of want.

*Actual facts as to any known cases of misery and starvation.*—No such cases have been reported.

*Grain-thefts and robberies.*—I have nothing to report under this head.

*Condition of any special tract.*—There is no tract now the condition of which calls for special mention.

#### B.—RELIEF WORKS.

The relief works now in progress, and the number of laborers on each according to latest information, are as follow:—

1. Daltongunge S. road	..	..	..	200
2. Chandwa road	..	..	..	1,922
3. Behar "	..	..	..	2,927
4. Maharajgunge road	..	..	..	2,287
5. Garwah "	..	..	..	1,351
6. Untari "	..	..	..	4,677
7. Maujhiawan "	..	..	..	1,754
8. Jajla road	..	..	..	1,983
9. Irrigation works in Government villages	..	..	..	485
10. Baloomath road	..	..	..	5,336
11. Naggur and Benares road	..	..	..	1,090
12. Naggur and Shahabad	..	..	..	....
Grand Total				24,012

The above shows an increase of 6,788 over the number exhibited last fortnight. These people all belong to the same classes as those who have been on the works all along. The numbers of women are very large in proportion to the men, but this is easily accounted for. The men are either engaged on beopari work, or are hired servants, and some are engaged in their own business. In ordinary times the women-folk, helped out with what little the man can spare from his scanty wages and the produce of the homestead land, can earn a decent living by doing all kinds of household work for their betters, and sometimes by field and harvest work. There cannot be a doubt that these people are obliged to frequent the relief works from necessity. They cultivate no lands and do not earn sufficient to enable them to lay by a stock of food sufficient, at the best of times, to last them more than a month at the very outside. As a rule, probably three to four days' food is the most they ever have in the house.

*Supply of food thereat.*—The whole of the relief works continue to be amply supplied with food-grains of various kinds.

*Condition of the laborers.*—The laborers everywhere continue to be reported to be in the same good condition as described in my last narrative.

*Mode of payment.*—No change has as yet been introduced, but payment by piece-work is about to be introduced.

*Rates of wages.*—It was brought to my notice by Lieutenant Grey, that the number of women on certain roads in his circle (relief works Nos. 6 and 11) was so great in proportion to male adults, that the quantity of work done was very small in consequence, and he was of opinion that if the wages of the women were reduced, a large number of them would leave the works. After due consideration I sanctioned a reduction of one pice in all wages, from 5 pice downwards. The results have, however, not fulfilled Lieutenant Grey's expectation, for the women still stick to the works notwithstanding the reduction. I however see no reason for rescinding my order; on the contrary, with mowha as cheap as it is, I think the reduction may be extended to all roads with advantage.

*Arrangements for tools.*—The whole of the tools indented for have now been received.

#### C.—TRANSPORT OF FOOD.

*Approximate amount of private food-supplies.*—As I have before stated, importation by agriculturists has now ceased; but the trade continues their operations with vigour. I have no precise data to go upon, but I am assured that the supply of food now in the country is quite equal to what it is in ordinary years,—some even say it is greater.

*Sufficiency or otherwise of the means of transport.*—The transport agency is quite equal to the demand.

#### D.—STORAGE OF GRAIN AT RELIEF WORKS.

The accompanying Statement I, Appendix A, exhibits all information under this head. With reference to the 10,000 maunds of rice indented for by the Commissioner of the division in his No. 1097, dated 13th April, for storage in Jajla, and sanctioned by Government letter No. 2626—S.R., dated 24th idem, I have already reported demi-officially to Mr. Bernard that I have no need of this rice. From further enquiries I have made, I am confident that there will be no dearth of food in this tract, such, at any rate, as will necessitate the storing of a large supply of rice on the part of Government. I have, or rather shall have shortly, 2,000 maunds in the capital town of the pergunnah, and I have some 3,000 or 4,000 maunds within a day's journey of any part of it, none of which I am inclined to think I shall be

compelled to sell or distribute for the alleviation of distress. I am confident that the trade, notwithstanding the fears I was once led to entertain, will prove fully equal to the occasion.

*Condition of storage-houses.*—These are all in good order.

E.—ADVANCES TO PRIVATE PARTIES AND THEIR RESULTS.

The results of advances to native gentlemen for the purchase of rice on the part of Government will be found embodied in Statement I, Appendix A.

*Advances to Municipalities.*—There are no municipalities in the sub-district.

*Advances to private parties for land improvements, &c.*—Statement II, Appendix B, exhibits all requisite information under this head.

F.—CHARITABLE RELIEF.

The following is an account of the amounts subscribed and realised :—

Subscribed.				Realised.			
Rs. As. P.				Rs. As. P.			
Amount realised up to pre-							
ceding fortnight ..	6,631	0	0	Up to preceding fortnight ..	4,888	0	0
During the fortnight ..	400	8	0	During the fortnight ..	735	12	0
Total ..	7,031	8	0	Total ..	5,623	12	0

There has been a decrease during the fortnight in the number of persons receiving charitable relief, the number, according to latest information, being 392 against 462 exhibited in last narrative. The decrease is owing partly to the departure to their homes of a number of destitute persons whose homes were in other districts, and partly to some inveterate beggars preferring to follow their profession, no matter how precarious it may be, to receiving regular doles of food. The Hussainabad relief committee still continues to work well, and the accounts of the industry of the Moslem ladies is most encouraging. I have not yet received any reply from Mr. Davies respecting the history of these families, and I have again addressed him on the subject.

G.—FINANCIAL RESULTS OF THE FORTNIGHT.

ASSISTANT COMMISSIONER'S OFFICE ;

PALANOW,

The 23rd May 1874.

L. R. FORBES,

Offg. Assistant Commissioner.

No. 1561, dated Chota Nagpore, the 28th May 1874.

From—COLONEL E. T. DALTON, C.S.I., Commissioner of Chota Nagpore,

To—The Offg. Secretary to the Government of Bengal, with His Honor the Lieutenant-Governor, Monghyr.

As an appendix to my half-monthly narrative 'despatched yesterday, I have the honor to submit copy of a communication\* from Captain Garbett, Officiating Deputy Commissioner, Singhbhoom, which supplies the information regarding the relief operations in that district wanting' to complete my report.

\* No. 218 of the 23rd May 1874.

2. As I had anticipated, Captain Garbett writes from the Kolhan, thirty miles due south of Chybassa, and proposes some additional works which it is necessary to undertake, to help the people on to the early harvest.

3. Amongst these the clearing out of a tank proposed for the town of Chybassa at a cost of Rs. 1,000 has already been sanctioned in Government orders No. 3327—S.R., of the 25th instant. This, he says, will give employment to the poor of some of the most doubtful tracts in the Kolhan, and he proposes to pay those who work at it in grain, which will of course be approved.

4. I have approved of his commencing the following works in the interim in anticipation of Government sanction :—

	Ra.
A reservoir in Gamaria, a market village .. ..	100
Ditto ditto at Joypore .. ..	150
Clearing two tanks in Jugernathpore .. ..	600
Additional required to complete the Koehra reservoir ..	200
Ditto ditto to do. Karigooria do. ..	100
Total .. ..	1,150

5. The Officiating Deputy Commissioner finds that a considerable number of the Kolhan ryots are in want of seed-dhan, but they are averse to borrowing it from Government, fearing that something might happen which would render them unable to repay it when due, and they dread giving bonds. They have already shown their honesty in working out the advances they received, and for which not even a receipt was taken, and I have agreed to Captain Garbett's proposal to trust to their honor.

6. The Deputy Commissioner has stored in different places, paddy sufficient to meet these requirements, and hopes to have rice sufficient to pay the work-people. This stock was secured early in the season, and wisely reserved till near its close. It now comes into use most opportunely.

No. 218, dated Jagernathpore, the 23rd May 1874.

From—CAPTAIN C. GARBETT, Officiating Deputy Commissioner, Singhbhoom,

To—COLONEL E. T. DALTON, C.S.I., Commissioner of Chota Nagpore.

YOUR letter No. 181T, dated 18th instant, has this moment reached me, and I lose not a moment in replying. The letter was received at head-quarters on the 21st.

2. Up to the end of last month (April), the price of rice all over the district ranged from 20 to 24 seers for the rupee. Remembering that the rainy season was fast approaching, when all exportation from the district would absolutely cease, I began to hope that we were about to escape more fortunately than I had dared even to dream. It is only since the beginning of this month that prices have risen, and with a very sudden bound. As rice is now selling at just half what it does in ordinary years, and since the people for the most part are very poor, the present high prices are necessarily causing a good deal of pressure to the lower classes; but still I do not consider that there are any grounds for fearing that in this district we shall have any thing like famine in its dreadful signification, destitution, misery, starvation, death. My own idea is, that up to about the middle of June the price of rice will fluctuate between 14 and 16 seers for the rupee, and that after that it will settle at 16 seers till the next crops are ready.

3. With reference to paragraph 2 of your letter under reply, before leaving Chybassa I wrote to you soliciting sanction to expend Rs. 1,000 in clearing out the Chybassa lake or big tank. Around Chybassa lie two or three of the most doubtful tracts in the Kolhan, and the work I wish to undertake will give employment to such as need it. I am actually expending on it what money I can out of the town funds, but the amount will not exceed Rs. 200. When this is finished, and pending reply to my application, or in case such application is refused, I have made arrangements to spend Rs. 500 out of private funds. I can give any amount of employment at Chybassa if necessary, and you may rest assured that work will not be allowed to come to a stand-still for want of money pending sanction from proper authority.

4. I have been out on tour in the Kolhan for the last week or 10 days, inspecting the works, and making personal enquiries into the present condition of the people. I am of

opinion that some further assistance is necessary, and have accordingly made arrangements to set agoing at once the following fresh works :—

(a).—A small reservoir at Gamaria to cost about Rs. 100. Gamaria is a market village, and a tank in the village is much required. There are a great number of poor villages round about and the work will give employment to those who require it.

(b).—A small reservoir at Joypore, in a very advantageous site, to cost Rs. 150. This work is also much required to give employment to surrounding villages.

(c).—Clearing out two old tanks at Juggernathpore. This Juggernathpore is a large market village; it has several large tanks which have all silted up, and are in a very filthy condition. Around and in the neighbourhood of Juggernathpore are some of the tracts which suffered most severely from deficient rainfall, and the clearing out of these tanks will give ample employment for miles around. I beg to be allowed to spend Rs. 600 on the works.

(d).—About five miles north of Juggernathpore I have a reservoir in progress (at Kol Kouhra). This work, if thoroughly done, would cost, I estimate, Rs. 400; I have only allowed Rs. 200 for it, but as I find further assistance is much required in those parts, I propose spending up to the full amount required to complete the work. I have made arrangements accordingly.

(e).—There is a small reservoir being constructed at Karigooria. Bor Pir (Kaira Manki). The work will cost Rs. 150 to 200. I have raised the Government contribution to Rs. 100.

5. The above works are all situated in tracts which suffered most last season. They will, I think, meet present requirements. If not, there are a number of old tanks and new sites on which I can set work agoing on the shortest possible notice. So far as I can judge, I do not think it will be necessary to give further assistance in any other quarter in South Kolhan, but I have intelligent and reliable men out, and if the necessity does arise, there will be no delay in rendering the requisite assistance. To-morrow I start for Kotegurh and Jamdoh, and if I find it necessary, I will set fresh works agoing in those parts of the Kolhan. After which I send back my camp to head-quarters, and proceed myself as light as possible through Saranda Pir to Dhupa, and thence *via* Parahat to Chybassa.

6. With reference to the latter portion of paragraph 2 of your letter under reply, I have the honor to inform you that I have already made arrangements to advance 313 maunds of seed-grain to ryots in this portion of the Kolhan. This grain I am advancing out of Government stores. As the matter was immediate I have ventured to act on my own responsibility, but feeling certain at the same time that you would at once accord sanction on report. I have experienced the greatest difficulties in the matter of these seed-grain advances. The Hos, simple people, and in these parts half wild, cannot understand the offer to supply them with what they require, and their minds are filled with the strongest suspicions. One of these is that, in offering them these grain advances, Government have the after-intention to take their children to distant countries. Then, also, they are very fearful lest by any mischance they should be unable to repay what they borrow, and have the greatest horror at the possibility of their cattle being sold up to satisfy the claim against them. With these thoughts and these suspicions they obstinately refused to have anything to do with the advances offered, and yet I can assert with the utmost positiveness, a positiveness arising from the circumstance that I personally made a house-to-house inquiry in some 20 villages, and caused similar enquiries to be made in a large number of other villages by good and reliable men, that seed-grain was absolutely needed by a large number of the ryots. I have been reduced to all manner of expedients to gain over the people, to dismiss their idle suspicions, and to make them believe that nothing was intended beyond their own benefit. Finally, before I could induce them to take what they in all truth had absolutely needed, I had to promise them that I would be personally responsible if, by any mischance, they should be unable to repay next season. The ice thus broken, I trust the people will freely come forward for what they require. But I solicit instructions with reference to future advances. On what terms and conditions am I to make such advances? On what security, if any? Within what time must repayment be made? Whilst soliciting instructions I trust I shall be pardoned venturing the opinion that these advances should be made without any conditions whatever on mere receipts. The Hos are so peculiar, so delicate to deal with, that I feel quite certain if we venture any formalities with reference to these advances, and annex any condition, however simple, we shall be defeating our object. The Government must trust to their honor; advance them what is necessary without security; and recover when and how we can, or else leave them to struggle through as best they can. The Moondas are for the most part nearly as poor as their ryots, and if we attempt to make the Mankies securities, the people will hold back from making their wants known.

7. I have the following rice in store :—Rs. 1,000 worth at Jyutgurh and Juggernathpore; 2,000 maunds paddy at Gamaria; 1,502 maunds paddy at Chybassa; 200 maunds at Sarjamhata (Koldiha Pir); 1,750 maunds at Dhupa. If necessary, rice can be purchased at Jyutgurh from Keonjur, which will be cheaper than getting it from Manbhoom. But I don't anticipate it will be necessary to buy any more rice for Government. I am expending a portion of the Dhupa rice in wages on the Dhupa reservoir. I also solicit sanction to do likewise on the works in these parts. From late resolutions Government appears to desire it. In anticipation of your sanction, I have made arrangements to pay wages in grain. In fact, this must be done in these tracts. Of the Kolhan; the people w'out work for pice. Whilst on the subject,

I also beg being allowed, if my application regarding the digging out the Chybassa lake be sanctioned, to pay wages at Chybassa also in grain. At head-quarters, people are of course ready and willing enough to work for pice, but if we pay in grain we shall be certain to get only those to work who really require assistance.

8. The circuit-house bungalow will be ready for occupation by the beginning of July.

No. , dated Purulia, the June 1874.

From—COLONEL E. A. ROWLATT, Deputy Commissioner of Manbhoom,

To—The C<sup>o</sup>. Secretary to the Government of Bengal, Statistical Department.

WITH reference to paragraph 3 of Government Circular No. 154—S. R. dated 16th January last, I have the honor to submit my fortnightly narrative ending the 30th ultimo.

#### A.—STATE OF THE COUNTRY.

I am happy to say that I am still able to report a continued change for the better in the general state of the country since the date of my last narrative. The only drawback to this improvement is, I regret to state, a rather severe outbreak of cholera, which, spreading from Burrakar, has now made its appearance more or less over the whole of the north and eastern part of the district, between Burrakar and Raghunathpore, where at one time it threatened to put a stop altogether to the transport of the Government rice. It has fortunately abated, and the cartmen who had deserted have again returned to work. In other places, however, where it has made its appearance later, it is still causing a large number of deaths, which altogether up to the present date are reported by the police to amount to 193.

Small-pox, which not long ago was very prevalent, has, I am glad to say, almost disappeared, and in every other respect the health of the people is very satisfactory. The showers of rain which have fallen lately, will, I trust, soon restore the district to its usual healthiness.

From Govindpore the relief officer, Mr. H. W. Mackenzie, reports:—"Since the submission of my last narrative there is decidedly a change for the better in the general state of the country. This has, in my opinion, been in a great measure brought about by the loaning out of the Government grain to cultivators, as the large cultivators, who have obtained a good supply, are able to help their poor friends and relatives. Besides this, the traders and others who had closed their shops to the public, with the view of making their own terms, finding themselves frustrated, owing to the distribution of the Government rice, have again opened out their stores, and are selling at what in these times of scarcity may be considered moderate prices."

From Raghunathpore Captain Samuells writes:—"The condition of the people is satisfactory, and it is a pleasure now to go from village to village, and find the people contented and happy. It is admitted on all sides that the system of relief by advances of Government grain to ryots has saved many and many a household from starvation and death; and I am myself satisfied that it has done more good, and in a less objectionable form as to its demoralizing effects on the people, than any other form of relief which has been adopted."

In the Purulia circle the state of the people is not quite so satisfactory, as the distribution of Government grain commenced there later than at Govindpore and Raghunathpore; owing to the unfortunate outbreak of cholera, the arrival of grain at Purulia was for some days suspended, but it is now coming in again pretty freely, and loaning out is proceeding rapidly, so that large numbers of those requiring rice will soon be supplied; in fact, the wants of those villages which have suffered the most have already been nearly met. The relief officer, Mr. Hare, reports that "during the last fortnight the system having been adopted of first distributing to the most distressed villages, an immense amount of help has by this means been rendered, and this form of relief has extended beyond the actual ryots, for, I have ascertained, the regular laborers dependent on the cultivators are in many places being supported by them with the borrowed grain."

The reports from the Manbazar circle are also reassuring, but, from the extreme difficulty of transporting grain to that part of the district from Raghunathpore, unavoidable delay must take place before sufficient grain can reach those parts. Distribution has, however, commenced at Kenda and Bagda, and a small quantity of rice has reached Manbazar. Great efforts are being made to supply that part of the district with what is required, and now that Mr. T. D. DeDombol, the relief officer, has joined, everything will be done that can be accomplished, but the difficulties are great.

The distress reported in Burrabhoom has been relieved by the despatch there of rice from Purulia, and more is being forwarded. Work has been started on the Burrabhoom, and Purulia road, close to Burrabazar, which will be the means of relieving those in want of work.

The tendency to spread, however, still goes on, and distress is even now reported from Patkum and Jhalda, where the crops were excellent. It is confined, I am happy to say, to very small numbers, and will be met by giving labor on tanks in those villages where the distress is greatest. The distress is entirely due to over-exportation and the refusal of the mahajans to make the usual advances.

All the relief officers report that the stocks of grain in the hands of the mahajans are far less this year than ordinarily, and that at present they all refuse to make advances; so that for the present all those cultivators who have not got a reserve of food of their own

will look to the Government stores for the means of subsistence until the rains fairly set in, when it is believed the mahajans will again make advances.

Rain has fallen nearly all over the district, and in some places copiously, whilst in others there has not been enough to enable the people to sow the early crops of rice, millet, and Indian-corn. More rain is earnestly looked for, if it does not fall soon, the early crops will be late and distress consequently prolonged.

The fruit on the sál trees is now ripening, and will add something to the stock of food in the hands of the poorer classes, by whom it is chiefly consumed; it is eaten mixed with mohwa, and if in addition to this the people can but obtain one meal a day of rice, this will be quite sufficient to keep them from starving or falling much out of condition.

The supply of grain in the bazars still continues to be sufficient for all those who have the means of purchasing it, but trade is not active, as the purchasing power of the people is at a very low ebb.

No grain-robberies have been reported during the fortnight under report, but a dreadful case of murder has occurred in Manbloom, where one of the largest merchants was found murdered not very far from his house; it is supposed to have been committed by persons to whom he had refused to advance grain, but as yet no clue has been obtained to the guilty parties.

The price of rice and pulses according to the reports of the police, made up to the 30th instant, and those of the previous fortnight, are given below:—

NAME OF BAZAR.	COARSE RICE.		FINE RICE.		PULSES.	
	Last report.	Present report.	Last report.	Present report.	Last report.	Present report.
Raipore ... ..	Srs. 16	Srs. 16	Srs. 15	Srs. 15	Srs. 14	Srs. 14
Manbazar ... ..	14½	14	12	12	12	12
Burrabazar ... ..	14½	15	12	12	12	12
Eohagurh ... ..	18	17	16	16	12	13
Jhalda ... ..	13½	13	12	12	12	12
Purulia ... ..	14	14	10	12	13	13
Govindpore ... ..	13	12½	12	12	11	11
Raghunathpore ... ..	13	13	11	12	12	12
Nirsha ... ..	12½	12½	12	12	11	11
Gaurandih ... ..	13	12	12	11	11	11

From the above it will be seen that prices of the chief articles of food have fluctuated slightly, but that not much change has taken place in the rates prevailing in the above places.

#### B.—RELIEF WORKS.

Work is now progressing on all the lines of road under construction as relief works. On twelve the contract system is still in force, and could not be changed without a large addition being made to our working staff of overseers and agents for carrying them on; of the remaining five roads, four are being carried on entirely by superintendents and overseers without the intervention of contractors, and one is being constructed partly by contract and partly without. On all, the task or piece-work plan is in operation, and there are also five light labor gangs, to which the weakly and aged of those who can work are drafted.

The two overseers lately posted to this district having now joined, the works going on, which are now very extensive, will be better looked after than before, but the executive staff is still very weak, and it is with the greatest difficulty that the works can be carried on efficiently and without waste of money. The Executive Engineer, Baboo Khetro Mohun Bose, is a most able and hard-working officer, who spares neither himself nor his assistants, and it is entirely through their persevering exertions that the works are being carried on successfully.

The number of village tanks which have been taken in hand by the relief officers now amount to 18. The names of the officers who have undertaken them, and the numbers, are entered in the margin. Great care has been taken to select

Govindpore, Mr. Mackenzie, 8.  
Raghunathpore, Capt. Samuels, 1.  
Purulia, Mr. Hare, 9.

sites where work was not otherwise obtainable, and it is only in villages where the distress is great that this form of relief is being afforded. Many more will be started during the

ensuing fortnight. Mr. Hare has been very successful in inducing the people themselves to contribute something towards the expense of excavating these tanks.

#### Government minor relief works.

The number of people employed on tanks in the Govindpore sub-division up to the 29th May was ..	..	..	135
In the Raghunathpore circle ..	..	..	307
„ Purulia „ ..	..	..	381
Total ..	..	..	823

Returns from four tanks had not been received.

**Roads.**—The average numbers employed on the roads up to the 23rd May, up to which date only are the returns correct, was 14,202, being an increase of 1,233 over that reported in the last narrative. Where the fall of rain has been sufficient, some of the laborers are leaving the works on the roads, which is good sign, showing that work will be forthcoming as soon as the rains properly set in. The total employed by Government on relief works was therefore 15,025. A list of all the Government relief works called for in the letter of Officiating Secretary to the Government of Bengal, No. 144—T. F., dated the 5th May, is annexed.

#### C.—TRANSPORT OF GOVERNMENT GRAIN.

Up to the 29th ultimo the quantity of Government rice received at Burrakar amounted to 1,41,944 maunds, of which the following quantities had been despatched to the places mentioned below :—

	Mds.
Raghunathpore .. .. .	43,813
Inganpore .. .. .	11,125
Govindpore .. .. .	33,909
Nirsha .. .. .	14,180
Pandra .. .. .	1,000
Hijli, south bank, Damoodur .. .. .	34,523
Desargaon, north .. .. .	1,874
<b>Total .. .. .</b>	<b>1,40,423</b>

leaving only 1,521 at Burrakar on that date. The above account is not quite correct, as the grain is not received or despatched by weight, but it cannot be far wrong.

From Govindpore grain is again transported to Jheria, Tundih, Katras, and Nowagurh by means of carts sent in to Govindpore from those places. The store at Inganpore is kept there to loan out rice to the people of Northern Chaurasi pergunnah, and is not removed elsewhere. From Raghunathpore grain has to be sent out to 7 other loaning stations in that circle, and also to Purulia, Ludhurka, Kenda, Bagda, Mambazar, and Khatra, all which is managed by carts being sent from those places to fetch it. From Purulia again, grain is forwarded to Arta, in Khaspaid and Burrabazar, where also loaning out to the cultivators has been going on during the last fortnight. It is now also being forwarded out to all the group or sub-circle centres from the main golahs in each circle.

As yet, not much difficulty has been met with in procuring the requisite amount of carriage required to distribute the grain to all these various places, but the outbreak of cholera, which took place at the beginning of the fortnight, threatened at one time to put a stop to all our carting operations; for some days the cartmen refused to move, and a general panic was imminent. But most fortunately the disease abated, and confidence was gradually restored, so that altogether not more than a week's cartage was lost. In consequence of the above state of affairs, the grain at Burrakar, instead of being carted to Raghunathpore, has been stored in large quantities on the bank of the Damoodur river, and for some time difficulties were raised to its being carted on to Raghunathpore by Captain Samnells, the relief officer there, who undertook to do it, as this, it was stated, would interfere with the contract which had been made by Captain Grant at Burrakar. The difficulty has, however, I am glad to say, been got over, and I have no doubt that the energy and tact displayed by Captain Samnells will soon enable him to cart in all that now lies exposed on the banks of the river. The delay that this difficulty caused is much to be regretted, as it added further to the obstruction in the moving of the grain that had been caused by the outbreak of cholera.

#### D.—STORAGE OF GOVERNMENT GRAIN.

The preparations for the storage of Government grain have now been completed at all the main golah stations, and minor golahs are now being built wherever required, and will soon be got ready; wherever suitable buildings are procurable, these have been made use of, and as they will only be required for a short time, the expense of constructing more than could not be done without has been avoided. At but few of the golahs is there any quantity of grain in store, as it is taken up by the cultivators as fast as it is received, in fact the receipts have hardly kept pace with the demands, which was of course to be expected, as every man wanted to be served first; by distributing the rice at a large number of places simultaneously, overcrowding has, however, been prevented, and not many have been detained away from their villages more than a day or two.

#### E.—ADVANCES TO PRIVATE PERSONS AND THEIR RESULTS.

Up to the 30th ultimo advances have been made to the following extent :—

	Ra.
(1) Advances to zemindars and others for purchase of grain, without interest .. .. .	10,000
(2) To traders and others of a safe and respectable character, with interest .. .. .	11,567
(3) To zemindars and talookdars to assist their ryots .. .. .	9,950
(4) Landholders for land improvements .. .. .	68,590
(5) To Purulia municipality .. .. .	4,000

Applications for unceasing advances have now almost ceased, and, under the orders of Government conveyed in the letter of the Officiating Secretary to the Government of Bengal, No. 3369 of the 26th ultimo, to the address of the Deputy Commissioner of Manbhoom, all further advances under heading No. 3 will cease also. Some small sums, due to persons who agreed to take their advances for land improvements by instalments, have yet to be paid, and one sum of Rs. 2,000, granted to the zemindar of Bhelaidiha pergunnah to assist his tenants, has not yet been drawn, but will be paid on presentation of the necessary power of attorney.

The distribution of Government rice on loan to the cultivators and others on security has proceeded fairly well during the fortnight, and would have been greater, had it not been for the unfortunate causes of delay which have been adverted to in Chapter C. The total quantity loaned out, as shown by the returns received up to the 30th ultimo, now amounts to 71,794 maunds, 28 seers, against 33,618 maunds, 21 seers, as entered in my last report. The number of persons to whom these loans have been made amounts to 25,760. They are still coming forward in large numbers in the Rughunathpore, Purulia, and Manbazar circles, but in Govindpore Mr. Mackenzie reports that "instead of coming by hundreds, as they used to, they now come by tens," showing that the greater portion of those requiring grain have had their wants supplied. In the Govindpore sub-division, however, the people mostly took the grain by instalments, and, as the first instalment must by this be pretty well expended, a fresh influx of applications will probably soon set in.

To save the entry of too much detail, I will merely give the quantities of grain that have been loaned out to cultivators in each of the main circles up to date:—

					Mds.	Srs.
Govindpore ...	...	...	...	...	30,986	0
Rughunathpore	...	...	...	...	30,614	28
Purulia ...	...	..	...	...	8,194	0
Manbazar ...	...	...	...	...	2,000	0
Total					71,794	28

of which 38,176-7 maunds have been loaned out during the past fortnight to cultivators, and to non-cultivators on security, 404.

To non-cultivators the quantities loaned out have been at—

Govindpore ..	..	..	..	.....	0
Rughunathpore	..	..	..	328	0
Purulia ..	..	..	..	76	0
Manbazar	..	..	..	.....	

To Chowkedars, under sanction conveyed in Commissioner's letter

No. 151—F, of the 13th May 1874—

In Rughunathpore circle, to 36 men	..	..	36	0
In Purulia " 35 "	..	..	35	0

24 Tobidars (subordinate rural police officers) have also been supplied with 2 seers of rice per diem, while employed on duty in Purulia, and in guarding Government grain in transit ...

12 24

Total ... 72,282 12

#### F. (a)—CHARITABLE RELIEF BY GOVERNMENT.

Not much has yet been done in the way of distributing Government rice gratuitously, as the circle and group arrangements have not yet been completed. All the relief officers appointed to the district have joined during the fortnight, and the work of grouping out the circles has been rapidly proceeded with and will shortly be completed. Until the group officers are ready to take over the care of those who have hitherto been receiving uncooked rice, I have directed that the distribution by the sub-committees must continue; as soon, however, as the group officers are ready to take charge from the relief committees, the latter will cease giving out uncooked rice, and confine their operations of relief to giving cooked food at the poor-houses. By this arrangement no break in the distribution of uncooked rice will take place, and the feeding at the poor-houses will go on as before. The change will be gradually made by the group officers taking the place of the sub-committees as soon as they are appointed, and rice has been stored in the group centres.

The division of the Rughunathpore circle into two has been completed, and the final posting of the relief officers has now been settled and is as follows:—

##### Govindpore Circle.

Mr. H. W. Mackenzie, Relief Officer.  
 „ W. H. Mackenzie, Assistant Relief Officer.  
 „ P. T. Rebello, ditto ditto.

##### Rughunathpore Western Circle.

Captain W. L. Samnell, Relief Officer.  
 Mr. W. B. Pead, Assistant Relief Officer.  
 „ W. G. Wingrove, Assistant Relief Officer.

*Rughunathpore Eastern Circle.*

Mr. B. L. Gupta, c.s., Relief Officer.  
 „ S. N. Banerji, Assistant Relief Officer.

*Purulia Circle.*

„ B. D. Hare, Relief Officer,  
 Baboo Jadoonath Choudhri, Assistant Relief Officer.  
 „ Jagat Chandra Das, ditto ditto.

*Manbazar Circle.*

Mr. T. D. DeDombol, Relief Officer.  
 Munshi Niamatulla, Assistant Relief Officer.  
 Baboo Rai Charan Ghose, Assistant Relief Officer.

Mr. Wingrove is principally employed in looking after the transport arrangements between Hijli and Rughunathpore, and in arranging the storage of the grain.

All have joined their respective circles except Baboo Rai Charan Ghose, who is temporarily detained in the Rughunathpore western circle, where he has hitherto been attending to the distribution of the rice at Mahal; he has been directed to proceed to Manbazar as soon as possible.

The above is, I consider, the best arrangement it is possible to make, and will, I have not the least doubt, work well.

In Govindpore the grouping of that circle has all been finished, except in pergunnah Tundih and a part of pergunnah Nowagurh, which will be finished very shortly. The other 6 pergunnahs, and part of Nowagurh pergunnah, have been divided into 54 groups, and officers appointed. The persons selected all either live in the circle or near at hand.

The division of the whole of the Rughunathpore circle was nearly completed before it was divided into two; it has been divided into 44 groups, of which 22 will be in the western and 22 in the eastern circle. All the group officers have been appointed.

In the Purulia circle all the distressed pergunnahs, consisting of those noted in the margin, have been divided into groups or sub-circles, and officers appointed in all, except in pergunnah Khaspel; this, however, will now be done in a few days, as Baboo Jodu Nath Chaudhuri, who only reached this station from Beerboom on the 31st ultimo, has now gone there with directions to appoint the group officers at once. It was considered better this should be done by an officer on the spot than from a distance, and Mr. Hare and his other assistants were busily engaged in attending to other pressing matters. Most of the groups in this circle have been supplied with a small store of grain, and the sub-committees relieved from distributing uncooked food. The work has been rapidly and well done. The persons selected as group officers are mostly residents within the group, but as many of them cannot read and write, it has been found necessary to give them a mohurrir on Rs. 6 a month to keep the accounts, and in some few cases men have had to be sent out from Purulia on Rs. 10 a month, as no one fit for the office could be found on the spot.

The sub-division of the Manbazar circle into groups has not yet been commenced. Mr. Dombol, the relief officer, only reached Purulia on the 27th ultimo, and Manbazar on the 30th idem, but no time will be lost in carrying out this arrangement, where required. Full instructions were given by me to Mr. Dombol before leaving, and I have no doubt all the grouping will be finished very shortly. In the meantime, relief is being administered with the ample funds at their disposal by the sub-divisional and sub-committees.

The orders to substitute payment in grain on Government relief works instead of in cash are now in the hands of all the relief officers, and I have no doubt but that in my next narrative I shall be able to report that a commencement has been made in paying the laborers in this way wherever Government grain is available.

**F. (b)—CHARITABLE RELIEF BY RELIEF COMMITTEES.**

This chapter is now added under orders contained in the letter of the Officiating Secretary to the Government of Bengal, No. 3216—S. R., dated the 19th ultimo, paragraph b.

The charitable relief in this district is administered by the district relief committee, three sub-divisional committees, and thirty-four sub-committees, to which four are about to be added; three have, however, been lately abolished, and the few frequenting them provided for elsewhere.

These have all been arranged gradually as required and extended over the whole of those parts of the district where distress has shown itself. The form of relief offered has been (1) cooked food consisting of rice, dāl with condiments and salt, besides which oil is occasionally given to those requiring it to anoint the body, without which the health of the natives of this country would suffer; (2) the distribution of uncooked rice to persons of respectability, who object, from one reason or another, to partake of cooked food; and (3) the providing of employment by assisting the meaner class by advances of money, of cotton given out to women to spin, and giving light labor in excavating tanks, sweeping up the depôts, providing leaves and bringing firewood to the depôts, all of which is paid for in food, either cooked or uncooked, according to circumstances.

The persons who have chiefly resorted to the poor houses have been the beggars, consisting of the lame, halt, blind, and lepers, who unfortunately abound in this district,

and who, in seasons of plenty, manage to pick up a precarious livelihood in the towns and villages, but who, on account of the scarcity and high price of food, have this year been unable to procure enough to keep body and soul together; large numbers of these unfortunates would inevitably have died off, had food not been supplied them at the relief centres.

Those who have been supported on uncooked food are mostly poor widows and children and destitute persons, whose caste usages and feelings precluded their attending and taking cooked food at the poor-houses.

The silk weavers in several villages have been assisted by loans of money, and cotton is given out to the poorer class of women, who are willing to spin it into thread, for which they are paid in rice. A large number have also been employed in light labour gangs in cleaning out tanks, and in various other ways.

Classified as directed in the orders of Government and the notification of the Central Relief Committee, dated the 14th March last, the sums spent in providing relief under these forms have up to the 30th ultimo been, in the Rughunathpore relief circle, as follows:—

	Rs.	As.	P.
(b.)	3,056	11	3
(c.)	1,112	8	0
(d.)	1,600	6	9

The returns from the other circles have, I regret to say, not been received, though called for at the same time; but this information will, it is hoped, be given complete in the next narrative.

The numbers receiving relief in the above forms up to the close of the last fortnight were—

Cooked food .. .. .	3,677
Uncooked food .. .. .	4,161
In various other ways .. .. .	741
Total .. .. .	8,569

against 5,451 by last return.

The test of obliging persons desirous of relief to partake of cooked food has never been rigorously exacted in this district, and, under the late orders of Government on this subject, the system hitherto in force will be continued. It is found necessary to adapt the system of relief to the locality in which it is given, in some places cooked food will not be touched, even by the lowest of the low, whilst in others again it is preferred to the offer of raw rice. It is stated by the relief officer of the Purulia circle that he had to close the kitchen at Ghonga, in Charra, as no one would partake of the cooked food, whilst at Mundali in Kassaipar, not more than 15 miles distant, he has been applied to to have cooked food distributed instead of uncooked, as was being done, as the people would prefer having their rice cooked for them, and so save the expense of fuel and platters. He also relates that he established a cooking place for the Bhumijis living among the jungles in pergunnah Rakab, and appointed their Pator, or priest, to cook for them; he says:—"They were apparently highly delighted with the idea, and I went away under the impression that the Bhumij hotel, as the institution was immediately dubbed, conveniently and centrally situated as it was, would certainly be a great success. The next report I received from my assistant, however, informed me that the whole thing was an utter failure, and that not a single Bhumij would go for cooked food," which is the more extraordinary as these people were evidently in great distress, and no one but Bhumijis were to be allowed to go to the hotel. They have now been supplied with rice uncooked.

Under the several relief committees there are also 10 minor relief works now under construction. These consist of tanks intended to supply good wholesome drinking water to the villagers where they are being constructed. The sums expended up to date in carrying on these works amount to Rs. 38,401.

Total expenditure from the district and sub-divisional treasuries as shown in the last narrative, 1,19,451-5-2.

PURULIA,  
The 3rd June 1874.

E. A. ROWLATT, Colonel,  
Deputy Commissioner.

No. 947, dated Hazareebagh, the 5th June 1874.

Memo. by—H. S. BEADON, Esq., Offg. Deputy Commissioner of Hazareebagh.

COPY of the following letter, with enclosures, forwarded for the information of the Secretary to the Government of Bengal, Scarcity and Relief Department.

No. 674, dated Hazareebagh, the 5th June 1874.

From—H. S. BEADON, Esq., Offg. Deputy Commissioner of Hazareebagh,  
To—The Commissioner of Chota Nagpore.

I HAVE the honor to forward to you the accompanying copies of, and extracts from reports

Ninth and tenth narratives of the scarcity in the district from the District Superintendent of Police.

Memorandum No. , dated 13th May 1874, from Mr. McArthy.

Letter No. 16 of the 26th May 1874, from the Manager of Gawan Estate.

Letter No. 134 of the 30th May 1874, from the Extra Assistant Commissioner, Chattrra.

Extract from letter No. 189 of the 31st May 1874, from the Extra Assistant Commissioner, Puchumba.

Extract from letter No. 17, dated the 2nd June 1874, from the Vice-Chairman, sub-relief committee, Hazareebagh.

Letter from Mr. Tobin, Assistant Commissioner, dated the 31st May 1874.

Extract from letter No. 29, dated 1st June 1874, from Mr. McArthy.

a fortnight's more fine weather before the regular rains set in. However, this may be, the whole country is being sown with every description of crop (dhan, makai, marua, goondlee, &c.) and more lands are being ploughed for cultivation.

3. Mr. Campbell, who has favored me with a long report, the plums of which I have extracted, states that people in his sub-division have awoko to the advantage of taking advances under the Land Improvement Act, and I hope this may be so, for outside the Rajghur Estate alone can this process go on, for the reasons I have given before. But I am inclined to fear that these applications for money are made with the desire of getting money rather than of improving land. Money has at present such a power for him that hath to lend, that many will apply for loans, but I am not sure that they will be so ready, when they find that the works they engage to make will be insisted on, unless indeed here, too, they can effect a saving, and utilise the money at a high rate of interest.

Mr. Campbell does not give an encouraging report of the condition in which he found the people of Kurgalee when he went amongst them, but he has judiciously and fully relieved them, and with their reservoirs repaired by advance-money from the Government Improvement Funds, they are now placed in a position to cultivate their lands with every probability (humanly speaking) of good crops at the next harvest. At the time Mr. Campbell was at Dhunwar, there were some 7,000 relief laborers working there far and near, and it speaks well

for the condition of the people that Mr. Campbell could come across only "one case of emaciation," a lad from Khesmee who was crawling into the bazar as he left it. Khesmee being well-looked after by Mr. Tobin, and I have no fears of any deaths in that quarter. It will be seen that all reports speak of the improvement in the condition and prospects of the people.

From the south there are no evil reports at all; Mr. Davis, as vice-chairman of the head-quarters sub-committee, receives reports from his twelve local sub-committees, and is fully informed both by his weekly police reports, and by his committee summary reports it receives. The total amount hitherto expended in charitable relief in this division is Rs. 190.

From Chattrra, and the west, I learn that the last cold-weather harvest was better than was expected; the early rice on the 30th May was being sown. The fall of rain in "Nichatter" as the fortnight extending from the 28th May to the 6th June is looked upon as extremely fortunate. Practical experience teaches the people that rain now, followed by a fortnight's sun before the regular rains break, leads to the best results hereafter, and is a sign of there being sufficient rain at the time it is most required. I shall look forward with interest to the development of this theory, and trust Mr. Liebert's forecast of the weather may prove true. The rain that has fallen has improved every thing from sugarcane to grazing grass, and the fruit crops, except the mangoes, are very good. I have no lists of the people employed on the relief works conducted by the Extra Assistant Commissioner, but I submit a statement elsewhere of the road work population, supplied by Mr. Pereira. No severe distress is to be found any where. Pressure exists in pergunnahs Chai and Kendi, but proper arrangements have been made by the relief committee to meet distress in all its forms. Rice ranges from 10 seers to 12 seers to the rupee. While importation from the south is going on, exportation to Gya has ceased. The relief committee can purchase rice more cheaply at Chattrra than at the Government store at Champaran which is 30 miles off. Several zemindars however have taken money advances of seed-grain, on condition of helping their ryots, at favorable terms. The funds at the disposal of the relief committees are Rs. 1,338; up to the 15th May Rs. 93-12 had been expended. The form in which relief is given is shown in Baboo Hurrihur Churn's letter which forms an enclosure to this report.

From the Burhee and Grand Trunk Road I have the following information, through Mr. McArthy, relief superintendent. He writes on the 30th May: "Cultivators are steadily employed in their fields where rain has fallen, but west of Bursote where there has been little, if any rain, employment is naturally less full and general. The poorer classes are, perhaps, becoming more pinched for food, but not to any serious extent; a relief work to be started in this neighbourhood will attract and provide for all the really indigent.

"Cattle, though somewhat thinner than usual, are looking fairly well on the whole, and there has been no scarcity of cattle-food.

"The recipients of gratuitous relief are slightly on the increase. Light labor is exacted at Koderma, Boggodhur and Burhee, but the relieved (at Burhee especially), are fit only for a very small amount of labor."

The price of rice on the Grand Trunk Road, he states, varies from 12½ seers per rupee at Doomree, to 11 at Burhee; on the whole he considers that some improvement is visible during the past fortnight.

From Koderma, Mr. Tobin reports favorably. People there speak of the provision made by Government, and say that had the roads not been made many would have died, and this is especially true when we remember that in times of scarcity the great mortality occurs afterwards, when disease breaks out among enfeebled frames. But there is no occasion to undertake any detailed search such as the search prescribed by Government letter No. 3216—S.B. "The roads in course of construction have," writes Mr. Tobin, "been quite sufficient to relieve all distress which was found to exist earlier in the year."

Advances of food-grain are being given to the ryots in that part, at the rate of 12 seers per rupee, to be repaid by March 31st, the ryots being in most cases security for each other.

Piece-work has now entirely superseded daily labor on the Joynugger road, and the result is, that whereas there were at one time 2,000 laborers on the road, there are now only a few hundreds. No payments in cash have been made on this road since May 23rd, the Government instructions on this point having been at once carried out on receipt.

Some days ago, the natural supply of rice in the Koderma Bazar failed; the buuniah was at once supplied with rice from the Government store at 12 seers per rupee, bonds being taken from them to sell it to the public at 11 seers.

About Koderma, sowing is being rapidly prosecuted; there is evidently no lack of seed-grain in the district, and the mahajuns supply it on their usual terms. Some of the marua is already above ground, and it, as well as the makai, is looking exceedingly well. Government rice is being transported from the Grand Trunk Road, to be stored at Murkuteho and Joynugger, for payment to the coolies who will be employed on the road that will shortly be commenced between those two places; as well as for advances to those ryots for whom it may be necessary. The average numbers employed each day amounted to 1,513 up to the 31st ultimo.

From the statement supplied by the district committee's Engineer, it will be seen that on the road cess works that are in his hands, there has been a daily average of 12,474 laborers, and the column of remarks shows what progress is being made. Payments in grain have not been altogether introduced, but an attempt is being made to do so. Mr. Campbell at Pachamba has engaged to arrange for payments in grain entirely from 1st of this month.

In the Executive Engineer I have received no reports. Nor from Dhunwar. The of the latter work have greatly decreased owing to a revised procedure, and the of more work than was demanded at first. I anticipate that returns would show average of some 5,000 laborers on the Dhunwar embankment, and the pilgrim and aids in the hand of Messrs Parkinson and Peppé. This would, in round numbers, daily average of about 21,000 person deriving support in a time of exceptional from the works provided by Government and Court of Wards. Returns cannot be got from the charitable relief committee. Mr. Campbell thinks that rukdiha there are nearly 1,000 recipients of charitable relief, but he can give no exact figures for five places give 645 recipients. He considers the interest taken by prudent gentlemen is flagging, and that they are careless, and this is not surprising considering the comparatively slight pressure that is on the land. Altogether I consider that scarcity and danger for this year are passed, and it will now endeavour to push on the works taken in hand to completion, and to dispose of the rice works, rather than the money which has been sanctioned.

*With narrative of the scarcity and distress in Hazareebagh for the week ending 23rd May 1874.*

Sub-inspector, Khooswakt Roy, in charge of Hazareebagh police station, writes on the 23rd May: The state of affairs has remained unchanged; the mowha crop is quite over. The mowha fruit and kuthal look very promising; they will be ripe in a few days. The poor people eat the jungle-productions and exchange them for grain. There is no palpable increase in the number of boggars. Beggars are being fed from the State; the rural police have been ordered to bring into the station the incapable poor who should be supported by Government. The price of grain has remained unchanged. Rain is expected very soon.

Head constable, Guru Proshad Lal, in charge of Goomia police station, writes on the 23rd May: No reports have reached the station stating that there were any deaths from starvation, nor is there any palpable change in the physical condition of the people. No crop is due now. The poor are now subsisting greatly upon mowha. The grain market is intact. The mangoes will give little or no help this year, as it is expected to yield a very poor crop.

Head constable, Ramaunugra Proshad, in charge of Ramghur police station, writes on the 23rd May: No deaths from starvation during the week under review. The poor people are subsisting largely on the jungle fruits and the mowha. This provision will be exhausted in another few days. The number of beggars has of late increased; the sub-committee for the relief at Ramghur has made arrangements to feed them. Rice sells at 12 seers pucca for the rupee.

Sub-inspector, Sook Nundo Singh, in charge of Kasmar station, writes on the 23rd May: The people have begun to suffer owing to the mowha being over. The jungle fruits have also been exhausted; should timely rain fall, there is hope of the jungle roots yielding a good harvest, and being of some help to the poor. The Government rice has not yet arrived, and the beggars and helpless people are in consequence suffering. Some eight persons were made over to the relief committee, but they failed in supporting them with grain and issued to each of them half an anna a day, and the beggars have decamped considering the allowance too small to support them.

Sub-inspector, Khalic Alum, in charge of Paghar police station, writes on the 23rd May: No palpable change in the physical condition of the people during the week, nor any deaths from starvation. The poor people are subsisting much on the jungle fruits and herbs.

Sub-inspector, Walait Hossein, in charge of Chattra police station, writes on the 23rd May: No deaths from starvation. Cooked food is being issued to the poor at the relief committees at Chattra, Ilkhoori, and Kanha Chatti. Those that are capable are being provided with work. Rice sells at 12½ seers per rupee, wheat 11 seers, and mowha 1 maund 7½ seers. In the corresponding month of the past year it sold at 2 maunds per rupee.

Head constable Fyzullah Khan, in charge of Huntergunge police station, writes on the 23rd May: There is nothing new to be noticed in this report. The people are subsisting much on the jungle-productions. The state of affairs continues favorable; there is no apprehension of deaths from starvation in this jurisdiction. The number of beggars is small; no rain up to the date of report.

Head constable Bhuttan Lall, in charge of Burhee police station, writes on the 23rd May 1874: No reports of deaths from starvation reached the station during the week. The jungle fruits have been wholly reaped. The kuthal and mangoes will yield a poor harvest this year. The price of grain remains unchanged; mowha has a downward tendency. The sowing has not commenced for want of rain, a very scanty shower fell this afternoon; the weather is cloudy, there is hope of a shower. Rice 11 seers pucca for the rupee.

Sub-inspector Kaem Khan, in charge of Bugodhur station, writes on the 23rd May 1874: The state of affairs is the same as in the past week; no deaths from starvation. Rice sells at 12 seers for the rupee and grain 13 seers; a little shower of rain fell to-day. Cooked food is being issued from the relief committees.

Head constable Nund Kisson Lall, in charge of Koderma police station, writes on the 23rd May 1874: No deaths from starvation during the week. The people are subsisting greatly on mowha which has yielded a very good harvest. Mangoes are expected to yield well.

The poor are drawing their support from the relief works in progress in the neighbourhood. The incapable beggars are being fed with cooked food from Government. Chenna is healthy, and is expected to yield a very good crop, but it is cultivated to a very small extent. Real Jeytria marwa has been planted by artificial irrigation from the wells. The soil here has been made fit for sowing; a little rain fell to-day; should another few similar falls, the cultivation of the bhadoi can be commenced.

Constable Mathura Prosad, in temporary charge of the police station of Panchgola, writes on the 23rd May 1874: Owing to works in the coal mines, the rigour of the winter is not much felt here. The poor are somehow or other tiding over the distress. Rice keeps here at 11 seers for the rupee. People have commenced sowing the "dhan". The Government has afforded great relief to the poor; it having now been exhausted they have begun to feel that sub-cooked food is being issued from the relief committee.

Sub-inspector Nojeel Khan, in charge of Khurukda police station, writes on the 23rd May 1874: There is nothing fresh to be recorded. The jungle fruits have ceased to be available. The price of rice has been reduced by 2 pylas from the previous week, viz. from 20 to 18 pylas. Rice has a tendency to become dearer by degrees; as recommended in the previous week, advance money should be made to that class of people who have caste prejudices, and are not of the lower order, but who are much in want of means to carry on the cultivation of their lands, this year of scarcity.

Head constable Amanut Ali, in charge of the Gawan police station, writes on the 23rd May 1874: The people have suffered in physical strength from want of food. They have commenced planting the marwa. No crop is due. The mohwa has ceased altogether. The mango crop is very poor this year. The jungle people are living on the jungle-productions. The helpless poor are being fed by the Manager of Gawan. Rice is selling at 18 seers kucha, equal to 10½ pucca for the rupee. The sub-inspector strongly recommends the opening of some public works, such as road-making or digging tanks, and to afford the laboring people employment and support.

DISTRICT SUPDT'S OFFICE, HAZAREEBAGH,  
The 27th May 1874.

W. P. DAVIS,  
District Superintendent.

*Tenth Narrative of the scarcity and distress in Hazareebagh for the week ending the 30th May 1874.*

Sub-inspector, Shaik Imdad Ali, in charge of Gomia police station, writes on the 30th May: No perceptible change in the physical condition of the people during the week. No crop is due now; the people are living mostly on the mohwa they have gathered of late; rice is selling at 13 seers for the rupee as in the previous week; a little rain has fallen and the sowing has been commenced. The mohwa fruit is being used by the people, but the produce is small.

Sub-inspector, Imdad Ali Khan, in charge of Ramghur police station, writes on the 30th May 1874: The physical condition of the people generally has continued unchanged during the week; owing to the exports of grain towards the town of Hazareebagh and the district of Gya, rice is selling at 13 seers with an upward tendency. Mohwa is selling at 14 pussarees, or 42 seers pucca; only a two-anna crop of mangoes is expected this year; it has commenced to ripen. The people are collecting shell-lac from the jungle. They exchange it with the bunnias at the rate of 6 pylas of rice for one of lac, and its ordinary price is Rs. 20 per maund. This will help the poor during the present crisis to a certain extent. Sera (fruit of the sal tree), and keynd are being very largely used by the people. They also sell these for pice in the bazar, but the support from them is small and will not last long. The sugarcane is thriving well and is expected to yield well; it will not be due till January or February next; a little shower of rain has fallen, and about two-annas of the culturable area has been sown with "dhan" and gondlee.

Sub-inspector, Khalic Alam, in charge of Pughur police station, writes on the 30th May 1874: There have been no deaths from starvation, nor any change in the physical condition of the people. The jungle fruits and leaves have yielded a good harvest, and the poor people are drawing great support from them. There is no change from the previous week to be recorded.

Sub-inspector, Walait Hossein, in charge of Chuttra police station, writes on the 30th May: No deaths during the week under review from starvation, nor any change in the physical condition of the people; a little rain has fallen in some places; dhan and gondlee are being sown. The rain has set in in proper time and is highly favorable to agriculture. Rice is selling at 11½ seers for the rupee. Nothing else of importance to note. Mohwah is selling at one maund and five seers for the rupee, whereas in the corresponding month of the past year it sold at two maunds.

Sub-inspector, Sooknundon Singh, in charge of Kasmar police station, writes on the 30th May: The poor people have commenced to suffer from want. No rain has fallen as yet, and the cultivation for the ensuing season is in consequence being delayed. The mahajuns have discontinued advancing either cash or grain to the poor, and the latter are therefore under great anxiety. The jungle fruits are over. The poor people will suffer till the rains set in, and they get employed in the fields; a very few isolated fields have been sown

**For** muna and dhan. The sub-inspector recommends that some arrangement be made to for the cultivators; both seed-grain and grain-food, as the mahajuns will not advance the number exacted in this year of scarcity. a daily sub-inspector Ameer Hossein, in charge of Huntergunge police station, writes on the other May 1874: Rice is selling at 18 seers kueba, or 10, or 10½ seers pucca. The late make a crop has afforded great relief, so much so, that if there had been any accident to it, distress must have been very great. The poor people are tolerably well-off. The sub-inspector does not see any reason for issuing cooked or uncooked food to the poor from the in K relief sub-committees at Huntergunge and Koondla. Rs. 22 have been collected at the figur Huntergunge sub-committee as local subscription for relief, and Rs. 57-8 at Koondla. On under Sunday preceding there was a heavy fall of rain for half an hour, and sowing has been commenced.

**be** Head constable Ramdihal Ram, in charge of Koderma police station, writes on the 30th on May 1874: No deaths from starvation during the week. There is nothing new to report on the previous week. Rain has fallen. Muna and gondlee, will be transplanted with it, and dhan has been commenced to be sown. The prospect for the ensuing year is favorable.

Sub-inspector Kaem Khan, in charge Bugodhur police station, writes on the 30th May 1874: No deaths from starvation have occurred in the jurisdiction of this police station up to the present day; a little shower of rain fell for five or six days. Dhan, gondlee, junas have been sown; mangoe, kuthal, and the mohwa fruits have suffered greatly from a storm which occurred during the week. Rice is selling at 12 seers, and grain at 13 seers for the rupee.

Sub-inspector Khooswakt Roy, in charge of Hazareebagh police station, writes on the 3rd June 1874: The price of rice has remained unchanged; there is no sign of the market rising higher. The poor people are living much upon jungle fruits and mango, and kuthal. Rain has set in; sowing has commenced; a large number of the laboring class have got employment in consequence. The number of beggars seems to have been reduced.

Head constable Torral Narian, in temporary charge of Pachumba police station, writes on the 30th May 1874: There were no deaths from starvation during the week, nor have the people suffered physically. Rice was sold at 12 seers on the last Sunday at the Pachumba market. It is being imported from the east. On the 26th, 27th and 28th, good showers of rain fell. The fields have been much benefited by them; dhan, makia, muna and gondlee are being sown. The poor people have finished their store of molwa. They are now drawing their support from the coal pits; cooked food is issued to the incapable poor, who are unfit for labor; uncooked rice is given to those who do not accept the former on account of caste prejudices.

Sub-inspector Nojeel Khan, in charge of Kharakidih police station, writes on the 30th May 1874: No deaths from starvation; a large number of the poor have been employed at the great reservoir at Dhanwar; rain has fallen in several places, and the dhan and other bhadio crops have been sown. Nothing else of importance to note.

Sub-inspector Torab Ali, in charge of Gawan police station, writes on the 30th May: On the 2nd May a dreadful hailstorm took place in two villages which lie towards the south of the outpost Satgawan. The hailstones weighed some 3lb and others 4lb!!! They greatly injured the mangoe and the mohwa fruits. The tiled roofs have been considerably damaged; almost all the tiles on them have been smashed. Owing to insufficient food, the people seem to have suffered in physical strength. No crop is due now. Rain fell on 24th to 26th; in several places in the jurisdiction of the police station the people have commenced sowing seeds of dhan, &c., and transplanting muna. Rice market has remained unchanged. It sells at 16 or 17 seers kutchra, or 9 or 9½ seers pucca for the rupee.

*Memorandum of information collected during a tour along the Grand Trunk Road and neighbourhood from Burhee to Doomree and back for the first fortnight of May, 1874.*

1. *State of the Country.*—The zemindars towards Doomree assembled at various points, consider that the molwa crop will afford sufficient subsistence to the poorer classes for the ensuing month at all events, but they anticipate pressure afterwards. There is none, or very little, however, at present.

2. In the neighbourhood of Bugodhur the villagers stand very much in a similar position; if they are not actually better off, they are certainly more independent. A relief road was opened at Bugodhur (the first portion of the road to Giridhi), but seldom more than 50 persons (men, women, and children,) could be found for employment. They could not be induced to attend before 7 A. M., and seldom commenced work before 8 o'clock. They took from 2½ to 3 hours for dinner and sleep, and on one occasion, when they were told each person would receive one pice less because they did not commence work until near 9 o'clock, they all struck work, and marched off to their houses.

3. Between Bugodhur and Burkutta the zemindars assembled, and at the villages visited all expressed themselves hopeful for the future, and certain that at present there was little beyond the ordinary pressure for food amongst the poorer classes.

4. From Burkutta westward the people are somewhat worse off; grain is scarcer; rice, which at Bugodhur is 12 seers, sells at Burhee and Chowparuu for 11, and at Koderma for 10 seers, the rupee.

5. The only portion of the sub-division under me where pressure is at present much felt is in that portion to the north of the Grand Trunk Road, which lies parallel with Bugodhur and Chowparuu. One relief road is resorted to freely in that part of the country

(that running from Burhee to Koderma), and another road is projected for the relief of the people more to the east.

6. *Grain Trade, west.*—There is a steady flow of mowha from the eastward towards Jharkhand and Chowparan, and also, though to a lesser extent, of murwa. The want towards Koderma is pretty generally known, as the other day I myself met a couple of hundred bullocks crossing the Grand Trunk Road by a jungle path near Bursote laden with murwa from Chota Nagpore to Koderma.

7. *Estimate of Food-grains.*—I have directed the officers of the relief depôts along the Grand Trunk Road to make a rough estimate of the food-grains passing daily, taking care at one time not to record what has already passed another. From this source towards the end of the month a moderately accurate estimate may be formed of the quantity and direction of trade in food-grains passing along the Grand Trunk Road.

8. *Grain Trade, east.*—There is a steady and considerable flow of oil-seeds towards the east; the return carts bring back salt generally, of which condiment the monsoon supply is now being sent up for storage.

9. The people throughout are hopeful and helpful; ploughing and manuring is going on steadily; where practicable, bunds are being repaired and strengthened for the coming year for which the people are making the ordinary preparations in fencing in fields, repairs in houses, &c.

10. *Gratis Relief.*—The recipients are few, and these were very much reduced by the first attempt to introduce some slight labor test, such as the making of chape rope, with the usual prejudice against anything new. The people at each depôt, nearly one and all, positively refused to accept relief on these terms (several also object to cooked rice); but a few are coming back, and no doubt this forms a pretty fair test of the people's wants: as where there is most pressure for food, as in the neighbourhood of Koderma, not only do they resort freely for employment on the road, but they made no objection to the very slight labor test exacted.

11. *Summary.*—To sum up: the country lying to the north of the Grand Trunk Road is the only portion of my sub-division which at present shows anything like real want, and is the only portion which so far would seem to require Government assistance for seed-grain. There can be little doubt but that as the zemindars become better acquainted with the liberal terms on which this will be advanced by Government, hundreds will take advantage of Government liberality, who are in no real want whatever of such assistance. Until lately no enquiries were made or anxiety evinced by zemindars concerning seed-grain, where, as lately, it is the first subject introduced, and the last relinquished, owing, doubtless, to the desire to get as much as they can of Government rice on the most favorable terms.

No. 16, dated Gawan, the 25th May, 1874.

From—BABOO DOORGA PROSHAD, Manager of the Gawan Estate,  
To—The Deputy Commissioner, Hazareebagh.

IN obedience to the directions conveyed in your letter No. 66, dated 17th April, 1874, I have the honor to report that the general condition of the people for the current month is not otherwise than that it has been already stated in my report for the previous month, to be good. The tank works are going on as before. The Mauldah ahar has been completed, and that at Chundari is expected soon to be so. The works of the Chinboota and Brinay ahars, which were so long delayed for the want of laborers, have been commenced from the middle of the month. Upwards of 400 people are daily employed on these works, and instead of daily wages in cash, rice is given to them at the rate of 11 seers to a rupee, as suggested in your letter No. 565 of the 11th instant.

2. On the bazar day more articles of food are now imported for sale than in the last month. The rates at which the food articles were disposed of on the last bazar day, the 20th instant, are as follows:—

Articles.		Rates.	
		Srs.	Chs.
1. {	Rice, 1st class, at...	9	9 pucca per rupee.
	" 2nd " at...	9	14 " "
	" 3rd " at...	10	5 " "
	" Gobindpuri, at...	12	0 " "
2.	Jenora, at...	12	0 " "
3.	" called causha, at...	12	9 " "
4.	Gram, at...	15	9 " "
5.	Koorthee, at...	14	6 " "

3. The Baisakhee mowha fell till the end of the first week of this month, and it is now that the season of the wild products, called candi and saray, has arrived. At some of the villages of this and the Gudee of Satgawan, the jothwa crops, such as maukai, murdwa, cheena, eakree, and sugarcane, have been well cultivated where there are water sources. These crops have been, moreover, favored by a heavy shower of rain which fell here on the day before yesterday.

4. I went myself to Satgawan, and made the necessary arrangements for a bhatghurra at Nasirgunge on the 22nd instant. The head constable of that outpost police station has been made to look to this bhatghurra where some 20 or 22 people, who are altogether incapable of work, are fed with rice once a day, at 12 o'clock. A bhatghurra has also been opened from

with instant at Gawan Khas, where 9 or 10 persons of the like nature are similarly prosecuted. But I regret to state that there is no sufficient work for the poor at Satgawan, and same they have to suffer to a certain extent. I am going to report this matter to the Divisional Officer at Pachumba.

30th I have lately received 999 bags of rice from the Relief Committee at Pachumba, mostly stored them in a house within the compound of the Estate Office. This rice is used by the coolies at the Ward's works, and for the helpless poor, who are fed at the insurerras. The quantity of rice noted to be contained in each of the bags, is two maunds, one of those bags since opened has given the exact quantity. A detailed statement of diminution of rice in the bags will be submitted to the Committee at Pachumba.

According to the rules prescribed by the Committee, I felt the necessity of sending persons who have been rendered totally useless, or incapable of work, by their severely and dangerous ulcers, to the Pachumba hospital; but they are quite unwilling to go although they have been often urged to it. This fact has also been reported to the named above.

No. 134, dated Chattra, the 30th May, 1874.

From—BANOO HARIHAR CHARAN, Extra Assistant Commissioner, Chattra,  
To—The Deputy Commissioner, Hazareebagh.

With reference to your letter No. 641, dated the 28th instant, I have the honor to report that the following five Sub-Committees are established under the Sub-Divisional Committee of Chattra:—

- |                 |                 |
|-----------------|-----------------|
| 1. Chattra.     | 4. Khunda.      |
| 2. Kanbachatty. | 5. Huntergunge. |
| 3. Itkhorec.    |                 |

2. In 1, 2, and 3 Sub-Committees' districts poor-houses are established, where cooked gratuitous food is distributed to persons who are incapable of working, and a list of villages has been given to each member of the circle of every Sub-Committee, who inspects the villages personally, or through his responsible agents, and they keep a diary and send a copy of those diaries to me every Saturday, from which it appears that members attend to their duties with punctuality and care, and where the trace of pressure has been found, and measures of relief have been promptly adopted according to circumstances. They always enquire into the condition of people and crops and supply of grain, and every particular of the villages.

3. Several sorts of light works have been undertaken to afford labor to persons who are incapable of hard labor. Women of good family, who cannot serve out of doors, have been supplied with cotton and some pecuniary advance to return it in thread; and weak people of good family, whose caste feeling precludes them from applying for cooked food, or who from social usages are unable to come upon the relief work, like Brahmins and other castes, have been supplied with rice and dāl uncooked daily; and those who live at a little distance from relief grain-houses have been supplied with rice and dāl at once for 15 days' consumption; and very old women of good family, who have no male adult, have been supplied with rice and dāl daily through village agency.

4. I shall be able to send you a detailed list of the exact number of persons who have been relieved in the several ways under each head, within a week.

5. From the proceedings of the Sub-Committees of Huntergunge and Khunda it appears that there is no necessity to adopt any measure of relief in those places. As for the professional beggars, ordinary private charity is sufficient to support them. Diaries, which are weekly received from each member, show the favorable circumstances of his circle.

6. Proper arrangement has been made for inspection from village to village, and every endeavor is being made by me to obtain information of all the circumstances of my jurisdiction, and measures are promptly adopted when pressure is reported. No death has been caused by starvation.

7. I herewith attach an account of expenditure from the beginning up to 15th May on charitable relief under each head, and accounts up to a later date shall be forwarded with other details within a week.

*Extract from the Pachumba Extra Assistant Commissioner's Letter No. 139, dated 31st May, 1874.*

I STARTED again for Dhunwar and the western portion of the district for a period of ten days, and was perpetually in the saddle moving about from village to village and making the most minute enquiries into the state of the people themselves, as well as into their food and seed stocks. For the first few days my attention was particularly devoted to the Government Estate of Kurgalee. I visited almost every village in the estate, and actually went into the majority of the houses of the ryots, and the result of these enquiries was such as to lead me to the firm conclusion that the people had no stock of food except a few maunds of mowha; that their stock of seed was barely half the quantity required for cultivating purposes; and that they were then rapidly consuming what seed they had. This led me at once, and without reference to you, to make advances of Government grain to the ryots in quantities of about Rs. 2 in value to each ryot, so as to remove the temptation from the ryots of consuming what little seed they had. In this way I disposed of rather more than 100 maunds

of Government rice. From Kurgalee I proceeded to Gadee Morua, and visiting en route came round *via* Bernee and Seeranda to Tara, and then on to the Government of Doomali.

2. The result of the enquiry has been to assure me that the stocks of seed hands of the ryots is very very deficient, and that beyond a few maunds of they have no stock of food to go on with. I never made so detailed and search enquiry into the food-supplies of the ryot class in any other year, but my recollection to me instances in which in other years I have found at least two bands of murwa, or both, containing, say, three kuteba maunds, or in kâts, in the houses of ordinary ryots; while this year, in all the houses I visited, I did not see a single band of grain in any one house. The most I saw were a few pylas reserved for seed in a gurha month closed up with mud, or else tied up in folds of sâl leaves. Notwithstanding this deficiency in the stock of food-grain, the actual present physical condition of the people is surprisingly satisfactory; they are not emaciated, they do not look starved, and the people who show signs of weakness from short food is wonderfully small. I only came across one of real emaciation in a lad from Khesnee, who was crawling into Dhumwar bazar as I left, and in one out-of-the-way village near Surnuda I saw two little children who showed undoubted signs of starvation in their faces and bodies. The village children as a rule are fairly nourished.

3. I cannot but think that at this present moment the prospects of the people have advanced materially for the better during the past week. This is owing mainly to the favorable rainfall which has been general during the last ten days, and to the rules now in force for advances for food. Last Monday, which was the first or second day of the *Rohus Neckaltor*, had, I found, been fixed upon in a large number of villages, as a propitious day for sowing by the Brahmins, and on the Saturday and Sunday previous, and on Monday itself there was general rain, which was much wanted, and sowings of dhau broadcast have been very general throughout the week. Murwa, too, has been sown for seedlings, and also a good deal of ground; ploughing has been going on so briskly that I have been considerably put about for carts for grain despatches, the call for bullocks for the plough being so urgent. This will have the effect of raising the hopes of the people and keeping up their spirits, and will, I doubt not, tend to make the mahajuns more liberal in giving loans of seed-grain to the ryots. The grain advances, for which in Pachumba alone I have received some 300 applications during the last four days, will give the people a stock of food for immediate use, and to some extent make them independent of the mahajun and his exorbitant demands.

4. Prices have not risen very much during the week; the range has been for rice from 13 seers in Khumkdiha, to 12½, 12, and 11½ in Pachumba and Paingunge, to 10½ and 10¼ in Gawan and Ghoranjee, and for other food-supplies as follows:—

Gram	...	...	14½ to 11½ seers per rupee.
Makni	...	...	15 to 12 " "
Mowha	...	...	1½ to 1½ maunds per rupee.

The railway returns show the importation to have been brisker than usual.

				Mds.
Rice imported	...	...	...	2,011
Other food	...	...	...	2,115

I am afraid, however, that a considerable quantity of this will not come into the market, as it in the main consists of importations by the Bengal Coal Company and the Railway Company, for disposal to their own colliers; such a distribution will, however, relieve the market a great deal, and there is no doubt that the presence of the grain so near Pachumba will have the tendency to keep down the prices in the market here. It is very common to hear the traders express themselves to the effect that the existence of the stores of Government grain in different parts has had that tendency all along. The bazars still continue to be fairly supplied with food. I noticed in my last report the deficiency of supply in Gawan bazar; the report for the week succeeding my report, however, shows that the supply had nearly attained to its normal amount. The last reports from that thana, I would mention, have not been favorable, and there is a cry for work and to open the rice store there. I am impressing on Mr. Parkinson the necessity of moving on to that part at an early date. I propose starting for Gawan myself early this week, to see matters for myself.

5. The Bengabad road, as you are aware, was originally started by me on the 21st April; I made over charge of the road to the Relief Officer, Captain Preston. At that time there were rather over 200 people employed on the road daily. This number gradually increased as the mowha picking ceased, and during the week ending 7th May, there was a mean daily average of 363·7. This rose for the week ending 14th to 728·5. In the meantime I had sent out 50 bags of rice to Bengabad for sale to the laborers, as prices there were rising to 9 seers; the very next day it so happened that Captain Preston ran short of money, and proposed to the laborers to pay them in grain; at this they demurred, but finding objection useless they agreed to take the grain. On Captain Preston representing this to me, and adding that the coolies said they did not want rice but pie, I at once ordered the daily wages system hitherto in force to be stopped, and piece-work to be given at 3 annas per 100 cubic feet. On the 15th and 16th no laborers came to the works; on the 17th some came, and for the three days, 17th, 18th and 19th, the daily average fell to 30, and these were a light-labor gang on daily wages.

The total receipts of grain have, as per the memorandum furnished with my last demi-  
the 21st, been about 29,250 maunds. Of this rather more than 15,000 has been despatched to the  
vided. trunk Road, the balance having been distributed over the sub-division. Means of trans-  
consequence not very readily available, and it is with difficulty I could procure a daily average of  
Sub-Div. This difficulty will increase as the season advances, and the cattle are wanted for the

5. I am therefore making preparations for additional storage room in Pachumba and  
and east, so that I may be ready to receive the additional allotment sanctioned. My first  
is purpore, however, will be to send forward rice to the pilgrim road for issue to the Executive  
bhatgiler, and my next to store at least 2,000 maunds in the parts to the west and south of  
but now, where I expect large calls for advances. I have selected Nowaghur as the most  
of these site for a golah, and steps are being taken for the building. The rice is willingly  
by the ryots at the sanctioned rates; but I have to-day come across some bags which  
4 or 5 have been utterly ruined by salt water, and consist of a hard conglomerated mass of rice, dhan,  
pains, mildew.

there. Advances for land improvement have begun to come on me in a perfect flood. This  
official great pity, for the season is far advanced, and the time taken in the necessary inquiries  
formalities is so much valuable time wasted. The people did not believe in the intentions  
Government in this matter, and it was not until they saw one man on whom I had to  
pass the advance actually get the money that they began to believe the intention was a  
real one; then every one took it into his head to think that he had, or must have, an ahar to  
make or repair.

*Extract from a letter No. 17, dated the 2nd June 1874, from W. PARRY DAVIS, Esq.,  
Vice-Chairman, Head-Quarters Sub-Divisional Committee, Hazareebagh.*

PARA. 6. Relief measures have been commenced at four places, viz. Hazareebagh, Eachak,  
Kandwa and Simeria, and though the sub-committees of Gomea, Jhoomra and Mohoodih  
have been supplied with both rice and money, nothing has been done there up to date, and no  
reports have yet been received from Jhoomra and Mahoodih. No regular relief operations  
have been commenced at Mandoo, Ramgurb, Gola, Peterbhr and Kusmar for want of rice.

7. Here it is necessary to add that though no gratuitous relief could be given at the  
last-mentioned places, the works on the roads from Gola to Peterbar and Bishoongurb to  
Gomea, which are under my charge, as also the road from Ramgurb to Joynuggur under  
Mr. Pereira, have afforded ample labor to the working class of those quarters.

8. The accompanying statement will show that on an average 61.5 persons were daily  
fed up to 23rd ultimo at each of the relief centres where poor-houses have already been  
opened, at a cost of Rs. 190, the operations being limited to the last month only.

9. In some places the cost, in consideration of the few persons fed, would appear rather  
immoderate. The reason is that this being the first return of the kind, the cost of carriage of  
grain from Government depôts to the relief centres and other contingencies have been included  
therein.

10. With regard to the 2nd paragraph of your letter under reply, I beg to inform you  
that the duties of the sub-committees are, for the present, confined to the feeding of the poor  
who are destitute of any means and who resort to the poor-house for relief. Instructions will  
now be issued for searching out and relieving the special cases mentioned by you, but consi-  
dering the extensive jurisdiction of each sub-committee, I fear the benevolent intention of  
Government is not likely to be carried out without paid agency, of which we have none in  
our circle.

11. The general condition of the people throughout the jurisdiction entrusted to this  
committee is so good that I do not apprehend that there will be any occasion for some time  
to come to appoint any paid agency.

Dated Koderma, the 31st May 1874.

From—H. M. TORIN, Esq., Assistant Commissioner of Koderma,

To—H. S. BEADON, Esq., Officiating Deputy Commissioner, Hazareebagh.

I HAVE the honor to report, for your information, the measures that have been taken to  
guard against distress in that part of the district which is under my care, and also the way in  
which the Government orders for payment of laborers in grain and for piece-work have been  
carried out.

The relief stations at Koderma, Joynugger and Musnoodoo are resorted to only by the  
wholly infirm or partly infirm, and most of these pay, in some measure, for their support by  
making ropes from *chope*, which is bought from the relief committee, for the purpose of  
making out roads. This occupation is so far successful that at Musnoodoo, where relief by  
light labor alone is given, the expenses in relief for the past four weeks have been Rs. 31-2-0,  
while the income from the manufacture has been Rs. 30-8-0.

The roads in course of construction between Burhee and Gawan, and Joynugger and  
Koderma, have been quite sufficient to relieve all distress which was found to be existing earlier  
in the year. Men have already begun to come in for food advances, and they are being given to  
the applicants on the terms mentioned in your instructions, chiefly on the principle of mutual  
security. Some zemindars are coming for money advances in order to supply their ryots with

seed-grain. These I am giving, understanding that their case comes within the village mentioned in paragraph 4 III of the Government letter No. 3369—S.R. Not estate the rain has fallen, the Government ryots are coming in great numbers for advances, agreeing at last to the terms directed by you to be offered to them. in the work has been now regularly introduced on the Joynuggur and Koderma road, nowha is under my direct management, and no wages in cash have been paid since the 23<sup>rd</sup> ng an when the orders of Government as to grain payment were received and put into im-realls execution. The system on which the road-work is now carried on is as follows. ar or are three sectional sirdars, thoroughly reliable men, having been tested by service most sight; these men divide the coolies in the morning into bands of 100 (40 diggers either basket laborers), giving each band into the charge of a mate, and marking out to th the amount of work his party must do in the day. The mate then has to divide his pneral four sections of 25 men each, and allot to each section one-fourth of the work entrusted is him. At evening pay tickets (of 6 pice and 4 pice) are distributed by the sectional is to the coolies in the parties under him, though he has not to do so till the allotted work been completed.

From 12 to 2 the next day the laborers are collected in lines, and rice, according to value of the tickets held by them, is distributed by measure. This system will be also introduced on the Markacho road, which will be begun in a few days, as the Joynugger road, as far as the earthwork is concerned, will be complete in three days.

I regret to have to report that the natural supply of rice has failed at Koderma. I have accordingly given orders for the sale of Government rice to the banias of that place at 12 seers per rupee, ready money, bonds being taken from them to sell it at 11 seers to the public.

I am in urgent need of money for advances in cash to the zemindars, and trust that Rs. 2,000 may be at once sent out. A large amount of rice should be stored at Koderma before the rains set in, as much is required for the payment of laborers, food advances, and sale to banias.

I shall be glad to receive the metal tokens which are being constructed in the jail, as some trouble is caused by the use of authenticated paper tickets.

*Extract from letter No. 29, dated 1st June 1874, from DARCY McARTHUR, Esq., Relief Superintendent.*

3. With regard to paragraph 5 of the Government letter and paragraph 3 of your letter under acknowledgment in my last fortnightly report, dated 30th ultimo, the numbers receiving gratuitous relief are given in paragraph 5 for the three principal relief stations in this sub-division, which I here beg to supplement with fuller details. I would here premise, however, that fortunately distress hitherto has been neither widespread nor biting, consequently the total number relieved is comparatively insignificant.

4. Orders have been issued for the formation of sub-circle committees at Danooa, Charparan, Burhee, Sukroij Beerkotha, Luckeebagh, Bugodhur, Bugrow, Gamo, and Doomree, but nothing worth record has hitherto been elicited. As there is little distress, so there is little to report; and though there may occasionally be found people here and there who are somewhat pinched for food, there is nothing like widespread general distress.

5. The relieving stations already established are Chowparan, Burhee, Koderma, Joynuggur, Musnodee, Burkatta, Bugodhur, and Doomree. Sub-relief stations have also more or less recently been established at Dhanooa, Seekroij and Luckeebagh; these are precautionary measures, interded to provide against the requirements of extended relief, should such become necessary at any future period.

6. The following figures are given from the reports received up to the latest date, but in order to give a general idea of the total number of men relieved during the month of May, deficiencies of date have been supplemented by taking the daily average of the number received for the full month of 31 days.

7. At Koderma there were relieved in May—

						Persons.
Koderma	...	...	...	...	...	775
Burhee	...	...	...	...	...	587
Bugodhur	...	...	...	...	...	465

## MEMORANDUM.

701 maunds and 6 seers of grain have been sold to the coolies on the road.

None to the public.

None in charitable relief.

Up to the present time 1,500 laborers have been employed on task-work, but task-work is now being introduced fast on all the roads. This will have to be done gradually, and will take a little time.

The return for June, it is hoped, will show the greatest part of the laborers as doing task-work only.

E. S. B. PEREIRA,

Engineer to the District Committee.

The 22nd June, 1874.

HAZAREEBAGH,

H. S. BEADON,

The 6th June 1874.

Offg. Deputy Commissioner.

Recd. No. 948, dated Hazareebagh, the 6th June 1874.

Memo. by—H. S. BEADON, Esq., Officiating Deputy Commissioner, Hazareebagh.  
Copy forwarded for the information of the Secretary to the Government  
Bengal, Scarcity and Relief Department.

No. 675, dated Hazareebagh, the 6th June 1874.

From—H. S. BEADON, Esq., Officiating Deputy Commissioner, Hazareebagh,  
To—The Commissioner of Chota Nagpore.

Sherrif  
Hunt  
Jore  
Chas  
Dalt  
Old  
H  
I HAVE the honor to forward the following supplemental report regarding the relief of  
Jore in this district through the medium of the charitable relief committee. The informa-  
Chas is contained in a scattered form throughout my monthly report for May; but I have  
Dalt the facts together again for easy reference in your office, and in the Secretariat, in  
Old accordance with the orders of Government, conveyed in the 5th paragraph of No. 3216—S.R.,  
H 19th May 1874.

*Report on the action taken for the gratuitous relief of the distressed in the Hazareebagh district,  
for the fortnight ending 31st May.*

The whole district is now divided into four relief sub-divisions:—

- |                 |             |
|-----------------|-------------|
| 1. Hazareebagh. | 3. Burhee.  |
| 2. Pachumba.    | 4. Chattra. |

In the Sudder sub-division it has, as yet, been found necessary to institute gratuitous relief at Hazareebagh, Semena, Tandwa, and Echak only. Preparations have, however, been made to have relief ready in case of need at Mahoodih, Jhoomra, Goomera, Mandoo, Gola, Ramgurnth, Peturbar and Kusmar. At the four first mentioned stations, the numbers applying for relief have been small, their total daily average not having been more than 615. The cost incurred has amounted to Rs. 190, the chief item being the cost of conveyance of grain to the different stations. The operations of the sub-committees have as yet been confined to assisting the poor and destitute who resort to the poor-house for relief.

At Pachumba, in addition to the relief stations mentioned in my last report, new centres have been organised and started at Gawan and Satgawan, under the supervision of the Manager of the Gawan Estate. At Gawan, the daily average of those relieved has been from 9 to 10, while at Satgawan it has been from 20 to 22. I have received no returns or report from Pachumba as to the action of the original relief sub-committees at the several stations for the past fortnight. Mr. Campbell can get no returns, and says that the members of the local sub-committees are becoming apathetic and careless.

In the Burhee sub-division, the imposition of a light labor-test had the effect of causing an immediate reduction in the number relieved at the stations along the Grand Trunk Road, viz., at Doomree, Baggodhur, Burkutta and Burhee. It has not, however, had this effect at Musnoodee, Joynugger, and Koderma, where it has now been acted upon for some time, and where the numbers of those relieved remain continually at the same average. At Musnoodee no absolutely gratuitous relief has as yet been given at all; it did not appear necessary to the Assistant Commissioner to institute it, as almost all who applied were equal to the task of some light work. These laborers are therefore relieved in grain. Besides these stations, there are in the Burhee sub-division, Gujhundee (where no distribution of relief has been yet necessary), Sukrej and Lucheebagh; at the two latter places sub-relief stations have been opened within the last fortnight, and slight relief given from them. Occasional relief has also been given at Dhunooa and Murkuteho.

At Chattra, sub-divisional relief committees have been instituted at—

- |                |              |
|----------------|--------------|
| Chattra.       | Kunda.       |
| Kanha Chattee. | Huntergunge. |
| Etkhouri.      |              |

At the three former stations the distribution of gratuitous relief has been commenced, while at Kunda and Huntergunge it has not been found necessary. In the case of those whose customs prevent them from coming to the poor-house, food and work is supplied in their houses daily; in some cases a fifteen days' supply of food is given at one time. Owing to the accounts not yet having been sent in by the sub-divisional committees, it is impossible to shew in this report the expenses up to date.

No. 26M.A., dated Calcutta, the 4th June 1874.

From—LORD H. ULICK BROWNE, Commissioner of the Presidency Division,  
To—The Secretary to the Govt. of Bengal, Scarcity and Relief Department.

In continuation of my No. 20M.A., dated 20th May 1874, submitting the fortnightly narrative of the Collector of Nuddea, for the fortnight ending 16th May 1874, I have now the honor to submit the Collector's report for the fortnight ending May 31st 1874.

2. I have nothing special to add to what the Collector says under any heading. Relief works, light labor work, and charitable relief are available as fast as there is any demand or necessity, and the condition of the people is carefully watched by both Government officers and relief committees.

No. 609—S.R., dated Kishnaghur, the 1st June 1874.

From—C. C. STEVENS, Esq., Collector of Nuddea,

To—The Commissioner of the Presidency Division.

I HAVE the honor to submit my narrative of scarcity for the fortnight ending 31st May 1874.

1. *Abundance or scarcity in the bazar.*—There is sufficient grain in most of the principal marts of this district to meet adequately all local wants. Rice of common and medium qualities is generally procurable. From this general rule must be excepted thanas Kaligunge and Nakasipara in the Sudder sub-division; Tehatta and part of Karimpore in Meherpore, and thana Jaguli in Ranaghat, where it is reported that local supply is not adequate to meet the requisite demand. In Kaligunge and Tehatta, prices have risen considerably, and far beyond a due proportion to the rest of the district. This evidently shows that the stocks are extremely small, and I doubt whether the local trade is doing enough to keep up the local supply. Permission has been obtained from Government for me to lend money, in order to stimulate trade. I have abstained as long as possible from using this power, but I believe I shall find it necessary. The stocks which the well-to-do people, and substantial ryots have been keeping, has not been as yet exhausted. Boro dhan, which yielded a tolerable harvest, has done some good to the ryots, but the quantity grown here is very limited. The rubbee crops which have now come into the market, have helped to keep prices steady.

2. The adjoined statement will show the kind and prices of food-grains in the several markets:—

		Common rice.	Medium rice.	Kulai	Mug.	Other.
		Rs. A.	Rs. A.	Rs. A.	Rs. A.	Rs. A.
Bongong	...	2 12	3 8	.....	.....	.....
Ranaghat	...	2 12	3 0	2 10	3 2	2 8
Santipore	...	3 0	3 8	2 8	3 0	2 8
Chagda	...	2 13	3 8	2 4	3 4	2 8
Meherpore	...	3 14	3 2	....	.....	.....
Kooshtea	...	3 4	3 8	2 0	2 8	2 4
Chooadanga	...	2 12	3 8	.....	.....	.....
Kishnaghur	...	3 0	3 10	2 6	2 8	2 6
Alamdanga	...	2 12	3 8	.....	.....	.....
Damnooda	...	2 12	3 8	.....	.....	.....
Kaligunge	...	3 8	.....	.....	.....	.....

It appears, then, that the price of common rice is highest in thana Kaligunge, in some parts of which it has gone up to 4 Rs. per maund. The price of rice has risen in sub-division Bongong, while in all other sub-divisions it has remained nearly stationary. It is anticipated that the price will continue to rise steadily till the next *mons* harvest is reaped.

3. No additional information has been received as to the stock of grain in hands of private individuals.

4. *State of the crops.*—Jally dhan, which is expected to yield a fair outturn, is the only standing crop nearly approaching maturity. The late opportune showers have been general, and of great benefit to the agricultural class. *Aous* dhan, which had been largely cultivated and sown is doing very well. I am told that a little of the land which had been prepared has been left unsown for want of seed, and that it has been found necessary in occasional instances to re-sow, as the seed first sown failed to germinate through the drought. The sowing of *amun* dhan has also commenced. Sugarcane and indigo are doing very well.

5. Rain has been abundant in nearly all parts of the district, with the exception of the southern portion of Ranaghat, of Bongong, and in part of Chooadanga; but still more rain is required. From the unsettled state of the weather it is to be hoped that the rains will soon regularly set in. So far the prospects for next season are promising.

6. No special cases of misery or starvation have yet been reported here. The number of grain-thefts reported by the police during the fortnight is eight, which occurred in the following sub-divisions:—Sudder, three; Meherpore, two; Chooadanga, two; and Bongong one. At Alamdanga a case is said to have occurred on the 29th ultimo, in which grain valued at Rs. 160 was looted by a mob. The Deputy Collector, however, does not mention it in his report. I have asked him to give me the particulars.

7. Generally speaking, *abkari* revenue has not been as yet materially affected by the rise in the price of food-grains. There has been some decrease of revenue in sub-divisions Ranaghat and Kooshtea. In Bongong, Chooadanga, Sudder, and Meherpore, there has been no great fall in excise revenue.

8. *Condition of the People.*—Generally speaking, the condition of the people, with the exception of the inhabitants of those parts which have been recognised as distressed tracts, is not bad. As the greater portion of the agricultural classes subsist on paddy lent by the *mahajuns*, they do not greatly feel the increase in price of the food-grains where the *mahajuns* have stocks. It is the middle-class people, whose chief possession is their respectability that have begun to feel the distress most; but even they are said to be better off than they were in 1866 at the time. Professional beggars are daily increasing, and private charity has so far relieved them, except the distressed parts.

9. *Condition of any Special Tract.*—Cholera, which lately was very prevalent in the distressed tracts, has now disappeared in certain portions of sub-division Meherpore, where it is still raging. The excavation of many of the Government and tuccavee tanks has been finished, and the people are now better off so far as drinking-water is concerned. No serious difficulty has been met with in procuring seeds for aous sowings, which have nearly been completed. Overseer Babu Radhagobind Roy reports that a few plots of ground in thana Kaligunge have not been sown for want of seed. I regret that I have received intelligence that signs of distress have appeared in certain portions of thana Karimpore, in Meherpore. I have requested the now sub-divisional officer of Meherpore to visit the locality. Unfortunately, owing to recent changes, I have lost the advantage of the late sub-divisional officer's experience. In addition to the relief works already commenced in the shape of digging tanks and in repairing and constructing roads, the sub-committees are gradually extending relief operations in the distressed tracts. Paddy-husking and jute-spinning have been introduced. The number of persons on the Government works in the distressed tracts has increased much. Those who are unable to do enough to be put on piece-work are becoming specially numerous, and I think that the time for giving gratuitous relief has now come. I hope to visit the Nakasipara, Kaligunge and Tehatta thanas before I furnish my next report. The next three months will necessarily be a period of much anxiety, for though hitherto the state of the district has been better than was perhaps expected, it must not be forgotten that till the next crops come in, in August and September, we can get no addition to our food-supply.

10. *Relief works.*—The construction and repair of roads are going on in nearly all the sub-divisions, excepting Sudder, where the construction of kucha roads has been put a stop to. The excavation of Government tanks, and of those undertaken by private individuals who have obtained loans from Government are going on well, as a rule, though the exceptions are more numerous than I like to see. The officers are, however, doing their best to stir up the borrowers, and in one instance of conspicuous failure, I have called on a person to show cause why he should not refund the amount borrowed. The late rains temporarily stopped the work of a few tanks but now work is going on again. As the season is far advanced, no fresh loans are now being given. The number of men employed during the week ending Saturday last, on Government tanks is 3,617, and the total number of laborers employed during the fortnight may be roughly estimated at 8,000.

11. *Transport of food.*—Generally speaking, export and import trades appear to have been carried on much as before. In sub-division Ranaghat, some two thousand maunds of rice, and 850 maunds of paddy are said to have been imported. The export has nearly kept pace with the import, being some 1,800 maunds. The export has been made to Hooghly, Goalundo, and Sahibgunge. Dealers from Moorsshedabad have continued to export paddy from Meherpore and Choodanaga sub-divisions. The rice exported from Bongong generally passed through sub-divisions Ranaghat and Sudder, to the localities chiefly on the other side of the Hooghly.

12. *Charitable relief.*—The different modes of relief already reported in my previous reports are all being carried on, of the three sorts of relief, viz., cotton-spinning, jute-spinning and paddy-husking. It has been found that paddy-husking is more remunerative than the other two sorts of relief. The number of recipients of such relief is much greater in Tehatta and Kaligunge thanas than in Nakasipara. To the first two thanas nearly Rs. 3,000 has already been sent to carry on the work, but to the last only Rs. 600 has been sent for this purpose. Besides those who are receiving relief in the above shapes, there are more than 1,600 invalids, who are even really unfit for these works, and are being relieved by tank works and roads, and do nothing, or next to nothing but get daily pay. These persons are properly speaking subjects for gratuitous relief, and I hope after visiting the spot, and seeing that the machinery is sufficient for the purpose, to commence gratuitous relief for them. As the sub-committees reports have not yet come in, I regret that I cannot give more details.

No. 222, dated Julpigoree, the 6th June 1874.

From—CAPTAIN R. C. MONKEY, Deputy Commissioner of Julpigoree,

To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Department.

I HAVE the honor to submit herewith my fortnightly narrative up to 30th May 1874.

*Julpigoree fortnightly narrative up to 30th May 1874.*

#### A.—STATE OF THE COUNTRY.

It is now necessary that the whole of the Julpigoree district be classed as distressed, the scarcity in the south being the result of bad crops and export; in the north, of export only.

The condition of the two parts of the district is so distinct that they must be considered separately. I will therefore first allude to the state of the district exclusive of that portion of Boda lying south of the new Mackligunge and Atwari feeders.

This part of the district contains north Boda and Boikantpore, the Western Dooars and Patgram.

The estimated outturn of crop in these tracts I put in January last at—

Western Dooars	...	...	...	...	13 annas.
Boikantpore	...	...	...	...	12 "
Patgram	...	...	...	...	10 "

This rice crop was not all which the people had to depend on in all these tracts; jute is extensively grown in the Dooars and Patgram; tobacco is a large and valuable crop, and in all, vegetables, such as onions, potatoes, &c., are extensively grown. The people are remarkably well off, and there was every reason to hope that distress would not be felt in these tracts.

A source of danger, however, early developed itself, and an export trade on a scale never before known here sprang up. Easily accessible from Kissenguage in Purneah; from Rungpore, Dinagepore, and Darjeeling, traders from all these places poured into this district. These traders were willing to give what appeared to the people of a district where rice is always very cheap fabulous prices, and there began an eager rush to convert rice into money. Cloth merchants who never before thought of grain trade, left their cloth business and started as rice dealers; even pure agriculturists, bitten with the mania, went about from hāt to hāt buying where they could cheap, and selling to beparies, who were willing to buy at rates always in advance of the local bazar rates.

There was as much emulation among beparies as amongst the people of the district, and they seemed always to be prepared to bid each other out of the field, and thus ran up prices greatly.

Gradually, and surely, rising prices all over the district reached 12 seers per rupee. At this rate they stood pretty firm for some little time, when about the first week in May they began to rise more rapidly, suddenly, towards the middle of the month, running up to 8 seers, and in some places even 7 or 6 seers per rupee. The rise at the last was general and most sudden, at all parts of the district, Titalya, Seligore, Julpigore, in the Dooars, and Patgram 8 seers per rupee was the general quotation, while here and there it was still higher. With this rise came reports of distress, and of small supply of rice in the hāts. Everything seemed to indicate that the golahs of the district must be empty. About this time I first heard, while in South Boda, a rumour of some grain-robberies having occurred in the Rungpore district, and uneasiness was expressed by traders who came from Rungpore into the south of Boda to buy grain there. I next heard some rumours of such cases about Meckligunge, and then on the 14th three cases of grain-dacoity occurred on our border at Chusabhunder. From Chusabhunder these offences seemed to sweep up into the Dooars, 25 cases of grain-robbery or golab looting taking place in the Dooars on the 18th, 19th, and 20th. I speak here of the Dooars north and west of Chusabhunder only. A few cases also occurred in the eastern or Bura sub-division portion of the Dooars.

Just at the same time a few cases also occurred in Boda and Boykantpore.

Suddenly cropping up, simultaneous with the rise in price of rice in all these tracts, and these offences being committed mainly against exporters, it seemed as if the food of the district was exhausted. I took immediate steps to throw parties of police and sowars in all the disturbed tracts; a detachment of the Cooch Behar regiment which was here I used for the same purpose. The Commissioner telegraphed to Buxa for a detachment of the regiment there. I went myself through all those parts where such offences were then being said to be committed, and I made several arrests myself on strength of complaints made to me. The District Superintendent of Police was at once ordered out to investigate different cases, and I am glad to be able to say that, after the 20th, these offences entirely ceased, and the confidence of the people was restored. It was while this was occurring that I wrote to the Commissioner and asked him to apply to Government for one lakh maunds of rice for the district. This he did.

I found on enquiry that these offences were not committed by starving people. Churabhandar, Saptibary, and Bakali are known in the district as the refuges of bad characters from other places; first on the borders of the Cooch Behar independent State, and close to the wilde of the Dooars, these tracts form a convenient habitat for those who may have to bolt at a moment's notice.

The inhabitants of the Western Dooars are an easily excited people. Under the Bhootia rule they were accustomed to the constant commission of such offences as dacoity, grain-thefts, &c., and I believe that what I have described above, commenced by the agency of bndmashes, but gathered strength in the Dooars, owing to the nature of the inhabitants and to their being apt for the moment to forget that they now live under British and not under Bhootia rule. The result of the investigations have been, so far, the challaning of 23 cases with 123 prisoners; of these I have, up to 30th May, disposed

Since writing this, an assistant has been ordered here.

of five cases, given various sentences ranging from two to five years, and I would take this opportunity of pointing out the urgent need here of a competent full-powered assistant to help me in judicial work, for which my very many other duties at this time leave me but little leisure.

To give confidence to the people in some of the hâts in the Dooars and on this side, I sent Government rice to them, and sold it in small quantities at 10 seers per rupee. The effect of this and of the other steps taken, was most satisfactory. The confidence of the people was rapidly restored, and prices have fallen and are falling all over the north of the district. At Julpigoree itself, rice is now sold from 10 to 11 seers per rupee, in the Dooars from 12 generally to 16 seers in some places, while at Titalya and Sunnaseekatta, it is now 10 and 11 seers per rupee. I have just returned from a rapid tour through the north of the district and the result is most reassuring; I find that notwithstanding all the export, there is still a fair supply of grain in the country, several large jotedars holding quantities such as 10,000 maunds in their golahs. This is dhan, not rice, the latter never being stored here; still though there is this supply, and though alarmed at what they heard of the looting, jotedars who had locked up their dhan have now taken to advancing it to their ryots. I do not believe we can stand further export, and the export trade is in places starting up as vigorous as ever. Last Monday when at Rajgunge hât, I found some 200 or 300 beparies lining the approaches to the hât buying up all the rice as it was being brought in.

Although the state of the north part of the district is thus found to be so much better than we had feared, it is still distressed; that is, there are people in it who need aid; these are Tantis, Haries, and others who are not agriculturists, and in the Dooars the Meches; at Sunnassikatta there is a large Tanti population. I visited them in their baries; they told me they were hardly pressed owing to the high rate of rice, and that they could not now get more than Rs. 5 for cloth they could formerly sell at Rs. 8, and that with rice at 8 seers per rupee they would starve. The day I was there, owing to the appearance of Government rice in the golah at that place, the price in the bazar had fallen to 10 seers per rupee, and the Tantis said at that rate they could get along.

Some of the Meches on the very border of the district under the Bhootan Hills are suffering from the want of rice; this is owing to traders not having gone up to them this year with rice as usual.

I have directed the Mynagoree Thesildar to send up rice to these people, and told off an elephant for this purpose. The Meches will, I believe, gladly buy the rice, but if necessary advances will be made.

Of the 1,00,000 maunds we have applied for this part of the district, the Commissioner has since telegraphed to say we shall need 50,000 only, and of these 20,000 maunds are to be sent to South Boda.

Regarding the state of South Boda I will make no report; the Commissioner has just returned from those parts, and informs me that as his report is going in at once, it is needless for me to say anything on this head.

#### B.—RELIEF WORKS.

Relief works for north of the district are:—

1. The Railway embankment, north of Julpigoree.
2. The Railway feeder between Julpigoree and Titalya; and
3. Railway feeder from Sunnassikatta to the Shikarpore station.

I am unable to give any return of works, as these are only just being commenced.

Relief works in South Boda are as follows, and the table shows the people working on this at latest date:—

Date.	Name of works.	NUMBER OF PEOPLE EMPLOYED.			Total.
		Men.	Women.	Children.	
30th May	Jogernath hât tank	144	28	83	255
30th "	Maolkadaha and Sonahar road	240	4	5	247
30th "	Nijgeri Cund	192	102	165	459
30th "	Chenti tank	130	50	155	335

	Total	2,358	312	848	3,518

**D.—TRANSPORT.**

The rice which was purchased by Mr. Bradbury for Cooch Behar, 14,000 maunds, has all been moved into the golahs prepared for it.

We are now transporting the late purchases of rice at Goalundo; this is landed at Ghoramara and carted to Boda from that place.

The Government rice is being sent up to Titalya, and carted very rapidly from there to the different golahs.

We are also transporting 10,000 maunds of rice from the Railway golahs to golahs in Boda. The supply of carts is ample; about 1,000 are at present being employed.

*Storage.*—The following table shows the golah return for South Boda up to 30th May.

**E.—ADVANCES.**

The Commissioner has advanced 1,000 maunds of rice from the Government store, Durwani, to traders for sale in the hats of South Boda, at 12 seers per rupee.

The Chuklajat Manager is advancing rice to the ryots in that estate, but returns are not yet received.

**F.—CHARITABLE RELIEF.**

In South Boda this is under the Chuklajat Manager's charge; he has appointed relief committees, but no returns have as yet been sent in.

I have appointed two relief committees in the north of the district—one at Sunnaseekatta and one at Titalya; they only began work yesterday.

No. 76—S.R., dated Julpigoree, the 3rd June 1874.

From—SIR W. J. HERSCHEL, BART., Commissioner of the Cooch Behar Division,  
To—The Offg. Secretary to the Govt. of Bengal, Scarcity and Relief Dept.

CONTINUING my narrative of scarcity of the 17th ultimo, I have the honor to report as follows:—

1. The sudden rise in prices that appeared in the nearest part of the Terai, and in North Julpigoree and the Dwars, showed itself also in the hills at Darjeeling, and, as I learn, in Purneah and Rungpore; one cause of it, as given to me by cultivators, was fear lest the bhadoi crop should turn out a failure. This is generally confirmed to me.

2. The extreme rise to 5½ and 6 seers the rupee in South Boda, which I reported in my telegram dated 19th May, was almost certainly caused by this, as the crops there suffered for want of rain, which has since fallen sufficiently and has been succeeded by easier prices, viz., 7 to 7½ seers.

3. The growing sense of insecurity against plunder had, however, much to do with it. Immediately after my last report bringing the great rise to notice, a wide-spread and sudden increase of grain robberies broke out in the Mynagoree Dwars. Byaparis first, then open hâts, and finally mahajans golas, were plundered, and for three days there was something like terrorism in this Dwar. The people who began this were found to be from one spot, round Bakali, which has always been known for its bad character. They used no weapons, and in the attack two of the rioters were killed and others wounded by the goladar's men. Elsewhere no houses were broken. The effect was sufficiently bad to oblige me to call a detachment of fifty sepoy down from Buxa, who marched through Mynagoree to Julpigoree. The alarm of the people was unquestionable, and though the police, under Captain Money's energetic and excellent dispositions, did in a very few days arrest the supposed ringleaders and a large number of rioters, the tone that the latter and their friends adopted was so hot that nothing less than the presence of the military would have sufficed to restore confidence to the property-holding classes and traders. The Dwar plunders were followed in a day or two by the plunder of two hâts, one near Silligoree and one south of the Titalyah road, and a great increase of dacoities and grain robberies in Boda.

4. The absence of a regiment from Julpigoree, where one has so long been stationed, had no doubt something to do with the outburst in the Dwars. A few sowar orderlies posted at the hâts, and the appearance of an European Inspector and some police from Darjeeling at Silligoree, restored confidence on the west in a certain degree. But coming back three days ago from Boda, I found the people at the hâts I passed through eager to know if the sepoy were really coming. The Byaparis, who supply our own hâts in Boda from the north were plainly diffident of ordinary police protection. Rumours of threatened attacks on the Cooch Behar golas were readily listened to in Boda, and I had to reassure the people by sending the Treasury Guard of Cooch Behar sepoy to show themselves at several hâts there.

5. Captain Money and Mr. Renny from Buxa have been about the Dwars, and have fully satisfied themselves that there are sufficient stocks there for all usual needs. I have been almost across the Mynagoree Dwar myself, and agree with them. Mr. Smith has examined the east end of Cooch Behar for the same purpose and is likewise satisfied. Government rice that was sent to several hâts in the Mynagoree Dwar, which had been closed, sold at the end of the day at rates rather dearer than local rates in the early day; this did much to restore confidence by filling the deficiency of the day's supplies. The hâts are all open now and rates there are almost as easy as they were before the panic. They fluctuate a good deal still, but 10 and 11 seers is not far from the average. Relief works were offered in practical form to the Dwars, but the people wholly declined them, and no further measures are now necessary except perhaps among the Meches, to whom food has been sent; result not yet known. The people in the Dwars are in ordinary good condition.

6. Captain Money has just now returned from inspecting the northern part of Julpigoree up to Silligoree and Titalyah. His fortnightly report now being written will be full. I will only say that he finds stocks to be considerable, though not so good by any means as in the Dwars. There is not as yet any sign of physical distress. The rates are decidedly easier than in the panic, and are showing sustained improvement, and I believe that confidence is very generally and completely restored. I do not think there need be the smallest doubt that this is due in the main to the active measures we have taken. Prompt remittances of rice were made by small local purchases or by moving of stocks in the division or by more considerable importations from Purneah, under the orders of Government, to a great many different places, to the extent of some 8,000 or 9,000 mannds. The whole distressed part of the district of Julpigoree was touched in one way or another, at all important points, by such response as the Government could give, whether by laying down food on the spot or by the exhibition of strength, and I must record my appreciation of the rapid and efficient way in which Captain Money did this. I do not believe that measures of mere repression would have worked such a speedy result.

7. The carriage arrangements for the transport of the 50,000 maunds of Purneah rice have been well carried out by Captain Money, and about 15,000 maunds have been received from Purneah at Titalyah, and despatched thence to the several golas, eight or nine in number, in Byknatpore and North Boda, including the golas at Sanyasikatta and Silligoree, on the Darjeeling road, besides the golas on the line of the railway extension. The rest is rapidly

coming in; owing, however, to the distress which I found existing in Boda, I have diverted 20,000 maunds to that part of Julpigoree where it is likely to be greatly needed.

8. For relief works in North Julpigoree and North Boda, the following have been decided on:—

1st.—The railway and its extension to a point about 14 miles north-west of Julpigoree.

2nd.—A feeder from the station of Shikarpore to Ambarri Hât, and thence Sanyasi-katta. Shikarpore is about half way between Julpigoree and Siligoree. To this I request sanction. It is recommended by the Deputy Commissioner, and it seems the best that can be devised. Its length is about twelve miles, and the earth-work alone will probably cost Rs. 8,000.

3rd.—The straightening and, where possible, the widening of the Titalyah road. This can be done to some extent without interfering with traffic; Mr. Tyndal is preparing a rough estimate of it. The plans are all ready. In anticipation of sanction, I have authorized him to proceed with the work.

9. The Senoke road (from Julpigoree to the entrance of the Teesta valley into the hills) must be abandoned as a relief work, in order not to compete with the railway extension.

10. With reference to this part of the relief programme, I should mention that some doubt exists whether the hill coolies will not flock down and take the work out of the hands of the painmen for whom it is intended. As I have no reason to suppose that distress is imminent in the hills, I have requested Major Lindsay not to employ hill coolies till further orders. He has been along the line and informs me that the people appear ready to work.

11. The really alarming rise of prices in South Boda to 5½ and 6 seers the rupee took me down there on the 26th. I found that rates had generally improved under the growing relief operations, both in Boda, and at Durwanee in Rungpore, where Government rice was selling in 10 seers lots to the extent of 400 maunds a day. This had greatly eased the markets near Boda. I met numbers of common folk who had walked twelve miles to buy their allowance, and I learn that they walk much further than this. Our own sales in Boda are on a much smaller scale. Our golas, now nine in number, are situated within five or six miles of each other, and we have been selling hitherto at seven pice a seer, in two seers only at a time; the object being to confine sales to the locality.

12. When I arrived on the 26th, rates in South Boda were generally about seven seers, but in one place near Gorain Hât it was apparently not more than six seers.

13. The condition of the people in South Boda is decidedly worse than when I last saw it in March. Mr. Bradbury, who has been there for the last fortnight, does not consider that there is any severe distress; but my own observations are that there is severe distress over the Debigunge and Sonahar Tokes and a great part of Mulkadaha. In the rest of Mulkadaha, of which Gosain Hât may be taken as a centre, I saw, after I left Mr. Bradbury's tent, a great many cases of unmistakeable emaciation among children. This is the worst part of the district. In Debigunge and Sonahar I thought the children generally looking out of condition. The stores of grain are few and small in these parts; Mr. Bradbury cannot see what it is that the people live upon, except that they do live. The supplies at the hâts are extremely small, and of imports there is little or nothing to speak of. The large hâts in Rungpore, to the east of Boda, are fairly well supplied, but precariously so, with imports from the Mynagoree Dwar and Cooch Behar; and the large hâts at Sankwa and Saldanga, near the centre of south Boda, are fairly well supplied from local stocks. This is also the case at Chakla Boda, and at the hât marked Pochagur on the map, and at Chilahati, north of Debigunge. But south of Sankwa there is a much greater dearth of rice, and much less hope of imports than I had thought was the case.

14. The relief given is by numerous relief works, and by sales under the Deputy Commissioner and by charitable committees and advances to jotedars, under Mr. Bradbury. Four charitable committees have been started, and eleven more are being formed. But the progress has been very slow. Mr. Bradbury himself is slow to believe in the presence of famine, and his advances to jotedars have been doled out with too much reluctance. Only about 550 maunds have been issued to 450 tenants up to the 25th ultimo. I have impressed upon him the urgency of the case, and have made him an increased assignment of 17,500 maunds from the 26th March, to be issued to jotedars. One difficulty of making advances in this way, on which we have hitherto relied, is that of late years the class of intermediate tenants between the jotedars and the soil, viz., the chukanedars, has greatly increased. For these the jotedars are very unwilling to accept responsibility. For their own adhaidars (or bhagi cultivators) the jotedars generally answer, and any aid given to the former helps the latter. But the chukanedar is in an unhappy position. He has agreed to pay in cash instead of kind, and the jotedar gives him no aid. I found near Gosain Hât that these men formed a large part of the population, and it was essential to relieve them as agriculturists. I accordingly assigned a further quantity of 9,000 maunds to this purpose, and deputed the Naib of Boda to see to the distribution of it among the most needy chukanedars by way of advance, beginning at Gosain Hât. But the great absence of imports into south Boda shows that a considerable increase in our sales must be made. I have raised the quantity which may be sold to one person to four seers instead of two, and have reduced the price to six pice per seer, i.e., 10½ of clean rice per rupee. This is the rate at which rice is sold on the relief works, and by having uniform rules

at the golas and in the works, temptations to personation of coolies is prevented. To avoid misunderstanding, I must mention that some golas adjoin the relief works. Where this is not the case, rice is sold on the works. Sales are now going on at all the golas in south Boda; a maximum of 20 maunds a day, however, being fixed. I have not the exact figures before me, which will appear in the Deputy Commissioner's report; but I estimate the sales on the whole at about 100 maunds a day. I have ordered the opening of a new gola near Gosain Hât. The reduction of price and increase of allowance to each person will, I trust, give great relief.

15. The relief works at present going on are nearly exhausted; but several others are ready, and I have asked the Deputy Commissioner to open immediately one which will run through the length of the worst part round Gosain Hât. Those that I inspected seemed fairly well managed, considering the great want of supervision and the raw material with which the Deputy Commissioner has hitherto had to contend. Fortunately the works are all small and scattered, so that the men have never got into masses. The villagers complained that two seers a day was not enough for many of their families, and as they can earn more than that in wages at our present very reasonable rates of pay, four annas per 100 cubic feet, I have increased it to four seers. I had hoped that the advances to cultivators would have sufficed to meet their needs, and that the relief works might be managed on strict subsistence principles, i.e., without allowing them to become to any class an attraction; and two seers was fixed as the maximum in order to effect this. They are certainly not an attraction, as there has never been any rush at any of them; and as the advances to cultivators are not so forward as I wished, I have made the rule more liberal to the extent above mentioned.

16. All relief work is done on the task system, except dressings and slopings, or where the ground is too broken to measure.

17. The men at work are almost all in normal condition, but they include many who from their physique would not generally be seen at contract work. They are none of them so weak as to call for a separation of classes, and in few cases only did I notice any that looked in worse than ordinary condition, considering their age and their marks of habitual hard livelihood.

18. With the increased sales, increased advances, the extension of charitable relief, and the continuance of the present supply of work, I hope that we shall come through well. I have no doubt on this except as to the Gosain Hât part, where emaciation has commenced.

## ENCLOSURE No. TO THE 19TH SPECIAL NARRATIVE.

Return of Men, Women, and Children employed on Relief Works in Districts of Rajshahye, Patna, and Bhagulpore Divisions for fortnight ending 7th June 1874.

Asst. Secy. to the Govt. of Bengal.

## Rainfall, Weather and State and Prospects of the Crops.

*Statement showing Rainfall, Weather, State and Prospects of the Crops in the different Districts of Bengal, as reported to Government during the week ending the 13th June 1874.*

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.</b>			
<i>Western Districts.</i>			
BARDWAN DIVISION.	1 Burdwan, 15th* June 1874	1.11	Rain has fallen in all the sub-divisions except Cutwa and Jehnabad. The fall at Calcutta has been 3.32 inches. Sowings of paddy are going on all over the district, and in some places the seedlings are well above ground. Cholera abating. Fever as before.
	2 Bankura, 13th " "	0.75	Partial showers throughout the district; weather cool. Agricultural operations going on well. Arous or early rice seedlings flourishing. Cholera and small-pox considerably abated.
	3 Beerbhoom, 13th " "	1.48	Cool and showery. Prospects good all round so far. Export of week ending 6th June, 1,800 tons, chiefly to the Bhagulpore Division. Prices almost stationary with downward tendency.
	4 Midnapore, 13th " "	0.35	Rain has fallen more copiously in the south of the district; nearly three inches at Contai, and nearly three at Tinsuck, but none at Gurbetta, and very little in the north. Weather is however cool. There are very few places now in which the cultivators have not been able to plough, and the mous or early rice is doing pretty well. Prices have risen in ten out of twenty-five thanas, remaining stationary in the rest. The town is still suffering from cholera, with an average of five seizures daily.
	5 Hooghly, 13th " "	1.	Cloudy and sunshine alternately. Rain fell on the 9th, 11th, and 12th June. Wind from south and south-east. In Serampore several showers of rain fell. Showers have fallen at different places all over the district. The sowing of the mous or early, and moun or late, rice seedlings is going on.
	Howrah, 13th " "	1.44	There was more or less rain throughout the district during the week, except in Jugtballulpore, where it is reported there was hardly any rain. Weather sultry and at times cloudy; winds generally from the south. The late rain has been of great benefit generally throughout the district. The moun or late paddy seedlings have been sown. The mous or early paddy and jute have also been sown, and are doing well. Everywhere the ryots are ploughing land for transplanting the late rice. The young sugarcane plants are reviving. More rain, however, wanted, especially at Jugtballulpore and a portion of Domjoor, where the rain has not been so plentiful as in other parts of the district.
<i>Central Districts.</i>			
PRESIDENCY DIVISION.	6 24-Pergunnahs, 15th† June 1874.	1.34	Showery; hot in the intervals. The prospects of the early rice crop are good, though more rain is still wanted in places. The sowing of the moun or late rice in nurseries has commenced in Diamond Harbour, and in some places the seed has already germinated. Cholera is prevalent in parts of the Sultanpore thana, but has abated in Baduria. Fever in Barripore is reported on the decrease.
	7 Nudden, 13th June 1874	1.49	Occasional rain. Everything is most promising. The rain appears to fall just as it is required. There is a little deficiency in seed for the late rice crops; measures are being taken to supply this through zemindars. Public health good.
	8 Jessore, 13th " "	2.69	Cloudy, with occasional showers mostly about noon. No change since last week. The early rice has been mostly sown, and the crops, though late, promise well. Prices after the rise in the two preceding weeks have since fluctuated a little, but without further material rise or fall.
RAJSHAHY DIVISION.	9 Moorsshedabad, 13th " "	2.42	A heavy rainfall and thunder-storm on the night of the 11th June; cool for this period of the year. The crops are looking well, and have been much benefited by the rain. Prices show no change since last report, excepting a slight improvement in the Sudder Bazar. Cholera and small-pox decreasing.
	10 Dinagepore, 12th " "	2.58	Rain throughout the district. The weather has been most seasonable and all that could be desired for the bhadoi or early and jute crops. Lands are everywhere being broken up for the winter crop, and seed sown in seed-beds.
	11 Maldah, 13th " "	0.80	Cloudy and rainy. The prospects of the bhadoi or early crops are very good. Cultivation for the hymantoy or winter crops has begun. The price of rice is 11½ seers per rupee of the coarse sort and 9½ of the best sort.

\* Telegram of the 15th June, received on the same day, shows rainfall during the seven days immediately preceding.

† Report of the 15th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—(Contd.)</b>			
<i>Central Districts.—(Contd.)</i>			
RAJSHAHY DIV.—(Contd.)	13 Rajshahye, 18th June 1874.	1.62	All parts of the district except the south-western quarters have had rains during the week. The coming season or early rice crop is reported to be in excellent order, and to have benefited largely by the recent rain. The amun or late rice, which has been within the last fifteen days sown on high spots, has come up freely, and is growing well. There have been extensive sowings of both the early and late rice since the rain has begun to fall steadily. The teel (oil-seed) is now very nearly all off the ground and has been an abundant crop. Oil is considerably cheaper than it was last year. Jute in the north of the district has failed to a partial extent, and in some places fresh sowings of it are being made. Mangoes are plentiful and cheap, and are of much assistance to the people as a food article. Prices are high, and in some places have risen since last report, especially in those not easily accessible to importation. A very few cases of cholera and small-pox are now reported.
	13 Itanagore, 12th June 1874.	0.35	More rain has fallen to the east and south; the fall has been very general. All crops have progressed very much. Millets are in the markets in great quantity, and early rice in many parts. The sowing and planting out of the late rice is being vigorously proceeded with.
	14 Bogra, 13th " "	5.56	Seasonable. The sown or early rice crop looks excellent. A good crop of boro rice has just been reaped. The ploughing for the amun or late rice has begun. The rains have set in seasonably.
	15 Pubna, 13th " "	1.10	Weather generally dry. Slight showers of rain every other day, which have been most favorable to the growing crops. The teel (oil-seed) crop is nearly all cut. It is an average crop. Jute paddy has nearly been all cut. The early sown is looking very well, and will be cut early in July. The kowni (millet) crop promises well. Harvesting will commence at the end of the month.
COCH BEHAR DIV.	16 Darjeeling, 12th " "	8.94	A good deal of rain throughout the district, which is every way beneficial. The Indian-corn and murwa (millets) in the hills promise a good outturn. Bhadni or early paddy in the plains is doing well. The minor crops too, kowni (millet) and pat (jute) cultivation are progressing favorably.
	17 Jalpigoree, 12th " "	4.88	7th and 8th June fine; a good deal of rain during the rest of the week, with bright sun intervening. The bhadni or early crop is promising well. Hymunty or winter crop seed is being sown and looks well. Jute is growing up fast. The prospects of all the crops could not be better than they are.
	Cooch Behar, 11th " "	4.12	Rain on several days. Favorable. No change since last week.
<i>Eastern Districts.</i>			
Dacca Division.	18 Dacca, 15th June 1874.	0.41	Weather hot, with occasional showers. State of crops very good. Early sown rice (early) in Bekraungore begun to be cut.
	19 Farreedpore, 13th " "	2.57	Rain every day since last Monday; the quantity which fell each day, not being heavy, has benefited the crops considerably. The prospects of the rice crops are as yet most favorable, and the weather is all that could be desired for the growing paddy. The rivers have fallen considerably. The price of coarse rice has risen only at Gopalgunge owing to a steady decrease in importations. It is stationary at Farreedpore, Gomunda, Bhanga, and Madareepore. The Collector cannot account why it should continue so long steadily at 11 seers at Madareepore when it is 11½ at Bhanga, 12 at Farreedpore and Gomunda, and 13½ at Gopalgunge. Madareepore is on the high road for transit of grain from east to west; and, as a rule, rice is cheaper there than at Farreedpore. Inquiries are being made.
	20 Backergunge, 11th June 1874.	2.05	Cool and pleasant; the rains appear to have commenced. The phenomena known as Burisal guns is of frequent occurrence. The sown or early rice crop will be a poor one, but the crop is not of much importance in this district. Weather favorable for the amun or late rice sowings.
	21 Mymensingh, 12th June 1874.	5.96	Rain every day of the week in the Sudder Station, and plentiful rain in the eastern pergunnahs; but in the west of the district the weather has been sultry, with very little rain, only 0.3 being reported from Altia Sub-division, and 0.78 from Jamalpore. The state and prospects of the crops are all that could be wished in the centre and east of the district; in the west more rain is wanted. The river has fallen very much. Health of the district good.
	22 Sylhet, 9th June 1874.	0.29	A fair amount of rain has fallen since the night of the 8th June, which will do much good. The sky is overcast, and more rain may be expected. Nothing of importance since last Saturday. The rain will be very acceptable to the ryots on the high lands.

\* Telegram of the 16th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BENGAL.—(Contd.)</b>			
<i>Eastern Districts.—(Contd.)</i>			
CHITTAGONG DIV.	23 Chittagong, 11th June 1874.	3.89	Hot, with frequent falls of rain. The weather has been most favorable to the young paddy. Cholera continues to abate. No return from Cox's Bazar.
	24 Nowkhilly, 11th June 1874.	1.39	Slight showers during the week. Days warm. Aous or early rice sowing completed, and young plants looking well.
	25 Tipperah, 12th June 1874.	2.53	Weather changeable; some rain and storms alternately, with still hot weather. The prospects of the future rice crops of all sorts are good. Present prices, however, have risen owing to exportation.
	26 Chittagong Hill Tracts, 6th June 1874.	3.71	Cloudy, with occasional fall of rain. The seeds already sown have germinated. Occasional falls of rain have improved the prospects of the crops on the ground. The flat lands are being ploughed.
	Hill Tipperah, 6th June 1874.	.13	Very little rain at head-quarters, but plenty all round about. Thunder-storms passed within sight almost every day. Young paddy looking well. Nothing particular to report.
<b>BEHAR.</b>			
PATNA DIVISION.	27 Patna, 15th* June 1874.	1.76	Weather all that could be desired for agricultural purposes, with slight rain almost every day. Ploughing and sowing going on everywhere. Health of the district good.
	28 Gaya, 13th .. ..	2.37	Seasonable. The rains have regularly set in three weeks earlier than usual. Agriculturists are actively engaged in ploughing and sowing bhadoi (early) and paddy crops. No agriculturist at this season is unemployed.
	29 Shahabad, 13th .. ..	0.30	Rain has been general in the district; very heavy at Arrah. Weather unsettled and threatening. During the last six days sowings have not been carried on everywhere owing to a superstitious custom of not sowing during the first eight days of the <i>Mirijda Nochatra</i> . Before that in many places, "sawan" (grass-seeds), and "munwa" (millet), paddy and "dhoorya bang" or seed beds were sown during <i>Ronni Nochatra</i> . From Monday next, the 15th instant, the bhadoi or early sowings will be carried on everywhere, the late rain being most beneficial for the purpose. Sugarcane and indigo on the ground are promising. Small-pox still in parts of the district.
	30 Tirhoot, 13th .. ..	0.95	Weather close and sultry, east wind prevailing, and cloudy. Mudhoolmnee Sub-division.—2.6 inches of rain fell throughout the sub-division. Sowings of paddy and bhadoi or early crops are going on briskly; in some places paddy crop has already germinated, and is doing well; the prospects of indigo are improving owing to the recent showers. No more rain wanted at present. <i>Durbhunga Sub-division</i> .—One inch of rain has fallen all over the sub-division, and thunder constantly threatening heavy rain. Great portion of higher lands have been ploughed, and a large quantity of bhadoi or early crop seeds sown. In the eastern parts of the sub-division paddy has been sown and looks well. It is reported that this year lands have been under bhadoi crops that ordinarily produce rice. <i>Sectamurhee Sub-division</i> .—0.94 inch of rain fell over the sub-division, and has been most favorable to crops on the ground. It is reported that crops are coming on well, and that the prospects are good. <i>Hajerpore Sub-division</i> .—0.27 inch of rain fell; a heavy fall of rain about Senghia, which must benefit the crops. No report has been received from Tajpore Sub-division. The rain that fell in the Sudder sub-division has done much good to the early crops which have germinated, and has enabled the cultivators to prepare the high lands for paddy sowing. <i>Telegram of the 15th</i> .—Police report 7 inches of rain at Lalgunge on 8th very local; from two to three inches in surrounding country; all tanks and chours filled. Bhugiautty risen very much. Guuduk rising.
	31 Saran, 13th .. ..	1.12	Cloudy, easterly winds. Rain more or less general throughout the district, and has been of very great benefit to the crops and to agricultural operations. The ryots are engaged in preparing their lands for the next sowings. The bhadoi or early crops and the aghanee or late rice are now being sown. The early sowings are coming on well. Cheena (millet) is being harvested; mango ripening. The cultivating season has opened favorably, and the prospects at present are all that could be desired. Prices of barley, jowar (great millet), and cheena (lesser millet), have slightly fallen.
	32 Champarnu, 12th .. ..	12.80	Seasonable. More rain has fallen (on 8th, 9th, and 10th June). Agricultural operations are going on briskly, and the prospects so far are unusually good.

\* Telegram of the 15th June, received on the same day, shows rainfall during the seven days immediately preceding.

No.	District and date of return.	Rainfall at Sudder Station in inches.	Character of the weather, state and prospects of the crops, and state of health at date.
<b>BEHAR.—(Contd.)</b>			
BAGULPORE DIV.	33 Monghyr, 13th June 1874	4.07	Cloudy, and frequent rain general all over the district. Rain has fallen plentifully. Ploughing and sowing going on vigorously. Season favorable so far.
	34 Bhagulpore, 15th " "	2.84	Total rain, since 1st June, 6.63. At Banka, since 7th, 3.40. About 14 inches all over north Soopool, since 1st; 6 inches fell in three hours on 13th; the same quantity fell on same day at Souclarsa in Muddelpoora. The crops are magnificent; prospects could not be better. General health very good.
	35 Purneah, 13th " "	0.84	Cloudy and showery; rain very partial. More rain is still wanted in the south for the early jully rice and for the bhuloi or early crops. In the north the transplanting of the aghance or late rice has commenced. The jamira, very early rice, is in ear in Kialengunge, where the jute is coming on well. Prospects generally very good. No more rain is wanted at present in Arrareah.
	36 Southul Pergunnahs, 13th June 1874.	.45	Clouds gathering and dispersing. Heavy shower of rain on Monday, the 8th instant, reported from Rajmehal. Wind variable still; good showers of rain all over the district. Ploughing and sowing going on everywhere. The prospects of the crops are favorable. Indigo in the Rajmehal dears promises well. A few cases of cholera reported from Baria; no fresh cases brought to notice.
<b>ORISSA.</b>			
ORISSA DIVISION.	37 Cuttack, 15th* June 1874	2.13	Weather favorable to the crops; sowing progressing satisfactorily. Crops which have been sown are coming up well. Public health generally good. Prices of food-grains stationary.
	38 Pooree, 10th " "	.86	Hot, sultry, and cloudy, with occasional slight rain in some places. Cotton is being gathered with a fair outturn. Mangoes are nearly over. Sowing of paddy is being slowly made generally on low lands. More rain is required and expected. Sugarcane is doing well. Exports of rice continue on a moderate scale, and prices are almost stationary. Public health is good.
	39 Balasore, 12th " "	.67	Showery and temperate. Tolerably copious showers of rain have fallen in most parts of the district, and ploughing, manuring, and sowing are progressing vigorously. The earliest rice crop is above the ground. Cholera apparently reached its maximum during the week under report, and is now on the decline.
<b>CHOTA NAGPORE.</b>			
	South-W. Frontier Agency.		
40	Hazareetagh, 12th June 1874	2.83	Rain more or less has fallen every day during the past week; still cloudy and warm. Ploughing going on vigorously in all parts of the district. Prices stationary.
41	Lohardugga, 13th June 1874.	.50	Weather seasonable. The prospects at present are very favorable. Sowing is still going on actively, and the crops which have been sown have germinated well. In Pulamow, too, everything promises well, and a very large number of the laborers have deserted the relief works. Jungle fruits and <i>sagh</i> vegetables are in great abundance this year. Small-pox still prevalent, but the general health is very good. Prices have fallen slightly.
42	Singbhoom, 12th June 1874.	3.24	Cloudy. Very heavy rain all over the district as much as required for the present. The early crops on high lands for the most part sown and sprouted. The young paddy looking well and vigorous.
43	Maubhoom, 13th June 1874.	2.84	Showery and cool. Rain has continued to fall during the whole week, which has enabled the cultivators to plough up their lands and sow gora paddy, gundili, indinn-curn, and also the seed paddy for transplanting later in the season. There are some complaints of want of seed, but they are not numerous, and very little, if any, land will probably be left unsown for want of it. Agricultural prospects are now very good; in fact, could hardly be better. Cholera decreasing.

\* Telegram of the 15th June, received on the same day, shows rainfall during the seven days immediately preceding.

Published for general information.

	13th	29.606	93.0	81.5	143.5	86.0	81.4	78.1	76	S by W	...	120.2	...	...	Clear, cirri, and cumuli. Sheet lightning at 9 P.M.
	14th	29.585	94.8	82.0	145.2	85.4	81.1	78.1	80	S by W & S E	2.8	140.1	0.58	●	Clear, cumuli, and overcast. Sheet lightning at midnight. Thunder between 1 to 2 P.M. Rain between 1½ & 2½ P.M.

The mean barometer, as likewise the dry and wet bulb thermometer means, are derived from the twenty-four hourly observations made during the day.

The dew-point is computed with the Greenwich constants. The figures in column 10 represent the humidity of the air, the complete saturation of which being taken at unity. The receiver of the lower rain gauge is 1½ feet, and that of the anemometer 70 feet 10 inches above the level of the ground. The velocity of wind, as indicated by Robinson's anemometer, is registered from noon to noon.

The extreme variation of temperature during the past seven days	...	17.8
The maximum temperature during the past seven days	...	94.8
The maximum temperature during the corresponding period of the past year	...	98.7
The mean humidity during the past seven days	...	0.81
The mean humidity during the corresponding period of the past year	...	0.73
		Inches.
The total fall of rain from 8th to 14th	{ by lower rain gauge	2.30
	{ by anemometer gauge	2.06
Ditto ditto ditto, average of twenty previous years	...	4.01
Ditto ditto between the 1st January and the 14th June	...	12.93
Ditto ditto ditto, average of twenty previous years	...	17.22

GOPERNATH SEN,  
In charge of the Observatory.

The 15th June 1874.

## PUBLIC WORKS DEPARTMENT,—BENGAL.

### Orders and Notifications by the Lieut.-Governor of Bengal, the High Court, Government Treasury, &c.

#### ORDERS BY THE LIEUTENANT-GOVERNOR OF BENGAL.

##### REVENUE AND GENERAL DEPARTMENTS.

No 1862C.S.

**GENERAL**—*The 11th June 1874*—Baboo Kali Kumar Dhur is appointed to be Relief Superintendent for the relief circle at Serajgunj, in the Pubna district.

The following gentlemen are appointed to be Assistant Relief Superintendents for the relief circle at Serajgunj, in the Pubna district:—

Moonshee Koflooddin

Baboo Ram Chunder Bhoomic

Baboo Muthoora Nath Bhattacharjee.

„ Kristo Chunder Chuckerbutty.

Mr. Frederick Jones, Senior Superintendent of Survey, and Major J. Sconce, Deputy Superintendent of Revenue Survey, are vested with the powers of an Assistant to the Superintendent of the Cuttack Tributary Mehals, for such time as they may be employed in demarcating the boundary of that portion of the Tributary State of Mohuibhuj, which adjoins the southern part of the Midnapore Jungle Mehals.

*The 15th June 1874*.—Baboo Kali Prosunno Sircar, Deputy Magistrate and Deputy Collector, on special duty in Chumparun, is allowed leave of absence for two months, under Section 8, Supplement F of the Civil Leave Code, with effect from the date on which he availed himself of it.

Baboo Hurry Mohun Chunder, Sub-Deputy Collector, is appointed to be a Special Deputy Collector in Dinagore, with effect from the 1st January 1874.

The services of Captain Arthur Conolly, of the 5th Punjab Infantry, now employed on relief work in Bhagulpore, are released at the disposal of the Government of India in the Military Department.

*The 16th June 1874*.—Baboo Jo. Gopal Banerjee, a Tehsildar from the North-Western Provinces, is posted to the sub-division of Aunungabad, in Gya.

*The 17th June 1874*.—Baboo Prosunno Kumar Roy is appointed to be Relief Officer, Talara Circle, in the District of Dinagore.

*The 18th June 1874.*—Baboo Gourdass Bysack, Deputy Magistrate and Deputy Collector of Jehanabad, is vested with the powers of a Collector under Act X of 1870, for the purpose of acquiring land required for the site of a Charitable Dispensary in the village of Kristopore, pergunnah and thauas Jehanabad.

*The 19th June 1874.*—The Hon'ble Vernon Hugh Schalch, Member of the Board of Revenue, is allowed leave for three months, under Section 21, Chapter VI of the Civil Leave Code, from the 15th July 1874.

*The 23rd June 1874.*—During Mr. Schalch's absence, or until further orders, the Hon'ble Henry Lucius Dampier will, with the approval of the Government of India, act as a Member of the Board of Revenue.

Mr. Herbert John Reynolds, B.A., Magistrate and Collector of Mymensingh, is appointed to act as a Secretary to the Government of Bengal during the absence on duty of Mr. H. L. Dampier, or until further orders.

Mr. Roger Henry Pawsey is appointed to act as Magistrate and Collector of Mymensingh during the absence on duty of Mr. Reynolds, or until further orders.

*The 19th June 1874.*—Lieutenant Lewis Archibald Charles Cook, of the 5th Bengal Cavalry, at present employed on transport duty, is appointed to do famine relief work in the Bhagulpore Division.

*The 20th June 1874.*—Baboo Heraloll Mookerjee, Deputy Magistrate and Deputy Collector, Purneah, is allowed leave of absence for four months, under Section 3, Supplement F of the Civil Leave Code, with effect from the 11th April 1874.

*The 21st June 1874.*—Captain R. H. Grant, Assistant Quarter-Master-General, now on transport duty at Barrakur, is transferred to the Rajshahye Division, where he will have command of the reserve flotilla of steamers and boats under the orders of the Commissioner of the division.

*The 23rd June 1874.*—Mr. Charles Augustus Skipwith Bedford, Extra Assistant Commissioner, reported his departure from India on leave on the 3rd instant.

Mr. Christopher Henry Vowell, Acting Joint-Magistrate and Deputy Collector, Shahabad, is allowed leave for one month, under Section 10 (a) of the Civil Leave Code, in extension of the leave granted to him under orders of the 26th May 1874.

Mr. Ernest Montagu Money, Assistant Magistrate and Collector, is appointed to have charge of the sub-division of Jamoos, in Monghyr.

**REGISTRATION.**—*The 23rd June 1874.*—Mr. Walter Rattray, Special Sub-Registrar of Gya, is allowed leave for two months and ten days, under Section 3, Supplement F of the Civil Leave Code.

**EDUCATION.**—*The 23rd June 1874.*—The following gentlemen are appointed to be members of the District School Committee of Purneah, viz.—

Captain W. L. N. Knyvett, District Superintendent of Police.

Baboo Bishen Chand, Manager, Roy Luchmiput's Bank.

„ Nanuk Prosau, Pleader.

„ Har Nundun Sahay, ditto.

**MEDICAL.**—*The 16th June 1874.*—Apothecary Class Native Doctor Peary Lal Sen, lately attached to the Dispensary at Pandua, in the Manbhoom District, is dismissed from the public service.

*The 19th June 1874.*—Surgeon William Henry Gregg, M.B., is appointed to have civil medical charge of Burdwan during the absence on special duty of Dr. J. G. French, or until further orders.

*The 20th June 1874.*—Dr. J. M. Comley is appointed to be a member of the Committee for the management of the Howrah General Hospital.

*The 23rd June 1874.*—Third Grade Assistant Surgeon Bholanath Pal, in charge of the Charitable Dispensary at Nowkhilla, in Bogra, is allowed leave for three months, under Section 3, Supplement F of the Civil Leave Code.

Third Grade Assistant Surgeon Behary Lal Pal, a Supernumerary at the Presidency, is appointed to have charge of the Charitable Dispensary at Nowkhilla, in Bogra, during Assistant Surgeon Bholanath Pal's absence, or until further orders.

**EMIGRATION.**—*The 17th June 1874.*—Mr. R. S. Mitchell having been appointed by the Colonial Government to be Emigration Agent for Trinidad, the Lieutenant-Governor is pleased, under Section 4 of Act VII of 1871, to approve of the appointment. Mr. Mitchell reported his arrival at Calcutta on the 6th June 1874.

**ROAD CESS.**—*The 20th June 1874.*—The following gentlemen are appointed members of the District Road Cess Committee of Balasore:—

Baboo Boroda Kant Mozoomdar, Deputy Collector.

„ Baikunto Nath De, Zamindar.

**RESOLUTION.****GENERAL DEPARTMENT.**

MARINE NO. 2061.

*Calcutta, the 22nd June 1874.***READ—**

Correspondence regarding the reduction of the Pilot Service.

1. The scheme, as originally described, provided for bringing about ten retirements among Service Pilots, and thirty among Licensed Pilots; but in fact so many are not required. The object is to bring the number of Running Pilots down to seventy. For the last year or two the vacancies which have occurred have not been filled up, and when the first retirement on bonus took place, the number of Pilots was in excess of seventy by thirty-one only. Fourteen Pilots have already been permitted to retire on bonus. The same permission is now granted to the following Pilots, who have submitted applications:—

*Branch Pilots.*

	£
Mr. C. W. Warden on a bonus of ...	1,400 (including compensation for privileges.)
Mr. Lord ...	1,000
<i>Mate.</i>	
Mr. R. Hand ...	1,120
<i>Licensed Mate.</i>	
Mr. Hyndman ...	600

2. In addition to the above, the Lieutenant-Governor considers it to be necessary for the public interests that the following Pilots should be required to retire from the service, or to give up their licenses; the bonus to which each is entitled under the scheme will be paid him:—

*Service Pilots.*

	£
Mr. T. Black ...	1,200
Mr. H. Halden ...	1,200

*Licensed Pilots.*

Mr. J. Thomas ...	650
Mr. D. F. Mauger ...	800
Mr. W. Thompson ...	550

3. The retirements will take effect from the 1st of July 1874, or any previous date on which the Pilots named may wish to retire.

4. Mr. Jones has applied to retire if the mode of grading service Licensed Pilots indicated in paragraph 5, clause 6, of this Government Resolution of the 12th February 1874, according to the date of entering service, be carried out. Many memorials on the subject have been received, and the Lieutenant-Governor is pleased to reserve Mr. Jones's application to retire until a decision after the question is finally settled.

5. The following list shows the names of the Pilots who have been permitted, or required, to retire under the scheme, with the cost of retirement.

Names.	<i>Branch Pilots.</i>				Amount of
					£
G. Collins ...	...	...	...	...	1,400
W. J. Stone ...	...	...	...	...	1,000

			Total	...	3,425
			<i>Licensed Mates.</i>		
R. Scott	...	...	...	...	450
A. Templeton	...	...	...	...	450
C. Williams	...	...	...	...	400
			Total	...	1,300
			Grand total	...	21,885

6. To this must be added £600; the amount of Mr. Jones's bonus if he should retire, making a total of £22,485. The total expenditure sanctioned by the Government of India was £23,000. The difference, £515, must be kept in hand to meet any additional payments which it may be necessary to make on claims which have been advanced in certain cases by Pilots who have been permitted to take the bonus.

7. With reference to the limit which has been put on the expenditure under the scheme, the Lieutenant-Governor has not been able to accede to the applications of all who applied to retire on bonus.

8. The four officers named on the margin wished to retire on the pension and bonus of Branch Pilots, but they were not Branches before retirements under this scheme began, and owe their promotion to the Branch Grade to such retirements only. But no more retirements on Branches' terms can be allowed for financial reasons, which also compel His Honor to decline the offers of Messrs. Sealy, Bowden, Hart, and Bellew.

9. Mr. Curtis has been on leave for the last three years, and is understood to have adopted another profession. The Officiating Master-Attendant is requested to inform Mr. Curtis that no bonus can be given to him, and that no further leave can be allowed. The leave already granted him has been much too long.

10. When these 24 retirements have taken place, the number of Service and Licensed Pilots, respectively, which remain on the list, will be 54 and 23. The reduction to 70 must be made by not filling up vacancies as they occur in ordinary course.

11. The number of Pilots having been thus diminished, the Officiating Master-Attendant should, without delay, submit definite proposals for reducing the number of vessels employed as Pilot Brigs.

Ordered that copy of this Resolution be forwarded to the Accountant-General for information; and to the Master-Attendant for his guidance, and for

communication to the Pilots concerned, and to the body of Pilots. Orders on the points of the scheme, such as the grading of the Pilots and the readjustment of the percentage of fees allowed to Pilots, will be issued as soon as possible.

H. L. DAMPIER,

#### RESOLUTION.

#### SCARCITY AND RELIEF DEPARTMENT.

*Dated Calcutta, the 16th June 1874..*

READ—

A letter from the Commissioner of Burdwan, No. 83—S.R., dated the 2nd June, with enclosure.

The Lieutenant-Governor has read with much satisfaction a report received from the Commissioner of Burdwan, regarding the extensive measures of charitable relief undertaken and maintained by Baboo Ram Runjun Chuckerbutty, zemindar of Hetampore, in the district of Beerbhoom.

C. BERNARD,  
*Offg. Secy. to the Govt. of Bengal.*

[First Publication.]

#### RESOLUTION.

#### SCARCITY AND RELIEF DEPARTMENT.

*Yacht Rhotas, the 16th June 1874.*

READ—

A letter, No. 1300—S.R., dated the 22nd May 1874, from the Commissioner of the Rajshahye Division, with its enclosures.

OBSERVATIONS.—The Commissioner of the Rajshahye division has brought to the notice of the Lieutenant-Governor that Rai Dhuiput Sing Bahadoor, of Azcemgunge, in the district of Moorshedabad, has distinguished himself by the public spirit with which he has come forward to the relief of the tenantry on his extensive estates. In Dinagepore, besides contributing two-thirds towards the cost of digging two tanks, it is represented that the Rai is having a third tank excavated at his own expense, and that he has also agreed to bear the whole cost of repairing an embankment and cleaning out two tanks in thana Gungarampore. It is also reported that, besides postponing the collection of rent on his own zemindaries, he has entirely remitted the rents of such of his tenantry as are unable to pay. In the district of Rungpore he has also suspended the collection of rents; while in the district of Moorshedabad, in which he usually resides, his measures for the relief of general distress are said to have been undertaken on a very extensive and liberal scale.

The Lieutenant-Governor has read these reports with much satisfaction, and he thinks that the marked public spirit displayed by this zemindar in the present crisis is deserving of commendation.

#### NOTIFICATION.

*The 19th June 1874.*—WITH reference to Rule 2, Section 59 of the Civil Pension Code, regarding the medical examination of candidates for employment in the public service, the Lieutenant-Governor is pleased to notify, for the information of Heads of Departments under the Government of Bengal at the Presidency, that in Calcutta the duty is to be performed by all commissioned Medical Officers who are engaged in private practice. At present they are as follows:—

Surgeon-Major	A. J. Payne, M.D.
Ditto	S. B. Partridge.
Ditto	F. N. Macnamara, M.D. (on leave.)
Ditto	J. Ewart, M.D.
Ditto	W. J. Palmer, M.D.
Ditto	N. C. Macnamara, M.D. (on leave.)
Ditto	T. E. Charles, M.D.
Ditto	H. Cayley.
Surgeon	K. McLeod, M.D.
Ditto	A. Crombie, M.D.

2. Each candidate should be furnished with a letter showing that he will be appointed to a post in the event of his being declared physically fit for the Government service, and only candidates so authorized will have a claim to be medically examined without payment of fee.

3. With the view of causing an equal distribution of the duty of examination, Heads of Departments are requested to send candidates to the above named Medical Officers in rotation.

4. The names of Medical Officers at the Presidency who may hereafter come under the operation of the rule in paragraph 1 will be notified from time to time.

RIVERS THOMPSON,  
Secy. to the Govt. of Bengal.

[First Publication.]

NOTIFICATION.

*The 18th June 1874.*—The following application for a loan by the Municipal Commissioners of Arrah is published in the *Calcutta Gazette* under Rule 5 of the Rules passed by the Governor-General in Council on the 15th October 1873, under Section 4 of the Local Public Works Loan Act, XXIV of 1871.

1. For constructing a proper system of latrines in the town of Arrah and within the local limits of this Municipality. The work is intended for the benefit of the general community dwelling within such limits. The cost of the work is estimated at Rs. 4,600, which will appear from the estimate annexed.

2. The amount of loan applied for is Rs. 2,600, which sum would be in addition to the sum of Rs. 2,000 promised by Government in letter No. 2917, dated 10th November 1873, on condition of the Municipality raising the sum of Rs. 2,600; this latter sum is now sought for as a loan.

3. The loan shall be made on the security of house-tax and other miscellaneous receipts of this Municipality.

4. The said house-tax, &c., are levied under Act III of 1864.

5. The period for which the loan is required is ten years. The loan shall be made in one sum, and at as early a date as possible. It shall be repaid in ten annual instalments of Rs. 260 each, or at any early date if convenient.

6. The proceeds\* of house-tax and all other income, and the expenditure incurred in each of the three last preceding years, are shown in a separate statement annexed herewith.

7. Nil.

8. No prior charges exist upon any source of income accruing to the Municipality.

RIVERS THOMPSON,  
Secy. to the Govt. of Bengal.

## DECLARATIONS.

*The 10th June 1874.*—Whereas it appears to the Lieutenant-Governor of Bengal that

Pipra, pergunnah Naredigar.  
Dinapatty and Delhipatty, pergunnah Naredigar.  
Thoomba, pergunnah Malhuigopal.  
Kafaja, ditto ditto.  
Pathra, ditto ditto.  
Karilo, ditto ditto.  
Gobargarha, ditto ditto.  
Soopool, ditto ditto.

land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Pipra, pergunnah Naredigar, to that of Soopool, to pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from east to west and southwest, passing through the villages as per margin, and measuring, more or less, 13 miles in length and 55 feet in breadth = 262½ standard beghas, equivalent to 99½ local beghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be

Singhessur, pergunnah Narsingpore Curha.  
Ranpatti, ditto ditto.  
Roopoti Gote, ditto ditto.  
Bourhaway, ditto ditto.  
Baheri, ditto ditto.  
Bairbanna, ditto ditto.  
Chumpanagor, ditto ditto.  
Dawraee, ditto ditto.  
Barhari, ditto ditto.  
Kamargawan, ditto ditto.  
Fukri, ditto Naredigar.  
Amla, ditto ditto.  
Pipra, ditto ditto.

taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Singhessur, pergunnah Narsingpore Curha, to that of Pipra, pergunnah Naredigar, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north, passing through the villages as per margin, and measuring, more or less, 12 miles and 100 feet in length and 55 feet in breadth = 215½ standard beghas, equivalent to 93½ local beghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road which is

Persanna, pergunnah Malhuigopal.  
Bella, ditto Utterkhand.  
Pachgachio, ditto ditto.  
Beelra Bazar, ditto ditto.  
Sihole, ditto ditto.  
Rohosa, ditto ditto.  
Pararee, ditto ditto.  
Chainpore, ditto ditto.  
Bulli, ditto Pherkia, zillah Monghyr.

called Soopool to Bhootia road, but which runs from Court of Wards' road at Persanna, pergunnah Malhuigopal, zillah Bhagulpore, to Bulli, on the Monghyr boundary. it is hereby declared that for the above purpose a strip of land running generally from north to south, passing through the villages as per margin, and measuring, more or less, 17 miles in length and 60 feet in breadth = 374 standard beghas, equivalent to

141½ local beghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be

Pipra, pergunnah Naredigar.  
Belli Bhoonguch, pergunnah Naredigar.  
Simaria, pergunnah Naredigar.  
Basooli, ditto ditto.  
Belha, ditto ditto.  
Boolar, ditto ditto.  
Doobiali, ditto ditto.  
Chumpanagor, Jagdispore, pergunnah Harawat.  
Lokha Mohanathpore, ditto ditto.  
Hoolas, pergunnah Harawat.  
Darnotra, ditto ditto.  
Chilowai, ditto ditto.  
Dinwagunge, pergunnah Harawat.  
Sihaggar, Sookhanaggar, pergunnah Harawat.

taken up for Government at the public expense for a public purpose, viz. for a road which is called Pipra to Pertapgunge road, but which runs from Pipra, pergunnah Naredigar, and joins the great northern emigration road (Court of Wards') near the village of Sookhanaggar, pergunnah Harawat, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from south-west to north-east, passing through the villages as per margin, and measuring, more or less, 12 miles and 600 feet in length and 55 feet in breadth = 244½ standard beghas

equivalent to 85½ local beghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be

Pertapgunge, pergunnah Harawat.  
Gungar, ditto ditto.  
Gobindpore, ditto ditto.  
Durnobitra, ditto Bhuphar.  
Balua, ditto ditto.  
Bimarpore, ditto ditto.  
Haripore, ditto ditto.  
Kapra, ditto ditto.  
Deerpore, ditto ditto.

taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Pertapgunge, pergunnah Harawat, to that of Balua and Birpore, pergunnah Bhuphar, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north-east and north, passing through the villages as per margin, and measuring, more or less, 20 miles in

length and 55 feet in breadth =  $403\frac{1}{2}$  standard beeghas, equivalent to  $131\frac{1}{10}$  local beeghas more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Singhessur to that of Gambaria, pergunnah Narsingpore Curha, pergunnah Narsingpore Curha, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north-west, passing through the villages as per margin, and measuring, more or less, 7 miles in length and 55 feet in breadth =  $141\frac{1}{2}$  standard beeghas, equivalent to  $53\frac{1}{2}$  local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for the Government at the public expense for a public purpose, viz. for a road starting from the village of Gambaria, pergunnah Narsingpore Curha, to that of Soopool, pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from east to west and north-west, passing through the villages as per margin, and measuring, more or less, 9 miles in length and 55 feet in breadth =  $181\frac{1}{2}$  standard beeghas, equivalent to  $68\frac{1}{2}$  local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Bella to Myyeh, *via* Barovaree, pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land running generally from south to north and north-east, passing through the villages as per margin, and measuring, more or less, 12 miles in length and 55 feet in breadth = 242 standard beeghas, equivalent to  $91\frac{1}{2}$  local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from Bulha (Sookhpore), pergunnah Malhuigopal, to that of Bijwas, *via* Nohatta and Moheshi, pergunnah Kabkhanda, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from north to south, passing through the villages as per margin, and measuring, more or less, 20 miles in length and 55 feet in breadth =  $403\frac{1}{2}$  standard beeghas, equivalent to  $152\frac{1}{2}$  local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken up for Government at the public expense for a public purpose, viz. for a road starting from the village of Soopool to that of Chundail, pergunnah Malhuigopal, zillah Bhagulpore, it is hereby declared that for the above purpose a strip of land, running generally from north-east to south-west, passing through the villages as per margin, and measuring, more or less, 7 miles in length and 55 feet in breadth =  $141\frac{1}{2}$  standard beeghas, equivalent to  $53\frac{1}{2}$  local beeghas, more or less, is required.

This Declaration is made under the provisions of Section 6 of Act X of 1870 to all whom it may concern.

*The 19th June 1874.*

*No. 3908.*—In supersession of the Notification of the Government of India in the Financial Department, No. 751, dated 28th January 1870, the Governor-General in Council is pleased to prescribe the following rule:—

No stamps other than the blue and black bi-color stamps prescribed in Financial Notification No. 2778, dated 29th April 1868, or the impressed stamps manufactured in England, shall be used for the documents mentioned in the first and second schedules annexed to the General Stamp Act, XVIII of 1869, unless in the case of—

(a).—Documents which, under Section 5 of the same Act, paragraph (a), may be stamped with adhesive stamps, and

(b).—Documents on which the stamps may be denoted by the Collector or Superintendent of Stamps under the same section, paragraph (b).

*No. 3910.*—In exercise of the powers conferred by Section 16 of the General Stamp Act, XVIII of 1869, the Governor-General in Council is pleased to remit the whole of the duties chargeable under the said Act on instruments executed by ryots, or cultivators, and relating to the repayment of advances made to them in grain by or under the authority of Government.

This Notification extends only to the territories under the Government of the Lieutenant-Governor of Bengal, and to the Benares Division under the Government of the Lieutenant-Governor of the North-Western Provinces, and does not apply to any instrument executed after the 30th November 1874.

The following order, issued by the Government of India in the Military Department, is republished for general information:—

*No. 638.—Fort William, the 19th June 1874.*—The under-mentioned Officer of the Bengal Staff Corps, having completed 26 years' service, is promoted to the rank of Lieutenant-Colonel from the date specified, under the provisions of G. G. O. No. 803 of the 26th September 1866, subject to Her Majesty's approval:—

Major (Brevet Lieutenant-Colonel) Bendyshe Walton,—16th June 1874.

RIVERS THOMPSON,

*Secy. to the Govt. of Bengal.*

## JUDICIAL DEPARTMENT.

No. 1863C.S.

*The 16th June 1874.*—Baboo Joy Gopal Banerjee, Tehsildar, who has, under separate orders of this date, been posted to the Sub-Division of Aurangabad, in Gya, is vested with the powers of a Magistrate of the Second Class.

*The 22nd June 1874.*—The following officers are vested with the powers of a Magistrate of the Second Class, viz.—

Baboo Kali Nath Bose, Deputy Magistrate and Deputy Collector, Tipperah.  
Mr. Chunder Nath Banerjee, Acting Deputy Magistrate and Deputy Collector, Nuddea.

Baboo Gooroo Prosad Sen, Second Subordinate Judge of Backergunge, is allowed leave for six months, under Section 3, Supplement F of the Civil Leave Code, in extension of the leave granted to him under orders of the 30th March 1874.

*The 23rd June 1874.*—Mr. Ernest Montagu Money, Assistant Magistrate and Collector, who has, under separate orders of this date, been appointed to have charge of the sub-division of Jamooc, is vested with the powers of a Magistrate of the First Class, and with powers to try summarily the offences mentioned in Section 222 of the Criminal Procedure Code. Mr. Money is also appointed, under Section 3, Act II of 1869, to be a Justice of the Peace within the territories under the Lieutenant-Governor's control.

## NOTIFICATION.

*The 11th June 1874.*—Under the powers vested in the Lieutenant-Governor by Section 2 of Act II (B.C.) of 1867 (an Act to provide for the punishment of public gaming and the keeping of gaming-houses), His Honor is pleased to authorize the extension, from the 1st July next, of the provisions of Section 11 of the said Act to the town of Pubna. The limits of the town for the purposes of this Act will be the same as those defined for the purposes of Act VI (B.C.) of 1868 in the Notification of 26th January 1869, published in the *Calcutta Gazette* of the 3rd February following.

RIVERS THOMPSON,  
Secy. to the Govt. of Bengal.

## [Third Publication.]

## NOTIFICATION.

*The 5th June 1874.*—It has been represented to His Honor the Lieutenant-Governor that the multiplication of Rural Registration Offices, advantageous as it is to the public generally, entails some inconvenience on those proprietors of immovable property who reside, not within the sub-district in which their property is situated, but at the sadder station of the district.

With a view of abating the inconvenience complained of, and facilitating the registration of documents in the District Registry Office, instead of in the Sub-Registry Offices, in which they would ordinarily be registered, the Lieutenant-Governor, with the approval of the Governor-General in Council, is pleased to direct the substitution of the following article for the present article (4) of the schedule of fees.

(2) For registration by any Registrar (other than the Registrar of Calcutta) of any document under Section 30(a).	An extra fee equal to the ordinary fee, or Rs. 5, whichever is less.

UNDER SECTION 64 OF ACT V (B.C.) OF 1870.

*The 15th June 1874.*—The Commissioners for making Improvements in the Port of Calcutta, with the sanction of the Lieutenant-Governor of Bengal, do hereby declare that the wharf on the east bank of the River Hooghly, extending from the northern boundary of Golabaree Ghât Road on the north to the southern boundary of Kassy Mitter's Ghât on the south, is ready for receiving, landing, and shipping goods from and upon vessels not being sea-going vessels, and order that within the limits of that portion of the Port of Calcutta situate between the said Kassy Mitter's Ghât on the south and the northern boundary of Thakoorbarree Ghât on the north, it shall not be lawful to land or ship any goods out of or into vessels of the class above specified except at the aforesaid wharf.

By order of the Commissioners,  
W. D. BRUCE, *Vice-Chairman.*

## HIGH COURT NOTICE.

MEMO. NO. 1089.

THE following Circular Letter, issued by the Registrar of Her Majesty's Privy Council, is published for general information.

By order of the High Court,  
H. J. S. CARTON, *Offg. Registrar.*

THE REGISTRAR OF THE PRIVY COUNCIL TO THE SOLICITORS AND AGENTS CONDUCTING APPEALS BEFORE HER MAJESTY IN COUNCIL.

*Council Office,  
Whitehall, December 22nd, 1873.*

Gentlemen,

I AM directed by the Lord President of the Council to state, for your information, that it appears, from a communication made by the Incorporated Law Society to the Lords of the Judicial Committee of the Privy Council, that a practice exists amongst some of the solicitors or agents conducting Appeals from India before the Privy Council, of allowing a payment or commission of 10 or 15 per cent. on the remittances made to defray the expenses in England, to the Vakeel, Mookhtear, or other person in India by whom the appeal is transmitted to this country; and in one instance their Lordships are informed that a direct solicitation of business accompanied an offer of these terms.

Their Lordships have taken these statements into their most serious consideration. It appears to their Lordships that the deduction of a commission from remittances made for the expenses of an Appeal cannot justly be assimilated to the division of profits which prevails in this country under the name of agency; it is immaterial to a minor in what manner the lawful costs he has to pay are divided between a town and country solicitor, but he has a right to require that remittances made for the expenses of an Appeal to England should be exclusively applied without deduction to that purpose. The payment to the native Vakeel, or other adviser of the client in India, of a commission upon the remittances, not only tends to increase the expense of Appeals, but gives to such persons direct personal interest in advising frivolous Appeals, and in making them as expensive as possible. Their Lordships are therefore of opinion that, if such a practice exists in India or elsewhere, it is wrong, and open to grave abuse, which might, if continued, call for the direct intervention of their Lordships' authority to check it.

But their Lordships prefer to address themselves to the sense of professional duty and propriety which exists amongst the gentlemen carrying on the business of Appeals before Her Majesty in Council, to put an end to this system; and their Lordships trust that after this intimation of their opinion measures will be taken by the members of the profession practising in the Privy Council to prevent the continuance of any such practice, which has doubtless only prevailed in some exceptional cases and should now be entirely abandoned.

I have the honour to be,  
Your obedient Servant,  
HENRY REVE,  
*Reg. P. C.*

---

Sheriff's Office, the 2nd June 1874.

---

NOTICE is hereby given that the Sixth Criminal Sessions of the year 1874 of the High Court of Judicature at Fort William in Bengal, for the Town of Calcutta and Factory of Fort William and the places subordinate thereto, will be holden at the Court-House, in the Town of Calcutta, on Tuesday, the thirtieth day of June instant, at 11 o'clock in the forenoon, and so on from day to day until the said Session be over. And it is hereby proclaimed that all persons who will prosecute any of the prisoners to be brought up for trial at the said Session be then and there to prosecute.

EDUCATIONAL NOTICES.

---

Presidency College, Civil Engineering Department.

---

THE SESSION 1874-75 of the Engineering Department will open on Monday, the 15th June.

Candidates for admission are requested to present themselves at the College at 10 A.M. on that date, and no applications for admission will be received after the 30th June.

PRESIDENCY COLLEGE, the 4th June 1874.

J. SUTCLIFFE, *Principal*.

It is hereby notified that, under the orders of the Government of Bengal contained in the Resolution dated the 5th of October 1872, promulgating the Junior Scholarship Rules, five junior scholarships of the second grade and ten of the third grade were allotted to the Presidency Division. They will be distributed among the several districts of the division in the following manner at the ensuing December examination :—

24-Pergunnahs	...	...	...	...	7
Nuddea	...	...	...	...	5
Jessore	...	...	...	...	3

The grade of the scholarship will be determined by the marks obtained by the successful candidate in the divisional list.

It is also notified, in accordance with paragraph 10 of the Rules, that not less than one half of the scholarships will be awarded to students who have qualified in drawing, surveying, and physical geography.

The examination in these subjects will be held in the Kishnaghur College, Jessore Zillah School, and the Senate House, on the 8th and 9th October 1874. For further information candidates can apply to the Inspector of Schools, Presidency Circle, No. 22, Chowringhee Road, Calcutta.

The 12th June 1874.

H. ULICK BROWN, *Commissioner*.

### OPIMUM NOTIFICATION.

No. 578B.

Notice is hereby given that the Seventh Sale of Opium, the provision of 1872-73, will be held at the Government Opium Sale-Room, No. 2, Bankshall Street, on Monday, the 6th July 1874, at 11 A.M., and will comprise 3,750 chests, viz.—

				Chests.
Behar Opium	...	...	...	2,185
Benares „	...	...	...	1,565
Total				3,750

2. The general conditions of the sale now advertised will be the same as usual; they may be ascertained by reference to the Notification issued on the 8th November 1873, and published in the *Government and Exchange Gazettes*, or on personal application at the Office of the Board of Revenue.

3. The latest dates for deposit and clearance will be the 11th and 21st July, respectively, that is to say, no Bank of Bengal Receipts, Government Promissory Notes, or other public securities that may be tendered for deposit in redemption of Promissory Notes given by purchasers in the sale-room, will be received after 4 P.M. of Saturday, the 11th July 1874, and no Bank of Bengal Receipts in full payment of lots will be accepted after 4 P.M. of Tuesday, the 21st July 1874.

4. In addition to the quantity above advertised for sale, the following quantities, more or less, of Behar and Benares opium will be brought to sale in the present year on or about the dates specified below. The Member in charge of the Opium Department, however, reserves to himself the right of altering these dates, should circumstances render it expedient to do so :—

Dates.		Behar, about Chests.	Benares, about Chests.	Total, about Chests.
On or about Wednesday, 5th August 1874	...	2,185	1,565	3,750

## CENTRAL RELIEF FUND.

*Proceedings of the Fourteenth Meeting of the Executive Committee of the Central Famine Relief Fund, held on the 30th May 1874.*

## PRESENT:

The Hon'ble V. H. Schaler, *Chairman.*

The Hon'ble John Inglis.

J. R. Bollen Smith, Esq.

1. The proceedings of the last meeting were read and confirmed.
2. The Chairman read a letter from the Commissioner of Chota Nagpore, asking for Rs. 10,000 for the district of Manbacom for the month of June.  
Resolved, that the application be granted.
3. The Chairman read a letter from the Collector of Nuddica, asking for a gift of Rs. 5,000 from the fund.  
Resolved, that the application be granted.
4. The Chairman read a letter from the Commissioner of Burdwan, stating that the application for his division for the month of June amounted to Rs. 20,000 for Burdwan, Rs. 14,000 for Bankoora, and Rs. 10,000 for Beerbhoom, Rs. 6,000 for Hooghly, and Rs. 2,000 for Midnapore.  
Resolved, that the sums asked for be granted.
5. The Chairman also read a letter from the Relief Commissioner of Rajshahye, stating that Rs. 20,000 would probably be required for Dinagepore during May.  
Resolved, that the application be granted.

6. The Chairman read a letter from the Commissioner of Rajshahye, estimating the requisitions from Moorsshedabad for June at Rs. 21,100.

Resolved, that the application be granted.

7. The Chairman read a letter from the Collector of Shahabad, asking for an assignment of Rs. 4,000 for June.

Resolved, that the application be granted.

8. The Chairman read a letter from the Commissioner of Burdwan, giving a forecast of the requirements of his districts from date to the end of the famine.

Also, a similar letter from the Commissioner of Rajshahye, concerning the wants of Moorsshedabad.

Also, a similar letter from the Commissioner of Patna, concerning Tirhoot and Shahabad.

Resolved, that these letters be abstracted and recorded.

9. The Chairman read the statements of daily average of persons relieved and cash accounts of the following districts:—

Hooghly, from commencement to 15th April 1874, and from 16th April to 30th April 1874.

Bankoora, from 15th April to 30th April 1874.

Midnapore, from 15th April to 30th April 1874.

Beerbhoom, from commencement to 15th April 1874.

Howrah, from commencement to 15th April 1874, and from 16th April to 30th April 1874, and from 1st May to 15th May 1874.

Patna, from 1st May to 15th May 1874.

Resolved, that above statements and accounts be abstracted and recorded.

10. The Chairman read a letter from the Commissioner of Rajshahye, intimating that the Collector of Pubna asked for Rs. 20,000. The Commissioner asked, however, that 50,000 might be allotted to Pubna for June. He explained that in the Serajgunj sub-division bad weather had put a stop to transport and importation temporarily; the sub-divisional officer had therefore been obliged to buy 8,000 maunds of rice from private firms, which would all be used up on charitable relief under headings (b), (c), and (d).

Resolved, that the 50,000 applied for be allotted to Pubna, but the Commissioner be asked to report on the condition of the district, as it would seem not to be internally distressed, but suffering temporarily (and independently of the general scarcity) from an interruption to the communications.

11. The Chairman read a letter from the office of the Bombay Municipal Commissioners, announcing the remittance of Rs. 20,000 through the Accountant-General of Bombay.

Resolved, that the letter be recorded.

12. The Chairman read a letter from the Treasurer of the Manchester Famine Committee, forwarding a copy of two resolutions passed at a meeting held on 30th April 1874.

The resolutions were—"That the funds already raised, or hereafter to be raised, in Manchester ought not to be used as a substitute for those means which Government is bound to employ to meet the crisis in India, but should be devoted to purposes which Government by the general rule of distribution cannot meet. That the Manchester Fund be forwarded to the Central Relief Committee at Calcutta, with a special request that the distribution be regulated by a strict regard to the preceding resolution."

Resolved, that a letter be addressed to the Secretary to the Manchester Fund, stating with reference to the fact that the Committee had undertaken all charitable expenditure under (b), (c), (d), that the Committee think that the views of the Manchester subscribers will be met by the appropriation of the subscriptions to the abovenamed purposes.

Resolved also, that a telegram to the same purport be sent to the same gentleman.

13. The Chairman read a letter from the Chairman of the Glasgow Relief Committee, intimating that the Glasgow meeting of 1st May 1874 had resolved to send a further sum of £5,000 to Calcutta, and mentioning that the money subscribed is intended for the relief of such as Government aid will not reach, and to supplement such Government aid where insufficient.

Resolved, that a reply be sent in terms similar to that despatched to Manchester.

The following is a statement of accounts to 30th May:—

			Rs.	As.	P.
Subscriptions to 30th May 1874	...	...	18,46,214	3	11

Total	...	...	28,63,412	2	1

## DISTRICT RELIEF COMMITTEE.

*Burdwan Moharajah's Relief Operations Statement for the fortnight ending 13th June 1874.*

## BURDWAN.

**Relief House.**—The numbers applying for relief have increased considerably during the last fortnight, and the daily average of people fed has been 1,151. But this increase is due partly to the numbers of Juggernaut pilgrims daily passing through the town of Burdwan. No cases of acute distress from the adjacent villages have presented themselves. Milk is given to such children as require it, and cloth has been distributed to a few people who were in urgent need of it. 8,000 maunds of rice have been received from Orissa, which will be employed partly for relief purposes and partly for the use of the employés of the Raj. This will relieve the local market to a considerable extent.

## CULNA.

At the relief house at Culna 580 are daily fed; in addition to these, advances of rice have been made to about 20 respectable people whose circumstances appeared to require it, and orders have been issued to extend these advances to all such respectable people as may really need it.

**Relief Works.**—The works on the tanks have been stopped, but road-work has been substituted. It is not expected, however, that there will be many applicants for work on these roads, as the Executive Engineer of the district finds it difficult to go on with Government roads in the Culna sub-division, owing to want of laborers.

## BOOD-BOOD.

The number of people daily fed at the Bood-bood annachotra has been 625. Milk has been given to about 40 children, invalid diet is provided for the sick, and advances of rice have been given to 12 respectable people. The former darogah has been removed and a new man appointed. There is a complaint that no attention is paid to the sick at the annachotra by the medical officer of the place, which, considering that cholera is prevalent, is rather a serious matter.

## KHADINA.

At Khadina, in Hooghly, the numbers fed at the annachotra have been daily increasing, the average for the last fortnight having been 425. Only one Brahmin woman receives advances of rice, as, though there are many applications for uncooked food, and orders have been issued to supply it in quantities of five days' rations at a time, all the applicants refuse to take it unless it is carried to their houses.

A tabulated statement is annexed, showing the daily average of people relieved at each place.

*Statement showing the daily average number of people relieved during the fortnight ending the 13th June 1874.*

Number of people who work at different relief works:—

Burdwan	...	Rossam Bagh	...	...	...	150
		Tara Bagh	...	...	...	50
		Ryan tank	...	...	...	325

Kheergram Diggi.—No returns received.

Culna Somajbari Diggi.—Work stopped, and road-work substituted, no returns of road-work received as yet.

Total ... 525

Number of people receiving gratuitous food:—

Burdwan	...	...	...	...	1,151
Bood-bood	...	...	...	...	625
Culna	...	...	...	...	580
Khadina	...	...	...	...	425

Total ... 2,781

Grand total ... 3,306

BURDWAN, the 17th June 1874.

M. C. BURDWAN, Moharajadheraj.

PART II.

Advertisements.

---

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

NOTICE is hereby given that the undermentioned plots of land, no longer required by the Government, situated in the district of Patna, will be put up to sale at the Collector's Office at Bankipore at 12 o'clock on Thursday, the 16th July 1874, corresponding with 1st Sarabun B.S.

The purchasers of these plots will be subject to the following conditions:—

1st.—If the amount of purchase-money does not exceed Rs. 100, the whole amount to be paid down at once.

2nd.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale to be cancelled, the sum deposited being forfeited to Government, and the estate to be again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

3rd.—The plots will be sold revenue-free to the highest bidders.

4th.—The purchasers shall be put in possession on receipt of the orders of the Collector confirming the sales. But such possession shall be liable to be disturbed in case the final sanction of the Member of the Board of Revenue in charge should not be accorded to the proceedings.

LAND SALE NOTICES.

NOTICE is hereby given, under Section 6, Act XI of 1859, that the undermentioned estates in the district of Cuttack will be put up to public and unfreserved sale, at the Collector's office of that district, on the 17th day of July 1874, for arrears of revenue and other demands which by the Regulations and Acts in force are directed to be realized in the same manner as arrears of revenue due on the 28th day of April 1874.

Class II.—Temporarily-settled Estates.

No. 1847.—Mehal Mouzah Ummer, Pergunnah Matkatungar; recorded proprietor, Sudanund Mahapatra; sudder jumma, Rs. 319-12-10; will be sold for arrears of Government revenue amounting to Rs. 159-14.

No. 2200.—Mehal Mouzah Barhapur, pergunnah Hariburpur. Recorded proprietors Nityanund Patnaik, Gourang Charan Dass, Sadanund Mahapatra, Srikrishna Mahapatra, Radhakrishna Mahapatra, Jagabundhu Pasait, Kunjabehari Pasait, and Parmanund Canooongo. Sudder jumma, Rs. 519-13-9½, of which Rs. 346-9-1½ to be deducted on account of the jumma of the share of Nityanund Patnaik, Gourang Charan Dass, Srikrishna Mahapatra, Radhakrishna Mahapatra, Kunjabehari Pasait, Jagabundhu Pasait, and Parmanund Canooongo, with whom separate accounts have been opened, as per Section 10, Act XI of 1859. The sudder jumma advertised for sale is Rs. 173-4-8, on account of the jumma of the share of Sadanund Mahapatra. This share will be sold for arrears of Government revenue.

CUTTACK COLLECTORATE, the 12th May 1874.

JOHN BEAMES, Collector.

### Notice

Is hereby given that the land specified in the Schedule hereunto annexed, and of which the plan is open to inspection at the office of the Deputy Commissioner of Nowgong, Assam, will be sold by public auction at the office of the said Deputy Commissioner at 11 o'clock on the 2nd October 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for adjudication of claims to waste lands) or owing to any other cause.

For the conditions of sale see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner of Nowgong, Assam.

### SCHEDULE.

A lot of waste land, consisting of about 396 acres, situated in mouzah Nizorikhat Hatirgaon, in the district of Nowgong, Assam, and bounded as follows:—

*North.*—A line drawn from a pillar marked N on the bank of a stream called "Dogajooree," to a pillar O, on the north-east, along the edge of the above stream, distance 100 yards. From pillar O to a pillar P, on the north-west, along the edge of the above stream, distance 260 yards. From pillar P to a pillar Q, on the north-west, along the edge of the said stream, distance 360 yards. From pillar Q to a pillar R, on the south-west, along the edge of the above stream, distance 200 yards. From pillar R to a pillar S, on the north-west, along the edge of the above stream, distance 350 yards. From pillar S to a pillar T, on the south-west, along the edge of the above stream, distance 233½ yards. From pillar T to a pillar U, on the north-west, along the edge of the above stream, distance 140 yards. From pillar U to a pillar V, on the south-west, along the edge of the above stream, distance 233½ yards. From pillar V to a pillar A, on the south-west, along the edge of the said stream, distance 166½ yards.

*South.*—A line drawn from a pillar marked F, on the west, at the foot of the hill called "Matiapahar," to a pillar G, on the north-east, along the foot of the above hill, distance 233½ yards. From pillar G to a pillar H, on the south-east, along the foot of the above hill, distance 180 yards. From pillar H to a pillar I, on the south-east, distance 150 yards.

*West.*—A line drawn from a pillar marked A, on the bank of the stream called "Dogajooree" to a pillar B, on the south-east, distance 129 yards. From pillar B to a pillar C, on the south-east, distance 200 yards. From pillar C to a pillar D, on the south-west, distance 233½ yards. From pillar D to a pillar E, on the south-west, distance 625 yards. From pillar E to a pillar F, on the south-east, at the foot of the hill called "Matiapahar," distance 500 yards.

*East.*—A line drawn from a pillar marked I, on the south-west, to a pillar J, on the north-east, distance 250 yards. From pillar J to a pillar K, on the north-east, distance 233½ yards. From pillar K to a pillar L, on the north-east, distance 700 yards. From pillar L to a pillar M, on the north-east, distance 550 yards. From pillar M to a pillar N, on the north-east, distance 140 yards.

The pillars are marked A to V in the map filed in the office of the Deputy Commissioner, Nowgong, Assam.

Nowgong, Assam, the 19th May 1874.

J. SHERER, *Dy. Commr.*

### [Second Publication.]

### Notice

Is hereby given that the land specified in the schedule hereunto annexed, and of which the plan is open to inspection at the Deputy Commissioner's office at Dibrughur, will be sold by public auction at the said Deputy Commissioner's office at 12 o'clock on the 2nd September 1874, unless meantime the sale is stopped or postponed in consequence of claims or objections under Act XXIII of 1863 (to provide for the adjudication of claims to waste lands) or owing to any other cause.

For the conditions of sale see the detailed notice, copies of which may be obtained on application to the Deputy Commissioner.

### SCHEDULE.

A lot of waste land consisting of about 741 acres, situated in mouzah Kodomoni, in the district of Luekhimpore, and bounded as follows:—

*North.*—By a straight line through the forest from a pillar, 1, bearing 242°, past an intermediate pillar, 2, to pillar 3, measuring 2,282 yards.

*West.*—By a straight line from pillar 3, through tree forest, bearing 176° and measuring 1,040 yards, to a pillar, 4; and thence by a straight line through tree forest, bearing 151° and measuring 660 yards, to a pillar, 5, on the Tettelia bheel.

*South.*—From pillar 5, along the northerly edge of the Tettelia bheel and the course of the Lohitkota river, to a pillar, 6, measuring, as the crow flies, 1,650 yards.

*East.*—By a straight line from pillar 6, on the Lohitkota river, through tree forest, bearing 20° and measuring 825 yards, to a pillar, 7; and thence by a straight line through tree forest, bearing 355° and measuring 1,045 yards, to pillar 1.

The pillars are marked from 1 to 7 on the map filed in the Deputy Commissioner's office.

DIBRUGHUR, ASSAM, the 17th April 1874.

W. S. CLARKE, *Dy. Commissioner.*

## Notice

## Custom House.

## NOTICE.

ALL persons having business with the Calcutta Custom House are hereby reminded that the existing rules for the payment of money into the Custom House must be invariably observed, and that no sum tendered contrary to these rules will be received.

The Custom House Treasury is open daily from 10-30 A.M. to 3 P.M., save on Saturdays, when it closes at 1 P.M.

As a rule, cheques which have not been accepted by the bank on which they are drawn are not received; this rule is, however, subject to special exceptions, with the approval of the Collector.

At 2-45 P.M. (Saturday excepted) the last remittance of the day is made to the Bank of Bengal, and after that hour no cheques which have not been accepted are received.

After 3 P.M., on Saturday after 1 P.M., no payments are received on any account.

Masters and Agents of ships having to pay marine dues are specially warned that they must do so before 3 P.M., on Saturday before 1 P.M., otherwise port-clearance cannot be granted until the Custom House opens on the following day.

T. B. LANE, *Offg. Collector of Customs.*

CALCUTTA CUSTOM HOUSE, the 11th June 1874.

1st.—The putnee to be given for the whole as one lot, or for separate dhees separately.

2nd.—The zemindars will be prepared to give up so much of the profits on each dhee as are placed opposite to each of them on receiving in adequate purchase value of the profits so given up, and will further require as salamee to be given for the balance of the profits, being the rents reserved to the zemindars as may be arranged.

3rd.—The offers for purchase, value, and of salamee are to be made on or before the fifteenth day of July next, either to Baboo Denonath Bose, Attorney-at-Law, or to Baboo Cassianth Biswas, at No. 20, Nilmoney Mitter's Street, in Simla, in Calcutta, where the same will be recorded.

4th.—The highest offers will be preferred.

5th.—Upon the offers being accepted, notice of such acceptance will be given by the said Baboo Denonath Bose to the person whose offers will be so accepted, and service of such notice will be deemed good service thereof upon the same being left at the usual place of abode of the said offerer.

6th.—Upon acceptance of the offers the persons whose offers shall have been so accepted should within fifteen days from the date of the said notice pay in the whole amount of their respective offers to such person or persons as may be authorised to receive the same.

7th.—That upon payment of all purchase-money the zemindars will, at the costs of the putneedars, execute pattahs in their favor after approval thereof by the zemindar's Attorney. The putneedars may at their own costs get their respective putnee holdings separately registered in the Collectorate.

8th.—The putnee lease will contain terms to the effects—(1st) that the rent will be payable by twelve equal monthly payments made on the first day of every month, and that such rent will be paid separately to each of the zemindars according to his interest in the property, to such person or persons as may be nominated by all parties for the purpose of receiving such rents; (2nd) that all taxes now paid or hereafter payable in respect of the said property, either by the zemindar or otherwise, shall be paid by the said putneedars; (3rd) that in default of payment of the said rent or taxes on the due dates thereof, respectively, interest will be charged on the defaulted amount at the rate of 12 per cent. per annum, and the rent and interest will be realised either as soon as default is made or in accordance with the provisions of Regulation 8 of 1819; (4th) that the putneedar will not be allowed to grant any under-tenure of his putnee mehal or any portion thereof for jummas less than what are now payable in respect thereof; (5th) that the putneedar will be fully empowered to make jariff jummaabundee of all lands, &c., in his mehal.

9th.—The income of the property is detailed below. The putneedars will be at liberty to make a mokabilla thereof with the nab of the zemindars within three months after the deposit of purchase and salamee-money as aforesaid. After the expiry of this time no objections on the grounds of short income will be entertained; the shortcoming of the income will not be a ground to cancel the contract for putnee.

10th.—That the putneedars may take upon themselves at their own expenses the collection of all the arrears of rent now due from the mehals, and that a commission of 10 per cent. will be allowed by the zemindars for such collections.

N.B.—This putnee is not to include any khas lands, gardens and tanks, nor any brummuthro, any lakhiraj and debutter, and purchased lands within the zemindary, for which separate arrangement will be made.

### Sale of Landed Property.

PURSUANT to an order of the Court for the Relief of Insolvent Debtors at Calcutta, made in the matter of Bernhardt Howard, Robert Carr, and Robert Howard, Insolvents, dated the 14th day of April 1874, A. B. Miller, Esquire, Official Assignee and Assignee to the estate and effects of the said Insolvents, will sell by public auction at his office, No. 3, Old Post Office Street, at noon on Thursday, the sixteenth day of July 1874, with the concurrence of the mortgagee, the following valuable properties:—

*Lot No. 1.*—All those several pieces or parcels of land purchased and leased by the said firm of Messrs. Howard Brothers, comprising, more or less, 80 beeghas, situate in mouzals Dunhur, Buthooa, and Baroundha, being near and about the railway-station at Mirzapore.

*Lot No. 2.*—All that pukka brick-built messuage or dwelling-house, with the land or ground attached thereto, containing, more or less, 4 beeghas 5 biswas and 10 dhoores, situate and being in the mouzah Baroundha, in Mirzapore, aforesaid, lying to the north-east of the railway-station yard, and bounded as follows, that is to say: on the north by fields and road leading from the railway to the Civil station; on the south by the road from the city of Mirzapore to Chuunar; on the east by open fields, and on the west by a field and the said road from the railway to the Civil station.

*Lot No. 3.*—All that brick-built messuage or dwelling-house with detached office, building, godowns, sheds, workshops, and cotton-screw building, with cotton-presses, and the land and ground attached thereto, containing, more or less, 4 acres, situate and being near the city of Jubbulpore, in the Central Provinces, and bounded in manner following, that is to say: on the north by the road leading from the Omtee bridge past the Government Dispensary, to the city of Jubbulpore; on the south by the road leading from the said Omtee bridge to Murha Tal, or lake; on the east by Moonshee Golam Nubbee Khan's bungalow; and on the west by the road leading from the city to the said Murha Tal.

*Lot No. 4.*—All that messuage or building erected for the purpose of a screw-house with the land attached thereto, containing, more or less, situate in Allahabad, and registered as No. 51 in the old Civil station, and bounded as follows: on the north by a tank; on the south by the River Jumna; on the east by the Government Hospital; and on the west by a portion of Kydgunge Bazar.

For further particulars and conditions of sale, apply to Mr. N. Paliologus, Solicitor, No. 2, Garstin's Place, Calcutta. (238—3)

###### THE SECOND SCHEDULE.

Enactments repealed.

*A Bill to regulate Distresses for Rents in the Presidency Towns.*

For the purpose of regulating distresses for rents in the Towns of Calcutta, Madras and Bombay ;  
Preamble.  
It is hereby enacted as follows :—

###### I. Preliminary.

1. This Act may be called "The Distress Act, 1874," and it shall come into force at once.

It extends to every place within the local limits of the ordinary original civil jurisdictions of the High Courts of Judicature at Fort William, Madras and Bombay ;

But nothing herein contained applies to any rent due to Government.

2. The enactments specified in the second schedule hereto annexed are repealed to the extent mentioned in the third column of the same schedule.

All appointments made and securities given under any of the said enactments shall be deemed to be respectively made and given under this Act.

The reference to Act No. VII of 1847 made in Act XXIII of 1850, section three, shall be read as if made to this Act.

3. In this Act, "Court of Small Causes" means the Court of Small Causes defined. Causes held under Act No. IX of 1850 in Calcutta, Madras or Bombay.

## II. Bailiffs and Appraisers.

4. The Judges of the Court of Small Causes may appoint four or more persons to be bailiffs and appraisers for the purpose of this Act, and may from time to time, with the previous sanction of the Local Government, fix such remuneration for the services of such officers as the said Judges think fit, and may suspend or remove them.

5. The persons so appointed shall give security to be approved by the said Judges faithfully to discharge the duties of their office, and they shall be deemed to be public servants within the meaning of the Indian Penal Code.

## III. Issue of Distress-Warrants.

6. Any person claiming to be entitled to arrears of rent of any house or premises to which this Act extends, or his duly constituted attorney, may apply to any Judge of the Court of Small Causes for such warrant as herein-after mentioned.

The application shall be supported by an affidavit to the effect of the form marked A in the first schedule hereto annexed.

7. The Judge may thereupon issue a warrant under his hand and seal to the effect of the form contained in the same schedule (marked B) addressed to any one of such bailiffs.

The Judge may at his discretion, upon personal examination of the person applying for such warrant, decline to issue the same.

## IV. Of the making of Distresses.

8. Every distress under this Act shall be made after sunrise and before sunset, and not at any other time.

9. The bailiff directed to make the distress may force open any stable, out-house, or other building, and may also enter any dwelling-house, the outer door of which may be open and may break open the door of any room in such dwelling-house for the purpose of seizing property liable to be seized under this Act.

Provided that he shall not enter or break open the door of any room appropriated for the zamindar or residence of women, which by the usage of the country, is considered private.

10. In pursuance of the warrant aforesaid the bailiff shall seize the moveable property found upon the premises mentioned in the warrant and belonging to the person from whom the rent is claimed (hereinafter called the debtor), or such part thereof as may in the bailiff's judgment be sufficient to cover the amount of the said rent, together with the costs of the said distress.

11. The bailiff may impound or otherwise secure the property so seized on the premises chargeable with the rent.

12. On seizing any property under section ten, the bailiff shall make an inventory of such property and shall give a notice in writing to the effect of the Form in the first schedule hereto annexed (marked C) to the debtor,

or to any other person upon his behalf upon the said premises.

The bailiff shall file in the Court of Small Causes copies of the said inventory and notice:

13. The debtor may, at any time within five days from such seizure, apply to any Judge of the said Court to discharge or suspend the warrant, and such Judge may discharge or suspend such warrant accordingly, and any of the said Judges may in his discretion give reasonable time to the debtor to pay the rent due from him.

Upon any such application the costs attending it and attending the issue and execution of the warrant shall be in the discretion of the Judge, and shall be paid as he directs.

## V. Appraisement and Sale of Distress.

14. In default of such application, any two of such bailiffs may at the expiration of five days from such seizure appraise the property so seized, and give notice in writing to the effect of the Form in the first schedule hereto annexed (marked D). The bailiff shall file in the said Court a copy of such notice.

15. The distrained property shall be sold on the day mentioned in such notice, and the said bailiffs shall on realizing the proceeds pay over the amount thereof to the Chief Clerk of the said Court, and such amount shall be applied first in payment of the costs of the said distress and then in satisfaction of the debt, and the surplus, if any, shall be returned to the debtor.

Provided that the debtor may direct that the sale shall take place in any other manner, first giving security for any extra costs thereby occasioned.

## VI. Miscellaneous.

16. No costs shall be taken or demanded or any distress under this Act except those mentioned in the part of the first schedule hereto annexed (marked E).

The Judges of the Court of Small Causes may apply the sum so raised as costs towards the payment of the contingent charges and remuneration of the said bailiffs as appears to the said Judges expedient.

17. The Chief Clerk of the Court of Small Causes shall keep a book in which all sums received as costs upon distresses made under this Act, and all sums paid as remuneration to the said bailiffs, and all contingent charges incurred in respect of such distresses shall be duly entered.

He shall also enter in the said book all sums realized by sale of the property distrained and paid over to landlords under the provisions of this Act.

18. No distress shall be levied for arrears of rent, except under the provisions of this Act;

and any person, except a bailiff appointed under section four, levying or attempting to levy any such distress shall, on conviction before a Magistrate of Police, be liable to be punished by fine not exceeding five hundred rupees and imprisonment for a term not exceeding three months in addition to any other liability he may have incurred by his proceedings.

## THE FIRST SCHEDULE.

[See section 6.]  
In the Court of Small Causes for  
A. B. (Plaintiff.)

C. D. (Defendant.)

A. B. of \_\_\_\_\_, in the town of \_\_\_\_\_ maketh oath  
and saith that C. D. \_\_\_\_\_, of \_\_\_\_\_, is justly indebted to  
in the sum of Rs. \_\_\_\_\_ for arrears of rent of the house and premises  
No. \_\_\_\_\_, situated at \_\_\_\_\_, in the town of \_\_\_\_\_, due for \_\_\_\_\_  
month, to wit from \_\_\_\_\_ to \_\_\_\_\_, at the rate of Rs. \_\_\_\_\_ per mensem.

Sworn before me the \_\_\_\_\_ day of \_\_\_\_\_ 187 \_\_\_\_\_.

Judge.

B.

[See section 7.]

In the Court of Small Causes for

## FORM OF WARRANT.

I hereby direct you to distrain the moveable property of C. D., on the house and premises  
situate at No. \_\_\_\_\_ in the Town of \_\_\_\_\_, for the sum of \_\_\_\_\_ Rs., and the costs of  
the distress according to the provisions of Act No. \_\_\_\_\_ of 1874, dated \_\_\_\_\_ day of \_\_\_\_\_

(Signed and sealed)

E. F., Bailiff and Appraiser.

## II.—ACTS.

Number and Year.	Subject.	Extent of repeal.
VII of 1847 ...	Distresses for small rents in Calcutta ...	The whole.
IX of 1850 ...	Extension of Act VII of 1847 ...	Section eighty-nine.
XXVI of 1864 ...	Extending jurisdiction of Presidency Small Cause Courts.	Section four.

## STATEMENT OF OBJECTS AND REASONS.

In Calcutta, Madras and Bombay distresses for arrears of rent not exceeding a thousand rupees are provided for by the Small Cause Courts Acts, VII of 1847, IX of 1850, section 89, and XXVI of 1864, section 4. But for the law regulating distresses for arrears exceeding that sum, we must look to the Common Law and to the series of antiquated Statutes on this subject, eleven in number, which, from the foundation of the Mayors' Courts in 1726, have been deemed in force in the Presidency Towns.

This is obviously inconvenient, and the primary object of the present Bill is to extend the present law as to distresses for arrears not exceeding a thousand rupees to arrears exceeding that sum, and thus to render it possible to repeal expressly the Statutes above referred to. It will be found that so much of the law as is now useful and in active operation has been embodied in the present Bill.

The opportunity has been taken to amend the arrangement and wording of the present law relating to distress for arrears not exceeding a thousand rupees and to define the powers of bailiffs to force open places.

A. HOBHOUSE.
